

NOTICE OF MEETING

The Audit Committee Meeting of the Incline Village General Improvement District will be held starting at 3:00 PM on November 18, 2024 in the Boardroom at 893 Southwood Boulevard, Incline Village, Nevada.

Public comment is allowed and the public is welcome to make their public comment via telephone (the telephone number is (877) 853-5247 and the webinar ID will be posted to our website on the day of the meeting). The meeting will be available for viewing at <https://livestream.com/accounts/3411104>.

A. **ROLL CALL OF THE AUDIT COMMITTEE MEMBERS** *Chair Raymond Tulloch (Trustee), Vito Brandle (At-Large Member), and Sara Schmitz (Trustee). *Note that there are two vacant At-Large Member positions presently.*

B. **PUBLIC COMMENTS** - *Unless otherwise determined, the time limit shall be three minutes for each person wishing to make a public comment. Unless otherwise permitted by the Chair, no person shall be allowed to speak more than once on any single agenda item. Not to include comments on General Business items with scheduled public comment. The Audit Committee may address matters brought up during public comment at the conclusion of the comment period but may not deliberate on any non-agendized item.*

C. **APPROVAL OF AGENDA** *(for possible action)*

The Audit Committee may make a motion for a flexible agenda which is defined as taking items on the agenda out of order; combining agenda items with other agenda items; removing items from the agenda; moving agenda items to an agenda of another meeting, or voting on items in a block.

-OR-

The Audit Committee may make a motion to accept and follow the agenda as submitted/posted.

D. **GENERAL BUSINESS ITEMS** *(for possible action)*

1. **SUBJECT:** Report and Status update on Annual Audit
(Requesting Staff Member: Interim Director of Finance Susan Griffith, Jennifer Farr of Davis Farr)
2. **SUBJECT:** Corrective action plan for CLGF as presented to the Board of Trustees. (Requesting Committee Member Chair Tulloch)
3. **SUBJECT:** Review, and Discuss Revisions to Board Policy 8.1.0 - Capitalization of Fixed Assets. And provide recommendations to Board of Trustees (Requesting Committee Member ChairTulloch)
4. **SUBJECT:** Review the 2023 Accounting and Reporting Look Back Project documents and agree actions to progress and complete. (Requesting Committee Members: Chair Tulloch, and Trustee Schmitz)
5. **SUBJECT:** Update on Applications for at-large Audit Committee members and discuss next steps to recommend to Board of Trustees (Requesting Committee Members: Chair Tulloch, and Trustee Schmitz)

E. **LONG RANGE CALENDAR REVIEW**

F. **MEETING MINUTES** *(for possible action)*

1. **SUBJECT:** Approval of the Audit Committee Meeting Minutes for October 15, 2024. (Requesting

Incline Village General Improvement District

Incline Village General Improvement District is a fiscally responsible community partner which provides superior utility services and community oriented recreation programs and facilities with passion for the quality of life and our environment while investing in the Tahoe basin.

NOTICE OF MEETING

Agenda for the Audit Committee Meeting of November 18, 2024 - Page 2

Staff Member: District Clerk Heidi White)

- G. PUBLIC COMMENTS - Conducted in accordance with Nevada Revised Statutes Chapter 241.020 and limited to a maximum of three minutes in duration.
- H. ADJOURNMENT (for possible action)

CERTIFICATION OF POSTING OF THIS AGENDA

I hereby certify that on or before 9:00 AM on Wednesday, November 13, 2024, a copy of this agenda (Audit Committee Session of October 15, 2024) was delivered to the post office addressed to the people who have requested to receive copies of IVGID's agendas; copies were e-mailed to those people who have requested; and a copy was posted, physically or electronically, at the following locations in accordance with Assembly Bill 213:

1. IVGID Anne Vorderbruggen Building (893 Southwood Boulevard, Incline Village, Nevada; Administrative Offices)
2. IVGID's website (www.yourtahoeplace.com/ivgid/board-of-trustees/meetings-and-agendas)
3. State of Nevada public noticing website (<https://notice.nv.gov/>)
4. IVGID's Recreation Center (980 Incline Way, Incline Village, Nevada)

Persons may request copies of all agenda materials by contacting the District Clerk or by visiting the Administrative Offices at the address listed above.

/s/ Heidi H. White

Heidi H. White

District Clerk (e-mail: hwh@ivgid.org/phone # 775-832-1268)

Audit Committee: Vito Brandle (At-Large Member), Chair Raymond Tulloch (Trustee), and Sara Schmitz (Trustee), 2 Vacant (At-Large Members)

Notes: Items on the agenda may be taken out of order; combined with other items; removed from the agenda; moved to the agenda of another meeting; moved to or from the Consent Calendar section; or may be voted on in a block. Items with a specific time designation will not be heard prior to the stated time, but may be heard later. Those items followed by an asterisk (*) are items on the agenda upon which the Board of Trustees will take no action. Members of the public who are disabled and require special accommodations or assistance at the meeting are requested to call IVGID at 832-1100 at least 24 hours prior to the meeting. **IVGID'S agenda packets are available at IVGID's website, www.yourtahoeplace.com; go to "Board Meetings and Agendas".**

Summary of Previously Identified Matters

Matter #	Capitalization of Fixed Assets	Financial Reporting	Other	Potential Impact on Financial Statements	Material (Y/N)	Preliminary Audit Committee Observations
DRAFT V1 3/24/23						
AC Meeting Agenda Items						
o Meeting Date: 2/7/2023						
Item D.4. - Possible Follow-up action on Correspondence						
1			x			Management to provide list of specific compensating controls.
2						Assertion of "no internal controls over financial reporting" is not correct. Management responses dated 12/14/22 and 2/7/23 are adequate. No ACFR changes deemed necessary.
3						Slight overstatement of Note 18 is minor for restatement. Remaining observations are management process points and do not have a direct impact on external financial reporting.
4	C	x				Change in presentation suggested by Davis Farr. The 2022 (aggregated) Supplementary Information was subjected to audit procedures without exception. We found no evidence of intent to "manipulate consistency." What is the reporting standard which requires the detail disclosure in the audited Supplementary Information section of the ACFR? Comments relate BOT Presentation materials. No impact on ACFR. No further AC action required.
5	C		x			Unauthorized change in reporting from fiscal 2021 to 2022 for the Community Services venues (Dobler)
6	C					Comments are mostly judgmental and relate to a BOD presentation materials. No impact on ACFR. No further AC action required.
7	B					Reporting was revised per request of Auditor. Discuss with Auditor the basis for their requested change in presentation. Para 427 of GASB 34 seem to suggest some diversity in practice. The 2022 ACFR does present Internal Services Fund as a separate column, but then does include those balances in the Total Proprietary Fund balance. May need to assess materiality (both quantitative and qualitative to the reader) of the aggregated presentation.
8	0					Capital and Construction in Process were reviewed by the Independent Auditor as part of the financial audit for FYE 6/30/21; a number of items were expensed as a result of this review. Items remaining in capital or CIP were not expensed with concurrence from the auditor and such amounts were not material. Management to look back and better separate capitalizable from non-capitalizable costs. NBV at June 30, 2022 any amounts that should be considered for expensing is likely very minor.
9	0					Response for #9 (needs formatting) - question raised are primarily judgmental in nature. No detail is provided as to specific possible errors in capitalization. Management believes that most of these expenditures did increase the service capacity of the course and were properly capitalized. Moreover, NBV at June 30, 2022 of any disputed amounts may not be material for further evaluation.

Summary of Previously Identified Matters

Matter #	Capitalization of Fixed Assets	Financial Reporting	Other	Potential Impact on Financial Statements	Material (Y/N)	Preliminary Audit Committee Observations
DRAFT V1 3/24/23						
10	C				N	These matters were carefully reviewed and discussed between the AC in place at the time and management, particularly the notion of Restricted Funds. The AC approved the 2022 ACFR as revised and no further attention is warranted with respect to the topics raised in this matters memo.
11		X				
12	C			\$ 169,230		
13	C	X		\$105,433 (net)	N	Amount may not be material at June 30, 2022. Moreover, restatement of 2021 ACFR is moot given transition back to Enterprise Fund accounting for Community Services for Fiscal 2022.
14	C			Water - \$306,670 Sewer - \$238,563	Y	Capital and Construction in Process were reviewed by the District's Independent Auditor as part of the financial audit for FYE 6/30/21; a number of items were expensed, as a result of this review. Items remaining in capital or CIP were not expensed with concurrence from the auditors and are not material as of June 30, 2022.
15	C			\$ 174,332	N	See response to Matter #14 above. Moreover, management applied judgment as to the appropriate accounting for the reminding items not
16	C	X				Same Memo as D.5 from 4/13/22 Mtg. See Responses to AC dated 6/16/22 and BOT dated 6/29/22. Management has concluded, and Moss Adams and our auditor have not taken exception, that Facility Fees are non-exchange transaction and have been presented appropriately in prior ACFRs.
17	C	X		Undetermined	N	Amounts are minor do do not warrant further investigation.
18	C			Undetermined	N	No clear assertion as to any amounts in appropriately capitalized was noted in this matter. Assertion noted in this matter that an MW exists in this area is incorrect.
19	O			\$ 167,118	N	No specific misstatement was asserted in this matter. Several speculative amounts were noted, but inadequate evidence was provided to support any accounting corrections. NBV of the amounts is to be confirmed by management as minor at June 30, 2022. The assertion that "there is obviously no internal control over what costs should be charged what project" is not factually supported.
20	X	X		Undermined	Y	See Response to AC dated 6/16/22 and to BOT dated 6/29/22. Management is further investigating the matter and will report back to the AC during the last week of March 2023. Ongoing assessment will include a materiality evaluation of the NBV for any inappropriately capitalized items.

Additional Memorandums identified by Mr. Dobler:								
AC Meeting agenda items:								
o Meeting Date: 6/9/21								
21	E.4.a	Funding Public Parks from the General Fund (memo 4/4/21)			X			Memorandums "deferred to future meeting." This is a management item, not a financial reporting matter. In process for FY23/24, per Board direction 1/25/23, 2/22/23
22	E.4.b	Cash Position of Utility Fund (memo 5/9/21)		X				Acknowledged fund balance below Board reserve policy; no NRS violation re restricted funds. This is a management item, not a financial reporting matter.
23	E.4.d	Close-out of MOU with Incline Tahoe Foundation						See my notes
24	E.4.g	Review, discuss and recommend that 89 parcels acquired from Washoe County be updated (public purpose restriction, assets of CS fund) - memo 6/1/21			X			This appears to only be a financial reporting matter to the extent that any of these parcels were on the balance sheet in the ACFR, but that IVGID did not have proper title to the parcels. Legal to undertake review of this matter.
o Meeting Date: 11/19/20								
25	D.7.c	Air Pressure Release Valve		X				Amounts noted are minor for further evaluation. The new Capitalization Policy will provide clarity around the accounting for such items beginning in Fiscal 2023.
Correspondence from Mr. Cliff Dobler								
26		Date: June 30, 2020 - Effluent Pipeline Costs FY2019 and FY2020		X				Some of the amounts profiled in the matter may clearly qualify for capitalization (such as the IVGID engineering staff). Capital and Construction in Process were reviewed by the District's Independent Auditor as part of the financial audit for FYE 6/30/21; a majority of the items reviewed were expensed. At June 30, 2022, any remains amounts that were inappropriately capitalized is very likely not material for further evaluation.
27		Date: November 23, 2020 - Meters and Equipment Costs Charged to Effluent Pipeline		X				#27 - Author of this memo to explain concern to the AC on March 27, 2023. Amounts noted appear to be immaterial for further evaluation.
28		Date: February 14, 2022 - Rebuttal to February 9, 2022 statements made by Paul Navaio, Director of Finance regarding accounting and reporting operating expenses in Capital Project Funds						Possible misclassification of certain expenses. Management to further evaluate these facts and circumstances and report back to the AC in late March 2023 for its further consideration and possible action.

To: IVGID Board of Trustees, Acting GM Mike Bandelin, Acting DoF Bobby Magee, Vito Brandle (At-Large Audit Committee Member) & Cliff Dobler (Attachment only)

From: Chris Nolet – IVGID Audit Committee Chair & CPA (Retired)

Subject: Project to Review Outstanding Accounting and Financial Reporting Matters. Follow-Up from Audit Committee Meeting of February 7, 2023. (Refer to Memo from Paul Navazio dated March 30, 2023, included in the Project Binder).

Date: January 23, 2024

Background

The Audit Committee (“AC”) that was in place at the time and reviewed the audited CAFR for the year ended June 30, 2021, did **NOT** approve the CAFR for filing with the State of Nevada, as they could not satisfy themselves that the financial statements and related footnotes therein were presented fairly, in all material respects. The IVGID Board of Trustees at the time overrode the AC and approved the CAFR, which was subsequently filed with the State of Nevada. It should also be noted that the 2020 and 2021 CAFR, and the 2022 ACFR, were all restated for material prior year(s) errors.

As noted in Paul Navazio’s (“Navazio”) memo (referred to above), and the almost 30 supporting memos, there were several unresolved matters that were not adequately addressed by District Staff in the 2020 and 2021 CAFR, nor in the 2022 ACFR. Further, other concerns were raised by community members that possibly impacted the 2020 and 2021 CAFR, as well as the 2022 ACFR. The AC noted in its final report on Fiscal 2021 that four material weaknesses in internal controls over financial reporting were identified for that year, but no major remediation steps were known to have been taken by Staff during Fiscal 2022 or Fiscal 2023, nor were any apparent material scope modifications made during the course of the Fiscal 2022 audit to compensate for the MWs. The District’s independent auditor also noted three Significant Deficiencies in connection with the Fiscal 2022 audit, but it is not clear how those observations are being dealt with during the 2023 ACFR audit.

Considering the problems noted above, I proposed to the Board and Trustees and the Director of Finance (“DoF”) in March of 2023 that a comprehensive “look back” project be undertaken to investigate and resolve (in whatever ways appropriate) **ALL** of the open matters before the Fiscal 2023 audit of the ACFR was completed. The project was approved, and I assembled a team of Navazio, Cliff Dobler (the source of most of the assertions of incomplete/incorrect accounting or reporting), Mick Homan (At-Large AC Member) and me.

We met several times as a working group from mid-March through early June. The project was “paused” as the extended BoT golf analysis and Fiscal ‘23/’24 budgeting process

consumed the DoF's time for the whole of June. While we had made very good progress in closing out a majority of the matters (19 of 28), we all agreed that Staff would do more work to better understand the possible impact of the remaining open items on various fiscal years financial statements. Upon Paul Navazio's sudden resignation, he committed to finish this work, as evidenced in an email from him dated June 17 (copy attached). However, to the best of my knowledge and that of District Staff, he did not do so.

This Project has sat largely untouched since June 2023. While it has been discussed at several AC meetings, and with District Staff, no work has been done for many reasons, the most likely of which is the massive Staff/Contractor effort being required to remediate the incomplete bank reconciliations, other supporting ledgers, and the unaudited interim financial statements for the twelve months of Fiscal 2023, none of which according to Staff were closed properly, notwithstanding having the majority of those months (11) posted on the IVGID website.

Recommendation

I have been told that the District does not currently have the resources to look for the remaining necessary records supporting completion this Project, which Navazio represented he had left in good order upon his departure. That said, I believe that the most complete set of Project records was maintained by me, rather than by Dobler or Homan. I have transferred to the Acting DoF **ALL** my records related to this project. The hard copy files are hand marked with various notes taken during the meetings between March and June 2023. I believe that the District has clean, soft copies of all these files, some of which are likely more updated than the versions in the Project Binder.

I believe the matters raised in this Project, and several related questions posed to the District by Dobler later in 2023, should be studied and resolved. Without this work being completed, and 1) recognizing that the AC did not approve the 2021 CAFR, 2) that it is not clear how the 2022 or 2023 Independent financial statement audits were tailored to compensate for the 4 MWs and 3 SDs, and 3) any remaining open matters identified by Moss Adams for these periods, I personally can't speak to the fair presentation (or not) of the audited Fiscal 2020 or 2021 CAFR, or the audited Fiscal 2022 ACFR.

Below I have listed the matters (numbered in the left-hand column) in the "Summary of Previously Identified Matters" (included in the blue Project Binder with a supporting memo for each matter, all of which I provided to IVGID during the last week of January '24), that were open as of Navazio's departure date:

7, 8, 9, 11, 15, 19, 24, 25 and 28.

A "C" designation in the Summary of Previously Identified Matters indicates that the Project team was reasonably confident that no further work was required to understand the matter. That said, certain of the remaining "C" matters (that is closed) may yet require

some adjustment to current or prior year financial statement, as noted therein. TBD by Staff. The “O” matters (that is Open) were discussed by the Project team, but it was determined that Staff needed to undertake more work to fully understand the concern and propose a resolution of the matter.

I also strongly suggest that the District consider certain other items noted in the following Supplemental Materials:

“Summary of Costs Capitalized Which Should Have Been Expensed” hand dated 3/28/23. (See Folder 1). There may be (TBD) some duplicates with matters noted therein and the Summary of Previously Identified Matters described above. Source – Dobler

A folder I received late in 2023, and a related memo from Josh Nelson, with respect to concerns over certain District grant activity. (See Folder 2). To my knowledge no work has been undertaken concerning this information. Source – Dobler

When the District decides to address the matters discussed in this memo, I will commit to a meeting not to exceed 4 hours (no later than May 31) in order to provide as much insight and guidance to help resolve these matters as is possible.

Lastly, while not relating to any historical financial statements, a matter raised at several Audit Committee and BoT meetings early in Fiscal '23 relates to the Fiscal '23/'24 Budget. On Form 4404LGF, page 10, as submitted to the State of Nevada during the first week of June '23, revenues for the Proprietary Fund are overstated by approximately **55%, or \$22,760,852**. This error has been corroborated by Ray Tulloch, Mick Homan, Paul Navazio, Bobby Magee and me. This same type of error was also reflected in an earlier version of the Budget approved by the BoT on May 25, 2023. However, in that Budget the error was approximately \$50,889,877, as at that time the entire multi-year proceeds from the State loan were included. The largest portion of the error reflects reporting debt proceeds from the State of Nevada related to the Effluent Pipeline as “Other Non-Operating Revenues.” Debt proceeds, which must be repaid, generally are not reported as Revenues in the historical financial statements, or in the budget, which is prepared on the same basis as the annual financial statements (per the footnotes to the ACFR). The remaining balance of the error relates to monies from an ACE grant that will not be recognized as Revenue in Fiscal '23/'24, but rather in the latter years of the project. These two matters should be validated with our independent auditor as they will affect the Fiscal '24 ACFR.

To: Chris Nolet <nolet_audit@ivgid.org>;

Cc: Mick Homan <homan_audit@ivgid.org>; Indra Winqest <ISW@ivgid.org>;

Chris - I have not forgotten about the write-up to help bring the "open matters" project to closure (at least the first batch).

I still have a few items to complete, but I am also now needing to prioritize two agenda reports requested by the Board for the meeting of 6/28.

I have reached out to both DavisFarr (re reporting format issue) and Josh Nelson (re parcels acquired from Washoe County) and am awaiting some information to include in my write-up.

I will keep you posted...

Thanks,

Paul Navazio

Capital Project Costs - 2015 to 2021 which is recommended for charge off based on review

2 messages

cfdobler@aol.com <cfdobler@aol.com>

To: Chris Nolet <cnolet99@gmail.com>

Cc: Sara Schmitz <trustee_schmitz@ivgid.org>, Matthew Dent <dent_trustee@ivgid.org>, Tulloch Ray <tulloch_trustee@ivgid.org>

Mon, Jun 12, 2023 at 10:05 AM

I completed the attached worksheet of capital project charges offs which have not been done.

This is quite extensive. As such, I broke it down into 8 exhibits.

The amount is \$10,761,774 and does not include the previous memos sent to the Audit Committee.

The amount is also before any accumulated depreciation taken on the projects

The depreciated life is important. For example, the 13 repairs on the pipeline and the air pressure relief valves were depreciated over 40 years and according to Granite the items will be abandoned in 2024 and 2025.

This was quite an effort and I hope you appreciate it.

Cliff

Thanks Cliff. I will begin to drill into this tomorrow. Best

[Quoted text hidden]

June 12, 2023

To: Chris Nolet

From: Cliff Dobler

I have prepared a summary of costs capitalized which, I believe, should have been expensed for the periods from 2015 to 2022. Based on my analysis, there is potentially an additional \$10,761,774 in costs prior to adjustments for accumulated depreciation for charge off.

Based on the Moss Adams report and a Board agreed look back of five years IVGID staff was engaged to determine charge offs. Instead IVGID staff only selected certain costs but did not do a comprehensive review.

History of Charge Offs

Beginning in 2019, \$807,552 in prior period adjustments consisting of two venue concept studies and paving repairs and painting (Exhibit B). This data was taken from the General Ledger and had costs which were prior to 2019.

In 2020, a large charge off of \$3,100,110 for the effluent pipeline and a \$100,895 charge off from the General Fund were made. Both were reported as a prior period adjustment. It is unknown what the items were in the General Fund

In 2021, \$700,538 in capital costs from prior years were charged off, however, were reported buried in operating expenses rather than treated as a prior period adjustment

In 2022, \$2,750,212 in current year capital costs were charged off as operating expenses.

Collection of Data for additional Charge offs.

Over the past 7 years from 2015 to 2021, I kept a running total by year of all capital costs. The amounts were drawn from the annual CIP reports produced by the IVGID. Capital Costs and potential charge offs are listed in each of following funds.

- Exhibit A - Summary of Costs Capitalized which should have been expensed 2015 to 2021
- Exhibit B - Charge offs in 2019 for paving and painting
- Exhibit C - General Fund
- Exhibit D- Utility Fund
- Exhibit E - Golf Courses
- Exhibit F - Diamond Peak
- Exhibit G - Facilities, Parks, Tennis, Recreation Center and Administration
- Exhibit H - Beaches

Decisions used on recommending potential charge offs

- Historical Charge offs by staff
- Prior memos to Audit Committee
- Knowledge of costs

I attempted and believe succeeded in the removal of line items that have been presented to the Audit Committee in various memos I have previous sent.

This has been quite a challenge as prior charge offs were not done on a consistent basis. As such, several sources had been utilized such as the General Ledger, the unaudited annual CIP reports and the audited CIP reports. In addition, in 2021 several prior period costs were charged off to operation rather than using prior period adjustment.

All in All , the extent of the proposed charge offs is well displayed and discussions can ensue on finishing this project.

MEMORANDUM

TO: Audit Committee

THROUGH: Matthew Dent

FROM: Clifford F. Dobler

SUBJECT: Judicial review on the propriety of an agreement between Diamond Peak Ski Education Foundation, a nonprofit organization, and Incline Village General Improvement District wherein IVGID provides various "in kind" support (donations) for a ski team and ski racing team. The agreement appears not to comply with Dillon's Rule relating to the specific expressed power provided under NRS Chapter 318.

STRATEGIC

PLAN REFERENCE(S): None

DATE: 12-02-2020

I. RECOMMENDATION

That the Audit Committee makes a motion recommending to the IVGID Board of Trustees to proceed immediately with submitting a petition to be filed with the District Court in Washoe County to obtain a judicial examination and determination of the validity of the power of IVGID to engage in a contract providing several "in kind" support or donations to a local nonprofit organization for a ski team and ski race team. The judicial examination and determination remedy is contained in NRS 43.100 would allow a determination of whether the powers exercised by IVGID are allowed under requirements of Dillon's Rule.

The agreement appears not to comply with Dillon's Rule relating to the specific expressed power provided under NRS Chapter 318.

STRATEGIC

PLAN REFERENCE(S): None

DATE: 12-02-2020

I. RECOMMENDATION

That the Audit Committee makes a motion recommending to the IVGID Board of Trustees to proceed immediately with submitting a petition to be filed with the District Court in Washoe County to obtain a judicial examination and determination of the validity of the power of IVGID to engage in a contract providing several "in kind" support or donations to a local nonprofit organization for a ski team and ski race team. The judicial examination and determination remedy is contained in NRS 43.100 would allow a determination of whether the powers exercised by IVGID are allowed under requirements of Dillon's Rule.

Foundation to provide a ski team and ski race programs on behalf of IVGID. In exchange for providing such programs, Diamond Peak Ski Education Foundation receives an array of benefits from IVGID which are listed in Section IV below.

Based on NO expressed power given to IVGID to provide a ski team and ski race program under NRS Chapter 318, IVGID would not have the power to enter into an agreement providing ski programs under the control of a nonprofit organization. Such power could only be drawn from NRS 318.210 - Implied Powers of necessity or incidental or implied from the explicit powers (basic powers) granted in NRS Chapter 318. Since basic powers only address facilities, it would be hard pressed to assume ski programs would fall within the basic powers contemplated by NRS 318. Certainly ski team or racing team programs would not be a necessity. Incidental as defined in dictionaries would be: "*happening or likely to happen in an unplanned or subordinate conjunction with something else.*" Would an elaborate agreement for ski teams and racing team programs be considered unplanned and be able to fall within the purview of basic powers?

The singular statement of providing services found in NRS 318.100 relate to the basic powers of the board to acquire, construct or service improvements. Subparagraph (2) states: ***The district may also furnish services pertaining to any such basic power which the district may exercise.*** One of the basic powers, defined in NRS 318.116, granted IVGID was to furnish recreational facilities. A reasonable interpretation would be that servicing pertaining to a basic power would require internal staffing, utilities and supplies to make the facilities available for use. For example, a swimming pool would require life guards.

Conclusion. The audit committee should not recommend to the Board of Trustees to rely on the validity of an opinion from IVGID legal counsel alone when a remedy for clarification is provided in NRS 43.100.

III. BACKGROUND

In April and May, 2020, two residents of Incline Village requested the Audit Committee to seek legal counsel to investigate whether IVGID has the authority to make certain questioned expenditures which could be in direct violation of Dillon's Rule requiring expressed powers from the State of Nevada to make the questioned expenditures.

On June 30, 2020, Josh Nelson, IVGID's legal counsel, provided a presentation on his review and conclusions of IVGID's compliance with Dillon's Rule relating to the questioned expenditures brought forth by citizens. In general, Mr. Nelson found that the IVGID had proper authority under Dillon's Rule, however, suggested that certain Board Policies be adopted to allow certain expenditures. Audit Committee member, Schmitz asked Mr. Nelson to identify the policies that needed to be drafted or if there were adequate policies in existence that needed to be reviewed and Ms. Schmitz concluded the policy review might be a good next step.

On September 2, 2020 Mr. Nelson's June presentation was again reviewed by the Audit Committee. According to meeting minutes the Audit Committee purported to request that Mr. Nelson provide a written opinion on his conclusions regarding the questioned expenditures and the opinion could then be posted on the District's website. Mr. Nelson requested that he provide his written opinion to the Audit Committee prior to the Audit Committee requesting an opinion from the Nevada Attorney General.

At large member Mr. Aaron asked Mr. Nelson if the list of staff expenditures was all inclusive and Mr. Nelson indicated it was limited to the 8 items listed in the citizens April and May correspondence .

On September 30, 2020 the agenda called for Mr. Nelson to present his written opinion which was not on Nelson's legal firm's letterhead. At

large AC member Mr. Tullock requested the opinion be on Nelson's firm letterhead. The agenda item was postponed.

On November 10, 2020, Mr. Nelson's written opinion was reviewed by the Audit Committee and a request was made for Mr. Nelson to provide the content on each and every NRS Statute and Board Policy and Practice stated in his opinion. The agenda item was limited to only acknowledging receipt of Mr. Nelson's written opinion

IV - SUMMARY OF DIAMOND PEAK SKI RACE TEAM AGREEMENT AND ESTIMATED "IN KIND" SUPPORT FROM IVGID

The agreement dated January 30, 2018 provide various requirements to be fulfilled by each party and is for a period of five years. In essence, Diamond Peak Ski Education Foundation controls all aspects of the ski team and ski race team. The agreement requires that the Foundation not to compete with the Diamond Peak Ski Resort (IVGID) programs. Outside of the agreement, the Foundation collects and keeps all race program tuition, race fees, money from fund raising and donations from outside sources. All liabilities, insurance and an indemnity are the responsibility of the Foundation.

On the other hand IVGID provides the following items:

- Portion of the Ski mountain for 8 events (annually)
- Portion of the Ski mountain for ski race training
- 40 photo ID season ski passes for coaches
- Provide up to 30 race day ski comp tickets
- Provide up to 8 race day ski comp tickets for visiting coaches
- Provide office space and a locker room for race staff
- Provide Foundation members who are not IVGID Picture Pass Holders a season pass priced at the Picture Pass Holder rate plus \$10

- Provide discounted daily lift tickets to race participants and to parents of youth races. The total amount collected will be split 50%-50% between IVGID and the Foundation
- Provide the Base Lodge for team functions which are outside of normal operating hours
- Provide the "Fireplace Room" in base lodge for lunches, training breaks, meetings, athlete video analysis, ect.
- Provide 40 non-transferrable 50% off food passes for coaches
- Provide 2 reserved parking spaces in upper level parking
- Provide 6 offsite parking spaces for race team transport vehicles and equipment trailers.
- Hidden subsidies include "Early Load" training sessions of 1 to 2 hours in advance of opening to the General Public
- IVGID has NO right to cancel for convenience or any cause other than default by the Foundation for the full five year term.

In summary, the estimated costs of items provided by IVGID could be as high as \$100,000 per year.

The benefits to the General Public are limited as the tuition collected by the Foundation is substantial and not shared with IVGID. The use of the mountain and facilities limits access to all citizens. Preferences, such as, front of the lift line, are given to the ski team and race team. Most races are conducted on busy weekends creating less access to the entire mountain and inconveniences for the General Public.

V. OPINION OF IVGID LEGAL COUNSEL

In the November 10, 2020 written opinion by IVGID's Legal Counsel, the "in kind" support (donations) provided by IVGID to the Diamond Peak Ski Education Foundation is in exchange for the foundation providing management of a ski team and ski race programs for IVGID .
As stated: Functionally this would be the same as hiring a contractor to provide a recreational program.

The opinion cites NRS 318.143 and NRS 318.100 as the IVGID power to enter into an agreement for providing a recreational program. The citations would seem nebulous, at best, as both statutes relate only to acquisition, construction or servicing of improvements and a list of the various recreational facilities which the board may acquire, construct, reconstruct, improve, extend and better lands, works, systems and facilities for recreation. Neither NRS definitions cites any reference to providing personalized services for a ski team and ski race programs.

VI. BID RESULTS

Not required

VII. FINANCIAL IMPACT AND BUDGET

Not known at this time

VIII. ALTERNATIVES

Forward the legal opinion to IVGID's Board of Trustees without any recommendation from the Audit Committee

IX. COMMENTS

IVGID's legal counsel is not an independent party. Legal opinions by previous IVGID legal counsel have proven to be incorrect and unfortunately wasted considerable resources when subsequent opinions by outside legal firms provided opinions which were not the past experiences

X. BUSINESS IMPACT

Could be considerable which requires an investigation to determine estimated annual costs.

