## IVGID EFFLUENT PIPELINE - LEAK UPDATE

On February 8, 2022, the IVGID Effluent Pipeline experienced a leak causing damage to the roadway. This pipeline transports the treated sewage from Incline Village and Crystal Bay outside of the Lake Tahoe basin to the Carson Valley. Approximately 10,000 gallons of effluent water drained into a catch basin and snow. The District used a vacuum truck to remove all of the effluent remaining in the catch basin. No effluent flowed into Lake Tahoe.

IVGID is currently in the design process to remove and replace the remaining 5 miles of effluent export line that was installed in 1970. The leak occurred within the section of pipeline that is identified to be replaced. IVGID is working toward the reconstruction of the new pipeline to begin in summer 2023.

### **IVGID PUBLIC WORKS CLOSED TO THE PUBLIC**

**PLEASE CONTACT US  
M-F 8 AM TO 4:30 PM  
BY PHONE OR EMAIL**

### **HOUSEHOLD HAZARDOUS AND ELECTRONIC WASTE**

## UPCOMING EVENTS

### **STOKE MOUNTAIN TOURS @ DIAMOND PEAK**

**Saturday, Mar. 26, 10:30 - 11:30am**

Program participants will meet behind the Base Lodge (near the ski racks and large trail map sign) with a guide before touring the mountain to discuss the unique plant and animal life that flourishes within the ski area's boundaries, as well as the history of the resort, of Incline Village and the Lake Tahoe region as a whole. Learn about Diamond Peak's recent certification through STOKE Certified and continuing efforts to incorporate sustainable practices into operations and education.

Must be an intermediate skier or snowboarder and have a valid lift ticket or season pass to participate.
