Staff Update on Chart of Accounts

DATE:

January 22, 2021

I. RECOMMENDATION

Receive a staff presentation and provide feedback on approach to updating the District's Chart of Accounts to facilitate internal and external financial reporting as well as improve internal controls and enhance transparency.

II. BACKGROUND

The District's current chart of accounts has evolved over time, and has been periodically updated through changes in the District's organizational structure, implementation of new financial systems as well as changes in the approach to financial reporting. Modifications have also been made over time in response to specific requests related to transparency and ease of understanding and interpreting the District's standard and ad hoc financial reports.

With the pending transition from Special Revenue back to Enterprise Fund accounting for our Community Services and Beach Funds, as well as the planned implementation of a new payroll, human resources and financial system (Tyler Munis), the District has the opportunity to evaluate its current chart of accounts to better support the budgeting, accounting and reporting of District operations, activities and capital projects.

Management anticipates updating the District's fund structure, Department and Division structure, program and activity codes as well as selected account codes over the next 3-18 months. The process of review and update of the Chart of Accounts will be informed by input from venue and program managers as well as from external stakeholders, with the goal of ensuring that the districts chart of accounts supports budgeting, accounting, program management and internal and external financial reporting needs and objectives.

This agenda item is intended to provide the Audit Committee with an overview of the District's existing Chart of Accounts, as well as initiated dialogue with the Committee specific to options for modifying the District's fund structure as we transition back to Enterprise Fund accounting for Community Services and Beach funds.