MEMORANDUM

TO: Audit Committee

FROM: Josh Nelson
Interim General Counsel

REVIEWED BY: Indra S. Winqwest
General Manager

SUBJECT: Legal Opinion for Community Correspondence
Regarding Dillon's Rule

DATE: November 19, 2020

Enclosed please find a re-formatted version of the legal opinion presented to the Audit Committee at its September 30th meeting. As requested, this opinion has been placed on my firm's letterhead. Please note that the memorandum includes some minor clean-up edits. Most notably and due to comments from a member of the community, the memorandum includes a citation to NRS 268.001. This has been added to clarify that this section does not modify my opinion.

BEST BEST & KRIEGER
ATTORNEYS AT LAW

Memorandum

To: Audit Committee, Incline Village General Improvement District
From: Josh Nelson, Best Best & Krieger LLP
Date: November 10, 2020
Re: Legal Opinion for Community Correspondence Regarding Dillon's Rule

I. OVERVIEW

This memorandum provides a follow up to the presentations provided to the Audit Committee at its June 30, 2020 and September 1, 2020 meetings regarding Dillon's Rule and its application to IVGID. Specifically, this memorandum summarizes the issues discussed during the presentations and provides follow up regarding some of the specific subject areas that members of the public had questioned (*i.e.*, employee benefits and non-profit/community partnerships) in prior correspondence.

As explained below, NRS 318 provides authority to IVGID in three ways: (1) express substantive powers, (2) administrative powers, and (3) necessary and incidental powers. These powers clearly include the ability to provide recreational facilities and related services and programming. They also include the ability to provide various employee expense reimbursement and retention/recognition programs. Lastly, these powers include the ability to provide non-profit/community partnerships and support in furtherance of recreation or other express power.

II. GENERAL RULE

A. Overview of Local Authority

As a number of community members have noted, IVGID and other local governments may only act as permitted by statute. (See *State v. Swift*, 11 Nev. 128, 140 (1876) ["Hence, a municipal corporation, in this state, is but the creature of the legislature, and derives all its powers, rights and franchises from legislative enactment or statutory implication."]; see generally *State ex rel. Harvey v. Second Judicial Dist. Court*, 117 Nev. 754, 773 (2001).) This is commonly known as "Dillon's Rule."¹ (See NRS 268.001

¹ This memorandum uses this term given its use in the community. However, Dillon's Rule may be more accurately applied to general purpose local governments like counties or cities. Special districts like IVGID are inherently limited to providing those services and otherwise acting as permitted by statute. (See NRS 318.116.) However, NRS 266.001 clarifies that Dillon's Rule applies to "other local governments," which would include GIDs.

BEST BEST & KRIEGER
ATTORNEYS AT LAW

[defining Dillon’s Rule].) While the Legislature has provided greater “home rule” authority to cities and counties, it has not done so for general improvement districts.

The courts have provided guidelines to help determine if a local government has the authority to act and where it may lack the ability to do so. For example, general principles of statutory interpretation apply. As such, “[i]t is well settled in Nevada that words in a statute should be given their plain meaning unless this violates the spirit of the act.” (*McKay v. Bd. of Supervisors*, 102 Nev. 644, 648, (1986). [citations omitted].) “Where the language of a statute is plain and unambiguous ... there is no room for construction, and the courts are not permitted to search for its meaning beyond the statute itself.” (*Charlie Brown Constr. Co. v. Boulder City*, 106 Nev. 497, 503 (1990), *overruled on other grounds by Calloway v. City of Reno*, 116 Nev. 250, 993 P.2d 1259 (2000) [internal citations omitted].) Lastly, “where a statute is susceptible to more than one interpretation it should be construed in line with what reason and public policy would indicate the legislature intended.” (*State, Dep’t of Mtr. Vehicles v. Lovett*, 110 Nev. 473, 477 [internal citations omitted].)

In addition, authorized powers must be interpreted consistently with other state law. If local action is expressly preempted by the state, the local government cannot act. (See *Lamb v. Mirin*, 90 Nev. 329 (1974).) Similarly, if the Legislature regulates an area, local action may not be permitted, even if it is not directly in conflict. (See *Falcke v. Douglas County*, 116 Nev. 583 (2000) [Legislature’s adoption of supermajority voting requirements in some areas prohibits locally adopted supermajority voting requirements in other areas].) The express authority to provide some types of services indicates an intent not to allow the agency to provide other types of services that are not listed. (2013 Nev. Op. Atty. Gen. No. 07, *6)

Despite this, general grants of authority are interpreted broadly. In *Flores v. Las Vegas-Clark County Library District* (2018) 134 Nev. 827, 833, the Nevada Supreme Court held that the general authority for a library district to “[d]o all acts necessary for the orderly and efficient management and control of the library, see NRS 379.025(2)(f), and [e]stablish[ing] bylaws and regulations for the management of the library, see NRS 379.025(1)(h).” included the ability to ban firearms at libraries. This was true even though the Legislature expressly preempted towns, cities, and counties from regulating firearms. As library districts were not included within the express ban on local regulation, their general authority to operate libraries included the ability to ban firearms. Importantly, the Supreme Court recognized that other local governments had similar authority, including GIDs.

B. Powers Granted to IVGID in NRS 318

BEST BEST & KRIEGER
ATTORNEYS AT LAW

IVGID's powers are generally set forth in NRS 318. (See generally Leg. Counsel Bureau, Background Paper 83-4, General Improvement Districts.) NRS 318 identifies three different types of powers that GIDs possess: (1) express substantive powers, (2) administrative powers, and (3) necessary and incidental powers.

For the first, NRS 318.116 identifies a number of services that GIDs may provide. Not all GIDs may provide all services identified in this section. Rather, GIDs must be authorized to provide each type of service. Under these rules, IVGID has been authorized to provide water, sewer, solid waste, and recreational services. Importantly, while NRS 318.116 generally refers to "furnishing" facilities, other portions of NRS 318 clarify that this includes operating these facilities and providing related services. (NRS 318.100(2) ["The district may also furnish services pertaining to any such basic power which the district may exercise."]; NRS 318.145 [operation of facilities].)

For the second, NRS 318 identifies administrative powers that GIDs may utilize when conducting business. For the third, NRS 318.210 recognizes that NRS 318 cannot exhaustively state all things that a GID may need to do and it grants GIDs all necessary and implied powers required to exercise their express powers. Specifically, it states that GIDs "...shall have and exercise all rights and powers necessary or incidental to or implied from the specific powers granted in [NRS 318]. Such specific powers shall not be considered as a limitation upon any power necessary or appropriate to carry out the purposes and intent of this chapter." Similarly, NRS 318.205 empowers GIDs to adopt bylaws "[f]or carrying on the business, objects and affairs of the board and of the district [and] [r]egulating the use or right of use of any project or improvement." In this regard, it is important to note other portions of NRS 318 which evidence a legislative intent to grant broad powers to GIDs. (NRS 318.015(1) ["For the accomplishment of these purposes the provisions of this chapter shall be broadly construed."]; 318.040 ["This chapter being necessary to secure the public health, safety, convenience and welfare, it shall be liberally construed to effect its purposes."].)

Based on the above, any question regarding whether IVGID has the ability to do something requires first asking which express power it falls under (either substantive or administrative). If the action does not fit squarely within an express power, one must ask whether it is "close enough" to an express power to fall under IVGID's incidental powers. As an example, IVGID could not operate a police department as NRS 318 does not authorize GIDs to operate public safety departments. In addition, this is so far removed from any express power in NRS 318 to qualify as an incidental power. (See 2013 Nev. Op. Atty. Gen. No. 07, *6.) By contrast, suppose the question was whether IVGID could install a security camera at its water facilities to deter vandalism. In this case, while "installing a security camera" is not specifically identified in NRS 318, it is part of the

BEST BEST & KRIEGER
ATTORNEYS AT LAW

water system and would be permissible (either as part of the express authority to provide water service or incidental to this express power). (NRS 318.144, 318.205, 318.210; *Las Vegas-Clark County Library District*, 134 Nev. at 833.)

III. EMPLOYEE BENEFITS AND COMMUNITY PARTNERSHIPS

When this matter was referred to our office for consideration, a list of eight specific questions were included. These questions identified a number of different situations for evaluation. These situations generally split into two categories: (1) employee benefit-related expenditures and (2) community/non-profit partnerships.

Applying the discussion above to these categories, one must first determine if they fall within an express power and if not, determine if they are permitted through IVGID's incidental powers. For employee benefit-related expenditures, IVGID's administrative powers grant broad authority to hire and compensate employees and contractors. (NRS 318.180, 185.) The power to compensate necessarily includes the ability to reimburse an employee for business expenses or operate an employee recognition program. Even if one argued that this was not within the express powers in NRS 318.180 and 318.185, it would be an incidental power or otherwise part of the general grant of authority to compensate employees. (See *Las Vegas-Clark County Library District*, 134 Nev. at 833.) Of course, all employee recognition and retention programs should be reasonable (as determined by the Board and General Manager) to ensure they serve a public purpose and are not substitutes for basic salary and other traditional compensation.

For community/non-profit partnerships, the NRS does not include an express power to make general *in kind* or monetary donations to non-profits or community groups.² In this respect, it is important to distinguish IVGID from cities and counties. These entities do have express authority to make these donations. (See NRS 244.1505, 268.028.³) Based on this, IVGID must look to its other powers for this authority.

Importantly, not all monetary or *in kind* support provided to local non-profits and community groups qualifies as a "donation." For example, IVGID contracts with the Diamond Peak Ski Education Foundation to provide ski team and ski race programs. This contract includes having IVGID provide ski passes and tickets to coaches and participants. These passes and tickets are not "donations" but consideration provided to the Foundation in exchange for it providing recreational services. Functionally, this would be the same as

² One exception to this general rule is NRS 332.185. This authorizes all local governments to donate unneeded personal property to other local agencies or non-profits.

³ This legislative authority is cited in the Attorney General Opinion included in the community correspondence. (See 2005 Nev. Op. Atty. Gen. No. 01 *overruled by* 2005 Nev. Op. Atty. Gen. No. 07.)

BEST BEST & KRIEGER
ATTORNEYS AT LAW

hiring a contractor to provide a recreational program. (See NRS 318.143, 318.100.) Similarly, IVGID may lease office space to a non-profit at below market rent. This is likely permitted under NRS 318.160 which grants broad authority to lease property. Lastly, IVGID provides qualifying non-profits with venue space at no cost or reduced rates under Policy and Procedure Resolution No. 132/Resolution No. 1701. While this is permissible even if considered a “donation” as explained below, it also likely falls under the Board’s ability to charge fees and rates for the use of IVGID facilities. (NRS 318.197.)

That being said, any actual donations are most likely permitted under IVGID’s implied or incidental powers provided that they are in furtherance of some express IVGID power.⁴ To that end, the Board of Trustees has adopted policies to this effect. In addition to Policy and Procedure Resolution No. 132/Resolution No. 1701, the Board adopted Policy and Procedure Resolution No. 110/Resolution No. 1493 which authorizes IVGID staff, with advance notice to the Board of Trustees, to make reasonable (*i.e.*, generally less than \$1,000) monetary expenditures to support community groups provided that the support is “...related to a purpose authorized by NRS Chapter 318, and delegated to IVGID thereunder.” Importantly, this must be in furtherance of some express power. General grants of funds are most likely impermissible absent express statutory authority. (See 2000 Nev. Op. Atty. Gen. No. 10.)

⁴ While not directly related to Dillon’s Rule, donations are permitted by the Nevada Constitution and general laws. (Nev. Const., art. 8, §§ 9-10; see also 2013 Nev. Op. Atty. Gen. No. 07.)

BEST BEST & KRIEGER
ATTORNEYS AT LAW

Issue	Authorization	Discussion
Providing stale recreational merchandise to local charities.	NRS 318.143, 318.160, 318.205, 318.210	<p>-Based on our investigations, this has occasionally occurred when recreational staff has donated stale, unsold recreational merchandise to non-profits for fundraisers.</p> <p>-This would most likely be authorized as incidental to operating recreational programs as this stale merchandise has nominal market value. However, if viewed as a "donation," this would fall under the Board's authority to dispose of unused, unsold IVGID property.</p> <p>-However, there is not an explicit Board policy on this, and the Board of Trustees may wish to provide guidance.</p>
Providing below market rate rent to non-profit tenants.	NRS 318.160, 318.205, 318.210	<p>-This is permissible under IVGID's power to lease property.</p> <p>-Even if considered a "donation," it would be authorized as incidental to this express power.</p> <p>-Moreover, the lease at issue was approved by Board action.</p>
Providing venue cards to employees.	NRS 318.180, 318.185, 318.210	<p>-This is permissible and a common way to show appreciation for employees.</p> <p>-It is set forth in Personnel Policies 6.10, and this benefit is expressly "subject to change by the Board of Trustees and may be revoked if the privilege is abused by an employee and/or their qualified dependents."</p>
Sending employees on business trips and reimbursing business expenses, providing per	NRS 318.180, 318.185, 318.210	<p>-Employees commonly receive reimbursements for expenses associated with business travel. Reimbursements may be based on actual expenses or a per diem. IVGID's current policy complies with the requirements. (See Personnel Policies 7.) This policy requires receipts for actual reimbursement and an expense report for all travel cases. Employees must receive prior authorization for overnight travel from their supervisor.</p>

BEST BEST & KRIEGER
ATTORNEYS AT LAW

diem reimbursement.		
Employee celebration expenses, including the use of purchase cards.	NRS 318.180, 318.185, 318.210	-Similar to rewards, this is a common way to show appreciation for employees. Celebration expenses should be reasonable cost (<i>i.e.</i> , pizza parties). -IVGID has adopted a policy regarding the use of procurement cards. (See Personnel Policies 8.) This policy does not expressly discuss employee celebration expenses. However, “[a]ll purchases made with a District Procurement Card must be for the use and benefit of the District. No personal purchases are allowed.” In addition, the Board of Trustees assigns funds each year for this purpose. The Board of Trustees could adopt a specific policy if it wished.
Employee birthday parties and related gift certificates.	NRS 318.180, 318.185, 318.210	-Similar to rewards, this is a common way to show appreciation for employees. Celebration expenses should be reasonable (<i>i.e.</i> , a nominal gift card for coffee). -In discussions with staff, the bulk of employee celebrations are funded by participating employees. Any IVGID funds are drawn from the funds assigned by the Board for employee recognition. Similar to the above, the Board of Trustees could adopt a specific policy if it wished.
Contractor meals while meeting with staff	NRS 318.180, 318.185, 318.210	-This is not explicitly covered by the existing employee reimbursement policy and has been traditionally authorized under the purchasing policy. -It would be permissible under Dillon’s Rule as compensation to a contractor or reimbursement to an employee of necessary business expenses. However, the Board of Trustees may wish to clarify this in an explicit policy. Note that there is a comment about this in the Board of Trustees’ handbook for business lunches.

BEST BEST & KRIEGER
ATTORNEYS AT LAW

Employee rewards through IVGID "bucks"	NRS 318.180, 318.185, 318.210	-This is permissible and a common way to show appreciation for employees. -This is part of IVGID's P.E.R.K. program for seasonal employee recognition and retention. This program has been brought to the Board of Trustees in the past, including in February 2007.

MEMORANDUM

TO: Audit Committee
FROM: Paul Navazio
Director of Finance

matters
potentially

SUBJECT: Review and discuss possible next steps on outstanding accounting and financial reporting ~~issues~~ identified by the former Audit Committee and through past Correspondence, as well as discuss process for addressing future issues brought before the Committee. (Requesting Committee Members Mick Homan and Chris Nolet)

DATE: March 30, 2023

I. RECOMMENDATION

potentially
matters

It is recommended that the Audit Committee review and discuss possible next steps on outstanding accounting and financial reporting ~~issues~~ identified by the former Audit Committee and through past correspondence, as well as discuss process for addressing future issues brought before the Committee.

II. BACKGROUND

This agenda item is a follow-up to a report presented to the Audit Committee at their meeting of February 7, 2023 which provided a summary of ~~issues~~ identified by the former Audit Committee, as well as selected issues from Correspondence received by the Committee.

potential
matters

In considering the report, the Audit Committee's ~~discussion~~ focused on two general areas:

potential matters

- 1) Disposition- How best to evaluate each of the ~~issues~~ and determine what follow-up action(s), if any, are warranted, with specific recommendations to be forwarded to the Board of Trustees.
- 2) Process – The Committee also discussed the need for a formal process to review and consider ~~issues~~ brought to the attention of the Committee to ensure that these ~~issues~~ are a) evaluated, b) follow-up actions tracked, and c) brought to closure. In this preliminary discussion, the Committee identified the need to distinguish between ~~issues~~ brought to the Committee's attention through formal agenda items (either by

timely

matters

Potentially
management, the Independent Auditor, the Board of Trustees and Audit Committee members), and items received by the Committee through correspondence (members of the public) *matters*

Following the discussion, the Audit Committee reached a general consensus to designate one member of the Committee (Mick Homan) to work with staff to review the list of outstanding issues and return to the Committee with additional information and a framework for the Committee to consider possible recommendations, where appropriate, to bring closure to each *matter* issue/topic.

Additionally, it was noted through Public Comment and Committee member input, the list of outstanding issues presented in the February 7th report may not have represented a complete list of issues warranting review by the Committee through this process.

Since the meeting of February 7th, two new members have been appointed to the Audit Committee to fill vacancies. Specifically, at their meeting of February 8, 2023, the Board of Trustees appointed Trustee Schmitz to fill a vacancy created by the expiring term of Trustee Tonking, and Mr. Chris Nolet was appointed to fill the vacant At-Large position (created by Trustee Tullech's re-appointment to the Committee as a Trustee). *matters* *matter*

New Committee member Nolet subsequently offered to work with Committee member Homan and staff on this follow-up report, with the first order of business being to review the list of outstanding issues and identify any that warrant adding in order to ensure a comprehensive list for review and disposition. Mr. Nolet and Mr. Homan then held a series of meetings with management to review the list of issues, and consider a framework within which to evaluate each issue and develop preliminary recommendations for consideration by the full Committee.

A number of the ~~issues~~ have been previously addressed, or deemed, by either the Audit Committee or, in some cases, the Board of Trustees to not warrant further action. Nonetheless, they are presented herein for background information purposes as a number of these same ~~issues~~ are recurring *topics* matters brought to the attention of the Audit Committee. As such, the Audit Committee may wish to recommend follow-up action, as deemed appropriate. *Potentially*

Attachment A to this memorandum provides an updated summary of outstanding *topics* ~~issues~~ identified through this process (including ~~issues~~ that appeared on previous Audit Committee agendas, as well as through general correspondence).

The summary is presented in (roughly) chronological order, with issues identified as pertaining to one or more of the following categories:

matters

matters

- Capitalization of Fixed Assets – includes issues related to application of generally-accepted accounting principles, applicable Board policy, and Moss Adams recommendations.
- Financial Reporting / Annual Comprehensive Financial Report (ACFR) – include issues raised related to the information provided in the District's Annual Comprehensive Financial Report. May include questions about financial statement, Notes, or Supplemental Information contained in the report(s).
- "Other" – includes issues that do not impact the financial information contained in the District's formal financial statements (examples include disclosures, and presentation of information).
- Moss Adams Recommendations – stemming from recommendations provided through three separate consulting engagements, most notably an *Evaluation of Certain Accounting and Financial Reporting Matters*.

statements

Matter

For each issue identified, the summary table provided in Attachment A also identifies, where applicable, a stated dollar impact (or estimate), whether the dollar impact is deemed "material", and comments to include status and references.

matters

Several attachment are provided as reference to selected issues identified in this report. These include excerpts to previous management responses provided to the Audit Committee and/or Board of Trustees.

Not included.

by year

II. ATTACHMENTS

- A. Summary Table of Issues Identified by Former Audit Committee and ongoing Correspondence.
- B. Summary of Moss Adams Recommendations with Management Responses (BOT memorandum, meeting of 6/29/22).
- C. Management Responses to Audit Committee Report on 2021 ACFR, dated 4/13/22
- D. History of District's reporting of Facility Fee revenues (excerpt from report to Audit Committee dated 6/16/22)

Matters

December 14, 2022

Chris Nolet – 765 Lakeshore Blvd

Before the 2022 ACFR is approved by the Board and submitted to the state of Nevada, I believe District financial management, DavisFarr and our Audit Committee should carefully reconsider one important audit finding. Management and our auditor reported 3 “significant deficiencies” (SDs) in internal control over financial reporting for the year ended June 30, 2022. One of the SDs was that that bank reconciliation for our main operating account was not completed until October 12, approximately 3.5 months after yearend. This account had a balance of approximately \$14 million on June 30th, which was not subject to effective internal controls at year end.

In general, the failed control(s) would normally be two 1) the completion of the bank reconciliation, and 2) the management review of the finalized reconciliation. Occasionally, these two controls are combined, which is often referred to as a “super control.” In either instance, the fact the internal controls over one of the District’s largest liquid assets failed is extremely concerning.

Our audit was completed in accordance with both US GAAS and Government Auditing Standards (GAS). To evaluate the severity of observed internal control weaknesses, I believe that one first looks to GAS 7.42, which cross-references to US GAAS AU-C Section 265. The guidance in Sections A6 and A7, noted below, requires management and the auditor to consider the “maximum potential error” in determining the nature of the internal control deficiency. The guidance goes on to say that the maximum potential error is the actual account balance itself. Hence, management is required to evaluate this internal control deficiency as more that remote, but less than likely, that a \$43 million error could occur in the ACFR.

It is possible that I may not understand the complete fact pattern, or the unlikely situation that there were mitigating controls. Otherwise, I am at a loss to understand how management, our auditor, or the Audit Committee did not conclude that this condition represents a “material weakness” in our system of internal controls?

Thank you

AICPA US GAAS AU-C 265 – Sections A6 and A7

A6. Factors that affect the magnitude of a misstatement that might result from a deficiency, or deficiencies, in internal control include, but are not limited to, the following: • **The financial statement amounts** or total of transactions exposed to the deficiency • The volume of activity (in the current period or expected in future periods) in the class of transactions or account balance exposed to the deficiency [As amended, effective for audits for periods ending on or after December 15, 2016, by SAS No. 130.] .

A7 **In evaluating the magnitude of the potential misstatement, the maximum amount by which an account balance or total of transactions can be overstated generally is the recorded amount,** whereas understatements could be larger.

Man has to respond before auditor.

MEMORANDUM

TO: Audit Committee
FROM: Paul Navazio
Director of Finance

Martin Williams
Controller

2 : 3

Attach to process memo

SUBJECT: Follow-up on District's Final Annual Comprehensive Financial Report (ACFR) for the Fiscal Year ended June 30, 2022 as presented to the Board of Trustees at their meeting of December 14, 2022 and filed with the State of Nevada Department of Taxation. (Requesting Staff Member Director of Finance Paul Navazio).

DATE: February 7, 2023

Include in Cliff version

I. BACKGROUND

This agenda serves as a follow-up to the District's Final ACFR for the fiscal year ended June 30, 2022.

- At their meeting of December 5, 2022, the Audit Committee received a presentation on the Draft ACFR and related Audit Reports, presented by the District's independent auditor, DavisFarr, LLP.
- Feedback from the Audit Committee was incorporated into the Final ACFR, presented to the Board of Trustees at their meeting of December 14, 2022 (see Attachment 1).
- Following presentation to the Board of Trustees, the Final ACFR for the fiscal year ended June 30, 2022 was filed with the State of Nevada Department of Taxation, pursuant to NRS 354.624.
- On January 24, 2023 the District received correspondence from the Department of Taxation summarizing their review of the District's Final ACFR (see Attachment 2).

II. DISCUSSION

Since the filing of the Final ACFR the Board of Trustees and Audit Committee have received correspondence from community members related to the document. (See Agenda Item D.4). This agenda item addresses several of the issues raised in these communications.

Correspondence from Mr. Dobler, dated 1/9/23:

Statement of Net Position:

- The \$1.7 million referred to is the lease receivable, not capitalized assets. The lease assets capitalized are \$78,537 as listed in Note 5. The \$1.7 million receivable is for the cell tower leases, for which the District receives lease revenue. This is not capital assets, this is the way GASB 87 requires assets being leased out to be recorded. A
- Note G, clearly states other receivables are, "service charges to customers and resident for deposits or fees that are earned, but not collected." Earned, but not collected would be they have not been received yet. A
- Note H is a description of what a prepaid expense is, not stating there are any prepaid expenses in the financial statements. The difference from FY21 and FY22 is prepaid insurance, which was not paid until July in 2022, therefor it was not prepaid as of June 30, 2022. A
- Note 5 has been created following the guidelines provided by GASB and our auditors. Adding another column to show items moved from CIP to capital would not be following these guidelines. This information is available in the CIP reconciliation done each year and can be provided as a public records request. exact source?

Statement of Revenues, Expenses and Changes in Net Position:

- The interest earnings in the Statement of Revenue, Expenses, and Change in Net Position is precisely that, the interest earned during the 12 months reported. The Interest listed on the Statement of Cash Flows shows the cash effect of interest received, lease interest, and interest earned. As these two statements are tracking different things, thus the numbers will be different. As for interest allocation, since the Board concurred with management's recommendation to allocate interest based on cash balance, investment income has been allocated by that methodology every month. (See memo to Board, dated April 13, 2022). A
- Capital grants \$159,832 are not transfers, but grant funds provided by agencies outside the District. This \$47,926.54 was received from the Incline-Tahoe Foundation (ITF). This grant has nothing to do with the Recreation Center Expansion. Also, no billing for the Recreation Center had been processed by June 30, therefore no grant receivable was processed. A receivable has to be available, and collectable, without a grant claim, otherwise it cannot be a receivable. A

Statement of Cash Flows:

- The Statement of Cash Flows takes into account every item in the change in net position, and the statement of net position. There the number shown for cash effect

of these items will never match the number listed on either report, as both reports need to be considered. The cash spent on acquisition of capital assets includes the changes in all the capital assets, plus lease receivables. The \$2,552 for the internal services funds is the change in deferred inflows from FY2021.

A

NOTE 18:

- The carry-forward amounts referenced in Note 18 include both capital and capital expense items approved by the Board (8/31/22) as well as General Fund carry-over amounts approved as part of the Final Budget (5/26/22). As a Governmental fund, any General Fund carry-overs must go through a more detailed approval process, so these roll forwards are added to the new fiscal year's budget when it is approved.

?

Correspondence from Mr. Dobler, dated 1/14/23:

- The listing of contractual commitments shown in Note 18 is not intended to be an exhaustive listing of contractual obligations. The list provides examples of contractual obligations, selected to include priority projects of community interest.
- Two errors were noted in the table of contractual obligations included in this note. The Avail contract, which was fully spent by June 30, and the Axess America (RFID) contract was executed after June 30, 2022, and the expenditures shown were incurred in the current fiscal year. Corrections are reflected below:

?
D

A

The District has committed to contractual obligations for selected capital improvement projects through contracts, resulting in encumbered funds at year-end. These are included in the appropriations carry-forward to the FY2022/23 budget, and are summarized as follows:

Contractor	Project	Contract Amount	Completed (6/30/22)	Remaining Amount
CORE West, Inc	Burnt Cedar Pool Imp	\$3,845,865	\$3,567,790	\$ 278,075
Avail Enterprises, LLC	Rec Center Lobby	159,832	159,832	
Ward-Young Architects	Rec Center Lobby	36,724	32,724	4,000
Ward-Young Architects	Rec Center Locker Room	91,972	85,904	6,068
Granite Construction	Effluent Pipeline	369,218	190,609	178,609
Axess America	RFID Gates	369,105	105,458	263,647

MEMORANDUM

TO: Board of Trustees

THROUGH: Indra Winqest
District General Manager

FROM: Paul Navazio
Director of Finance

SUBJECT: Transmittal of District's Annual Comprehensive Financial Report (ACFR) for the Fiscal Year ended June 30, 2022 and Related Audit Report(s) (Director of Finance Paul Navazio and Jennifer Farr, Partner, Davis Farr, LLP).

DATE: December 14, 2022

I. BACKGROUND

This agenda item serves to transmit to the Board of Trustees the District's Annual Comprehensive Financial Report (ACFR) for the Fiscal Year ended June 30, 2022, as well as the required Audit Communications provided by the District's Independent Auditor, Davis Farr, LLP.

The final Annual Comprehensive Financial Report being transmitted via this agenda item incorporates the following reports provided by the District's Independent Auditor, DavisFarr, LLP:

- Audit Opinion – Independent Auditor's Report
- Audit Communications (*Attachment 3*)
 - Required Audit Communications
 - Report on Internal Controls Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*.

II. DISCUSSION

This agenda item presents the District's Final ACFR for the Fiscal Year ended June 30, 2022, to include the results of the audit conducted by the District's independent auditor, Davis Farr, LLP, and required Audit Communications.

December 14, 2022

AUDIT RESULTS

- The District's Independent Auditor has issued an unmodified opinion that the District's financial statements present fairly, in all material respects, the financial position of the District, its governmental activities, business-type activities, and all major funds, as of June 30, 2022.
- In their *Report on Internal Control Over Financial Reporting and on Compliance and Other Matters*, the District's Independent Auditor did not note any "material weaknesses"; however the auditor has highlighted three areas that have been determined to be reported as "significant deficiencies". These are summarized as follows:

3 SDs.

2022-001 – Journal Entries Detected During the Audit –

This stems from three journal entries that were processed as a result of the audit work performed, and are reflected in the financial statements. These include:

- a) An entry to remove legal settlement liabilities in the General Fund to reflect this liability in the government-wide financial statement rather than in the fund-type statement (\$596,253).
- b) An entry to remove compensated absences from the General Fund because the long-term liabilities are to be recorded in the government-wide financial statements rather than the fund-type statement (\$145,840).
- c) An entry to increase the Due from Other Governments in the General Fund (\$84,340).

2022-002 – Physical Inventory Observation

This stems from the fact that the District did not perform a fiscal year-end physical inventory of assets in the Championship Course Pro Shop. The auditor notes that while the inventory balance is not considered material, they nonetheless highlight the need to perform year-end inventory counts.

2022-003 – Timely Preparation of Bank Reconciliations

The auditors note that the District did not complete the year-end bank reconciliation until mid-October, and recommends that bank reconciliations be completed within 30 days of each month-end.

The *Report on Internal Control Over Financial Reporting and on Compliance and Other Matters* includes Management Responses, as required, to findings and recommendations identified by the independent auditor.

December 14, 2022

CHANGE IN ACCOUNTING PRACTICES

The District's audited financial statements for the fiscal year ended June 30, 2022 reflect two changes in accounting practices from the prior year:

- 1) *Transition from Governmental Fund to Proprietary Fund accounting for the District's Community Service Fund and Beach Fund.* This change was implemented, per Board of Trustees direction, as of July 1, 2021. As a result, prior period adjustments are required to re-state beginning fund balance/net position for each of these major funds. A
- 2) *Implementation of GASB 87 – Leases.* Implementation of GASB Statement 87, effective with the fiscal year ended June 30, 2022, requires the recognition of certain leased assets and liabilities for leases that were previously classified as operating leases. This required change in accounting practice impacts the treatment of the District's golf cart lease (as lessee) and cell tower leases (as lessor). A

FINANCIAL HIGHLIGHTS

Financial highlights based on Government-wide Financial Statements, for the year ended June 30, 2022:

	Governmental Activities		Business-Type Activities		Total	
	2022	2021	2022	2021	2022	2021
Revenues						
Program Revenues:						
Charges for services	\$ 2	\$ 17,060,531	\$ 32,450,390	\$ 12,631,060	\$ 32,450,392	\$ 29,691,591
Operating Grants	2,000	15,440	39,135	39,857	41,135	58,297
Capital Grants and contributions	-	65,505	47,927	-	47,927	65,505
General Revenues						
Ad valorem taxes	1,593,214	1,512,955	-	-	1,593,214	1,512,955
Consolidated taxes	2,049,551	1,855,445	-	-	2,049,551	1,855,445
Facility Fees	-	6,537,641	6,090,661	-	6,090,661	6,537,641
Unrecycled investment income	(17,165)	73,594	(93,733)	33,661	(110,921)	107,275
Other	1,402	127,597	435,446	-	436,848	127,597
Total Revenues	3,925,961	27,605,314	36,999,549	12,904,595	42,923,630	40,512,912
Expenses						
General Government	3,497,944	2,657,692	-	-	3,497,944	2,657,692
Utilities	-	-	12,399,729	11,449,502	12,399,729	11,449,502
Community Services	-	15,996,222	20,779,505	-	20,779,505	15,996,222
Beach	-	2,156,645	1,784,943	-	1,784,943	2,156,645
Total Expenses	3,497,944	24,070,759	34,964,177	11,449,502	36,462,121	35,520,561
Excess (Revenue) Expenses	431,037	3,534,555	4,035,672	1,454,796	4,466,709	4,992,351
Changes in Net Position	431,037	3,534,555	4,035,672	1,454,796	4,466,709	4,992,351
Beginning Net Position, as reported	\$2,946,057	\$9,269,585	\$6,955,593	\$6,697,763	\$19,931,650	\$17,963,645
Price Period Adjustment	(3,105,674)	142,617	55,199,571	(3,166,966)	94,197	(3,024,349)
Beginning Net Position, as adjusted	\$7,840,383	\$9,412,202	\$17,010,764	\$3,530,797	\$20,025,847	\$14,939,296
Ending Net Position	\$8,271,420	\$12,946,757	\$18,046,436	\$4,985,593	\$21,232,033	\$19,931,650

- The District's net position as of June 30, 2022 was \$164.49 million and reflects an increase in net position of \$4.47 million over the prior year. Of

December 14, 2022

this amount, a total of \$45.44 million (unrestricted net position) is available to meet the District's future obligations, including future planned capital projects.

- The net position of the District's governmental activities increased by \$0.43 million (to \$8.27 million) and the net position of the District's business-type activities increased by \$4.04 million (to \$156.22 million).
- The District's General Fund unassigned fund balance increased to \$5.25 million. This compares favorably to the District's fund balance policy of 15% of annual expenditures (or \$0.52 million).
- The District's Utility Fund ended the fiscal year with a net position of \$77.57 million, which represents an increase of \$0.58 million from the prior year. The Community Services Fund ended the year with a net position of \$64.72 million, reflecting a decrease of \$0.75 million from the prior year; the Beach Fund ended the year with a net position of \$13.93 million, reflecting an increase of \$4.21 million from the prior year.
- As of June 30, 2022 the District had total bond debt outstanding of \$3.43 million including Utility Revenue Bonds outstanding of \$2.99 million and Recreation Bonds outstanding totaling \$0.39 million. The District retired \$0.93 million in bond principal during the fiscal year.

Audit Committee Review

The Audit Committee received a copy the District's initial draft ACFR on November 16, 2022, concurrent with staff's transmittal of same to the Independent Auditor. At their meeting of December 5th, the Audit Committee received an updated draft ACFR, a report from Jennifer Farr, Partner, Davis Farr, LLP, on the audit as well as drafts of the Audit Opinion and Audit Communications.

Based on the Audit Committee's review and comments, final revisions have been incorporated into the Final ACFR being presented to the Board via this agenda item. In addition, the Independent Auditor has updated its *Report on Internal Control Over Financial Reporting and on Compliance and Other Matters*, as included the Compliance Section of the ACFR.

Revisions incorporated into the Final ACFR as a result of the Audit Committee's review include:

- *Statement of Net Position* - Reclassification of the amount reflected in the draft ACFR related to Claims Payable from "restricted" to "unrestricted." As

December 14, 2022

a result of the liability reported for this item, it should not have been included as a restricted amount in the Statement of Net Position.

- *Note 2 – Cash and Cash Equivalents, and Investments.* The dollar amounts shown in the text of the Note were updated to match the figures shown in the table (as of June 30, 2022). The draft document had not been updated from the amounts reported as of June 30, 2021.
- *Supplementary Information: Utility Fund Statement of Revenue, Expenses and Change in Net Position.* This is a new supplementary schedule added in this year's ACFR at the request of the (former) Audit Committee. A formula error as noted in the "variance" column (Net Position), and has been corrected.
- Various, non-substantive edits were made in the Notes to the Financial Statements to clarify certain explanations and acronyms.
- In its review of the Management Representation Letter, the Audit Committee noted a reference to an attachment related to Adjusting Journal Entries that were passed on by Management due to the fact that they did not meet the auditor's threshold for materiality. The auditor has provided this attachment that was included in the executed Management Representation Letter.

NEXT STEPS

Per Nevada Revised Statutes (NRS) requirements (354.624), the District is required complete the audit within five months of the end of the fiscal year (November 30th), and present it to the governing Board within 30 days (December 30th). Immediately following presentation to the governing board the Annual Comprehensive Financial Report, audit report, and management representation letter are to be filed with the State Department of Taxation.

Pursuant to Policy 15.1.0 the Audit Committee is charged with submitting a report to the Board of Trustees in conjunction with the presentation of the Annual Comprehensive Financial Report.

Re: Annual Audit Report – Fiscal Year 2022

Dear Mr. Navazio:

Pursuant to NRS 354.6245, the Department of Taxation is charged with the review of all annual audits to determine their compliance with statutes and/or regulations. The Department must also identify all violations of statute and/or regulations reported therein.

The Department has completed its review of your audit report and NO violations of statute and/or regulations were noted. The auditor met the statutory provisions required by NRS 354.624 and NRS 354.6241.

From: Clifford F. Dobler

Re: Observations and potential corrections to APCR for June 30, 2022

This memorandum is to be included as correspondence on the next Audit Committee Agenda

I reviewed the Proprietary Funds financial statements and related notes presented to the Audit Committee on December 5, 2022. The items below were not addressed and should be considered. The Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position and the Statement of Cash Flows are included as exhibits A,B&C.

Statement of Net Position

Lease Receivables - A new addition this year was the capitalization of leases for \$1,749,412 (Exhibit G). Under Note 1 -G of the Financial Statements there is no reference to the new addition. As an extra jolt of wrong information is the narrative on "other receivables". It would be hard to conceive how an earned deposit (which is already received) could be a receivable.

Notes talk about adoption of new std.

Prepaid Expenses - In fiscal year 2021, and prior years there was approximately \$200,000 in prepaid expenses for Community Services and now in 2022 there is nothing. Was there a change in accounting? Why would Note 1-H have a statement about prepaid expenses for a mere \$762 in the Beach Fund?

Note 5 - Capital Assets (Exhibit E) is a detail of activities and should be expanded. "Decreases" should be changed into 2 columns - 1) Transfers to Capital Assets from Construction in Progress and 2) Disposition of Assets from retirement or sale. This will provide a better explanation of what "Decreases" actually are.

Judgement - not a "representation"

Statement of Revenues, Expenses and Changes in Net Position

Investment earnings(loss). The amounts for the Utility Fund and the Community Service Fund do not agree with the investment earnings(loss) on the Statement of Cash Flows:

- Utility Fund - (\$57,286) as opposed to (\$53,496)
- Community Services Fund (\$17,441) as opposed to \$271,192

cash is earned.

The proper allocation of investment earnings has been a grave concern of the former audit committee members. IVGID staff cannot seem to properly allocate interest earned on cash deposit to the proper funds. See my memorandum dated October 18, 2021.

why?

Capital Grants (or grants for capital improvements) of \$47,927 for Community Services is not a revenue item and should only be reflected in the Statement of Cash Flows. Transfers are never revenues or s. It should be noted that as of June 30, 2022, \$121,063 was expended on the Recreation Center Expansion. The Duffield grant was for \$65,000, of which, only \$47,927 was assumed collected. As such, a grant receivable of \$17,073 should have been reported.

Statement of Cash Flows

The amounts for acquisition of capital assets for the Community Service Fund and Beach Fund do not agree with the Capital Project report (Exhibit G) provided to the Board on September 28, 2022. The largest difference is contained in the Community Services Fund wherein the Capital Project report indicates only \$1,966,553 in expenditures, however, the Statement of Cash Flows (Exhibit C) reports \$2,430,733. While it is understood that the Capital Project report is "unaudited" and adjustments could be made. If so, then a corrected version of the report should be provided when the audit is complete.

It is odd that the Internal Services Fund would have acquisitions of \$2,552 which is far below any threshold established by Board Policy.

Lastly the Capital Improvement Project Budget Carry-Forward (Note 18) (Exhibit F) indicates a total of \$9,827,031 of unspent budget would be carried over into fiscal 2023, however, the 9-28-2022 Capital Project report indicates only \$8,818,437 would be carried over which is over a \$1million difference. Too much of a difference for comfort.

The entire point of this memorandum is to stress to the Audit Committee and the Board of Trustees that there are no internal controls over financial reporting. Cross referencing is a must and obviously there are not appropriate staff members up to the task. In most cases information is disseminated which is inaccurate and should be changed (and normally never is) . This leads to wasteful reporting and a lack of trust in evaluating historical reports.

- Exhibit A - Statement of Net Position - June 30, 2022

INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS - JUNE 30, 2022

District Funds share bank accounts for operations, payroll and reimbursements. Activity between funds occurs in the regular activities of the District. The General Fund issues accounts payable and payroll and related benefits for all funds. To the extent payment has not occurred, but the cost was realized by the benefited fund, internal balances for Due from or to Other Funds are established. These are cleared monthly through pooled cash. The combined pooled balances are monitored to assure no fund makes temporary loans to another, within the context of Nevada Revised Statute 354.6118.

Short-term investments reflect items held with maturities within one year. These are predominantly certificates of deposit and agency issues. These provide funds for capital projects.

Long-term investments reflect items held with maturities beyond one year. These include certificates of deposit and instruments issued by the Federal Government or its agencies.

Nevada Revised Statutes authorize the District to invest in obligations of the U.S. Government or U.S. Treasury, providing maturities are 10 years or less from the date of purchase; the local government investment pool (LGIP) (operated by the Nevada State Treasurer); negotiable certificates of deposit issued by commercial banks or insured savings and loans; short-term negotiable notes or bonds issued by local governments; and bankers' acceptances eligible by law for rediscount with the Federal Reserve Banks not to exceed 180 days.

Funds on deposit with LGIP are considered cash and cash equivalents. Even though the weighted average maturity of the underlying investments in the LGIP are greater than 90 days, the District can liquidate its deposits within a few days. The District has reported these deposits at cost plus accrued interest, which approximates fair value.

The District's investments are stated at fair value as of the reporting date. These are categorized using fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 are significant unobservable inputs.

G. Receivables

Receivables reflected in the District's basic financial statements include monies due from other governments, grants receivable as well as other accounts receivable.

Due From Other Governments. Property taxes are levied no later than July 10 of each year on property values assessed for the same year. The taxes may be paid in four installments as follows: the first installment is due on or before the third Monday in August, the second installment is due on or before the first Monday in October, the third installment is due on or before the first Monday in January, and the fourth installment is due on or before the first Monday in March. If payment of the taxes is not made within ten days following the day the installments become due, penalties are assessed in accordance with NRS 361.483. Once the installments become delinquent, interest is added at the rate of 10 percent per annum. Taxes levied become a perpetual lien against the property assessed until the tax and any penalty charges and interest which may accrue thereon are paid. Washoe County assesses the property tax, bills, collects, and distributes the property tax revenue.

The District also receives certain tax revenues in the General Fund which are collected by the State of Nevada. These settlements arrive within 60 days of the month close when they are generated. The amounts are listed as Due from Other Governments. The District also has an operating grant from Washoe County, received monthly in arrears. The uncollected balance of this grant is carried in Due from Other Governments.

INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS - JUNE 30, 2022

Grants Receivable. The District has been awarded grants to finance the construction of various infrastructure projects (ex. utilities, creek zone restoration, and upgrade a ballfield). Such grant funds are considered earned when requisite construction costs are incurred. The District has recognized funds earned but not collected by a Grants Receivable, in the government wide financial statements.

Other Receivables. Accounts receivable reflects service charges to customers and resident for deposits or fees that are earned, but not collected. The District may file a tax lien for uncollected utility service fees.

H. Inventory and Prepaid Items

There are no inventories in the General Fund. Inventories of items for resale for Utility, Community Services, and Beach Proprietary Funds are stated at the lower of cost (first-in, first-out) or market.

Certain payments are made to vendors for costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. They are recognized under the consumption method when used.

I. Restricted Assets

The District has restricted several deposits for the benefit of other agencies in connection with performance under a retail operation, construction projects, and debt service. These agencies establish the restriction by regulation or agreement.

J. Capital Assets

Capital assets include land, buildings, machinery and equipment, or water rights which are reported in the applicable governmental or business-type activities column in the government-wide financial statements. If purchased or constructed, all capital assets are recorded at historical cost. Donated capital assets are valued at acquisition value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Depreciation of all exhaustible capital assets (all categories except land and construction in progress) is charged as an expense against each fund's operation. The District's policy is to capitalize assets with a normal useful life of three or more years.

The District holds 4,272 Acre Feet of Water Rights. This represents about 1,405,000,000 gallons. The District's historical records cannot separately identify the cost of water rights from land.

Activities of the General Fund include District administration, accounting and finance, information systems and technology, human resources, risk management, the General Manager's office, communications and the Board of Trustees. The land, buildings, furniture and equipment, including technology assets, represent items used in common by all of the activities of the General Fund at the District's administrative office. The computers and technology represent equipment of the Information Systems & Technology (IST) department that services the needs of the entire District. These assets are presented as a part of government-wide net position.

Activities of the Community Services Proprietary Fund include two 18-hole golf courses, a large and small meeting facility, a ski resort, a recreation center, parks, a tennis center, a skateboard park, and green spaces. Venue improvements include the cost of developing program-ready locations.

Activities of the Beach Proprietary Fund include three beaches with restricted access. One has a watercraft launch ramp and storage areas for paddleboards and kayaks. Two beaches have concession stands and playground areas. One beach provides swimming and wading pools.

The District has a number of Construction in Progress projects open as of June 30, 2022. The Utility Fund includes \$1,114,233 for the design phase of the Effluent Export Line, that project will be ongoing through at least 2023. The Community Services Fund has \$132,976 for the Locker Room Improvements. The District's primary building season is limited to May to October because of regulations from the Tahoe Regional Planning Agency. Most equipment purchases follow the budget and fiscal year cycle.

Depreciation expenses for the year ended June 30, 2022 were charged to functions as follows:

Governmental Activities:	
General Government	\$ 128,330
Business-Type Activities:	
Utility Fund Water and Sewer	3,285,128
Recreation	2,960,294
Beach	188,687
Internal Services	10,541
Total Proprietary Depreciation	6,444,650
Total Depreciation Expense	\$ 6,572,980

6. COMPENSATED ABSENCES

At any given point the District has an obligation to its employees for the value of vacation time earned and not taken. The obligation is measured by the value due as if the employee terminated. The District allows retiring employees with an excess of 20 years of service, and that have accrued sick leave, to have it converted to Medical Retiree Benefit for reimbursing post-employment health related costs. There are 4 eligible employees covered. The District has no other post-employment benefit obligations for health insurance or retirement benefits.

INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS - JUNE 30, 2022

18. COMMITMENTS AFFECTING FUTURE PERIODS

General Fund:

The District entered into an unemployment insurance contract with First Nonprofit Companies for total premiums of \$220,800 for calendar year 2022 services. As of June 30, 2022, \$110,400 in quarterly deposits are remaining as a part of the subsequent year's budget.

Capital Improvement Project Budget Carry-Forward:

The District budgets for capital improvement projects one year at a time for spending authority. The actual execution of construction or acquisition can span one or more fiscal years. The District identifies carryover and unspent budget authority for those projects. The amounts for governmental fund types are re-budgeted for the subsequent fiscal year. The unused Utility Fund, Community Services Fund, and Beach Fund resources become part of Unrestricted Net Position, and are budgeted under cash flow on the State of NV budget forms. Board-approved amounts carried-forward at year-end are as follows:

General Fund	\$ 124,300	
Utility Fund	5,887,795	\$9,827,031
Community Services Fund	3,125,713	
Beach Fund	689,223	

The District has committed to contractual obligations for selected capital improvement projects through contracts, resulting in encumbered funds at year-end. These are included in the appropriations carry-forward to the FY2022/23 budget, and are summarized as follows:

Contractor	Project	Contract Amount	Completed (6/30/22)	Remaining Amount
CORE West, Inc	Burnt Cedar Pool Imp	\$3,845,865	\$3,567,790	\$ 278,075
Avail Enterprises, LLC	Rec Center Lobby	159,832	-	159,832
Ward-Young Architects	Rec Center Lobby	36,724	32,724	4,000
Ward-Young Architects	Rec Center Locker Room	91,972	85,904	6,068
Granite Construction	Effluent Pipeline	369,218	190,609	178,609
Axess America	RFID Gates	369,105	105,458	263,647

19. STATE OF NEVADA TAX ABATEMENTS AFFECTING DISTRICT REVENUES

The State of Nevada has entered into various tax abatement agreements that reduce the tax revenues of local governments. Taxes reduced include the Consolidated Tax, which includes allocated sales and use tax revenue. State law establishes the abatements. The District's estimated share of abatements for this fiscal year is \$19,732.

20. PRIOR PERIOD ADJUSTMENT(S)

The Statement of Activities includes prior period adjustments resulting from changes in accounting practices, as follows:

In fiscal year 2022 the District returned the Community Services fund and the Beach fund to proprietary fund accounting. This change in accounting method requires a prior period adjustment for long term assets and long term liabilities reported under the proprietary fund method that are not reported under the governmental fund method. The total of the prior period adjustment is \$75,199,871 as stated in the Statement of Activities.

January 14, 2023

THIS MEMORANDUM IS TO BE MADE PART OF THE NEXT AUDIT COMMITTEE MEETING AS CORRESPONDENCE FOR REVIEW.

TO: Board of Trustees and Audit Committee

From: Clifford F. Dobler

Re: Lack of FULL disclosure in Note 18 of the ACFR FOR FISCAL YEAR ENDING JUNE 30, 2022 and false approval of contracts to avoid requirements under NRS and Board Policies .

Under Note 18. Commitments Affecting Future Periods there are several errors regarding the contractual obligations resulting in encumbered funds at year end. EXHIBIT A

Approval of the contract with Assess America, Inc. - RFID Gates. It is extremely odd that this contract is included as of June 30, 2022. The \$369,105 contract was brought to the Board for approval, as a consent item, on August 31, 2022, two months after the end of the fiscal year. There was no budget for fiscal 2022. A review of the data included in the consent item has an unexecuted and undated Equipment Purchase Agreement, a Request for Proposal dated July 29, 2022 but most important a detail proposal from Assess America, Inc. dated 6 months earlier on February 8, 2022. Conclusion - This contract may have been issued far in advance of the August 31, 2022 Board meeting. The contract amount and the required 30% cash down payment is included in the Note 18 of the ACFR. The down payment, however cannot be located as an expenditure in the Capital Projects report as of June 30, 2022. It would be impossible to have a contract approved in August and then list the contract as outstanding in June. This maneuver by IVGID staff was in violation of NRS regarding issuing contract in excess of available resources and board policy.

Errors and lack of disclosure regarding contractual obligations resulting in encumbered funds at year end - Note 18

The listed contract with Avail Enterprises, LLC for the Rec Center Lobby Restrooms indicates that no money was spent yet according to the June 30, 2022, Capital project report the project was completed and all expenditures exceeded the budget by \$18,264 (10.3%). No budget augmentation was made.

The \$975,843 Contract issued to Brycon on 4/13/2022 for the Rec Center Locker Rooms has NOT been included as a contractual obligations.

The original contract and subsequent amendments of \$471,172 issued to HDR Engineering Inc., all of which, were issued prior to June 30, 2022 HAVE NOT been included as a contractual obligation.

The original contract and subsequent amendments of \$696,139 issued to Jacobs Engineering Group Inc., all of which, was issued prior to June 30, 2022, HAVE NOT been included as a contractual obligation.

obligation of 6-30-22?

The contract of \$533,260 (which is net of \$164,000 of trade ins) for 80 golf carts was issued to Club Car, LLC prior to June 30, 2022 and **HAS NOT** been included as a contractual obligation. As a side note. the carts were never delivered in fiscal year 2022.

The contract with Rapid Construction for \$176,671 for the Slot Peak water main was approved on March 9, 2022 and **HAS NOT** been included as a contractual obligation. The entire estimated costs of the project is \$275,775 and consists of permits, staff time and a contingency.

In addition, replacement of Ski Equipment had a 2021/2022 budget of \$514,840, of which, only \$255,707 was spent in fiscal year ending June 30, 2022. There may be an outstanding commitment for the unspent funds but further research is required. ?

Additional study will be required determining the outstanding contractual obligation with Tyler Technology for the contract issued in October 2021.

It appears that Mr. Navazio and Mr. Winquest have concluded that contractual obligations can be for **SELECTED** capital improvement projects as they apparently see fit. I along with the new Board of Trustees would probably be interested in the selection process. Based on the over \$3 million in contracts listed above which were not included in Note 18 it becomes quite apparent that Note 18 is quite deficient and again draws attention that no internal controls or oversight exists to prevent future errors.

2 = 2,853,000 - CD

EXHIBIT A

INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS - JUNE 30, 2022

18. COMMITMENTS AFFECTING FUTURE PERIODS

General Fund:

The District entered into an unemployment insurance contract with First Nonprofit Companies for total premiums of \$220,800 for calendar year 2022 services. As of June 30, 2022, \$110,400 in quarterly deposits are remaining as a part of the subsequent year's budget.

Capital Improvement Project Budget Carry-Forward:

The District budgets for capital improvement projects one year at a time for spending authority. The actual execution of construction or acquisition can span one or more fiscal years. The District identifies carryover and unspent budget authority for those projects. The amounts for governmental fund types are re-budgeted for the subsequent fiscal year. The unused Utility Fund, Community Services Fund, and Beach Fund resources become part of Unrestricted Net Position, and are budgeted under cash flow on the State of NV budget forms. Board-approved amounts carried-forward at year-end are as follows:

General Fund	\$ 124,300
Utility Fund	5,887,795
Community Services Fund	3,125,713
Beach Fund	689,223

The District has committed to contractual obligations for selected capital improvement projects through contracts, resulting in encumbered funds at year-end. These are included in the appropriations carry-forward to the FY2022/23 budget, and are summarized as follows:

Contractor	Project	Contract Amount	Completed (6/30/22)	Remaining Amount
CORE West, Inc	Burnt Cedar Pool Imp	\$3,845,865	\$3,567,790	\$ 278,075
Avail Enterprises, LLC	Rec Center Lobby	159,832	-	159,832
Ward-Young Architects	Rec Center Lobby	36,724	32,724	4,000
Ward-Young Architects	Rec Center Locker Room	91,972	85,904	6,068
Granite Construction	Effluent Pipeline	369,218	190,609	178,609
Axess America	RFID Gates	369,105	105,458	263,647

What does this mean? should it be carried forward

19. STATE OF NEVADA TAX ABATEMENTS AFFECTING DISTRICT REVENUES

The State of Nevada has entered into various tax abatement agreements that reduce the tax revenues of local governments. Taxes reduced include the Consolidated Tax, which includes allocated sales and use tax revenue. State law establishes the abatements. The District's estimated share of abatements for this fiscal year is \$19,732.

No
adj.

20. PRIOR PERIOD ADJUSTMENT(S)

The Statement of Activities includes prior period adjustments resulting from changes in accounting practices, as follows:

In fiscal year 2022 the District returned the Community Services fund and the Beach fund to proprietary fund accounting. This change in accounting method requires a prior period adjustment for long term assets and long term liabilities reported under the proprietary fund method that are not reported under the governmental fund method. The total of the prior period adjustment is \$75,199,871 as stated in the Statement of Activities.

January 21, 2023

to be included as part of the Board and Audit Committee next agendas

To: IVGID Board of Trustees and Audit Committee

cc: Indra Winqwest and Paul Navazio

Re: Unauthorized change in reporting from fiscal 2021 to 2022 for the Community Services Venues

For several years through 2021, the Comprehensive Annual Financial Report provided supplementary information comparing actual revenues and expenses to budgeted amounts. For the Community Services, each venue within the Fund was listed. This provided a reader the ability to determine how each venue performed against the budget and the profit or loss from operating the venues. This information was required Supplementary Information in the audited reports. EXHIBIT A

Objectives?

In 2022, Mr. Navazio without any authority, proper stewardship and denying any discussion with the Board or the Audit Committee decided to eliminate reporting revenues and expenses by EACH venue. Instead he provide only a consolidated amount for the Community Services Fund. The information was now considered Supplementary Information EXHIBIT B not subject to any audit requirements and therefore could continue to be reported by venue. As a result, there is "not a single stitch" of information provided on how each venue performed during the fiscal year.

Why? If the name of the game is to provide transparency why would compressing information to provide less

transparency be considered appropriate?

This action, along with many others, created by Mr. Navazio in preparing financials are not consistent from year to year

and is inappropriate.

"The consistency principle states that business should maintain the same accounting methods or principles throughout the accounting periods, so that users of the financial statements or information are able to make meaningful conclusions from the data".

On smaller matters, the facility fees which has been a standard has now been called a "recreation fee" in two cases. This, of course, is to manipulate consistency. In another case, the net position in the Statement of Net Position for the Community Services Fund EXHIBIT C does not agree with the total net position in the statement of Revenues, Expenses and Changes in Net Position EXHIBIT B.

Please explain why the Community Services and Beach Funds were removed from Required Supplementary Information to just Supplemental Information?

So what are you going to do about these inconsistencies? Is it your intent to let Mr. Navazio run unchecked and report what his pleasure might be? What about that concept of transparency?

Any material?

- Exhibit A - 2021 - Required Supplementary Information - Statement of Revenues, Expenses and changes in Fund Balance.
- Exhibit B - 2022 - Supplementary Information - Statement of Revenues, Expenses and changes in Net Position
- Exhibit C - 2022 - Statement of Net Position

January 23, 2023

This memo is to be included in the next Board and Audit Committee packet

To: Darren Howard

From: Clifford F. Dobler

CC: Indra Winquest, Paul Navazio, IVGID Board of Trustees, IVGID Audit Committee

Re: Item E.3A - Report - Facilities (Weddings and Events) - Multiple errors or lack of complete information - Board Packet 12-14-2022

It is hard to imagine that a six page report prepared and presented by you as the Director of Community Services could be so convoluted. I would guess your pay package, including, benefits may be close to \$200,000 annually. Maybe you should stick to providing golf lessons and appeasing golf club bosses, but stay away from financial reporting. I have attached the report which are pages 34 to 39 of the Board Packet for 12-14-2022. I have made comments in red and also provided comments below. This report, as presented, should be archived in a waste paper basket and removed from the agenda so citizens will not be subject to bad information.

Page 34 -

- Most summary narratives have a heading.
- I am unaware of an engagement season (Holidays). Is this an IVGID invention? If so what are the dates for the "season"?
- The entire summary discusses weddings with no mention of the Community Events or the large number (134) of unknown events which are buried with weddings.
- The claim that wedding guest counts are trending lower close to 100-150 is fine but compared to what?

Simply explain

Page 35 -

- The heading states Summary of Events and Revenue. On page 34 it states Weddings and Events. Where is the word Wedding on page 35 heading?
- States "YTD 2022/23" but gives no date nor the time period.
- What are the asterisk for 2019/20 and 2020/21?
- States 327 events for 2021/22 with 108 Community Events and 85 Wedding. What are the remaining 134 events? Since they represent 41% of all EVENTS why is there not a separate line item with facts on these unknown events? What are these 134 undisclosed events and how do they distort Weddings. To mix venue fees and the food and beverage with Weddings does not seem appropriate. There is certainly enough space on the page.
- 2019 and 2021 actual numbers do not agree to the actuals in the 2023 Budget executive summaries.
- Why is the venue fee less than \$27 per community event? Seems low

Page 36.

- This page is worthless.
- The left pie chart uses Facility Revenue rather than Venue Fees. Only states weddings and community events but leaves off other events which represent 41% of all events.
- Right pie chart does not provide a date. The chart is wrong. Assuming it is for 2021/22, Community events only make up 33% of all events. Yet the orange color is over 50%.
-

Judge audit

- These pages could not possibly be correct.

- Why is there a comparison for three single date? Is it guests, revenues and expenses which occurred on those dates? It would seem impossible that on each of the dates the same number of guests occurred between Non Picture Pass Holder and Picture Pass holders? Is it possible that expenses would also be identical? I doubt it.
- Stating expenses before revenues is never done. Is this golf pro accounting?
- What purpose do these pages serve?

- Why are budgets verses actual being compared for the golf season. Weddings do not only occur during the golf season but year round. This page serves no purpose.

In closing why provide this useless information to the Board and the Public? It truly serves no purpose and shows a certain degree of bad management. If you want to seek my advice on providing a meaningful report in the future, give me a call.

Exhibit A - 6 page presentation of Facilities - December 14, 2022 with comments in red.

Possibly
correct,
but no requirement
to revise ACFR

Summary

Has no meaning

What are the months?

the past?

as apposed to how many?

As we approach engagement season (Holidays), we expect to fill in the 2023 wedding and event calendar. The weddings and events industry locally has seen a shift in booking windows and popular dates. Venues are being reserved within a 6-9 month timeframe and we are beginning to see a rise in interest for September and October dates again considering the Tahoe Basin was minimally affected by smoke this past Fall. Guest counts for weddings are trending closer to 100-150. Although guest counts are slightly lower, check average/revenue per person has and will continue to increase.

2021/2022, we saw a surge in weddings booked considering there were a lot of engaged couples who were finally able to gather and have their weddings. We may see that sense of urgency taper off a touch this 2023 season.

No mention of community events or other unknown events.

M

Summary of Events and Revenue

Re: Follow-up on my memo on January 9, 2023 - Investment Earnings 2022 fiscal year AFCR

As stated in my previous memo, the Proprietary funds Statement of Revenues, Expenses and Changes in Net Position (Exhibit B) had Investment Earnings losses of \$94K which did not jive with the investment earnings gains of \$198K in the Statement of Cash Flows (Exhibit C).

Since I did not expect an explanation from Mr. Navazio, I will provide it.

According to Note 2 of the 2022 AFCR "Cash Equivalents and Investment" (Exhibit D), long term investments were made in Certificate of Deposits (CD's) and US Government Agency Securities (USGAS) of \$4.7million. The maturities stretch to 2027.

As interest rates rose this past year, the value of the CD's and the USGAS declined, therefore a loss in value on a poor investment choice occurred. A loss in value is NOT an investment earning, it is a loss. Coupon interest from the investments is interest earned. By combining the interest earned with the loss in value, the financial statements are unclear. There should be two line items 1) Interest earnings and loss on investments. This approach is proper reporting. CAAP?

It is extremely odd that the Utility Fund with almost identical cash and cash equivalents as the Community Service Fund (\$18.7 million each) would have vastly different results of "investment earnings" in the Statement of Cash Flows. This does not appear logical unless all the Utility Fund cash was invested short term. Also according to Mr. Navazio all investment income or loss would be allocated based on a percentage in each fund to the total.

Under ASSETS in the Statement of Net Position (Exhibit A) the word investments should be added to Cash and Cash equivalents. It is unclear why investments (Certificate of Deposits and US Government Agency Securities having maturities extending beyond one year would be considered as cash equivalents. According to GAAP:

"Cash equivalents are any short-term investment securities with maturity periods of 90 days or less. They include bank certificates of deposit, bankers acceptances, Treasury bills, commercial paper, and other money market instruments."

Unless there are unknown circumstances the investments over one year should be reported as long term investments and the investments over 90 days but less than one year should be reported as short term investments.

On another matter, the labeling of cash and cash equivalents should be consistent throughout the AFCR. In the Statement of Cash flows the word investments is added to the cash and cash equivalents but no indication of investments is stated in the Statement of Net Position. - Concur? For 23?

Lastly, included on the Statement of Cash Flows, restricted deposits have been included as cash, cash equivalents and investments. The deposits are restricted and should not be included since the amounts are held in the event of a failure to pay debt service or failure in completing a capital project and have constraints and are certainly not investments.

- Exhibit A - Statement of Net Position
- Exhibit B - Statement of Revenues, Expenses and Change in Net Position
- Exhibit C - Statement of Cash Flow
- Exhibit D - Note 2 - Cash, Cash Equivalents and Investments

INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS - JUNE 30, 2022

2. CASH, CASH EQUIVALENTS AND INVESTMENTS

At year-end, the carrying amount of the District’s checking deposits was \$14,947,779 while the bank balance was \$15,064,370.92. Of the bank balance, \$250,000 was covered by Federal Depository Insurance Coverage and the balance was covered by pledged collateral under an arrangement with the State of Nevada on behalf of all local units of government.

Cash Equivalents and Investments at June 30, 2022 consist of:	
Operating Checking Accounts	\$14,947,779
Petty cash and change funds	45,905
Nevada Local Government Investment Pool (average weighted maturity of 130 days)	
General LGIP Account	15,112,303
US Government Money Market	14,650,116
Government Agency Securities	3,346,240
Certificates of Deposit	<u>1,392,644</u>
Total Cash Equivalents and Investments	<u>\$49,494,987</u>
 Restricted Deposits	 \$ 461,870

Investments at June 30, 2022 consist of:	
General LGIP Account	15,112,303
US Government Money Market	14,650,116
Government Agency Securities	3,346,240
Certificates of Deposit	1,392,644
LGIP – Restricted Deposits	<u>461,870</u>
Total Investments	<u>\$34,963,174</u>

A portion of the District’s investments are placed with Wells Fargo Bank as custodian in the US Government Money Market, where fair value is determined by multiplying the number of trading units held, by the quoted market value on that date.

The District is a voluntary participant in the State of Nevada Local Government Investment Pool (LGIP), which has regulatory oversight from the Board of Finance of the State of Nevada. The District’s investment in the LGIP is equal to its original investment plus monthly allocation of interest income, and realized and unrealized gains and losses, which is the same as the value of the pool shares.

Nevada Revised Statutes (NRS 355.170) set forth acceptable investments for Nevada local governments. The District has adopted a formal investment policy that meets those limits and maturities for its investment choices. Essentially those investments are brokered certificates of deposit and government agencies.

The District categorizes its fair value measurements for investments within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs.

INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS - JUNE 30, 2022

Fair Value Measurements as of June 30, 2022

	Quoted Prices	Observable Inputs	Unobservable Inputs	Total
	Level 1	Level 2	Level 3	
Certificates of Deposit		\$ 1,392,644		\$ 1,392,644
Government Agency Securities		3,346,241		3,346,241
Investments not subject to fair value measurement hierarchy				
Interest Bearing Amounts - Investments				4,738,885
US Government Money Market				14,650,116
LGIP at Net Asset Value (Cash Equivalent)				15,112,303
LGIP Restricted Deposits at Net Asset Value				461,870
Total Fair Value Measurements				\$ 34,963,174

Interest Rate Risk - Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. To the extent possible, the District's portfolio shall remain sufficiently liquid so as to support near-term operating and capital expenditures. In so doing, the portfolio will have limited interest rate risk associated with long-term investments.

Investment Maturities by Investment Type as of June 30, 2022

	2023	2024	2025	2026	2027	Total

* Federally-insured bank CD's

** Moody's assigns government agency debt securities "AAA" rating.

Credit Risk – The District's Investment Policy is based on the Uniform Prudent Investors Act and Nevada Revised Statutes 355.170 (NRS). The NRS authorizes the District to invest in obligations of the U.S. Government or U.S. Treasury, providing maturities are 10 years or less from the date of purchase; the local government pooled investment fund; negotiable certificates of deposit issued by commercial banks or insured savings and loans; short-term negotiable notes or bonds issued by local governments; and bankers' acceptances eligible by law for rediscount with the Federal Reserve Banks not to exceed 180 days. Diversification of the District's investments is guided by the Uniform Prudent Investors Act.

Custodial Credit Risk – The District Investment Policy requires FDIC coverage or collateralization on deposit-type securities. The District's cash accounts on deposit with financial institutions were covered by federal depository insurance and are collateralized by the Office of the State Treasurer/Nevada Collateral Pool.

Concentration Credit Risk – The District Investment Policy calls for diversification without setting maximum allocations. The District invests in Federal government-sponsored enterprises (GSE) for safety and to meet statutory requirements. Individual CD's are held with a number of banks at or under the FDIC insured

INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT

NOTES TO FINANCIAL STATEMENTS - JUNE 30, 2022

limited calculated by those institutions. LGIP is an unrated external investment pool administered by the State Treasurer, with oversight by the State of Nevada Board of Finance. The District has investments with Federal Home Loan Bank that represent approximately 7% of the entire investment portfolio.

3. RESTRICTED DEPOSITS

The State of Nevada requires a deposit for sales tax collection and electronic filing of \$6,075, for a retail location in non-District owned premises.

The assets of the EPA State Revolving Fund (SRF) Reserve may be used to service the Nevada SRF Sewer Bond of 2002. These restricted assets are pledged to provide a measure of security for the Nevada State Water Pollution Control Revolving Fund. The pledge is for \$213,000, interest earned is in the account at the District's discretion. The EPA SRF Reserve is in the LGIP Account totaling \$230,729. The assets in the TRPA (Tahoe Regional Planning Authority) Reserve may be used to satisfy performance obligations on projects authorized by the TRPA. These usually cover several years for construction and inspection phases. The total required deposits are \$211,778, and interest earned is in the account at the District's discretion. The TRPA Project Reserve is in the LGIP Account totaling \$231,140:

Deposit with State of Nevada for Sales Tax	\$ 6,075
Building Deposit held by Parasol Tahoe Foundation	100
LGIP Restricted Deposits (SRF & TRPA)	<u>461,870</u>
Total Restricted Deposits	<u>\$ 468,045</u>

4. LEASES RECEIVABLE

The District is a lessor in 4 cancellable lease for radio tower space rental. The leases require payments of \$933 and \$1,815 monthly and annual payments from \$20,764 to 119,166. The District recognized \$131,178 in lease revenue and \$45,347 in interest revenue during the current fiscal year related to these agreements. As of June 30, 2022, the lease receivable is \$1,749,412 and deferred inflows of resource is \$1,695,703.

Re: Violation of GASB #34 - Improper Reporting of Internal Services Fund as part of Proprietary Funds 1) Statement of Net Position (Exhibit B), 2) Statement of Revenues Expenses and Changes in Net Position (Exhibit C) and 3) Statement of Cash Flows (Exhibit D). Page 24 to 27 of the June 30, 2022 Annual Comprehensive Financial Report.

As odd as this may seem, the Internal Services fund assets, liabilities, and net position are to be reported as part of the governmental activities in the "government wide" Statement of Net Position (Exhibit A) and at the same time the Internal Services Fund financials referred to above should be reported in the Proprietary Funds financials (Exhibits B,C,D). *both?*

The concern when developing GASB #34 was that Internal Service funds, by their purpose, was to collect enough revenues to cover the costs and expenses and thus took on the characteristics of a Proprietary enterprise fund. On the other hand, many respondents developing GASB #34 felt strongly that an Internal Service fund was a governmental fund. To compromise, internal service funds would be reported as a proprietary fund but would be in a separate column and NOT BE INCLUDED IN THE TOTALS FOR THE PROPRIETARY FUNDS paragraphs 426-428 of GASB #34 (Exhibit E). *we included it.*

IVGID management failed to comply with GASB #34 and included the internal services fund's amounts within the totals for the proprietary funds financials. *DF?*

Done properly the proprietary funds totals would match the amounts in the "government wide" Statement of Net position. *questionable*

I have attached Exhibits F,G & H which are the Proprietary Funds financials for the year ended June 30, 2015, the fiscal year prior to the inappropriate change of IVGID's proprietary funds to governmental funds. As seen, the Internal Service Funds are listed in a separate column on each for the three financials and are not included in the total of the proprietary funds.

This is obviously another case of IVGID staff and the current auditors lacking the appropriate experience to produce proper financial statements. If anyone can find a subsequent GASB pronouncement which would negate the requirements in GASB #34 please let me know.

- Exhibit A - Statement of Net Position (government wide) - June 30, 2022
- Exhibit B - Proprietary Funds Statement of Net Position - June 30, 2022
- Exhibit C - Proprietary Funds Statement of Revenues, Expenses and Changes in Net Position year ending June 30, 2022
- Exhibit D - Proprietary Funds Statement of Cash Flows year ending June 30, 2022
- Exhibit E - Paragraphs 426-428 of GASB #34 *Agree.*
- Exhibit F - Proprietary Funds Statement of Net Position - June 30, 2015
- Exhibit G - Proprietary Funds Statement of Revenues, Expenses and Changes in Net Position year ending June 30, 2015
- Exhibit H - Proprietary Funds Statement of Cash Flows for year ending June 30, 2015

The notes to the financial statements are an integral part of this statement.

GASB #34 - completed in 1999

425. One important aspect of Statement 20 is the continuation of FASB Statement 71 for governmental utilities that are rate regulated. However, the Board agreed that, although many general governments may argue that they are similar to rate-regulated entities, the provisions of Statement 71 should be limited to activities reported in enterprise funds and that meet the three criteria of Statement 71, paragraph 5. As noted in paragraph 62 of that Statement, normal Medicare and Medicaid arrangements with healthcare entities do not establish rates that bind customers for purposes of applying paragraph 5.

Internal Service Funds

426. Few ED respondents made comments—either supporting or opposing—the internal service fund provisions. Some respondents voiced their concern with the ED's proposal that internal service funds be reported as *proprietary funds* and as *governmental activities* in the government-wide financial statements. This requirement to "reclassify" internal service funds as *governmental activities* in the statement of net assets was the main area of respondent objection, with respondents citing either internal inconsistency or potential reader confusion as reasons for objecting.

427. The Board continues to believe that internal service fund activities should generally be included with governmental activities in the government-wide financial statements. Only a few respondents suggested that internal service fund balances should be included with business-type activities, and those who did argued only for consistency and comparability between "perspectives." The Board's perception of internal service funds as *governmental* was based on the nature of the activities, not the basis of accounting used in the funds.

428. To address respondent concerns, the Board agreed to simplify the overall model by reducing the perceived complexity. In the revised approach, a separate column is required to be used for internal service funds (that could be presented under a "governmental activities" subheading) to clarify the relationships of both the enterprise funds (similarly, under a "business-type activities" subheading) and the internal service funds to the government-wide financial statements. In this manner, the total enterprise funds column provides the details to the business-type activities balances and transactions in the government-wide statements, and the nonmajor fund data (for enterprise funds) will not be obscured by internal service fund information. In addition, the separate display of the internal service fund data as "governmental activities" provides the details of the reconciling item on the governmental fund financial

statements, avoiding the need to disclose those details in a note to the financial statements. If internal service funds were combined with nonmajor enterprise funds, the details would not be apparent.

Statement of Net Assets

429. This Statement requires proprietary funds to use a classified format in which current and noncurrent assets and liabilities and restricted assets should be distinguished based on the guidance in ARB 43. Research on user needs indicates a strong user interest in information about the classified assets and liabilities of business-type activities. Respondents to the ED generally agreed with the financial statement display requirements for proprietary funds, including the requirement for using a classified format.

430. The categories of net assets required for proprietary funds are the same as those proposed in the ED. Some respondents suggested that entities should be permitted to continue to distinguish between contributed capital and capital that is generated internally (retained earnings). However, the Board continues to believe that the focus of reporting in government should not be on a historical record of equity transactions, but on reporting net assets available to finance future services. Governments that wish to continue to provide information about the extent to which a particular enterprise fund has received capital subsidies may do so in the notes to the financial statements.

Statement of Revenues, Expenses, and Changes in Fund Net Assets

Change in net assets versus capital maintenance

431. As explained in paragraphs 282 through 286, the Board agreed to depart from the “dual-perspective” approach in the ED. As part of that conversion, the Board reexamined other provisions in the ED to identify those that may have been appropriate in a dual-perspective context but would produce inconsistencies within the new model. Of primary concern was the issue of applying a consistent approach throughout the model to financial reporting using the flow of economic resources measurement focus and accrual basis of accounting. The ED contained elements of two different approaches—a “change in net assets” approach and a “capital maintenance” approach. The *change in net assets* concept was most prevalent in the ED, especially in the statement of

MEMORANDUM

TO: Audit Committee

THROUGH: Ray Tulloch

FROM: Clifford F. Dobler

SUBJECT: Effluent Pipeline CIP charges to expense for FY 2020 and 2021

STRATEGIC

PLAN REFERENCE(S): None

DATE: 3-17-2022

Include on a new master Effects schedule of unadjusted differences

Taken in '22?

*we have taken for 16705
182
15 @*

I. RECOMMENDATION

The Audit Committee recommends that a charge off to expense of \$182,022 for costs incurred on the Effluent Pipeline during Fiscal years ending June 30, 2020 and 2021. The Audit Committee also recommends that the charge off occur in a restated ACFR for fiscal year 2021.

to restate.

II. BACKGROUND and ANALYSIS

The Effluent Pipeline Project (excluding the pond) has not progressed beyond preliminary stage activities which include conceptual formulation, evaluation of alternatives, determination of future needs, feasibility studies and development of financing alternatives. According to the Moss Adams report, costs incurred in the preliminary stage activities are typically expensed as they are not directly connected with creating service capacity.

On February 10, 2021, the Audit Committee submitted its report to the Board of Trustees and recommended that \$3,179,000 of costs incurred through June 30, 2019 should be expensed. The Board of Trustees accepted the report but the costs were not charged off in the fiscal year ending June 30, 2020.

GAAP for this? '21? financing?

In the fiscal year ending June 30, 2021, after considerable debate, \$3,110,110 was charged off as expense and reported as a prior period adjustment. An explanation of the \$69,000 difference between the AC recommendation and the charge off was never disclosed to the Audit Committee.

During fiscal years ending June 30, 2020 and 2021, additional costs of \$110,790 and \$71,233 have been recorded as Construction in Progress and not been charged off as an expense.

During the current fiscal year ending June 30, 2022, it is anticipated that approximately \$800,000 to \$1,000,000 in costs may be incurred for preliminary stage activities on the Effluent Pipeline and will require charge offs.

Exhibit A - Capital Improvement Report as of June 30, 2020
Exhibit B - Capital Improvement Report as of June 20, 2021

III. BID RESULTS

Not required

IV. FINANCIAL IMPACT AND BUDGET

Material weakness in financial reporting.

V. ALTERNATIVES

NONE

VI. COMMENTS

IGNOR the AC recommendation and continue inconsistency in financial reporting

VII. STRATEGIC PLAN REFERENCE(S)

None

VIII. BUSINESS IMPACT

Material weakness in financial reporting could lead to higher interest rates on the planned borrowing

MEMORANDUM

TO: Audit Committee

THROUGH: Ray Tulloch

FROM: Clifford F. Dobler

SUBJECT: Effluent Pipeline CIP charges to expense for FY 2020 and 2021

STRATEGIC

PLAN REFERENCE(S): None

DATE: 3-17-2022

Include on a new master Effects schedule of unadjusted differences

Taken in '22?

*we have taken for 16705

15 @*

I. RECOMMENDATION

The Audit Committee recommends that a charge off to expense of \$182,022 for costs incurred on the Effluent Pipeline during Fiscal years ending June 30, 2020 and 2021. The Audit Committee also recommends that the charge off occur in a restated ACFR for fiscal year 2021.

to restate.

II. BACKGROUND and ANALYSIS

The Effluent Pipeline Project (excluding the pond) has not progressed beyond preliminary stage activities which include conceptual formulation, evaluation of alternatives, determination of future needs, feasibility studies and development of financing alternatives. According to the Moss Adams report, costs incurred in the preliminary stage activities are typically expensed as they are not directly connected with creating service capacity.

On February 10, 2021, the Audit Committee submitted its report to the Board of Trustees and recommended that \$3,179,000 of costs incurred through June 30, 2019 should be expensed. The Board of Trustees accepted the report but the costs were not charged off in the fiscal year ending June 30, 2020.

GAAP for this? '21? financing?

In the fiscal year ending June 30, 2021, after considerable debate, \$3,110,110 was charged off as expense and reported as a prior period adjustment. An explanation of the \$69,000 difference between the AC recommendation and the charge off was never disclosed to the Audit Committee.

During fiscal years ending June 30, 2020 and 2021, additional costs of \$110,790 and \$71,233 have been recorded as Construction in Progress and not been charged off as an expense.

During the current fiscal year ending June 30, 2022, it is anticipated that approximately \$800,000 to \$1,000,000 in costs may be incurred for preliminary stage activities on the Effluent Pipeline and will require charge offs.

- Exhibit A - Capital Improvement Report as of June 30, 2020
- Exhibit B - Capital Improvement Report as of June 20, 2021

III. BID RESULTS

Not required

IV. FINANCIAL IMPACT AND BUDGET

Material weakness in financial reporting.

V. ALTERNATIVES

NONE

VI. COMMENTS

IGNOR the AC recommendation and continue inconsistency in financial reporting

VII. STRATEGIC PLAN REFERENCE(S)

None

VIII. BUSINESS IMPACT

Material weakness in financial reporting could lead to higher interest rates on the planned borrowing

From: Clifford F. Dobler

Re: Golf Courses Irrigation, Greens, Tees and Bunkers ect. Expenses rather than capital assets

IVGID management has established ongoing capital projects for various costs to maintain or improve the irrigation system and other costs for Greens, Tees and Bunkers at the Championship and Mountain Golf Courses. Over the past six years, an average of \$103,366 per year has been spent and accounted for as capital assets as opposed to operating expenses. EXHIBIT A provides a summary for each course and type of cost.

According to the 1/14/2021 report by Moss Adams LLP regarding best practices for capitalization, a key criteria to consider: "do the costs increase the service capacity".

While it is unknown exactly what has been accomplished, I am aware of the following items at the Championship Golf Course.

too much judgement.

- Irrigation - Replacement of the irrigation apparatuses are always being repaired or replaced with new and better products, but do these replacements actually increase capacity?
- Greens - I am unaware of any major changes to the Greens.
- Tees - An additional set of tees on most holes were installed to provide shorter lengths and it is possible that service capacity could have been increased by more beginners playing golf. Expansion of the tee boxes on Hole #7 (upper level) and #17 have been completed. The costs to expand hole #17 was \$25,531. Service capacity would not be increased but the expansion was probably done to provide a larger area as the many divots made the original tees boxes somewhat unattractive.
- Bunkers- There are two parts. First part - Several bunkers were removed or made smaller to make the course easier to play. Second part - Some years past, sand was purchased from an Idaho supplier and installed in each bunker, however, the sand had pebbles. After several complaints by seasoned golfers, the sand was removed, sifted through grates and then reinstalled. The unanticipated result was the sand became a "hard pan" and not acceptable for proper bunker play. Over the past 3 to 4 years, and still ongoing, a higher grade of sand has been and continues to be installed. Prior to the installation, existing sand had to be removed and new drainage lines inside the bunkers were installed. The service capacity was not increased and the costs, if capitalized, were to correct a mishap in purchasing. Sand will always need to be installed as bunker play normally scatters sand outside the bunkers which is meshed into the fairways.
- Last year, a small one foot high split log fence was installed around certain tees and greens. These costs may have been capitalized, but did not increase service capacity and the objective may have been an effort for beautification.

Conclusion and Recommendation - These costs should be considered ongoing maintenance expenses similar to maintaining cart paths and parking lots. Beautification costs should be expensed as the results are similar to a marketing expense.

Recommendation would be to expense these historical costs in fiscal year 2021, consistent with the look back time period determined for the "Prior Year Adjustments" of \$514,254 made in fiscal year ending June 30, 2021 for previously capitalized costs for paving repairs and painting at the District various venues.

MEMORANDUM

TO: Audit Committee

Closed.

THROUGH: Ray Tulloch

FROM: Clifford F. Dobler

SUBJECT: Lack of disclosure of Claims Payable - Note 13 and Restricted Funds - Note 14 in the 2021 Annual Comprehensive Financial Report

STRATEGIC PLAN REFERENCE(S): None

Fixed in '23

DATE: 3-29-2022

I. RECOMMENDATION

The Audit Committee recommends that Note 13 Claims Payable in the 2021 Annual Comprehensive Financial Report ("ACFR") be expanded to provide more information of the Claims. In the 2020 CAFR there is no indication of any Claims Payable in the Statement of Net Position or the Footnotes. As such, Note 13 is not factual. While the claim may have been included in accounts payable there was no claims payable. The expansion should provide detailed information on what was the nature, the terms, any interest and the IVGID fund which is responsible for the Claim.

?

The Audit Committee also recommends that Note 14 - Restricted Funds is unclear as to the purpose or the decision to restrict funds according to GASB Statement #34. The information contained in Note 14 should have been part of Note 13 relating to the Claims Payable. There is no cross reference other than a dollar amount.

Done in '22

In addition, there are other restricted funds which have not been disclosed in Note 14 which include \$141,727 in the Community Services Special Revenue Fund, \$1,000 in the Beach Special Revenue Fund, and \$324,306 in the Utility Fund.

*Why not?
for '22?*

II. BACKGROUND and ANALYSIS

IVGID was required by a settlement reached in August 2020 between Washoe County and property owners within the IVGID boundaries, to refund a portion of property taxes collected in prior years. IVGID proportional share of the refunds is reported to be \$1,359,757.

The Claims Payable is effectively a debt obligation and disclosure of the Claims and its terms should be included under Long Term Debt Obligations since the Claims extend beyond one year.

The Washoe County, Nevada Notes to Financial Statements June 30, 2021 (page 63) refers to the claim as a Property Tax Refund and is included in Long Term Debt Obligations.

VIII. BUSINESS IMPACT

Possible risk premium of interest rates on borrowings as a result of material weakness in financial reporting.

? How is this related to prior 2 pages?

EXHIBIT A

The District has elected to participate in the Nevada Public Agency Insurance Pool. The risk-sharing Pool secures insurance coverage for all its members. The Pool agreement provides coverage for the equivalent of errors and omissions and directors' and officers' acts. The Pool does not offer general or excess liability coverage for the Diamond Peak Ski Resort. Therefore, separate coverage is purchased.

A portion of each member's premium contributions to the Pool goes into the Loss Fund and the remainder pays for the excess insurance premiums and administrative expenses. The amount of the Loss Fund contribution is determined by the underwriters based on each member's average annual losses over the prior five years. This amount may vary each year.

The Pool pays all losses from the Loss Fund per occurrence, less the member's maintenance deductible. The District has a \$5,000 deductible. Excess insurance above the Pool's self-funded amount, is provided by secondary markets based on arrangements made with the Pool, including a Pool owned captive.

There were no District settlements in excess of insurance coverage in any of the three prior fiscal years.

Ski Liability Insurance is not covered by the Nevada Public Agency Insurance Pool. A separate insurance program, less the District's \$10,000 deductible, provides coverage.

The District has elected to participate in the Nevada Public Agency Compensation Trust (NVPACT) to provide workers compensation coverage for all employees. The District pays quarterly assessments. The assessments are based on actuarial estimates provided by NVPACT utilizing covered payroll data for the most recent calendar year. A portion of each member's assessment goes into the Loss Fund and the remainder pays for the excess insurance premiums and administrative expenses. This amount may vary each year.

13. CLAIMS PAYABLE

Claims payable are as follows for the last two fiscal years:

	<u>Beginning of Year</u>	<u>Additions</u>	<u>Deletions</u>	<u>End of Year</u>
FY2020	\$ -	\$1,359,757	\$ -	\$1,359,757
FY2021	1,359,757	-	-	1,359,757

14. RESTRICTED FUNDS

The General Fund reflects a restriction of \$1,359,736 to reflect the District's obligation under the terms of settlement of the property tax dispute filed against Washoe County et al, Nevada State Board of Equalization and the Department of Taxation by the Village League to Save Incline Assers, Inc. As the terms of the settlement are finalized, this amount is recorded as a liability at June 30, 2021 in the government-wide Statement of Net Position.

15. COMMITTED FUNDS

As of July 1, 2015, the Board of Trustees established Special Revenue, Capital Project and Debt Service funds for District Community Services and Beach activities. Based on governmental accounting standards the fund balance for the Special Revenue funds are committed for the purpose of recreation privileges utilizing the assessed facility fee. Furthermore, fund balances within the Community Services Capital Fund and Beach Capital Fund are further committed for the purpose of future planned capital improvement projects. These funds generally represent revenues collected through the Recreation and Beach Facility fees allocated specifically to capital projects.

Benefits	475,219	7,776	482,995
Total Compensated Absences	\$ 33,452,479	\$ 544,040	\$ 33,996,519

Net Other Postemployment Benefits Obligation

Prior to May 11, 2010, when the County established the Washoe County, Nevada OPEB Trust (Note 15), the County financed their net other postemployment benefits obligation on the pay-as-you-go basis with the funds accumulated in the Pre-Funded Retiree Health Benefits Fund. Currently, the OPEB Trust is funded from the General fund.

Due to other Governments – Business Type Activities

The Utilities fund has a liability to an outside government agency in the amount of \$17,581 which is not due within 12 months.

Pollution Remediation Obligation

The pollution remediation activities of the Central Truckee Meadows Remediation District (CTMRD) are paid for through an annual charge billed directly to residents and businesses within its boundaries. Accordingly, the CTMRD's pollution remediation obligation is limited to the net position accumulated by the fund for payment of future remediation related expenditures. All of the assets of CTMRD are held for remediation and are offset by a long-term liability for remediation. As of June 30, 2021, the remediation liability for net position held in CTMRD was \$4,770,578.

Claims and Judgments

The claims and judgments liability of \$23,030,000 consists of pending property and liability claims, workers' compensation claims, and unprocessed health benefits claims. These claims will be liquidated through the Risk Management and Health Benefits Internal Service Funds (Note 16). The Risk Management and Health Benefits Funds finance the payment of claims by charging other funds based on management's assessment of the relative insurance risk that should be assumed by individual funds or, as needed, through transfers from the General Fund.

Property Tax Refunds

The County was the defendant in various lawsuits with property owners disputing the County Assessor's valuation methods used for property within the Lake Tahoe Basin. The County vigorously defends the Assessor's valuations; however, in August 2020 the Board of County Commissioners approved a settlement agreement that would dismiss the case resulting in a roll back of property values and subsequent refunds in the amount of \$23,800,000. These property owner's claims will be paid starting July 1, 2021 by charging other funds based on management's assessment of the original property taxes paid that should be assumed by individual funds or, as needed, through transfers from the General Fund.

Discretely Presented Component Unit:

L ?

General obligation bonds

Truckee Meadow Fire Protection District (TMFPD) issued general obligation bonds to provide funds for the acquisition and construction of major capital facilities and equipment. General obligation bonds are direct obligations and pledge the full faith and credit of TMFPD and are additionally secured by a pledge of 15% of certain proceeds of liquor taxes, tobacco taxes, real property transfer taxes, basic governmental services tax and basic and supplemental sales taxes. During the fiscal year 2021, principal and interest paid on the bonds totaled \$156,635 and pledged revenues totaled \$1,559,487.

TMFPD issued general obligation capital improvement bonds in the year ended June 30, 2021 to provide funds for fire station projects. These bonds will be repaid from all legally available funds of TMFPD, including its capital projects fund and its general fund. The bonds have a stated rate of interest of 1.53% and are payable in equal installments over the next 15 years.

MEMORANDUM

TO: Audit Committee

Miss Adams -

THROUGH: Ray Tulloch

FROM: Clifford F. Dobler

SUBJECT: Expensing net costs which were historically capitalized relating to 3 ongoing projects in the Utility Fund .

STRATEGIC PLAN REFERENCE(S): None

Expensed in '22 ACFR ?

DATE: 3-17-2022

I. RECOMMENDATION

The Audit Committee recommends that \$1,169,230 in costs net of accumulated depreciation for 3 ongoing Utility Fund projects be ~~EXPENSED~~. The costs are for the fiscal years ending June 30, 2015 to 2021 (Exhibit A). It is recommend that the charge off and expense be incorporated in a revised Annual Comprehensive Financial Report as of June 30, 2021. The amount of accumulated depreciation must be determined.

low late-effects schedule ?

II. BACKGROUND and ANALYSIS

Several years ago, IVGID established 3 capital projects as follows:

- E* 1) Adjust Utility Facilities in NDOT/Washoe County Right of Way (Exhibit B)
- E* 2) Replace Commercial Water Meters, Vaults and Lids (Exhibit C)
- 3) Replace and Reline Sewer Mains, Manholes and Appurtenances (Exhibit D)

*SOS
NBV
1
CP
1:2*

The first project is mandated by various state agencies when public streets are being repaved. Normally the paving occurs annually. A contract is entered into with NDOT with estimates of cost of each manhole, vaults, or lid which are less than \$2,500 each and IVGID is responsible to complete the task .

CD: could cap. 2 open. break down list

The second project is the maintenance of 85 commercial water meters and 26 pressure reducing valve stations.

The third project is the replacement and rehabilitation of sewer mains , manholes and appurtenances . The District maintains 1,800 manholes, 100 miles of gravity sewer mains, 32 miles of force sewer mains and 79 air release valves. These do not include the Effluent Pipeline..

Some of the repairs and maintenance are accomplished by in house personnel. and larger projects may be contracted out.

The Moss Adams report dated 1-27-2021 - page 27 states: (Exhibit E)

"Governments often expend resources on existing capital assets. Most often, these expenditures simply preserve the asset's utility, and are expensed as routine repairs and maintenance. Any outlay that does no more than return a capital to its original condition, regardless of the amount expended should be classified as maintenance and repairs. Since maintenance and repairs provide no additional value, their cost should be recognized as expense when incurred. (GAAFR 23-10)"

In addition, Board Policy 9.1.0 has set a capitalization threshold of \$5,000 based on individual items

Lastly, the current draft Capital Improvement Budget for fiscal year 2022-2023 has listed \$155,000 for the three projects to be EXPENSED.

Exhibit A - Expensing the net costs which were historically capitalized relating to 3 ongoing projects in the Utility Fund

Exhibit B - Project Summary 2907DI1401A Adjust Utility Facilities in NDOT/Washoe County Right away

Project Summary

Project Number:	2097DI1401
Title:	Adjust Utility Facilities in NDOT/Washoe County Right of Way
Project Type:	E - Capital Maintenance
Division:	97 - Public Works Shared
Budget Year:	2021
Finance Option:	
Asset Type:	DI - Distribution Infrastructure
Active:	Yes

Project Description
 Adjust manholes and valve box covers in public streets in conjunction with Washoe County, RTC and Nevada Department of Transportation (NDOT) projects, including Environmental Improvement Projects (EIP). The scope of annual projects are not known until spring of each year and is based on the Washoe County Public Works, RTC and NDOT preliminary estimates of work. In addition to the valves and manholes within Washoe County's project limits, IVGID will adjust some of the miscellaneous valves and manholes that are out of specifications if discovered. On occasion, NDOT and County projects can require utility relocation of a scope beyond simply adjusting manholes and valve box covers. The budget provided in this data sheet will also be utilized to cover the design costs associated with utility relocation on such projects.

Project Internal Staff
 Engineering will do the contract administration, bidding, and inspection. Work is done by outside contractors.

Project Justification
 As a requirement of our use of public rights-of-way for Utility improvements the District must adjust our structures to comply with the requirements of public infrastructure projects. Washoe County's CIP includes money for road and EIP work in Incline Village and Crystal Bay generally every year. In May 2021 Washoe Co. is expected to begin work on their Lower Wood Creek EIP likely affecting IVGID utilities. In 2021 NDOT anticipates extensive work along both SR28 and Mount Rose Highway. In prior years, the District has spent between \$30,000 and \$70,000 each year to complete this work. Certain projects can include complete relocation of sewer and water mains to avoid conflict with the infrastructure to be installed by the County or NDOT.

Project Summary

Project Number:	2299DI1103
Title:	Replace Commercial Water Meters, Vaults and Lids
Project Type:	E - Capital Maintenance
Division:	99 - General Administration - Water
Budget Year:	2021
Finance Option:	
Asset Type:	DI - Distribution Infrastructure
Active:	Yes

Project Description				
The District owns and maintains 85 commercial water meters installed in heavy duty meter vaults and 26 pressure reducing valve stations. This project will continue the replacement of these commercial water meters and PRV vaults and or lids. Current useful life of a commercial meter is 20-50 years dependent on use, pressure and flows. Vault life can be approximately the same time period depending on location, traffic and the elements. These meters, vaults and lids have been put on our replacement list by priority but the list can change from year to year depending on the needs. These meters are in various configurations ranging in size from 4 to 10 inch. In coming years there will be continued replacement needed for meters, vaults and lids.				
Project Internal Staff				
Public Works staff will order and purchase the meters, vaults and lids, and bid and oversee the installations. Contractors will install the meters and replace vaults and lids.				
Project Justification				
Replacement of the commercial water meters will increase accuracy in meter reading and increase revenue. As meters age, they become less accurate and will measure water usage below actual, as is required by AWWA standards. Commercial water meters can last 20-50 years. Typically old meters are not worth repairing because parts are unavailable and newer meters meet the water demand profiles of our customers. Many meter vaults and lids are also in disrepair and need replacement for public and crew safety reasons and ease of accessibility for testing. This project allows for radio reading of all the commercial and residential meters combined. This project is programmed to replace the meter, vaults and lids using a just-in-time approach to maximize use prior to failure. In 2020-21, the District will be replacing all the large meter transponders from radio transponders to cellular transponders to improve data collection, enhance customer service and provide rel water usage tracking for these large revenue meters. Staff has received a quote of \$38,000 from Badger Meter for the materials. Staff would install during meter calibration and testing of these meters.

Project Summary

Project Number:	2599SS1203
Title:	Replace & Reline Sewer Mains, Manholes and Appurtenances
Project Type:	E - Capital Maintenance
Division:	99 - General Administration - Sewer
Budget Year:	2021
Finance Option:	
Asset Type:	SS - Sewer System
Active:	Yes

Project Description

This project includes the replacement and rehabilitation of sewer mains, manhole and appurtenances. Sections of sewer line, manholes and air relief valve rehabilitation have been identified for replacement. A priority list has been developed by Public Works staff. In addition to regular maintenance, sewer rehabilitation projects help the District to stay in compliance with Nevada Department of Environmental Protection (NDEP) permits and avoid sanitary sewer overflows. The District maintains approximately 1,800 manholes, 100 miles of gravity mains, 32 miles of force main and 79 air relief valves.

Project Internal Staff

Public Works staff will perform design, bid, contract administration and inspection. Larger projects will be contracted out while smaller projects will be performed by Public Works staff.

Project Justification

Line blockages and ground water intrusion increases the District's operating costs and puts the District at risk of violating its (NDEP) permit and potentially incur fines. Typically older clay sewers exhibit poor performance and are likely candidates for blockages and increased maintenance activities mainly due to root intrusion. There are manholes throughout the service area that require rehabilitation to prevent groundwater intrusion, which can also cause the concrete structure to deteriorate and to possibly collapse. By keeping close track if line blockages, customer complaints and closed circuit television (CCTV) inspection results, a priority list has been established for replacement or relining of sewer mains and manholes. The priority is based on a score, flow, proximity to streams and/or the lake. Older air release valves (arv's) can be difficult to access and unsafe to work on. Parts for these valves are obsolete. By repairing faulty mains and manholes, we also reduce the potential for sewer overflows in storm events while reducing the flows to the wastewater treatment plant. This works in conjunction with a strong preventative maintenance program of line cleaning and CCTV work. Extensive sewer main rehabilitation work was done in 2014 by CIPP lining and future projects are planned for anticipated failures as pipes age. ARV replacements are ongoing by IVGID crews.

Moss Adams Report

machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible and intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. Infrastructure assets are long-lived capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets including roads, bridges, tunnels, drainage water and sewer systems. (GASB Cod Sec 1400.103)

Accepted practice includes recognition of the different stages of a project including preliminary, construction, and post-construction. Preliminary stage activities include conceptual formulation and evaluation of alternatives, determination of future needs, feasibility studies, and development of financing alternatives. Construction stage includes the engineering and design work on the chosen alternative, actual construction costs, direct payroll of employees working on the project along with certain overhead, and ancillary charges necessary to get the asset in working condition. Post construction stage includes, among other costs, training of employees on use of a particular asset. (GASB Cod Sec 1400.143-149)

Costs incurred in the preliminary and post-construction stages are typically expensed as they are not directly connected with creating service capacity of a particular asset. A project is not considered to enter the construction stage until an actual project alternative has been selected, it is determined the selected alternative will meet the intended needs and objectives, financing for the project has been identified, and the entity establishes in some meaningful way it is committed to proceed with the project such as, for example, including the financing sources and necessary expenditures in the budget. (GAAFR 23-7 to 9)

Governments often expend resources on existing capital assets. Most often, these expenditures simply preserve the asset's utility and are expensed as routine repairs and maintenance. Any outlay that does no more than return a capital asset to its original condition, regardless of the amount expended, should be classified as maintenance and repairs. Since maintenance and repairs provide no additional value, their cost should be recognized as expense when incurred. (GAAFR 23-10)

Best practices to consider for inclusion in policies and practices include:

- The different stages of a project and the types of costs incurred in the different stages.
- The accounting treatment of costs incurred in the different stages.
- What elements or criteria need to be met for expenditures associated with a repair project to be eligible for capitalization based on the concept of service capacity in addition to the extension of useful life of an asset.
- Provide for a different dollar threshold for the different classifications of capital assets. (GFOA best practices)

Evaluation of the District's current capitalization practices.

We find that the District's practice of capitalizing expenditures incurred in what would meet the definition of the preliminary stage of a project as noted above is inconsistent with the accepted practice. Examples include payments to external consultants and internal staff payroll costs to develop master plans, feasibility studies, and related engineering and overall system planning. Current established practice includes the capitalization of certain costs incurred in a preliminary stage such as engineering, architectural, and design for projects that are actually constructed to the extent those costs would have been necessary for the project in any event.

MEMORANDUM

TO: Audit Committee

THROUGH: Ray Tolloch

FROM: Clifford F. Dobler

SUBJECT: Note 22 - Prior Period Adjustment - Annual Comprehensive Financial Report. as of June 30, 2021 (ACFR)

STRATEGIC PLAN REFERENCE(S): None

DATE: 3-17-2022

M -

I. RECOMMENDATION

That the Audit Committee make a recommendation to the Board of Trustees to retract the Prior Period Adjustment transferring \$1,637,400 from the Community Services Special Revenue Fund to the Capital Project Fund. In addition it is recommended that the required transfer of \$1,742,843 from the Community Services Special Revenue Fund to the Capital Project Fund be enacted and restated in the 2021 ACFR.. The proper transfer is required to fund the necessary resources necessary to pay for the actual expenditures incurred during fiscal year 2020-2021. In addition, disclosure of the transfer is required in Note 7 - Interfund Accounts and Transfers of the 2021 ACFR.

\$ 106k increase

II. BACKGROUND and ANALYSIS

Annually the District Board of Trustees adopts a Facility Fee for Community Services which is allocated separately into operations (special revenue fund) capital projects and debt service. The total amount allocated to each fund was improperly recorded as revenues in the Special Revenue Fund and subsequent transfers were made to the Capital Project Fund and Debt Services. The transfers, however, exceeded that amount of facility fees allocated resulting in

adj for this?

additional transfers from the Special Revenue Fund. These excess transfers did not comply with requirements of GASB #54.

All expenditures from 2016 to 2021 were funded by resources from capital asset sales, grants and enough resources from the Special Revenue Fund. Exhibit A provides evidence that no additional resources were required from 2016 to 2021 to justify a prior period adjustment. It is unknown the rationale of the prior period adjustment of \$1,637,400.

Staff to explain

However, in 2021, The Board of Trustees authorized only \$536,571 of Facility Fees for the Community Service Capital Project Fund which was far below the actual expenditures of \$2,907,254 recorded. Additional resources of \$90,005 from capital grants and sale of capital assets were obtained and for some unknown reason only \$537,835 was transferred from the Community Services Special Revenue Fund. As a result, the resources required to pay for the expenditures was short \$1,742,843. This shortage could only be obtained from the Community Services Special Revenue Fund or possibly the General Fund.

For some reason only \$537,835 was transferred from the Special Revenue Fund leaving another \$1,742,843 to be transferred.

The unsubstantiated prior period adjustment of \$1,637,400 was used to cover most of the 2021 expenditures but a remaining balance of \$105,443 was not covered. This shortage could possibly be considered non-compliance with NRS 354.626 "Unlawful expenditures of money in excess of amounts appropriated". It is unclear why a transfer for the full amount of expenditures was not made since the budget for F/Y 2021 provided \$5,594,546 to be transferred from the Special Revenue Fund to the Capital Project Fund. Exhibit B & C).

Another matter which cannot be corrected is the \$3,131,381 transfers (other than transfers of facility Fees) from the Community Services Special Revenue Fund to the Community Services Capital Project Fund in violation of GASB #54 paragraph 30 Exhibit E. Including the AC recommendation the total transfers would be \$4,874,224 for the 6 year period (Exhibit D)

"Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects."

Why-impact?

= 4,874,224

Improper financial reporting

EXHIBIT A

General Fund	\$ 66,947
Utility Fund	3,341,387
Community Services Fund	2,110,924
Beach Fund	453,019

Budgeting for the Fiscal Year Ending June 30, 2022:

The District's budgeting for the fiscal year ending June 30, 2022 anticipates a reduction in Fund Balance and Net Position caused by completion of capital projects. The identified reductions include; General Fund by \$217,063 including implementation of a new Human Resources Management and Payroll System; Community Services reduction of \$3,757,491 (including \$550,000 for the Mountain Golf Course Path Replacement Project, \$800,000 for the Recreation Center Locker Room Improvement Project). The Beach Fund has a reduction of \$2,066,683 related to renovation of the Burnt Cedar Pool as well as Incline Beach Facility Improvements. The Utility Fund capital plan anticipates a draw-down in Net Position primarily due to advancing the Effluent Export Pipeline Project.

The District has committed to these contractual arrangements for capital improvement projects:

Contractor	Project	Contract Amount	Completed (6/30/21)	Remaining Amount
CORE West, Inc	Burnt Cedar Pool Imp	\$3,845,865	\$773,143	\$3,072,722
Avail Enterprises, LLC	Rec Center Lobby	159,832	-	159,832
Ward-Young Architects	Rec Center Lobby	39,724	16,237	20,487
Granit Construction	Effluent Pipeline	369,218	25,618	343,600

21. STATE OF NEVADA TAX ABATEMENTS AFFECTING DISTRICT REVENUES

The State of Nevada has entered into various tax abatement agreements that reduce the tax revenues of local governments. Taxes reduced include the Consolidated Tax, which includes allocated sales and use tax revenue. State law establishes the abatements. The District's estimated share of abatements for this fiscal year is \$41,360.

22. PRIOR PERIOD ADJUSTMENT

The Governmental Funds Statement of Revenues, Expenditures, and Change in Fund Balance has three prior period adjustments. The first is a transfer between the Community Services Special Revenue Fund and the Community Services Capital Projects Fund that was reported in the prior year \$1,637,400 lower than the entry in the financial reports. The second adjustment is for the \$243,512 that was reported as unavailable revenue but should have been recorded as revenue when received in prior years. There were several assets capitalized in prior years that the auditors determined should not have been capitalized. The total affect to the financial reports was \$3,267,861. \$3,166,966 was in the Utilities fund, including \$3,100,110 of the Effluent Pipeline project that was written off. Governmental activities had \$100,895 in book value of assets written off as a prior period adjustment.

Governmental Fund Type Definitions

28. Governmental fund types include the general fund, special revenue funds, capital projects funds, debt service funds, and permanent funds, as discussed in paragraphs 29–35.

General Fund

29. The general fund should be used to account for and report all financial resources not accounted for and reported in another fund.

Special Revenue Funds

30. Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. Those specific restricted or committed revenues may be initially received in another fund and subsequently distributed to a special revenue fund. Those amounts should not be recognized as revenue in the fund initially receiving them; however, those inflows should be recognized as revenue in the special revenue fund in which they will be expended in accordance with specified purposes. Special revenue funds should not be used to account for resources held in trust for individuals, private organizations, or other governments.

31. The restricted or committed proceeds of specific revenue sources should be expected to continue to comprise a substantial portion of the inflows reported in the fund.² Other

²For revolving loan arrangements that are initially funded with restricted grant revenues, the consideration may be whether those restricted resources continue to comprise a substantial portion of the *fund balance* in the fund's balance sheet.

resources (investment earnings and transfers from other funds, for example) also may be reported in the fund if those resources are restricted, committed, or assigned to the specified purpose of the fund. Governments should discontinue reporting a special revenue fund, and instead report the fund's remaining resources in the general fund, if the government no longer expects that a substantial portion of the inflows will derive from restricted or committed revenue sources.

32. Governments should disclose in the notes to the financial statements the purpose for each major special revenue fund—identifying which revenues and other resources are reported in each of those funds.

Capital Projects Funds

33. Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Debt Service Funds

34. Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

12b

MEMORANDUM

TO: Audit Committee

THROUGH: Ray Tolloch

FROM: Clifford F. Dobler

SUBJECT: Improper disclosure of a prior period adjustment of \$243,512 - Note 22 Prior Period Adjustments - 2021 Annual Comprehensive Financial Report (ACFR)

STRATEGIC PLAN REFERENCE(S): None

DATE: 3-18-2022

I. RECOMMENDATION

The Audit Committee recommends that the disclosure regarding the \$243,512 prior period adjustment indicated in Note 22 of the 2021 Annual Comprehensive Financial Report (Exhibit A) should be restated to reflect actual information.

Suggested revision

\$243,512 was received by IVGID in 2017 to satisfy a judgment against an individual. The payment was reported as a restricted deposit and a deferred inflow until all appeals by the individual were concluded. Appeals were finally resolved in 2020 wherein the restriction deposit and deferred inflow should have unwound and reported as General Fund revenue in fiscal year 2020.

II. BACKGROUND and ANALYSIS

For several years, a lawsuit involving an individual and IVGID resulted in a judgment in favor of IVGID for \$243,512. In 2017 the cash was received by IVGID and recorded as a Restricted Deposit and a Deferred Inflow of Resources until all appeals of the judgment were resolved. In 2020, a final order by the Nevada Supreme Court was rendered in favor of IVGID, and the cash

E/S?

was no longer required to be a restricted deposit and a deferred inflow and should have been unwound and reported as General Fund Revenue.

The prior period adjustment stated "the second adjustment is for the \$243,512 that was reported as unavailable revenue but should have been recorded as revenue when received in prior years."

The Audit Committee deems the description to be inaccurate.

1) The recording and reporting was a deferred inflow of revenue not an "unavailable resource". (Exhibit B)

2) When the money was received in 2017 it had to be restricted until all appeals were resolved so the statement that the amount "should have been recorded as revenue when received" is inaccurate. The cash was received in 2017 but did not become revenues until 2020.

3) There was no indication that the revenues were received in the General Fund

This amount included interest earned since 2017.

General Fund	\$ 66,947
Utility Fund	3,341,387
Community Services Fund	2,110,924
Beach Fund	453,019

Budgeting for the Fiscal Year Ending June 30, 2022:

The District's budgeting for the fiscal year ending June 30, 2022 anticipates a reduction in Fund Balance and Net Position caused by completion of capital projects. The identified reductions include; General Fund by \$217,063 including implementation of a new Human Resources Management and Payroll System; Community Services reduction of \$3,757,491 (including \$550,000 for the Mountain Golf Course Path Replacement Project, \$800,000 for the Recreation Center Locker Room Improvement Project). The Beach Fund has a reduction of \$2,066,683 related to renovation of the Burnt Cedar Pool as well as Incline Beach Facility Improvements. The Utility Fund capital plan anticipates a draw-down in Net Position primarily due to advancing the Effluent Export Pipeline Project.

The District has committed to these contractual arrangements for capital improvement projects:

Contractor	Project	Contract Amount	Completed (6/30/21)	Remaining Amount
CORE West, Inc	Burnt Cedar Pool Imp	\$3,845,865	\$773,145	\$3,072,722
Avail Enterprises, LLC	Rec Center Lobby	159,832	-	159,832
Ward-Young Architects	Rec Center Lobby	39,724	16,237	20,487
Granit Construction	Effluent Pipeline	369,218	25,618	343,600

21. STATE OF NEVADA TAX ABATEMENTS AFFECTING DISTRICT REVENUES

The State of Nevada has entered into various tax abatement agreements that reduce the tax revenues of local governments. Taxes reduced include the Consolidated Tax, which includes allocated sales and use tax revenue. State law establishes the abatements. The District's estimated share of abatements for this fiscal year is \$41,360.

22. PRIOR PERIOD ADJUSTMENT

The Governmental Funds Statement of Revenues, Expenditures, and Change in Fund Balance has three prior period adjustments. The first is a transfer between the Community Services Special Revenue Fund and the Community Services Capital Projects Fund that was reported in the prior year \$1,637,400 lower than the entry in the financial reports. The second adjustment is for the \$243,512 that was reported as unavailable revenue but should have been recorded as revenue when received in prior years. There were several assets capitalized in prior years that the auditors determined should not have been capitalized. The total affect to the financial reports was \$3,267,861. \$3,166,966 was in the Utilities fund, including \$3,100,110 of the Effluent Pipeline project that was written off. Governmental activities had \$100,895 in book value of assets written off as a prior period adjustment.

Exhibit B

19. COMMITMENTS AFFECTING FUTURE PERIODS

General Fund:

The District entered into an unemployment insurance contract with First Nonprofit Companies for total premiums of \$185,000 for calendar year 2020 services. As of June 30, 2020, \$92,500 in quarterly deposits are remaining as a part of the subsequent year's budget.

Capital Improvement Project Budget Carryover:

The District budgets for capital improvement projects one year at a time for spending authority. The actual execution of construction or acquisition can span one or more fiscal years. The District identifies carryover and unspent budget authority for those projects. The amounts for governmental fund types are re-budgeted for the subsequent fiscal year. The unused Utility Fund resources become part of Unrestricted Net Position, and are budgeted under cash flow on the State of NV budget forms. Amounts carried over at year-end are:

General Fund	\$ 300,000
Utility Fund	2,533,786
Community Services Fund	2,502,701
Beach Fund	-

Budgeting for the Fiscal Year Ending June 30, 2021:

The District's budgeting for the fiscal year ending June 30, 2021 anticipates a reduction in Net Position caused by completion of capital projects. The identified reductions include; General Fund by \$650,150 including \$300,000 for a new Human Resources Management and Payroll System; Community Services reduction of \$6,127,741 including \$996,630 for the Tennis Center Renovation, \$700,000 for Championship Golf Course Maintenance Building improvements, \$520,000 for Ski Way and Diamond Peak Parking Lot Reconstruction, \$264,864 for Lakeview Ski Lift Improvements, and \$166,395 for the Mountain Golf Cart Path Replacement. The Beach Fund has a reduction of \$454,500 related to work on Burnt Cedar Pool and Incline Beach Facility Improvements.

The District has committed to these contractual arrangements for capital improvement projects:

		Contract Amount	Completed at June 30, 2020	Remaining Commitment
<i>Utility Fund:</i>				
Paso Robles Tank, Inc.	Water Reservoir Safety and Security Improvements	\$ 109,000	\$ -	\$ 109,000
<i>Community Services Capital Fund</i>				
Daniel Fraiman Construction	Tennis Center Renovation Project	709,000	9,680	699,320
Mission Controls, Inc.	Lakeview Charlift Control Panels	96,800	-	96,800
Cruz Construction	Maintenance Building Drainage & Washpad	475,433	-	475,433

20. RESTRICTED DEPOSIT HELD IN LAWSUIT

The District has been engaged in a lawsuit with an individual over many years. A District Court decision made an award to the District for the recovery of fees. Both the Court decision and the fees awarded are under an appeal. In order to reduce possible longer-term exposure to the individual, the District received \$241,646 on September 14, 2017. These refunds are in a separate money market account and classified as a Deferred Inflow until all appeals under the lawsuit are

resolved. An appeal was filed with Nevada Supreme Court, and a final order was issued in favor of the District in November 2020.

21. STATE OF NEVADA TAX ABATEMENTS AFFECTING DISTRICT REVENUES

The State of Nevada has entered into various tax abatement agreements that reduce the tax revenues of local governments. Taxes reduced include the Consolidated Tax, which includes allocated sales and use tax revenue. State law establishes the abatements. The District’s estimated share of abatements for this fiscal year is \$21,199.

22. PRIOR YEAR ADJUSTMENTS

The District’s financial statements for the year ended June 30, 2020 reflect prior year adjustments related to (1) unearned revenues from Golf Passes recorded in the prior year (\$138,505), (2) to restate as expenses \$289,660 for selected Construction in Progress items that were reported as assets in the financial statements for the year ended June 30, 2019, as well as (3) restate as expense \$514,254 for selected items that were reported as capital assets in the financial statements for the year ended June 30, 2019.

Construction in Progress items restated as expense include \$212,044 related to development of a Parks Master Plan and \$77,216 related to improvements planned at Incline Village Ballfield. Management has determined that no future capital asset(s) are expected to be constructed as a result of the preliminary design work that had been included in prior year’s Construction in Progress.

Capital Asset items restated as expense include items determined to qualify as reporting as repairs and maintenance, consistent with established Board policy and practices. Examples include pavement maintenance, parking lot repairs, and painting projects. This determination should have been made in prior year(s).

As a result, a total of \$665,009 is recorded as a prior year adjustment in the governmental activities of the government-wide financial statements and a total of \$138,505, is recorded as a prior year adjustment in the Community Services Special Revenue Fund in the governmental funds financial statements.

To: IVGID Board of Trustees, IVGID Audit Committee, Counsel Josh Nelson and Director of Finance Paul Navazio

From: Clifford F. Dobler

THIS MEMORANDUM REPLACES MY AUGUST 2, 2021 MEMORANDUM IN ITS ENTIRETY

Subject: Non-compliance with NRS 354: Issuing contracts for the Burnt Cedar Pool construction in excess of available resources with the possible intent to mislead the public and the Board of Trustees in order to obtain approval of these contracts.

Executive Summary

At the April 29, 2021 Board of Trustees meeting, IVGID senior staff requested approval and appropriation of \$4,042,045 for 5 contracts to construct a new Burnt Cedar Pool without having available resources as defined in NRS 354.410 (Exhibit A) which may have violated provisions of NRS 354.626 "UNLAWFUL EXPENDITURE OF MONEY IN EXCESS OF AMOUNT APPROPRIATED; PENALTIES; EXCEPTIONS." (Exhibit B)

The Board of Trustees approved the following contracts according to the meeting minutes (Exhibit C):

- CORE Construction - Guaranteed Maximum Price \$3,749,404
- CORE Construction - Alternates #1,#2,#3,#4, 96,461
- TSK Architects - Construction Administration 105,680
- TRI Sage - Construction Inspection Services 69,500
- Reno Tahoe Geo Associates, Inc. 21,000

Total Contracts \$4,042,045

Available Resources

According to NRS 354.410, available resources for a capital projects fund would be the unappropriated ending fund balance based on the 2020/2021 budget submitted to the State on Form 4404LGF. The budgeted ending fund balance for the Beach Capital Projects Fund was \$2,753,172 (Exhibit D). On December 20, 2020, \$258,289 was appropriated for additional design work and Resolution 1882 (Exhibit E) was also approved and submitted to the Nevada Department of Taxation. As a result, the available resources were reduced to \$2,494,883 from the Beach Capital Projects appropriations of the Beach Facility Fees.

Appropriations exceeding Available resources

The Board of Trustees approving contracts for \$4,042,045 exceeded Available Resources and the appropriations in the Beach Capital Projects Fund by \$1,547,162. The approval appears to directly violate NRS 354.626 which states:

"No governing body or member thereof, officer, office, department or agency may, during any fiscal year, expend or contract to expend any money or incur any liability or enter into any contract which by its terms involves the expenditure of money in excess of the amounts appropriated for that function..."

When contracts are issued there must be available resources and appropriations to cover the contracts. Contracts are commitments against resources. Logic should have prevailed that if there were not available resources, then contracts in excess of available resources could not be issued no matter when expenditures under the contracts take place. The

NRS does not require this

presumption that since only \$1,000,000 of the \$4,045,045 would be spent in fiscal year 2020/2021 does not render NRS 354.626 irrelevant and exempt the District from compliance.

Resolution 1886 - Deficient in so many ways

On April 29, 2021, Mr. Navazio presented Resolution 1886 (**Exhibit F**) to the Board of Trustees to appropriate and provide a budget augmentation of only \$1,000,000 from available resources of the Beach Capital Projects Fund in order to provide funding for commencement of construction work in the current fiscal year ending June 30, 2021. The Resolution was unanimously approved by the Board of Trustees.

Issues

According to NRS 354.626, the Board of Trustees could not issue contracts exceeding the available resources in the Beach Capital Projects Fund. Appropriating only \$1,000,000 would not satisfy the requirements of NRS 354.626. According to the 4/29/2021 Board meeting minutes (**Exhibit G**), Mr. Navazio made the following statement: "There is sufficient funds available in the fund balance, we are not asking nor is it required that the Board appropriate the entire amount of the contract, this is an early opening and that is what we clarified with the State of Nevada Department of Taxation just earlier this week." A request for public records did not provide any evidence that the Department of Taxation ("DoT") was informed of the dollar amount that contract commitments exceeded available resources. According to Mr. Navazio, the only guidance provided by the DoT (**Exhibit H**), which was included as a supplemental to the 4/29/2021 Board of Trustees agenda, was that the District may use unappropriated current year revenues and projected fund balance as an "available resource" as defined in NRS 354.410. Nothing was evidenced by the DoT regarding only appropriating a PORTION of the funds needed for fulfillment of the contracts issued to satisfy NRS 354.626.

Mr. Navazio continues: "so the funding plan is to advance no more than \$1 million that would be spent on this contract, and the small risk that the Board absolutely needs to be aware of is that the recommendation to proceed with the contract tonight presumes that the Board is going to approve next year's capital budget that will include the balance of the funding that is needed for the project." This statement circumvents the requirements of NRS 354.626. It is quite apparent that Mr. Navazio was well aware that available resources were not adequate and NRS 354.626 was not being complied with.

After approval by the Board of Trustees, the DoT may have accepted Resolution 1886 augmenting the 2020/2021 budget for only \$1,000,000 based upon incomplete information. There is no written record demonstrating that Staff provided the DoT with the total amount of money of the Board approved contracts exceeding available resources in the Beach Capital Projects Fund and the DoT permitting only \$1,000,000 to satisfy the requirements of NRS 354.626.

Within Resolution 1886 (**Exhibit I**) the following statement was made: "**WHEREAS**, the funding for construction phase of the Burnt Cedar Pool Renovation-Project in the amount of \$4,350,000 is included in the District's Capital Improvement Program for FY 2021/22." This is a factually incorrect statement as the 5 year plan for 2021 to 2025, approved on 5/27/2021, only provided \$2,700,000 for fiscal year 2021/2022 (**Exhibit J**) and when the 2021/2022 capital budget was approved on May 27, 2021 (**Exhibit K**), there was only \$3,350,000 budgeted for the Burnt Cedar Pool project.

On September 15, 2021, in a verbal conversation with IVGID Counsel Josh Nelson, I had indicated that NRS 354.626 had been violated by issuing contracts in excess of available resources. He stated the following:

- Since the CORE contract has a "Owner May Terminate for Convenience" clause (**Exhibit L**), then IVGID would always have available resources since, if resources were not available, the contract could be cancelled.
- NRS 354.626 has never been tested in the courts.
- We will try to do better next time.

Inaccurate information on Available Budget, Estimated Project Budget and false Project Summary provided to the Board of Trustees on April 29, 2021 with the possible intent to deceive.

At the April 29, 2021 Board of Trustees meeting, a memorandum dated April 21, 2021 provided inaccurate information on the Total Available Budget, the Estimated Project Budget and a false Project Summary for the Burnt Cedar Pool Project (**Exhibit M**) as follows:

Total Available Budget

• FY 20/21 Funds	\$225,000
• FY 20/21 Budget Augmentation - Resolution 1882	258,289
• FY 21/22 Funds	4,350,000
Total	\$4,833,289

Estimated Project Budget

• Design and District Staff time - Previously appropriated	\$475,130
• Construction Contracts - Construction and Support	4,071,365
• District Staff Time during Construction	75,000
• Construction Reserve (permits, furnishing, etc)	175,000
Total	\$4,767,175

For the record, the project budget and subsequent augmentation for fiscal year 2020/2021 was only \$483,289 (\$225,000 and \$258,289) and an additional \$2,700,000 was planned in fiscal year 2021/2022 and approved by the Board of Trustees. As such, the estimated costs of \$4,767,175 were \$1,583,886 higher than what was contemplated.

Stating that the Available Budget was \$4,833,289 was entirely false and directly violated NRS 354.410 as the \$4,350,000 for FY21/22 budget did not exist, and therefore, could not be available.

Rather than reporting the actual facts, a false unapproved Project Summary (**EXHIBIT M**) was included. It stated that the capital budget for fiscal 2021/2022 was \$4,350,000 when the actual plan was only \$2,700,000.

This may indicate intent to deceive the public and the Board that the approved capital plan provided adequate funds for the project and the funds were available.

During the entire period of time from August 2020 until April 2021, the Board was made aware that the Beach Capital Projects Fund did not have adequate resources to fund the estimated costs. As early as August 12, 2020, the project estimate was \$5,623,480 and suggestions were made to 1) increase the current Beach Facility Fee, or 2) keep the Beach Facility Fee high for the next fiscal year, or 3) borrow money.

As the estimated costs settled into \$4.8 million, the existing budget and the large cost overrun was never discussed.

On May 5, 2021, the Board of Trustees, aware that since the Community Services Funds had a substantial amount of excess fund balance above appropriate levels, agreed to allocate a major portion (\$5.3 million = 87%) of the 2021/2022 Facility Fees to the Beach Fund, with the understanding that approximately \$1,100,000 would be used to fund operations and the remaining \$4,200,000 would be used to fund some small capital projects and provide funds for a new building at Incline Beach. However, because the Burnt Cedar Pool project was over the original budget by almost \$1.6 million, nothing was allocated in

the 2021/2022 capital budget or in the five year capital plan for a new building at Incline Beach. Thus, by ignoring the requirements of NRS 354.626, the increased costs of the Burnt Cedar Pool were never addressed.

Conclusions

1. Violation of NRS 354.626 - Issuing contracts without available resources.
2. Inference that the Nevada Department of Taxation provided IVGID with a "green light" to augment the 2020/2021 budget for only \$1,000,000 when approved contracts exceeded available resources.
3. The Board of Trustees and the public were deceived by representations that the 5 year capital plan for fiscal year 2021/2022 had \$4,350,000 budgeted for the Burnt Cedar Pool project when the plan only had \$2,700,000.
4. The 2021/2022 budgeted Facility Fees of \$5.8 million was understood to be substantially allocated for Beach operating activities shortfalls and to provide funds for a new building at Incline Beach but instead a major portion (40%) was directed to cover estimated cost overruns of the Burnt Cedar Pool.

Requests and Recommendations

1. The Department of Taxation must be notified that contracts were issued for the Burnt Cedar Pool in excess of Available Resources and request what corrective actions should be taken.
2. IVGID Counsel Josh Nelson should submit his 9-15-2021 verbal comments to me in writing and provide his opinion on how IVGID had not violated NRS 354.626.
3. Davis Farr LLC should be notified that a violation of NRS 354.626 may have occurred. Certain disclosure requirements must be made in the Notes to the Financial Statements for the June 30, 2021 Comprehensive Annual Financial Report (now known as the Annual Comprehensive Financial Report "ACFR").

NAC 354.410 Available resources. (NRS 354.107, 354.594, 354.598005)

1. An unappropriated ending balance of any governmental fund, except a fund for capital projects, is not an available resource. Available resources are:

- (a) An opening balance which is larger than anticipated;
- (b) Revenues in excess of those budgeted;
- (c) Revenues generated from previously unbudgeted sources; or
- (d) An unappropriated ending balance of a fund for capital projects.

2. The difference between the total of the original budgeted resources and the total of the revised resources is the amount available for budget augmentation.

EXHIBIT B

NRS 354.626 Unlawful expenditure of money in excess of amount appropriated; penalties; exceptions.

1. No governing body or member thereof, officer, office, department or agency may, during any fiscal year, expend or contract to expend any money or incur any liability, or enter into any contract which by its terms involves the expenditure of money, in excess of the amounts appropriated for that function, other than bond repayments, medium-term obligation repayments and any other long-term contract expressly authorized by law. Any officer or employee of a local government who willfully violates NRS 354.470 to 354.626, inclusive, is guilty of a misdemeanor and upon conviction thereof ceases to hold his or her office or employment. Prosecution for any violation of this section may be conducted by the Attorney General or, in the case of incorporated cities, school districts or special districts, by the district attorney.

2. Without limiting the generality of the exceptions contained in subsection 1, the provisions of this section specifically do not apply to:

(a) Purchase of coverage and professional services directly related to a program of insurance which require an audit at the end of the term thereof.

(b) Long-term cooperative agreements as authorized by chapter 277 of NRS.

(c) Long-term contracts in connection with planning and zoning as authorized by NRS 278.010 to 278.630, inclusive.

(d) Long-term contracts for the purchase of utility service such as, but not limited to, heat, light, sewerage, power, water and telephone service.

(e) Contracts between a local government and an employee covering professional services to be performed within 24 months following the date of such contract or contracts entered into between local government employers and employee organizations.

(f) Contracts between a local government and any person for the construction or completion of public works, money for which has been or will be provided by the proceeds of a sale of bonds, medium-term obligations or an installment-purchase agreement and that are entered into by the local government after:

(1) Any election required for the approval of the bonds or installment-purchase agreement has been held;

(2) Any approvals by any other governmental entity required to be obtained before the bonds, medium-term obligations or installment-purchase agreement can be issued have been obtained; and

(3) The ordinance or resolution that specifies each of the terms of the bonds, medium-term obligations or installment-purchase agreement, except those terms that are set forth in subsection 2 of NRS 350.165, has been adopted.

↳ Neither the fund balance of a governmental fund nor the equity balance in any proprietary fund may be used unless appropriated in a manner provided by law.

(g) Contracts which are entered into by a local government and delivered to any person solely for the purpose of acquiring supplies, services and equipment necessarily ordered in the current fiscal year for use in an ensuing fiscal year and which, under the method of accounting adopted by the local government, will be charged against an appropriation of a subsequent fiscal year. Purchase orders evidencing such contracts are public records available for inspection by any person on demand.

(h) Long-term contracts for the furnishing of television or FM radio broadcast translator signals as authorized by NRS 269.127.

(i) The receipt and proper expenditure of money received pursuant to a grant awarded by an agency of the Federal Government.

(j) The incurrence of obligations beyond the current fiscal year under a lease or contract for installment purchase which contains a provision that the obligation incurred thereby is extinguished by the failure of the governing body to appropriate money for the ensuing fiscal year for the payment of the amounts then due.

(k) The receipt by a local government of increased revenue that:

(1) Was not anticipated in the preparation of the final budget of the local government; and

(2) Is required by statute to be remitted to another governmental entity.

(l) An agreement authorized pursuant to NRS 277A.370.

(Added to NRS by 1965, 736; A 1969, 801; 1971, 1016, 1345; 1973, 68, 1155; 1975, 40, 279, 711; 1981, 1769; 1985, 648; 1987, 1720; 1995, 1908; 1997, 573; 1999, 833; 2001, 1812, 2324; 2003, 162, 802; 2005, 579; 2009, 432, 852; 2011, 1690, 2728; 2013, 2715)

NRS 354.529 “Function” defined. “Function” means a group of related activities aimed at accomplishing a major service or regulatory program for which a governmental unit is responsible, including, without limitation, general government, public safety, public works, health, welfare, culture and recreation, conservation of natural resources, urban redevelopment and housing, economic development and assistance, economic opportunity and activities relating to the judiciary.

EXHIBIT C

Minutes
Meeting of April 29, 2021
Page 9

General Manager Winquest said that he will follow up with the Director of Finance on the parcels as well as follow up on professional services. Yes, it is beneficial for Staff to know what the Board would like to see in the memorandums as that would help Staff to get that feedback. Trustee Dent said he likes that idea and that he has three items to be added to the long range calendar that are coming through Audit Committee – meeting minutes of 3/11/2021 - page 89, consultant re: employee benefits; page 91, price all venues for non-profits; and then an item that was passed at today's meeting – interviews dates and times for next Audit Committee member appointment which will be for a two-year term. Trustee Wong said she thought we needed to reschedule one of the May meetings. District General Manager Winquest said we are going to keep the May 26 meeting because of noticing, etc. of the public hearing.

G. **DISTRICT GENERAL COUNSEL UPDATE** *(for possible action)*

There is no District General Counsel update for this agenda.

H. **REPORTS TO THE BOARD*** - Reports are intended to inform the Board and/or the public.

H.1. **Audit Committee Chairman Matthew Dent – Verbal Report on Audit Committee Meeting of April 29, 2021**

Audit Committee Chairman Dent said that the Audit Committee reviewed the whistleblower program draft and that we are getting there. This item will be coming back to us in June and then it will be forwarded to the Trustees. On internal controls, we are making a little progress, Audit Committee At-Large Member Derrek Aaron is the liaison and that he has just started on this effort and that there was no update as he wasn't present for today's meeting. We also had the engagement letter with Davis Farr and the Audit Committee had a discussion with Jennifer Farr and we are awaiting an audit work plan. The next Audit Committee meeting is scheduled for June 9, 2021 at 4 p.m.

I. **CONSENT CALENDAR** *(for possible action)*

There are no Consent Calendar items for this agenda.

J. **GENERAL BUSINESS** *(for possible action)*

J.1. Review, discuss, and possibly authorize or approve:

- (A) **Four contracts for the Burnt Cedar Swimming Pool and Site Improvement Project - Fund: Beaches; Project 3970BD2601. Vendor: CORE Construction in the amount of \$3,845,865 which includes adding alternates #1, #2, #3, #4, Tri-Sage Consulting in the amount of \$69,500, Reno Tahoe Geo Associates, Inc. in the amount of \$21,000, TSK Architects in the amount of \$105,680;**
- (B) **Resolution Number 1886 authorizing a budget augmentation of \$1,000,000 from available funds within the Beach Capital Fund (Fund 590) in support of the Burnt Cedar Swimming Pool Renovation Project**

(Requesting Staff Member: Engineering Manager Nathan Chorey)

District General Manager Winqest said we got guidance from the Department of Taxation that is why we had the change to this item. Engineering Manager Chorey introduced CORE Construction representatives Travis Coombs and Daniel Salego, who gave a brief overview of the submitted material. Engineering Manager Chorey gave an overview of the submitted materials. Trustee Schmitz said, on agenda packet pages 167G and 167H, related to CMAR contingency, will any savings or approved value engineering be added to the contingency? On agenda packet 167G, it says CORE has say on the use and does the District have a change order process so we have some control as it says it is used at CORE's discretion so she is asking to have that modified so the District has more decision making on some of those things. Director of Public Works Brad Underwood said we have had that decision with CORE and there is an approval process so that oversight is included and that yes, we can have some modification to that language. Trustee Schmitz asked District General Counsel Nelson if that change could be made; District General Counsel Nelson said yes, we can make that change. Trustee Schmitz said on agenda packet page 21, on the cost sheet, there is a line item in the amount of \$175,000. It talks about it being reserves however it appears to be for things outside the construction project. Can this potentially be removed from this project because this is supposed to be about the pool? The painting of the building is part of maintenance and the fact that it says reserves, well, she needs clarification please. Engineering Manager Chorey said all the funds are for this project as we don't want to paint the building but the Tahoe Regional Planning Agency (TRPA) is requiring us to improve the value and it is a direct requirement of this project by TRPA. Trustee Schmitz said so it is not reserves but it is for other construction costs. Trustee Schmitz said

she does have questions about financing. We have to set aside the funds for the entire project and that she is concerned about what our fund balance is and are we still in compliance or below for our policy relative to the beach fund? Trustee Dent said agenda packet page 201 says it is time and material with a not-to-exceed – is that correct? Engineering Manager Chorey said yes, that is correct, time and material with a not-to-exceed. Trustee Schmitz asked if the bid sheets were acceptable from a contract perspective? Look at agenda packet page 192, used as a basically scope of work statement, other pages are letters, agenda packet page 199, that should have Exhibit A on the top of it is a letter, is this acceptable for a contract as well as legally acceptable to protect the District as far as a scope of work goes? District General Counsel Nelson said yes and that he is working with the Public Works team on updating and that it is very consistent with past District practice. Trustee Wong said thank you to Engineering Manager Chorey for fostering this project along and that it has been a pleasure to work with you; it is extremely exciting to vote on this project after all this work. Trustee Schmitz asked if the Director of Finance will be addressing the financial question? Director of Finance Navazio said regarding funds and fund balance question – as proposed, the project budget is built into next year's budget and one of the actions items tonight is to advance those funds. With this project, this year's budget, and what is proposed for next year, the Beach Fund is projected to end, next fiscal year, with a fund balance that continues to meet the current fund balance policy in the Beach Fund and to be clear, it is close. Also, this project is not dipping into the fund balance. Trustee Schmitz said she would like clarification as we can't talk about future funds, we can only talk about the funds that we have in this fiscal year's budget and so her question is in this fiscal year, she doesn't believe we have the funds to appropriate \$4.7 million to this and in addition what does it do to this fiscal year's fund balance? Director of Finance Navazio said we have been collecting monies this year through the increase in the beach fees, there is sufficient funds available in the fund balance, we are not asking nor is it required that the Board appropriate the entire amount of the contract, this is an early opening and that is what we clarified with the State of Nevada Department of Taxation just earlier this week so the funding plan is to advance no more than \$1 million that would be spent on this contract, and the small risk that the Board absolutely needs to be aware of is that the recommendation to proceed with the contract tonight presumes that the Board is going to approve next year's capital budget that will include the balance of the funding that is needed for the project. From a cash flow standpoint – we have the funds available, from a budget appropriations standpoint, the resolution that is part of this packet would provide the budget authority for the contractor's charges before the end of the fiscal year, we

would have the remaining portion, \$3.35 million, included in next year's budget, based on our estimates and at the end of the project, the Beach Fund is able to support the project and not dip into the operating reserve, and the current recommendation in front of the Board provides appropriate budget authority consistent with Nevada Revised Statutes (NRS) related to this kind of project. Trustee Schmitz said so this is something that you reviewed with the Department of Taxation and how this is being presented is all acceptable per NRS and the Department of Taxation? Director of Finance Navazio said correct, we explained the situation to the State and they are comfortable with the revised resolution. Trustee Dent asked if Staff will have the breakdown for this at the next meeting? Director of Finance Navazio said the budget workshop next Wednesday will include forecasts and projections for each of the major funds, including the Beach fund, as well as projections on ending this fiscal year and that he is not sure about the additional breakdown. Trustee Dent asked if we have enough time to update this information such that we aren't getting an addendum to the packet? Director of Finance Navazio said yes. Trustee Schmitz said on page 167, I., it talks about what is excluded and it talks about lifeguard chairs, reels lane markers, and such so are all those types of things included in our estimated project budget? Engineering Manager Chorey said yes those items are included in our reserves because IVGID can procure those items less expensively ourselves. Trustee Schmitz said on page 167D, it talked about carpentry, interior, etc. what is that for? Engineering Manager Chorey said we are going into the mechanical room for the pool and we are going to have to totally reorient that room. Trustee Schmitz said if we approve this as it states with all the alternatives or will the alternatives come back up for discussion at a later date and time. Engineering Manager Chorey said we are recommending approval tonight and you are welcome to discuss them. The concrete color will be discussed further as there is a small sample that is forthcoming that we are going to review and approve. Trustee Schmitz said the concrete is sort of a Tahoe color and that is the color of our rocks. Engineering Manager Chorey said that is why we are having them pour a standard concrete sample next to the color concrete square, solicit feedback and make a decision.

Trustee Wong made a motion to:

1. Award a guaranteed maximum price construction contract to CORE Construction in the amount of \$3,749,404, consisting of a \$3,508,440 base contract and \$240,964 for CMAR Contingency and allowances, for construction of the Burnt Cedar Swimming Pool and Site Improvement Project.

2. Award add alternates #1, #2, #3 and #4 to CORE Construction in the amount of \$96,461 for the Burnt Cedar Swimming Pool and Site Improvement Project.
3. Authorize Chair and Secretary to execute the contract based on a review by General Counsel and Staff.
4. Authorize Staff to approve all change orders associated with the contract and the CMAR contingency and allowances.
5. Authorize Staff to utilize construction reserves for additional work, permit fees, and District furnished material/Furniture, Fixtures and Equipment (FFE) up to \$160,000.
6. Authorize Staff to enter into a Short Form Agreement with Tri-Sage Consulting in the amount of \$69,500 for services during construction of the project.
7. Authorize Staff to enter into an Additional Services Addendum with Reno Tahoe Geo Associates, Inc. in the amount of \$21,000 for services during construction of the project.
8. Authorize Staff to enter into an Additional Services Addendum with TSK Architects in the amount of \$105,680 for services during construction of the project.
9. Approve Resolution Number 1886 authorizing a budget augmentation of \$1,000,000 from available resources within the Beach Capital Fund (Fund 590) in support of the Burnt Cedar Swimming Pool Renovation Project.

Trustee Tonking seconded the motion. Chairman Callicrate asked for further comments, receiving none, he called the question – the motion was passed unanimously.

Chairman Callicrate called for a break at 7:33 p.m., the Board reconvened at 7:47 p.m.

RESOLUTION NO. 1882

A RESOLUTION OF THE BOARD OF TRUSTEES AUGMENTING THE DISTRICT'S FISCAL YEAR 2020/21 BUDGET TO APPROPRIATE \$258,289 IN AVAILABLE RESOURCES FROM THE BEACH CAPITAL FUND (FUND 590) TO THE BURNT CEDAR SWIMMING POOL RENOVATION PROJECT (CIP# 3970BD2601) TO PROVIDE FUNDING FOR DESIGN CONTRACT WORK

WHEREAS, an additional appropriation of \$258,289 is required in order for the District to execute the design contract for the Burnt Cedar Swimming Pool Renovation Project;

NOW, THEREFORE, IT IS ORDERED, as follows:

Incline Village General Improvement District Board of Trustees authorizes a budget augmentation of \$258,289 from available resources, as defined, within the Beach Capital Improvement Fund (Fund 590) to provide for a supplemental appropriation to the Fiscal Year 2020/2021 project budget for the Burnt Cedar Swimming Pool Renovation Project (CIP #3970BD2601).

* * * * *

I hereby certify that the foregoing is a full, true and correct copy of a resolution duly passed and adopted at a regularly held meeting of the Board of Trustees of the Incline Village General Improvement District on the 9th day of December, 2020, by the following vote:

AYES, and in favor thereof,
NOES,
ABSENT,

Kendra Wong
Secretary, IVGID Board of Trustees

RESOLUTION NO. 1886

A RESOLUTION OF THE BOARD OF TRUSTEES AUGMENTING THE DISTRICT'S FISCAL YEAR 2020/21 BUDGET TO APPROPRIATE \$1,000,000 IN AVAILABLE RESOURCES FROM THE BEACH CAPITAL FUND (FUND 590) IN SUPPORT OF THE BURNT CEDAR SWIMMING POOL RENOVATION PROJECT (CIP# 3970BD2601) TO PROVIDE FUNDING FOR COMMENCEMENT OF CONSTRUCTION WORK IN THE CURRENT FISCAL YEAR

RESOLVED, by the Board of Trustees of the Incline Village General Improvement District, Washoe County, Nevada, that

WHEREAS, the Board of Trustees has established the Burnt Cedar Swimming Pool Renovation Project (CIP#3970BD2601) as a priority project and funding to support the project is included in the adopted Five-Year Capital Improvement Plan; and

WHEREAS, the original FY 2020/21 approved budget included \$225,000 for planning and design work expected to be undertaken in the current fiscal year; and

WHEREAS, at their meeting of December 9, 2020 the Board of Trustees approved Resolution No. 1882 to augment the project budget by \$258,289 to supplement funding to complete the pre-design phase of the project; and

WHEREAS, at same meeting of December 9, 2021, the Board of Trustees approved a CMAR delivery method and authorized Staff to solicit proposals and negotiate a guaranteed maximum price (GMP) contract to complete construction of the project, consistent with the requirements of NRS 338.169; and

WHEREAS, the funding for construction phase of the Burnt Cedar Renovation Project in the amount of \$4,350,000, is included in the District's Capital Improvement Program for FY 2021/22; and

WHEREAS, the Board of Trustees intends to award contracts and commence construction on the Burnt Cedar Pool Renovation Project in the current fiscal year; and

WHEREAS, Nevada Revised Statutes (NRS) 354.598005 provides procedures and requirements for augmentation of local agency budgets, including the requirement that budget augmentations within governmental Capital Funds require the governing body to adopt a formal resolution authorizing the budget augmentation from available resources, as defined; and

RESOLUTION NO. 1886

A RESOLUTION OF THE BOARD OF TRUSTEES AUGMENTING THE DISTRICT’S FISCAL YEAR 2020/21 BUDGET TO APPROPRIATE \$1,000,000 IN AVAILABLE RESOURCES FROM THE BEACH CAPITAL FUND (FUND 590) IN SUPPORT OF THE BURNT CEDAR SWIMMING POOL RENOVATION PROJECT (CIP# 3970BD2601) TO PROVIDE FUNDING FOR COMMENCEMENT OF CONSTRUCTION WORK IN THE CURRENT FISCAL YEAR

WHEREAS, the Nevada Administrative Code 354.410 provides for definition of “available resources” for budget augmentation to include an unappropriated ending balance of a fund for capital projects.” And

WHEREAS, the final, approved FY 2020/21 budget for the District’s Beach Capital Fund (Fund 590) reflects an unappropriated fund balance, as reported to the Department of Taxation on Form4404LGF, which constitutes available resources to support this budget augmentation; and

NOW, THEREFORE, IT IS ORDERED, as follows:

1. Incline Village General Improvement District Board of Trustees authorizes a budget augmentation of \$1,000,000 from available resources, as defined, within the Beach Capital Improvement Fund (Fund 590) to provide for a supplemental appropriation to the Fiscal Year 2020/21 capital project budget for the Burnt Cedar Swimming Pool Renovation Project (CIP #3970BD2601).

Minutes
Meeting of April 29, 2021
Page 9

General Manager Winqest said that he will follow up with the Director of Finance on the parcels as well as follow up on professional services. Yes, it is beneficial for Staff to know what the Board would like to see in the memorandums as that would help Staff to get that feedback. Trustee Dent said he likes that idea and that he has three items to be added to the long range calendar that are coming through Audit Committee – meeting minutes of 3/11/2021 - page 89, consultant re: employee benefits; page 91, price all venues for non-profits; and then an item that was passed at today's meeting – interviews dates and times for next Audit Committee member appointment which will be for a two-year term. Trustee Wong said she thought we needed to reschedule one of the May meetings. District General Manager Winqest said we are going to keep the May 26 meeting because of noticing, etc. of the public hearing.

G. DISTRICT GENERAL COUNSEL UPDATE (for possible action)

There is no District General Counsel update for this agenda.

H. REPORTS TO THE BOARD* - Reports are intended to inform the Board and/or the public.

H.1. Audit Committee Chairman Matthew Dent – Verbal Report on Audit Committee Meeting of April 29, 2021

Audit Committee Chairman Dent said that the Audit Committee reviewed the whistleblower program draft and that we are getting there. This item will be coming back to us in June and then it will be forwarded to the Trustees. On internal controls, we are making a little progress, Audit Committee At-Large Member Derrek Aaron is the liaison and that he has just started on this effort and that there was no update as he wasn't present for today's meeting. We also had the engagement letter with Davis Farr and the Audit Committee had a discussion with Jennifer Farr and we are awaiting an audit work plan. The next Audit Committee meeting is scheduled for June 9, 2021 at 4 p.m.

I. CONSENT CALENDAR (for possible action)

There are no Consent Calendar items for this agenda.

J. GENERAL BUSINESS (for possible action)

J.1. Review, discuss, and possibly authorize or approve:

- (A) Four contracts for the Burnt Cedar Swimming Pool and Site Improvement Project - Fund: Beaches; Project 3970BD2601. Vendor: CORE Construction in the amount of \$3,845,865 which includes adding alternates #1, #2, #3, #4, Tri-Sage Consulting in the amount of \$69,500, Reno Tahoe Geo Associates, Inc. in the amount of \$21,000, TSK Architects in the amount of \$105,680;
- (B) Resolution Number 1886 authorizing a budget augmentation of \$1,000,000 from available funds within the Beach Capital Fund (Fund 590) in support of the Burnt Cedar Swimming Pool Renovation Project

(Requesting Staff Member: Engineering Manager Nathan Chorey)

District General Manager Winqest said we got guidance from the Department of Taxation that is why we had the change to this item. Engineering Manager Chorey introduced CORE Construction representatives Travis Coombs and Daniel Salego, who gave a brief overview of the submitted material. Engineering Manager Chorey gave an overview of the submitted materials. Trustee Schmitz said, on agenda packet pages 167G and 167H, related to CMAR contingency, will any savings or approved value engineering be added to the contingency? On agenda packet 167G, it says CORE has say on the use and does the District have a change order process so we have some control as it says it is used at CORE's discretion so she is asking to have that modified so the District has more decision making on some of those things. Director of Public Works Brad Underwood said we have had that decision with CORE and there is an approval process so that oversight is included and that yes, we can have some modification to that language. Trustee Schmitz asked District General Counsel Nelson if that change could be made; District General Counsel Nelson said yes, we can make that change. Trustee Schmitz said on agenda packet page 21, on the cost sheet, there is a line item in the amount of \$175,000. It talks about it being reserves however it appears to be for things outside the construction project. Can this potentially be removed from this project because this is supposed to be about the pool? The painting of the building is part of maintenance and the fact that it says reserves, well, she needs clarification please. Engineering Manager Chorey said all the funds are for this project as we don't want to paint the building but the Tahoe Regional Planning Agency (TRPA) is requiring us to improve the value and it is a direct requirement of this project by TRPA. Trustee Schmitz said so it is not reserves but it is for other construction costs. Trustee Schmitz said

she does have questions about financing. We have to set aside the funds for the entire project and that she is concerned about what our fund balance is and are we still in compliance or below for our policy relative to the beach fund? Trustee Dent said agenda packet page 201 says it is time and material with a not-to-exceed – is that correct? Engineering Manager Chorey said yes, that is correct, time and material with a not-to-exceed. Trustee Schmitz asked if the bid sheets were acceptable from a contract perspective? Look at agenda packet page 192, used as a basically scope of work statement, other pages are letters, agenda packet page 199, that should have Exhibit A on the top of it is a letter, is this acceptable for a contract as well as legally acceptable to protect the District as far as a scope of work goes? District General Counsel Nelson said yes and that he is working with the Public Works team on updating and that it is very consistent with past District practice. Trustee Wong said thank you to Engineering Manager Chorey for fostering this project along and that it has been a pleasure to work with you; it is extremely exciting to vote on this project after all this work. Trustee Schmitz asked if the Director of Finance will be addressing the financial question? Director of Finance Navazio said regarding funds and fund balance question – as proposed, the project budget is built into next year's budget and one of the actions items tonight is to advance those funds. With this project, this year's budget, and what is proposed for next year, the Beach Fund is projected to end, next fiscal year, with a fund balance that continues to meet the current fund balance policy in the Beach Fund and to be clear, it is close. Also, this project is not dipping into the fund balance. Trustee Schmitz said she would like clarification as we can't talk about future funds, we can only talk about the funds that we have in this fiscal year's budget and so her question is in this fiscal year, she doesn't believe we have the funds to appropriate \$4.7 million to this and in addition what does it do to this fiscal year's fund balance? Director of Finance Navazio said we have been collecting monies this year through the increase in the beach fees, there is sufficient funds available in the fund balance, we are not asking nor is it required that the Board appropriate the entire amount of the contract, this is an early opening and that is what we clarified with the State of Nevada Department of Taxation just earlier this week so the funding plan is to advance no more than \$1 million that would be spent on this contract, and the small risk that the Board absolutely needs to be aware of is that the recommendation to proceed with the contract tonight presumes that the Board is going to approve next year's capital budget that will include the balance of the funding that is needed for the project. From a cash flow standpoint – we have the funds available, from a budget appropriations standpoint, the resolution that is part of this packet would provide the budget authority for the contractor's charges before the end of the fiscal year, we

would have the remaining portion, \$3.35 million, included in next year's budget, based on our estimates and at the end of the project, the Beach Fund is able to support the project and not dip into the operating reserve, and the current recommendation in front of the Board provides appropriate budget authority consistent with Nevada Revised Statutes (NRS) related to this kind of project. Trustee Schmitz said so this is something that you reviewed with the Department of Taxation and how this is being presented is all acceptable per NRS and the Department of Taxation? Director of Finance Navazio said correct, we explained the situation to the State and they are comfortable with the revised resolution. Trustee Dent asked if Staff will have the breakdown for this at the next meeting? Director of Finance Navazio said the budget workshop next Wednesday will include forecasts and projections for each of the major funds, including the Beach fund, as well as projections on ending this fiscal year and that he is not sure about the additional breakdown. Trustee Dent asked if we have enough time to update this information such that we aren't getting an addendum to the packet? Director of Finance Navazio said yes. Trustee Schmitz said on page 167, I., it talks about what is excluded and it talks about lifeguard chairs, reels lane markers, and such so are all those types of things included in our estimated project budget? Engineering Manager Chorey said yes those items are included in our reserves because IVGID can procure those items less expensively ourselves. Trustee Schmitz said on page 167D, it talked about carpentry, interior, etc. what is that for? Engineering Manager Chorey said we are going into the mechanical room for the pool and we are going to have to totally reorient that room. Trustee Schmitz said if we approve this as it states with all the alternatives or will the alternatives come back up for discussion at a later date and time. Engineering Manager Chorey said we are recommending approval tonight and you are welcome to discuss them. The concrete color will be discussed further as there is a small sample that is forthcoming that we are going to review and approve. Trustee Schmitz said the concrete is sort of a Tahoe color and that is the color of our rocks. Engineering Manager Chorey said that is why we are having them pour a standard concrete sample next to the color concrete square, solicit feedback and make a decision.

Not true

Trustee Wong made a motion to:

1. Award a guaranteed maximum price construction contract to CORE Construction in the amount of \$3,749,404, consisting of a \$3,508,440 base contract and \$240,964 for CMAR Contingency and allowances, for construction of the Burnt Cedar Swimming Pool and Site Improvement Project.

2. Award add alternates #1, #2, #3 and #4 to CORE Construction in the amount of \$96,461 for the Burnt Cedar Swimming Pool and Site Improvement Project.
3. Authorize Chair and Secretary to execute the contract based on a review by General Counsel and Staff.
4. Authorize Staff to approve all change orders associated with the contract and the CMAR contingency and allowances.
5. Authorize Staff to utilize construction reserves for additional work, permit fees, and District furnished material/Furniture, Fixtures and Equipment (FFE) up to \$160,000.
6. Authorize Staff to enter into a Short Form Agreement with Tri-Sage Consulting in the amount of \$69,500 for services during construction of the project.
7. Authorize Staff to enter into an Additional Services Addendum with Reno Tahoe Geo Associates, Inc. in the amount of \$21,000 for services during construction of the project.
8. Authorize Staff to enter into an Additional Services Addendum with TSK Architects in the amount of \$105,680 for services during construction of the project.
9. Approve Resolution Number 1886 authorizing a budget augmentation of \$1,000,000 from available resources within the Beach Capital Fund (Fund 590) in support of the Burnt Cedar Swimming Pool Renovation Project.

Trustee Tonking seconded the motion. Chairman Callicrate asked for further comments, receiving none, he called the question – the motion was passed unanimously.

Chairman Callicrate called for a break at 7:33 p.m., the Board reconvened at 7:47 p.m.

- J.2. Review and discuss and possibly authorize or approve: (revised at the start of the meeting – Approval of the Agenda)**

EXHIBIT H

Following guidance provided by the Department of Taxation on Monday, April 26, 2021, IVGID Staff is issuing a REVISED Agenda, Memorandum and Resolution related to the Agenda Item J.1. – Burnt Cedar Swimming Pool project on the agenda of April 29, 2021.

Specifically, the Department of Taxation has advised that the District ~~MAY use unappropriated current year revenues and projected fund balance (as of June 30, 2021) as reported on our Final FY20/21 Budget (Form 4404LGF) as an “available resource”, as defined in NAC 354.410 to augment the FY2020/21 budget.~~

Therefore, and as a result of the above guidance, attached are a REVISED Board of Trustees agenda, Memorandum (please remove pages 16 through 23 and replace with the attached pages 16 through 23), which has changes in the subject matter (B), I. Recommendation, 9. revised text is in **bold**, and V. Financial Impact and Budget, last two paragraphs with revised text in *italics*, and please remove and replace pages 25 – 26, Resolution Number 1886, with the attached pages 25 – 26 entitled Resolution Number 1886, which has had changes made to the resolution header and near the end of the resolution under “Now, therefore, it is ordered, as follows:” is attached hereto.

Please feel free to contact Director of Finance Paul Navazio, pcn@IVGID.org, should you have any questions related to these revisions prior to the Board meeting.

RESOLUTION NO. 1886

A RESOLUTION OF THE BOARD OF TRUSTEES AUGMENTING THE DISTRICT'S FISCAL YEAR 2020/21 BUDGET TO APPROPRIATE \$1,000,000 IN AVAILABLE RESOURCES FROM THE BEACH CAPITAL FUND (FUND 590) IN SUPPORT OF THE BURNT CEDAR SWIMMING POOL RENOVATION PROJECT (CIP# 3970BD2601) TO PROVIDE FUNDING FOR COMMENCEMENT OF CONSTRUCTION WORK IN THE CURRENT FISCAL YEAR

RESOLVED, by the Board of Trustees of the Incline Village General Improvement District, Washoe County, Nevada, that

WHEREAS, the Board of Trustees has established the Burnt Cedar Swimming Pool Renovation Project (CIP#3970BD2601) as a priority project and funding to support the project is included in the adopted Five-Year Capital Improvement Plan; and

WHEREAS, the original FY 2020/21 approved budget included \$225,000 for planning and design work expected to be undertaken in the current fiscal year; and

WHEREAS, at their meeting of December 9, 2020 the Board of Trustees approved Resolution No. 1882 to augment the project budget by \$258,289 to supplement funding to complete the pre-design phase of the project; and

WHEREAS, at same meeting of December 9, 2021, the Board of Trustees approved a CMAR delivery method and authorized Staff to solicit proposals and negotiate a guaranteed maximum price (GMP) contract to complete construction of the project, consistent with the requirements of NRS 338.169; and

WHEREAS, the funding for construction phase of the Burnt Cedar Renovation Project in the amount of \$4,350,000, is included in the District's Capital Improvement Program for FY 2021/22; and

WHEREAS, the Board of Trustees intends to award contracts and commence construction on the Burnt Cedar Pool Renovation Project in the current fiscal year; and

WHEREAS, Nevada Revised Statutes (NRS) 354.598005 provides procedures and requirements for augmentation of local agency budgets, including the requirement that budget augmentations within governmental Capital Funds require the governing body to adopt a formal resolution authorizing the budget augmentation from available resources, as defined; and

RESOLUTION NO. 1886

A RESOLUTION OF THE BOARD OF TRUSTEES AUGMENTING THE DISTRICT’S FISCAL YEAR 2020/21 BUDGET TO APPROPRIATE \$1,000,000 IN AVAILABLE RESOURCES FROM THE BEACH CAPITAL FUND (FUND 590) IN SUPPORT OF THE BURNT CEDAR SWIMMING POOL RENOVATION PROJECT (CIP# 3970BD2601) TO PROVIDE FUNDING FOR COMMENCEMENT OF CONSTRUCTION WORK IN THE CURRENT FISCAL YEAR

WHEREAS, the Nevada Administrative Code 354.410 provides for definition of “available resources” for budget augmentation to include an unappropriated ending balance of a fund for capital projects.” And

WHEREAS, the final, approved FY 2020/21 budget for the District’s Beach Capital Fund (Fund 590) reflects an unappropriated fund balance, as reported to the Department of Taxation on Form4404LGF, which constitutes available resources to support this budget augmentation; and

NOW, THEREFORE, IT IS ORDERED, as follows:

1. Incline Village General Improvement District Board of Trustees authorizes a budget augmentation of \$1,000,000 from available resources, as defined, within the Beach Capital Improvement Fund (Fund 590) to provide for a supplemental appropriation to the Fiscal Year 2020/21 capital project budget for the Burnt Cedar Swimming Pool Renovation Project (CIP #3970BD2601).

Project Summary

Project Number:	3970BD2601
Title:	Burnt Cedar Swimming Pool Improvements
Project Type:	D - Capital Improvement - Existing Facilities
Division:	70 - Beach Aquatics
Budget Year:	2021
Finance Option:	
Asset Type:	BD - Buildings & Structures
Active:	Yes

Project Description				
<p>The Burnt Cedar Swimming Pool and Toddler pool fiberglass surfaces require periodic replacement. Over time, discoloration, cracking and surface failure will create health and safety impacts to continued use of the pools. Breakdown of the pool surface will allow materials to cloud the water and make it unsanitary and cloudy water will not meet health dept safety code requirements. It has been determined the pool has reached the end of its service life. This project is for full swimming and toddler pool replacement, associated mechanical systems improvements, and pool deck replacement.</p> <p>A consultant will be selected to complete an alternative layout analysis and evaluate existing mechanical systems. Consideration will be given to reducing the maximum depth of the pool, providing a zero-entry pool edge for improved ADA access, maintaining a water slide, and a second toddler pool or splash pad.</p>				
Project Internal Staff				
<p>Engineering will manage the project. The Director of Parks and Recreation will determine the needs for the project and coordinate project timing because the pool will need to be out of service during the summer season to complete the work. A community interest committee will be convened by the General Manager.</p>				
Project Justification				
<p>This project will reconstruct the swimming and toddler pool, mechanical equipment and pool deck. The cost estimate is a placeholder at this time because the exact scope of work has not been identified for the replacement Burnt Cedar pool facility. The General Manager will lead a community group to received input on community desires and needs for a new pool facility. It is anticipated at this time that construction will occur in the summer of 2021. The impact to the facility will be substantial during the summer operation period. Construction will require the closing of the pool facility for the whole summer or a portion of the summer.</p>

EXHIBIT L

- C. Subject to the terms and operation of any applicable performance bond, if Owner has terminated the Contract for cause, Owner may exclude Contractor from the Site, take possession of the Work, incorporate in the Work all materials and equipment stored at the Site or for which Owner has paid Contractor but which are stored elsewhere, and complete the Work as Owner may deem expedient.
- D. Owner may not proceed with termination of the Contract under Paragraph 16.02.B if Contractor within 7 days of receipt of notice of intent to terminate begins to correct its failure to perform and proceeds diligently to cure such failure.
- E. If Owner proceeds as provided in Paragraph 16.02.B, Contractor shall not be entitled to receive any further payment until the Work is completed. If the unpaid balance of the Contract Price exceeds the cost to complete the Work, including all related claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals) sustained by Owner, such excess will be paid to Contractor. If the cost to complete the Work including such related claims, costs, losses, and damages exceeds such unpaid balance, Contractor shall pay the difference to Owner. Such claims, costs, losses, and damages incurred by Owner will be reviewed by Engineer as to their reasonableness and, when so approved by Engineer, incorporated in a Change Order. When exercising any rights or remedies under this paragraph, Owner shall not be required to obtain the lowest price for the Work performed.
- F. Where Contractor's services have been so terminated by Owner, the termination will not affect any rights or remedies of Owner against Contractor then existing or which may thereafter accrue, or any rights or remedies of Owner against Contractor or any surety under any payment bond or performance bond. Any retention or payment of money due Contractor by Owner will not release Contractor from liability.
- G. If and to the extent that Contractor has provided a performance bond under the provisions of Paragraph 6.01.A, the provisions of that bond will govern over any inconsistent provisions of Paragraphs 16.02.B and 16.02.D.

16.3 Owner May Terminate for Convenience

- A. Upon 7 days' written notice to Contractor and Engineer, Owner may, without cause and without prejudice to any other right or remedy of Owner, terminate the Contract. In such case, Contractor shall be paid for (without duplication of any items):
 - 1. completed and acceptable Work executed in accordance with the Contract Documents prior to the effective date of termination, including fair and reasonable sums for overhead and profit on such Work;
 - 2. expenses sustained prior to the effective date of termination in performing services and furnishing labor, materials, or equipment as required by the Contract Documents in connection with uncompleted Work, plus fair and reasonable sums for overhead and profit on such expenses; and
 - 3. other reasonable expenses directly attributable to termination, including costs incurred to prepare a termination for convenience cost proposal.
- B. Contractor shall not be paid for any loss of anticipated profits or revenue, post-termination overhead costs, or other economic loss arising out of or resulting from such termination.

16.4 Contractor May Stop Work or Terminate

- A. If, through no act or fault of Contractor, (1) the Work is suspended for more than 90 consecutive days by Owner or under an order of court or other public authority, or (2) Engineer fails to act on any

EXHIBIT M

Watermain Replacement Project, Preston Field Retaining Wall Replacement Study, and Burnt Cedar Swimming Pool Improvement Project.

TSK Architects were selected following a request for proposals for qualified architectural consulting firms for involvement in IVGID's Burnt Cedar Swimming Pool Improvement Project. After an extensive evaluation period and interview process that included four (4) IVGID staff members and one (1) IVGID Trustee, the TSK Architects' design team was selected and awarded a preliminary design contract on May 20, 2020.

V. FINANCIAL IMPACT AND BUDGET

The approved FY 2020-2021 budget originally included \$225,000 for the design phase of the Burnt Cedar Pool Improvement Project. At the December 9, 2020 Board Meeting, Resolution No. 1882 was approved to augment the FY2020/21 capital budget by \$258,289 from available resources within the unappropriated fund balance of the Beach Capital Fund, in support of the Burnt Cedar Swimming Pool Improvement Project (CIP#3970BD2601). There is an additional \$4,350,000 programmed for this project in the Tentative 2021/2022 Capital Improvement Program Budget (see attached data sheet).

The following table outlines the total project budget, funded through the Beach Fund and related Beach Capital Fund.

Total Available Budget

Description	Amount	Fund
3970BD2601 – FY20/21 Funds	\$225,000	Beach Capital
Budget Augmentation (Res No. 1882)	\$258,289	Beach Capital
3970BD2601 – FY21/22 Funds	\$4,350,000	Beach Fund
Total Available Budget	\$4,833,289	

The table below presents the estimated cost for the Burnt Cedar Swimming Pool and Site Improvement Project budget, based on the Guaranteed Maximum Price received and the recommendations related to Add-Alternate project elements:

Estimated Project Budget

Description	Amount
TSK Architects Conceptual design fees (not to exceed)	\$32,200
TSK Architects Schematic design fees (not to exceed)	\$68,104
TSK Architects Final design fees (not to exceed)	\$216,626
Reno Tahoe Geo Associates (not to exceed)	\$20,700
CMAR pre-construction fees	\$37,500
District staff time during design, 3 rd part cost estimator, permit fees, and miscellaneous project expenses (Period 7/1/19 – 4/15/21)	\$100,000
Design Phase sub-total	\$475,130
CMAR Construction Base Contract (CORE Construction)	\$3,508,440
Alternates #1, #2, #3, and #4	\$96,461
CMAR Contingency and Allowances	\$240,964
Total Guaranteed Maximum Price Contract	\$3,845,865
Construction Administration (TSK Architects)	\$105,680
Construction Inspection Services (Tri Sage)	\$69,500
Special Inspection and Materials Testing (Reno Tahoe Geo Associates, Inc.)	\$21,000
District Staff Time	\$75,000
IVGID Construction Reserves (Additional work, Permit fees, and District furnished material/FFE)	\$175,000
Construction Administration sub-total	\$446,180
Estimated Project Total	\$4,767,175

IVGID Construction reserves are to account for permit fees, deferred submittals, and certain project elements have been removed from the construction contract and will be completed outside of the construction contract. For instance, a TRPA requirement to paint the exterior of the Burnt Cedar Pool Building will be outside of the CMAR contract. District furnished material / Furniture, Fixture, and Equipment (FFE) includes pool elements, security cameras, and patio furniture, as examples.

The estimated project cost estimate for the Burnt Cedar Swimming Pool and Site Improvement Project is \$4,767,175, or \$66,114 below the total available budget. Upon project completion, all savings will revert to fund balance and be available for re-appropriation for future capital projects, subject to Board approval.

FALSE Project Summary

Part of 4-29-2021 Agenda approving Contracts

Project Summary

Project Number:	3970BD2601
Title:	Burnt Cedar Swimming Pool and Site Improvements
Project Type:	D - Capital Improvement - Existing Facilities
Division:	70 - Beach Aquatics
Budget Year:	2022
Finance Options:	
Asset Type:	BD - Buildings & Structures
Active:	Yes

Project Description
 The Burnt Cedar Swimming Pool and Toddler pool fiberglass surfaces require periodic replacement. Over time, discoloration, cracking and surface failure will create health and safety impacts to continued use of the pools. Breakdown of the pool surface will allow materials to cloud the water and make it unsanitary and cloudy water will not meet health dept safety code requirements. It has been determined the pool has reached the end of its service life. This project is for full swimming and toddler pool replacement, associated mechanical systems improvements pool deck replacement and other site improvements.
 An architectural consultant is in the process of completing the final construction documents.

Project Internal Staff
 Engineering will manage the project. The Director of Parks and Recreation will determine the needs for the project and coordinate project timing because the pool will need to be out of service during the summer season to complete the work. A community interest committee will be convened by the General Manager.

Project Justification
 This project will reconstruct the swimming and toddler pool, mechanical equipment, and pool deck. The cost estimate is based on the February 2021 cost estimate from the Construction Manager at Risk. It is anticipated at this time that construction will occur in the summer of 2021. The impacts on the facility will be substantial during the summer operation period. Construction will require the closing of the pool facility for the whole summer or a portion of the summer.

MEMORANDUM

TO: Audit Committee

THROUGH: Ray Tulloch

FROM: Clifford F. Dobler

SUBJECT: Sewer Pumping Stations - Capitalized costs potentially to be reclassified as expenses

STRATEGIC PLAN REFERENCE(S): None

DATE: 5-25-22

I. RECOMMENDATION

That the Audit Committee make a request to the Board of Trustees to require IVGID staff to review all costs charged to the Sewer Pumping Stations capital project account #2599D11104 for the period from July 1, 2015 to June 30, 2022, to determine what costs should have been expensed based on Moss Adams recommendations and Board Policies and Practices and to subsequently provide a report to the Audit Committee for review.

II. BACKGROUND and ANALYSIS

The District owns and operates 18 pump stations to pump waste water to the wastewater treatment plant.

The equipment in the stations includes pumps, motors, grinders, odor scrubbers, motor soft starts, variable frequency drives, telemetry equipment, motor control cabinets, automatic transfer switches, emergency generators, fuel tanks, check valves, isolation valves, instrumental equipment, communication equipment, piping and other miscellaneous equipment.

Only one capital project account was established for all of the pump stations and various costs, large and small, were charged to the account. It is unknown what costs were for repairs and maintenance or what costs did not reach the required

thresholds for capitalization. In house Engineering charges and Work Orders for Utility Staff personnel have also been charged to the account.

Based on the annual project Summaries, the budget was set for one major installation of a pump and/or a motor at a particular pump station and then an overall amount for all other items.

From 2016 to 2021 a total of \$687,233 was charged to the account (Exhibit A). Each year a major contract was issued and the combined amounts for the contracts were \$238,563 (Exhibit B) These costs may rightfully been classified as a capital assets. It is highly probable that the remaining costs of \$306,670 (net of major contracts and the Jacobs design for Pump Station #8) were for normal repairs and maintenance.

In the spring of 2016, a design contract was issued to Jacobs Engineering (\$142,000) for Sewer Pump Station #8. When combined with Staff engineering charges of \$109,000 the total costs for the design was \$261,000 exceeding the budget of \$200,000 established in 2017.

In 2018, construction of Sewer Pump Station #8 was completed for \$770,000, h exceeding the budget by \$270,000 (54%). The construction was accounted for under a separate capital project account.

Work orders from the Utility internal staff consisted of \$26,000 and all were less than \$5,000 and probably for repair costs.

The issue of combining projects under one account was brought to the Board of Trustees approximately five years ago and direction was given that each project for the water and sewer pump stations would be accounted for separately. This directive was never instituted.

Exhibit A - Listing of Charges to Sewer Pump Stations 2015 to 2022

Exhibit B - Major Contracts

III. BID RESULTS

NONE

IV. FINANCIAL IMPACT AND BUDGET

Possible restatement of prior financial statements

V. ALTERNATIVES

Do nothing and fail to be in accordance with Board Policies and Practices.

VI. COMMENTS

None

VII. STRATEGIC PLAN REFERENCE(S)

None

VIII. BUSINESS IMPACT

Because of the aggressive approach of capitalizing costs that should have been expensed, the historical financial statements have been distorted and may have had a material impact on proper financial reporting.

It is recommended that after ALL of the recommended charge offs of capital assets and CIP to expenses (some made in previous fiscal years and some not made) are aggregated then a determination should be made by an independent consultant of the overall effect on the historical financial statements to determine if a cumulative material misstatement occurred.

• \$ are too small to be material, and largely depreciated by now.

MEMORANDUM

TO: Audit Committee

THROUGH: Ray Tulloch

FROM: Clifford F. Dobler

SUBJECT: Required expensing of costs charged to the Wetlands Effluent Disposal Facility (#2599SS1103) capital project for the fiscal years ending July 1, 2015 to June 30, 2020.

STRATEGIC PLAN REFERENCE(S): None

DATE: 5-16-22

'21?

Why so untimely?

I. RECOMMENDATION

That the Audit Committee make a request to the Board of Trustees to require IVGID staff to review all costs charged to the Wetlands Effluent Disposal Facility capital project account #2599DI1104 for the period from July 1, 2015 to June 30, 2021, to determine what costs should have been expensed based on Moss Adams recommendations and Board Policies and Practices and to subsequently provide a report to the Audit Committee for review.

by year.

II. BACKGROUND and ANALYSIS

For the 7 year period from July 1, 2015 to 2021, \$441,361 was charged to the Wetlands Effluent Disposal Facility (#2599SS1103) capital project account. Of that amount \$35,732 was transferred to other accounts in 2019. In 2021, ALL costs incurred of \$16,340 were reclassified as operating expenses. The net costs prior to depreciation was \$389,234 for the 6 year period. (EXHIBIT A)

The Wetlands consist of 900 acres of land in Douglas County which is used to dispose of effluent wastewater generated from Incline Village and transported by a 21 mile pipeline from the wastewater treatment plant. The wetlands consist of several cells and the wastewater is distributed via channels and pipes. The entire site is protected by 4.5 miles of surrounding levees. There are 10.5 miles of

fully depreciated

unpaved roads connecting the cells. The site also has a control building which controls the flow of the effluent to and between the cells.

According to the 2019 project summary for five years ending in 2023 , the District intended on maintaining and repairing the roads, levees and replacing certain piping, valves, inflow meters, fences and the control building roofing. **EXHIBIT B.** The description in the project summary is consistent with the prior year's project summaries.

Moss Adams report - 1-28-2021 page 27

"Governments often expend resources on existing capital assets. Most often, these expenditures simply preserve the asset's utility and are expensed as routine repairs and maintenance. Any outlay that does no more than return a capital asset to its original condition, regardless of the amount expended, should be classified as maintenance and repairs. Since maintenance and repairs provide no additional value, their costs should be recognized as expense when incurred. (GAAFR 23-10)."

Based on the Moss Adams report most of the costs net of any depreciation should be expensed.

No

III. AUDIT COMMITTEE DISPUTE WITH DIRECTOR OF FINANCE ON EXPENSING CERTAIN COSTS

Purported analysis by Davis Farr and the IVGID Director of Finance conclusion.

Davis Farr was engaged, presumably Mr. Navazio, to review the capital project accounts to search for items which probably should have been expensed or did not comply with Board policy. The firm determined that 7 entries regarding the wetlands had been capitalized and might be expensed since the references indicated repairs. This was the extend of the engagement. Two of the entries were in 2007 and 2009 and had a book value of \$24,503 (cost - \$70,154) as June 30, 2020. The remaining five entries from 2015 to 2019 had a book value of \$149,829 (costs - \$185,878). **EXHIBIT C**

Mr. Navazio, on his own, decided that the \$174,332 in capitalized costs net of depreciation for the wetlands identified by Davis Farr should NOT be expensed.

Apparently a flood occurred in 2018 requiring extensive repairs to the levees and a considerable amount of clay was imported to reconstruct the levees. These

Staff needs to respond

repair were a majority of the costs that Mr. Navazio determined were not expenses.

Davis Farr took no exception, as their audit and opinion was confined only to the fiscal year ending June 30, 2021 and did not cover any prior period adjustments.

The Audit Committee does not agree with Mr. Navzio's determination.

Exhibit A - Listing of Costs from July 1, 2015 to June 30, 2021

Exhibit B - 2019 Project Summary for the Wetlands Effluent Disposal Facility

Exhibit C - Davis Farr analysis of capital assets which has been sorted by venue with indication in red of wetland costs.

IV. BID RESULTS

Not required

V. FINANCIAL IMPACT AND BUDGET

Prior Period Adjustment required

VI. ALTERNATIVES

NONE

VII. COMMENTS

It should be noted that ALL costs charged to the capital project account in fiscal year 2021 were subsequently expensed.

VIII. STRATEGIC PLAN REFERENCE(S)

None

IX. BUSINESS IMPACT

Effects of improper and inconsistent financial reporting.

NO

ISSUE.

Only Poor sequence of events and optics.

Project Summary

Project Number:	2599SS1103	
Title:	Wetlands Effluent Disposal Facility Improvements	
Asset Class:	E - Capital Maintenance	
Division:	99 - General Administration - Sewer	
Budget Year:	2019	
Scenario Name:	Main	Active: Yes
Budget Status:	Data Entry	
Locations:		
Project Something:	SS - Sewer System	

Project Description				
The District owns and maintains 900 acres of land in Douglas County for the disposal of wastewater treatment plant effluent, at the end of the effluent export pipeline. The facility was constructed in 1983 as a beneficial reuse project by creating wetland cells for wildlife habitat. The effluent is distributed through the various cells via channels and pipes for transportation, evaporation and percolation. The property also contains a large area of warm water springs that is kept separate from the effluent cells. The underlying geology of the site poses challenges as the alkali dissolves causing short circuiting of flows from cell to cell. There is an extensive system for the wetland cells and surrounding levees to protect the facility from flooding. There is a road network of over 10.5 miles within the wetlands facility, with an additional 4.5 miles of levees, a control building and infrastructure for controlling the flow of effluent to and between cells.				
Project Internal Staff				
Public Works staff performs some of the maintenance and repairs at the facility, while larger projects may be contracted out with design and inspection being provided by staff.				
Project Justification				
The levees and roadways need to be maintained and resurfaced due to years of wear and tear as well as sub-grade subsidence. The District used to be able to obtain grindings from various projects at no cost. That is no longer the case and materials for repairs must be purchased. With the continued subsidence along levees and roadways we are installing barriers in the levees and roadways to reduce and/or eliminate the short circuiting between cells. With the facility being 33 years old, there are infrastructure improvements that need to be addressed in order to keep the facility in good working order such as replacement of piping, valves, vegetation control, invasive weed mitigation, master inflow meter and sample stand, plus reroofing of the control building. To date we have resurfaced approximately 5 miles of road, replaced 2 main control valves and replaced the HVAC unit as well as ducting in the control building.				
Forecast

finely.

I. RECOMMENDATION

The Audit Committee makes a motion to request that the Board of Trustees direct IVGID Staff to employ the recommendations provided by Moss Adams as outlined in their report dated January 14, 2021 relating to accounting and reporting of Facility Fees in the Annual Comprehensive Financial Report for the year ended June 30, 2022. The four items to be addressed are:

- A. Disclosure of policy for the Facility Fee revenue in the notes to the financial statements. Currently there is no reference to Facility Fees in the Notes to Financial Statements.
- B. The District should "stick" to the non-exchange classification of the Facility Fee
- C. The Facility Fees should be reported within the non operating section in the Statement of Revenues and Expenses and the non-capital related financing activities section in the Statement of Cash Flows for the Community Services and Beach enterprise funds.
- D. The Facility Fees should be reported as program revenue in the government-wide Statement of Activities as opposed to general revenues of the District. Page 64 of Moss Adams report (GASB Cod Sec 2200. 136-140).

why?

Agree

not complicated?

II. BACKGROUND AND ANALYSIS

Since 2015, an inconsistency has existed in the reporting of Facility Fees for Community Services and Beaches in the Comprehensive Annual Financial Reports based on the concept that the Facility Fees are non exchange transactions. On the one hand, the Facility Fees have been reported as a General Revenue in the Government Wide Statement of Activities and on the other hand the same Facility Fees have been reported as an Operating Revenues in the Statements of Revenues, Expenditures and Changes in Net Position.

Moss Adams LLP was engaged in 2020 to review Punch Card Accounting and provided a report on observations and recommendations. During the engagement, the review was extended to incorporate how the annual Facility Fees should be classified and reported in the financial statements. Attached is the Punch Card Accounting Section of the Moss Adams Report which incorporates a section titled **Applicable revenue recognition guidance applicable to the Facility Fees**. This memorandum ONLY reflects the accounting and reporting of facility fees as determined in the observations and recommendations of item #3 of the Punch Card Accounting Section and DOES NOT ADDRESS ACCOUNTING FOR PUNCH CARDS. Specific paragraphs have been redlined for review.

The historic issue and disagreement between IVGID management and citizens has been whether the Facility Fees are exchange or non-exchange transactions. Moss Adams concludes that the Facility Fees are a non-exchange transaction under guidance provided in GASB Statement No 33 which generally provides for asset recognition when a resource is received or at the time a legal right to resources exist, and revenues recognized when all eligibility criteria are met securing the entity's (IVGID) right to the resource. Since the Facility Fee is collected by Washoe County, secured by liens on property and no requirement is placed on IVGID's right to use the Facility Fees then the Facility Fees are deemed to be non-exchange transactions.

Recommendations of Moss Adams LLP

"We find that the classification of the Facility Fees in the government-wide statement of activities since 2015 as a general revenue is inconsistent with GAAP in that the Fees are assessed specifically to finance the District's recreational activities. As such it meets the criteria to be reported as a program revenue in the statement of activities. (GASB Code Sec 22--.137)

"We recommend the District include its policy on the classification of Facility Fees in the footnotes to the financial statements."

"If the District reports the recreational activities in enterprise funds, we recommend the fee be reported as non-operating revenue."

Exhibit A - Moss Adams Report - ~~Punch Card Accounting~~ Section regarding accounting and reporting of Facility Fees

III. BID RESULTS

Not required

IV. FINANCIAL IMPACT AND BUDGET

Improper budgeting and reporting has occurred in the past 7 years.

V. ALTERNATIVES

None

VI. COMMENTS

~~IVGID Staff has concluded that reporting of Facility Fees as General Revenue in the Statement of Activities is proper because the Facility Fees are non exchange transaction. This conclusion has no bearing on how the Facility Fees should be reported. The key factor of reporting facility fees as program revenue in the Statement of Activities is based on the nature of the restricted use of the Fees. The Facility Fees are appropriated annually via a resolution by the Board of Trustees for the sole purpose of providing resources specifically for the Community Services and Beaches and not for use by the entire District.~~

VII. STRATEGIC PLAN REFERENCE(S)

None

VIII. BUSINESS IMPACT

Proper reporting to users of the ACFR.

?? AS

Punch Card Accounting

Based on input gathered from interviews, documents reviewed, and our evaluation of existing practices compared to applicable accounting standards and best practices, we have the following observations and recommendations.

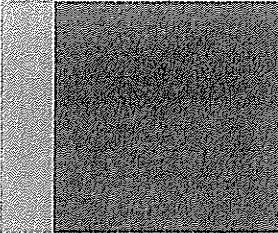

1	Observation	The District's current punch card accounting methodology attempts to recognize the value associated with the benefits of the Facility Fees within the activities by fund where the picture passes and punch cards are presented for use. Further, we found that the District estimates the usage of picture passes and punch cards and the budgeted revenues by fund are consistent with that estimate.
	Recommendation	While we find there is a reasonable purpose behind the contra revenue methodology that is not inconsistent with GAAP and the budget requirements of the State, we recommend ceasing the use of the current accounting methodology. This methodology complicates revenue estimates to use for budget purposes, is confusing to stakeholders, and requires a significant amount of staff time during the year to administer. The time, cost, and complexity involved appears to outweigh the benefits perceived to be achieved.

2	Observation	The Board has the authority to, or not to, assess Facility Fees in support of Beach and Community Service venues, as well as to determine the allocation of the Facility Fees to fund operations, capital asset acquisitions, and/or debt service of both Community Services and Beach. The allocation in any particular year can address the immediate needs of the District as determined by the Board.
	Recommendation	The District should record revenues from charges for services and Facility Fees within the different activities and funds according to the net cash collected from rates charged and the allocation of Facility Fees determined by the Board at the time of the budget adoption.

3	Observation	Management has been classifying Facility Fees as a non-program related general revenue and therefore resulting from a non-exchange transactions since 2015 but has not specifically disclosed its policy on its revenue classification in the notes to the financial statements.
	Recommendation	Whether the District continues to report its recreational activities within governmental funds or switches to enterprise funds, its policy on the

\$ - material ?

 classification of the Facility Fee revenue should be disclosed in the notes to the financial statements. We recommend the District stick to the non-exchange classification of the Facility fees, and if the decision is to switch to enterprise fund reporting, to report the fees within the non-operating section in the statement of revenues and expenses and the non-capital related financing activities section in the statement of cash flows.

Observation of current punch card accounting.

Board Policy 2.1.0.2.4 provides for the reporting of the annual recreation and beach Facility Fees and the allocation of these fees to the District's various recreational activities, capital projects, and debt service. The policy provides that the Board will authorize the assessment and allocation through the budget process.

Policy 16.1.1 provides the authority for charging the Facility Fees and the basis for which it will be assessed, the method and manner of the assessment and collection of the fees, and the benefits the fees provide residents through certain uses and rates at the District's various recreational facilities. The Board approved Ordinance 7 provides for the establishment of the uses and rates, rules and regulations for recreation passes and punch cards which are presented by residents at the recreational facilities to obtain the benefits and privileges provided to them in exchange for payment of the fees.

By Resolution and through the budget adoption process, the Board determines the assessment of the Facility Fees among the different recreational activities reported in Community Services and Beach funds, as well as amounts allocated for capital asset acquisitions and debt service benefitting the activities within these two funds.

To take advantage of the privileges provided by Ordinance 7, members have the option of receiving a picture pass or punch cards to present when utilizing the various recreational activities and facilities that, among other benefits, allow for reduced pricing compared to rates charged the general public.

We found that the District has been utilizing a contra-revenue accounting methodology that tracks the location where picture passes and punch cards are presented for use at the various recreational venues, as well as to recognize the value of the punch cards between the Community Services and Beach venues. From inquiries of management, we learned that the budgeted revenues by fund as adopted contains an estimate of the relative values of the benefits members obtain from usage of the punch cards at venues within Community Services and Beach.

In our interviews with various stakeholders, we heard that the initial purpose of the contra-revenue accounting methodology was developed in an effort to better align the values associated with the punch cards with the venues where presented for use. However, we heard from many stakeholders the current revenue recognition practice is complicated, confusing, requires significant staff time, and seems inconsistent with the authority of the Board to assess the Facility Fees to fund the various recreational activities and related capital acquisitions and debt service pursuant to their discretion.

We understand that some District stakeholders have raised the question as to whether the contra-revenue accounting methodology ends up with a reallocation of the Recreation Facility Fee revenues

paid by certain residents that don't have beach privileges away from the Community Services Fund and records them as revenues within the Beach Fund. From inquiries of management and the observations of documents provided to us, we did not find that resources from the Fees paid by members without beach privileges were reallocated and transferred out of the Community Services Fund. Nor did we find actual revenues reported for a year to be inconsistent with the intent of the adopted budget.

From review of past comprehensive annual financial reports, we find that management has been inconsistent in the classification of the Facility Fees revenue within the financial statements, and not currently following GAAP. Prior to 2016 when the District was reporting its recreational activities within enterprise funds, the Facility Fees were classified as 'operating revenue' consistent with exchange or exchange-like accounting guidance. After 2016 the District classified the fees as 'general revenues' which is consistent with the non-exchange transaction accounting guidance, and only appropriate when the fees are unrelated to funding specific programs or activities of the District.

Applicable revenue recognition guidance applicable to the Facility Fees.

A governmental accounting system must make it possible to present fairly and with full disclosure the funds and activities of the governmental unit in conformity with GAAP, and to determine and demonstrate compliance with finance related legal and contractual provisions. Governing bodies, by definition, exercise the "power of the purse" by their responsibility to authorize the entity to raise and spend public money. This authorization in Nevada comes through the adoption of the annual budget. (GASB Cod Sec 1100.101, GAAFR 4-2, NRS 354.596-598)

The use of funds is the established mechanism to meet the objective noted above. A fund reports financial resources which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with regulations, restrictions, or limitations. The particular use of a fund can be dictated by laws, regulations, or often as determined at the discretion of the governing board. (GAAFR 4-1&2)

GAAP provides for revenue recognition based on the classification of the underlying transactions which generally falls into two classifications of exchange or exchange-like, and non-exchange. Exchange transactions generally result from fees charged to users for goods or services where the fee is commensurate with the value received by the user. Greens fees at a golf course or the day-use fee at a gym are examples. Non-exchange transactions result when the provider of the resources does not necessarily receive something of equal value in return. Examples include the payment of taxes to fund general government services like community planning and public safety. The classification of the underlying revenue has significant implications on the timing of recognition of a resource (an asset or reduction of a liability) and revenue. It also has implications on the fund-type to be used for the underlying activity. (GAAFR 8-1&2)

There are instances the parties to the services may be willing to receive or pay amounts that are similar, but may not be same, as the value of the underlying goods and services. These transactions are classified as exchange-like transactions. The difference between exchange and exchange-like transactions is a matter of degree. In contrast to a "pure" exchange transaction, an exchange-like transaction is one in which the values exchanged, though related, may not be quite equal or in which the direct benefits may not be exclusively for the parties to the transaction. Nevertheless, the exchange characteristics are strong enough to justify treating the transaction as exchange for accounting purposes. (GASB Cod Sec N50.503)

Exchange and exchange-like transactions are to be recognized as, or over the period when, the underlying service is provided. Non-exchange transaction accounting guidance is provided by GASB Statement No. 33 which generally provides for asset recognition when a resources are received or at the time a legal right to resources exist, and revenues recognized when all eligibility criteria are met securing the entity's right to the resources.

There is diversity in practice in the application of existing guidance with transactions that are not pure exchange or non-exchange. As a result, GAAP requires management to set a policy to be consistently applied as to the nature of transactions considered program revenues for its governmental activities, and operating revenues for its business-type activities and to disclose the policy in the footnotes to the financial statements. From review of past CAFR's, we did not find a disclosure specific to the revenue classification of the District's Facility Fees. (GASB Cod Sec 2300.106)

In the government-wide statement of activities, revenues are to be classified as either program or general. Program revenues are defined as those directly associated with the function or program and would disappear if the function or program were eliminated. Examples include fees and charges paid by those who purchase, use, or otherwise directly benefit from the service, program-specific grants and contributions restricted to financing the underlying function or activity, and interest earnings on investments restricted to use by a specific function or activity. General revenues are defined as those not directly related to financing a specific function or activity. Examples are taxes, grants and contributions that are not restricted to a specific function or activity, and interest on invested resources not restricted to specific functions or activities. (GASB Cod Sec 2200.136-140)

Evaluation of the District's current Punch Card accounting methodology

We find that the District's Board has the authority to assess the Facility Fees in support of activities and venues reported within the Beach and Community Services as provided in the Board Policies and Ordinances as well as NRS 318.197. Further, the Board has the authority to determine the allocation of the fees in support of operations, capital expenditures and debt service which is memorialized in Board Resolutions and the District's adopted budget. As noted above, the budgeted revenues by fund have included revisions for the District's estimated usage of punch cards among the various recreational activities prior to adoption by the District's Board.

In addition, we find that the District's current contra-revenue accounting methodology results in revenues recognized by the various activities and funds in accordance with the intent of the approved budget, as well as the accounting literature for reporting revenue within the various funds of an entity at the discretion of the governing board.

Further, based on existing guidance available today and on the diversity in practice in the application of revenue classification criteria for certain transactions, we can understand why management has not been able to come to a definitive conclusion on the classification of the District's Facility Fees presumably resulting in the switch in classification after 2015. While the fee is not 'pure' in the same sense as the payment of greens fees for a round of golf, the fee does provide specific rights and privileges to residents to the District's recreational activities along with the District's policy of using the fee, in addition to user charges, to directly finance recreational activity operations, capital needs, and debt service.

One factor that would seem to support management's current classification as 'non-exchange' is the fact that the assessment and payment of the fee lacks the mutual assent of the parties. Residents do not have a choice on the payment of the fee unlike the decision to play golf and incur greens fees. GASB's new revenue and expense recognition project currently under deliberation provides for four criteria to be met for a transaction to be considered exchange or exchange-like including the concept of 'mutual assent' of the parties. This concept is not included in current accounting standards and is being discussed, in part, to provide clearer guidance on what constitutes an exchange transaction. (GASB Revenue and Expense Recognition Preliminary Views Ch 3, par 3)

We find that the classification of the Facility Fees in the government-wide statement of activities since 2015 as a general revenue is inconsistent with GAAP in that the fees are assessed specifically to finance the District's recreational activities. As such, it meets the criteria to be reported as a program revenue in the statement of activities. Further, the fees meet the criteria to be included in the charges for services column in the statement. (GASB Cod Sec 2200.137)

Recommendations.

We recommend ceasing the use of contra-revenue accounting currently applied to the value received for the payment of Facility Fees attributed to the use of picture passes and punch cards. We question the benefits derived compared to cost incurred by the District to administer this approach especially given the Board's authority to allocate the resources they deem appropriate to best meet the needs for the ensuing year through the adopted budget. In addition, eliminating the use of contra revenue accounting will eliminate the variability that results when picture passes and punch cards are utilized differently from preliminary estimates included in the budget thereby providing management more certainty as to actual resources available to finance each activity during the year, and should significantly reduce staff time and effort required to perform the daily and monthly accounting.

We recommend the charges for services revenues be reported within the activities and funds at the net rates collected at each venue, and Facility Fees reported within each fund be consistent with the assessment and allocation initially set by the Board during the budget adoption process.

We recommend the District include its policy on the classification of Facility Fees as either program or general revenue, or, either operating or non-operating, in the footnotes to the financial statements. If the District continues to report its recreational activities within governmental funds, we recommend the fees be classified as program revenues and reported in the charges for services column and on the appropriate lines for the portions related to Community Services and Beach activities. If the District reports the recreational activities in enterprise funds, we recommend the fee be reported as non-operating revenue.

Add to #16.

MEMORANDUM

EM

TO: Audit Committee
FROM: Paul Navazio
Director of Finance

Martin Williams
Controller

SUBJECT: Additional Information Related to Management's Response to the Audit Committee's Report on the 2020-21 ACFR, dated March 9, 2022

DATE: June 16, 2022

BACKGROUND

Pursuant to section 2.3.7 of Board Policy 15.1.0, the Audit Committee issued its report on the 2020-21 Annual Comprehensive Financial Report (ACFR) to the Board of Trustees on March 9, 2022.

Board action on the recommendations contained in the Audit Committee report were deferred until the meeting of April 13th. At the Board's request, management prepared a companion memorandum in response to the Audit Committee's final report and recommendations, which was included in the Board agenda packet for the meeting of April 13th (see Exhibit 9).

As noted in the April 13th memorandum from management, staff concurred with several of the Audit Committee's recommendations; specifically, recommendations 1 (related to expanding the scope of the 2021-22 audit and recommendation 6 (presentation of capital improvement projects and capital maintenance and repairs - expense items).

However, management did not concur with the Audit Committee's recommendation(s) related to the need for additional prior period adjustments, as referenced in recommendations 2a, 2b, 3, 4 and 5.

The Audit Committee has requested that staff provide the Committee with additional information in support of management position on these areas of disagreement.

In addition, this memo includes a discussion of the accounting treatment for the Facility Fees as Program or General Revenue (within the Statement of Activities) as well as the classification as Operating or Non-Operating Revenue (Statement of Revenue, Expenditures and Change in Net Position).

ATTACHMENTS:

Attachment 1 - Audit Committee Recommendation #2a and #2b (March 9, 2022) - Capitalization of items considered to be maintenance and repairs.

Attachment 2 - Audit Committee Recommendation #3 and #4 (March 9, 2022) - Items capitalized in past ACFR's identified by Auditors as candidates for expensing, and retained as capital in final ACFR.

Attachment 3 - Audit Committee recommendation #5 (March 9, 2022) - Allocation of investment earnings.

Attachment 4 - Additional Topics of Concern to Audit Committee -Reporting of Facility Fees in District's financial statements

EXHIBITS:

Audit Committee Recommendation #2a and #2b (March 9, 2022) - Capitalization of items considered to be maintenance and repairs.

The Audit Committee recommends a prior period adjustment to expense items 2a and 2b for consistency and accuracy of our financial statements.

Management Response (memo dated April 13, 2022) -

All FY2020/21 capital and construction-in-process items were reviewed by management and the auditor and concluded that capitalization was appropriate.

Additional information in support of Management's Response:

- As part of the preparation of the District's FY2020/21 financial statements, management reviewed items reported as Construction-In-Process to ascertain if properly reflected consistent with generally-accepted accounting practices as well as conformity with applicable Board policy. This review was done in consultation with the District's independent auditor.
- Management's evaluation of specific project costs entailed a review of not simply formal project "name" of project "description", but included a review of individual contracts, purchase orders and specific work performed.
- The Audit Committee report cites the Moss Adams report as guidance with respect to capitalization of items considered to be repairs and maintenance as well as costs associated with feasibility studies, master plans, and preliminary engineering activities (see Exhibit 1, Moss Adams, *Evaluation of Certain Financial Reporting Matters*, 1/14/2021, pages 25-28).
- Management would highlight the following criteria as applicable in determining if a particular project-related cost – whether consultant study, evaluation, preliminary engineering or repair project – is appropriate to capitalize or expense:
 - Was work performed associated with a particular project that was, or may be, ultimately constructed. Costs deemed appropriate to be capitalized are recorded as Construction-In-Process until the project is completed and the resulting fixed asset is put in service.
 - Repair and maintenance projects MAY be appropriate to capitalize if the work performed had the effect of expanding service capacity and/or extending the useful life of the asset. *This is distinguished from routine maintenance and repair work that merely maintains – or returns – the asset*

to its normal operating condition such that the original expected useful life can be reached.

- The criteria are supported by generally-accepted accounting practices, applicable Board Policy related to capitalization and the Moss Adams report:

Moss Adams (pp. 26-28):

There is relatively little material in the accounting standards to provide specific guidance on when it is appropriate to treat an expenditure as a capital. Rather, most of the guidance is based on GASB Concepts Statement No. 4 which provides general concepts only; anecdotal guidance from other standards like the accounting for intangible assets, asset impairments, elimination of the capitalization of interest costs, among others; and what has evolved in practice.

Current established practice includes the capitalization of certain costs incurred in a preliminary stage such as engineering, architectural, and design for projects that are actually constructed to the extent those costs would have been necessary for the project in any event

Further, we found the District's Board policies and practices lacked a framework for recognition and nature of costs incurred in the various stages of a project along with the accounting treatment to be applied with each stage.

Policies should provide guidance for the capitalization of certain engineering, architectural, and design costs incurred in the preliminary stage for projects actually constructed in addition to the costs incurred in the construction stage.

Also, Moss Adams, pg. 26 -

“Board practice 2.9.0.1.2.4 provides guidance for when repair project expenditures would be eligible for capitalization including the concept of increases to ‘productivity’ that are necessary in addition to the concept of increasing the useful life.”

Board Practice 2.9 –

1.2.4 In case of repair or refurbishment, the outlay will substantially prolong the life on an existing fixed asset or increase its productivity significantly, rather than merely returning the asset to a functioning unit or making repairs of a routine nature.

Conclusion:

- There are accepted instances where costs incurred in preliminary feasibility studies, alternatives analysis, master plans and preliminary engineering design work are appropriate to be capitalized – provided that they contribute to the construction of an asset that is ultimately placed in service.
- Repair and maintenance costs that are determined as resulting in an expansion of service capacity and/or extension of the useful life of an asset are, in fact, appropriate to capitalize.

Audit Committee Recommendation #3 and #4 (March 9, 2022) - Items capitalized in past ACFR's identified by Auditors as candidates for expensing, and retained as capital in final ACFR.

The Audit Committee recommends a prior year adjustment to expense these items for compliance with Board Practice and consistency and accuracy of our financial statements.

Management Response (memo dated April 13, 2022)

As discussed with the Audit Committee, and supported by the Auditor, at issue are items that the Auditor had identified as potential write-offs, based on their review of Board Policy and GAAP/GASB guidelines. The reversals of items initially written-off were all reviewed with the Auditor and were only reversed upon concurrence of the Auditor.

Moreover, management believes that the review of capital assets and subsequent write-offs to be consistent with Board Policy 9.1 and Board Practice 9.2. At the same time, given the identified need to clarify aspects of the capitalization policy, these have been largely addressed in the updated capitalization policy approved by the Board in January.

Staff notes that in following up with both the external auditor and the District's legal counsel, the comments attributed to both in this Audit Committee recommendation are taken out of context and should not be viewed as concurrence with the Audit Committee's position.

Additional information in support of Management's Response:

- Management again would highlight the fact that the items in question were reviewed with the external auditor and only retained as capital assets upon concurrence by the audit team.
- Management re-affirms its position that its review of items to be either retained as capital assets or expensed was performed consistent with Board Policy and Practice related to capitalization.
- The Audit Committee points to a section 3.0 of Board Policy 9.1 and section 1.2.5 of Board Practice 2.9 as evidence of management violating Board policy in retaining certain items as capital assets rather than expensing them as falling under the capitalization threshold:

Board Policy 9.1 -

3.0 In no case will the District establish a capitalization threshold of less than \$5,000 for any individual item

Board Practice 2.0 - .

1.2.5 The capitalization threshold is applied to individual items rather than to groups of similar items (e.g. desks and tables).

- In management's view, the entirety of Board Policy 9.1 and Board Practice 2.9 should be considered, which includes the following provisions:
 - 2.0 Capitalization thresholds are best applied to individual items rather than to groups of similar items (e.g., desks and tables), unless the effect of doing so would be to eliminate a significant portion of total capital assets.
 - 5.0 Capitalization of buildings and infrastructure should consider the use of componentization as a way to reflect the varying life cycle considerations of mechanical, structural elements, and wear items that may require different cycles of maintenance and replacement from the main asset being capitalized. The significance of such componentization takes precedent over the \$5,000 threshold, and thus smaller amounts may be listed to facilitate proper asset management.
- In its review of items that were capitalized by prior management – including staff that drafted and recommended applicable Board Policy 9.1 and Practice 2.9 – current staff looked for areas where, in our opinion, there was a clear and obvious case for writing-off items previously capitalized. Acknowledging that several of these assets were capitalized many years ago (in fact, many having been fully-depreciated), when staff found no clear evidence to make the determination that an asset should not have been capitalized, the asset was retained as previously recorded.
- Finally, management believes that many of the issues and concerns identified in the area of capitalization, including specific recommendations made by Moss Adams, have been incorporated into the District's update Capitalization Policy approved by the Board of Trustees earlier this year.

Audit Committee recommendation #5 (March 9, 2022) - Allocation of investment earnings.

The Audit Committee recommends a prior period adjustment removing investment income credited to the General Fund and included in the fund balances for the fund(s) which had cash invested at LGIP, as it had historically been done, prior to FY 2018-2019.

Additionally, the committee recommends the approach for distribution of investment income be based solely on cash invested by fund or to have separate LGIP accounts by fund, like the Utility Fund, to avoid any confusion.

Management Response (memo dated April 13, 2022):

The accounting for investment income has been modified beginning with the 2021/22 (current) fiscal year. This change in methodology is consistent with best management practices and, staff believes, is more closely aligned with the implied goal of the Audit Committee's recommendation.

Staff does not concur with the Audit Committee's recommendation to record prior period adjustments related to past practice of allocating investment earnings.

Simply stated, the District's past practice was to record and track investments in LGIP and the District's investment portfolio "by fund." Accordingly, individual funds were credited with investment earnings based on the interest received by investments held by each individual fund. Under this approach, the General Fund was historically credited with interest earnings from pooled cash within the District's governmental funds.

Beginning July 1, 2021, management modified the methodology for allocating investment earnings. Consistent with best management practices, all available cash on hand is pooled for investment purposes. Individual investments are not recorded, or tracked, by fund, but rather investments are managed under a pooled portfolio, with interest earnings allocated to each of the District's individual funds based on each fund's proportional share of cash balances available for investment.

Additional information in support of Management's Response:

- The practice currently adopted is consistent with industry best practices
- This issue may warrant consideration by Board of Trustees regarding alternative approaches to allocation of investment earnings.

Additional Topics of Concern to Audit Committee

Reporting of Facility Fees in District's financial statements

- The Audit Committee has made a recommendation that the Facility Fees assessed on parcel owners to support operations, capital and debt expenditures within the District's Community Services and Beach funds be reported as Program Revenues within the Statement of Activities and as Non-operating revenues within the Statement of Revenue, Expense and Change in Net Position
- This recommendation is supported by observations and recommendations contained in the Moss Adams report (Financial Reporting Matters), based on their review of the nature of the District's Facility Fee and applicable guidance in the accounting standards.

Management Comments:

- It is worth noting the history of the reporting of Facility Fees within the District's financial statements. Prior to the transition from proprietary to special revenue fund accounting for the Community Services and Beach funds (for fiscal year 2015/16), Facility Fee revenues were consistently reported as Program Revenues in the Statement of Activities and as Operating Revenues in the Statement of Revenue, Expense and Change in Net Position:

HISTORY OF REPORTING OF FACILITY FEES IN DISTRICT FINANCIAL STATEMENTS

- As noted by Moss Adams and as referenced in various accounting standards documentation, there is diversity of practice on the classification of exchange-like transactions. These are defined as transactions *“where the value exchanged, though related, may not be quite equal or in which the benefits may not be exclusively for the parties to the transaction. Nevertheless, the exchange characteristics are strong enough to justify treating the transactions as exchange for accounting purposes.”* (GASB Cod Sec N50.503 - Moss Adams, page 22).
- The Moss Adams report also has language to the effect of: *“Prior to 2016, when the District was reporting its recreational activities with enterprise funds, the Facility Fees were classified as “operating revenues” consistent with exchange or exchange-like accounting guidance. After 2016, the District classified the fees as “general revenues” which is consistent with non-exchange transactions accounting guidance, and only appropriate when the fees are unrelated to funding specific programs and activities.”*
- Management notes that the primary recommendation put forth by Moss Adams on the reporting of the Facility Fee, states: *“Whether the District continues to report its recreational activities within governmental funds or switches to enterprise funds, its policy on the classification of the Facility Fee revenue should be disclosed in the notes to the financial statements.”* (Moss Adams, page 21).
- In direct response to this recommendation, the District’s 2019/20 ACFR included Note, as follows:

T. Accounting for Facility Fees

Each year, the District establishes an annual Recreation Facility Fee and Beach Facility Fee to be collected from property owners within the District through a levy placed on the property tax bill and collected on behalf of the District by the Washoe County Treasurer’s Office. These fees are established based on the revenues required to support debt, capital expenditure and operations for the District’s various recreation and beach facilities. These revenues, combined with service charges collected by the District for facility use and program activities serve to support the operations of the District. These revenues are recorded as general revenues within the government-wide statement of activities as opposed to charges for services. The Facility Fees are recorded as revenues to the Community Services Special Revenue Fund and the Beach Special Revenues fund, with subsequent transfers to Capital and Debt fund, as required, to support actual expenditures.

While this Note was (erroneously) omitted from the District’s 2020/21 ACFR, future ACFR’s will include an explanation of the accounting treatment of the District’s Facility Fee.

A) Program Revenue vs General Revenues (*Statement of Activities*)

- In light of the District converting back to proprietary (enterprise) funds for its Community Services and Beach Funds, commencing with the 2021/22 fiscal year, management will review this issue with the District's external auditor for guidance on proper reporting in the Statement of Activities.
- GASB 34 paragraph 49 discusses Program Revenues and states, "*These revenues arise from charges to customers or applicants who purchase, use, or directly benefit from the goods, services, or privileges provided. Revenues in this category include ... operating special assessments, such as for street cleaning or special street lighting; and any other amounts charges to service recipients.*"

B) Operating vs Non-Operating Revenues (*Statement of Revenue, Expense and Change in Net Position*).

- Management believes that the reporting of the Facility Fees as Operating Revenues in the Statement of Revenue, Expense and Change in Net Position is correct, and consistent with GAAP as well as long-standing District practice.
- *See also:*
 - *Governmental and Accounting, Auditing and Financial Reporting – GFOA practice guide:*

"GAAP requires that the statement of activities for proprietary funds distinguish operating from non-operating revenues and expenses. GAAP do not provide an authoritative definition of operating and non-operating revenues and expenses for the purpose, although GAAP indicate that financial statement preparers may wish to consider the authoritative guidance on identifying cash flows from operating activities in arriving at their own definition.
 - *Governmental GAAP Guide for State and Local Government*

Includes subsidies as examples of non-operating expenses; however, subsidies are (proposed to be) defined as funding sources from "another party or fund," and thus implying not established for the specific purpose of providing for the operation, capital and debt requirements of the activity.

Capital Asset Accounting

Based on input gathered from interviews, documents reviewed, and our evaluation of existing practices compared to applicable accounting standards and best practices, we have the following observations and recommendations.

1	Observation	The District's current accounting practice includes posting certain costs incurred to its construction-in-progress account based on the nature of an expenditure, or services provided to the District by certain employees, without requiring a clear connection of the cost incurred to the increased service capacity of a specific capital asset. The costs posted to construction-in-progress are later transferred and included in the capitalized cost of existing and new capital assets. Further, we found that costs are capitalized without an evaluation of what stage a particular project is in whether a preliminary or feasibility stage, actual construction stage, or post-construction stage. As a result, expenditures incurred in preliminary stages have been capitalized by the District that don't meet current accounting guidance for capitalization.
	Recommendation	The District's practices and policies should be revised to acknowledge different stages to a project, definition of costs incurred in each stage, and how to account for the expenditures incurred in each stage, consistent with established and accepted governmental accounting practices.
2	Observation	The District's past history of capitalizing costs incurred for feasibility studies and master plans is not consistent with with current recognized governmental accounting practice.
	Recommendation	In most cases, the District should expense expenditures for feasibility studies and master plans. Policies should be revised to address the few circumstances where preliminary engineering, architectural, or design costs are actually utilized in a capital project and eligible for capitalization.

3	Observation	The District has historically capitalized repair projects without a complete evaluation of whether the repair truly increased the capacity of the asset to provide service. Board policies currently do not provide sufficient guidance on what constitutes an increase in service capacity for its various types of capital assets.
	Recommendation	Board policies and practices should be revised to provide for capitalization of expenditures that truly increase service capacity, and further, that provide the criteria to be followed in making the increased service capacity decision on expenditures by nature or function of the different asset types versus expenditures that should be expensed.

Observation of current capitalization practices.

From our interviews of various stakeholders, we learned that the District has routinely treated a number of different types of expenditures initially as capital outlays and included in the capital asset account titled 'construction-in-progress'. These costs are allocated to and included with the costs incurred to actually construct a project and reclassified to other capital asset classifications once projects are completed.

Costs initially included in construction in progress include master plans, feasibility studies, and payroll costs for certain District employees like engineers involved in the District's capital asset planning processes. Decisions on whether to include a cost in construction in progress appear to be more from established practice based on the nature of a type of expenditure like engineering staff payroll costs, instead of based on an evaluation of whether the costs were incurred to actually construct a specific asset and without consideration of what stage a project is in.

Board policy 8.1.0 and 9.1.0 establish some of the elements of a framework with which to establish whether an expenditure should be capitalized including the useful life for a particular capital asset. 9.1.0.1.0 provides that an asset must provide utility for two years or more to be eligible for capitalization. 9.1.0.3.0 provides that only expenditures in excess of \$5,000 will be eligible for capitalization.

Board practice 2.9.0.1.2.1 provides that an asset must have a useful life of at least three years to be eligible for capitalization which is inconsistent with the guidance in policy 9.1.0.

Board practice 2.9.0.1.2.4 provides guidance for when repair project expenditures would be eligible for capitalization including the concept of increases to 'productivity' that are necessary in addition to the concept of increasing the useful life.

Applicable capital expenditure and best practice accounting guidance.

There is relatively little material in the accounting standards to provide specific guidance on when it is appropriate to treat an expenditure as a capital. Rather, most of the guidance is based on GASB Concepts Statement No. 4 which provides general concepts only; anecdotal guidance from other standards like the accounting for intangible assets, asset impairments, elimination of the capitalization of interest costs, among others; and what has evolved in practice. Existing guidance defines capital assets as land, improvement to land, easements, buildings, building improvements, vehicles,

machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible and intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period. Infrastructure assets are long-lived capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets including roads, bridges, tunnels, drainage water and sewer systems. (GASB Cod Sec 1400.103)

Accepted practice includes recognition of the different stages of a project including preliminary, construction, and post-construction. Preliminary stage activities include conceptual formulation and evaluation of alternatives, determination of future needs, feasibility studies, and development of financing alternatives. Construction stage includes the engineering and design work on the chosen alternative, actual construction costs, direct payroll of employees working on the project along with certain overhead, and ancillary charges necessary to get the asset in working condition. Post construction stage includes, among other costs, training of employees on use of a particular asset. (GASB Cod Sec 1400.143-149)

Costs incurred in the preliminary and post-construction stages are typically expensed as they are not directly connected with creating service capacity of a particular asset. A project is not considered to enter the construction stage until an actual project alternative has been selected, it is determined the selected alternative will meet the intended needs and objectives, financing for the project has been identified, and the entity establishes in some meaningful way it is committed to proceed with the project such as, for example, including the financing sources and necessary expenditures in the budget. (GAAFR 23-7 to 9)

Governments often expend resources on existing capital assets. Most often, these expenditures simply preserve the asset's utility and are expensed as routine repairs and maintenance. Any outlay that does no more than return a capital asset to its original condition, regardless of the amount expended, should be classified as maintenance and repairs. Since maintenance and repairs provide no additional value, their cost should be recognized as expense when incurred. (GAAFR 23-10)

Best practices to consider for inclusion in policies and practices include:

- The different stages of a project and the types of costs incurred in the different stages.
- The accounting treatment of costs incurred in the different stages.
- What elements or criteria need to be met for expenditures associated with a repair project to be eligible for capitalization based on the concept of service capacity in addition to the extension of useful life of an asset.
- Provide for a different dollar threshold for the different classifications of capital assets. (GFOA best practices)

Evaluation of the District's current capitalization practices.

We find that the District's practice of capitalizing expenditures incurred in what would meet the definition of the preliminary stage of a project as noted above is inconsistent with the accepted practice. Examples include payments to external consultants and internal staff payroll costs to develop master plans, feasibility studies, and related engineering and overall system planning. Current established practice includes the capitalization of certain costs incurred in a preliminary stage such as engineering, architectural, and design for projects that are actually constructed to the extent those costs would have been necessary for the project in any event.

In addition, we find that the District has capitalized expenditures incurred for repair projects without a careful consideration of portions of the costs incurred that bring the asset back to its previous service capacity and therefore should be expensed, versus the portion of costs that actually increased the service capacity and or significantly increased the asset's useful life. When a particular project has elements of both repairs and improvements, an appropriate portion of the cost should be allocated to repairs and therefore expensed, and a portion to the improvement and capitalized. (GAAFR 27-10)

Further, we found the District's Board policies and practices lacked a framework for recognition and nature of costs incurred in the various stages of a project along with the accounting treatment to be applied with each stage.

Recommendations.

The District's policies and practices should be expanded to provide additional guidance. One area to consider is revisions to recognize, provide descriptions of the types and nature of expenditures incurred in, and provide guidance on how to account for, the various stages of a capital project. The stages should include, at a minimum, preliminary, development or construction, and post-development or construction. Policies should provide guidance for the capitalization of certain engineering, architectural, and design costs incurred in the preliminary stage for projects actually constructed in addition to the costs incurred in the construction stage. Another area to consider is a revision of the dollar thresholds to apply to the different classes of capital assets.

Generally, costs incurred for master plans, feasibility studies, exploration of various project financing alternatives; and all internal payroll costs for engineering, planning, and administrative efforts incurred in what would fall into the preliminary project stage should be expensed when incurred. Only costs incurred in the preliminary stage for projects actually constructed that are necessary project costs and related to adding to service capacity should be eligible for capitalization.

Each project related to an existing capital asset should be carefully evaluated with respect to the objective of the project. For example, determine if the project is part of the ongoing and necessary maintenance to keep the asset in good working order without increasing service capacity and therefore not eligible for capitalization, a repair that was not anticipated but necessary to keep the asset in good working order without increasing the service capacity and therefore not eligible for capitalization, or was the project previously identified as part of an overall plan to increase the service capacity or the overall remaining useful life of the asset and therefore is eligible for capitalization. The policy could provide the criteria to be applied unique to the different classes of capital assets necessary to make the determination on whether a significant increase in service capacity or useful life will result. As an example, policies for road resurfacing might include that laying more than a certain number of inches of new asphalt on an existing road is required to support the service capacity has been increased and the resurfacing project costs are eligible for capitalization. Application of sealants or laying new asphalt of less than a certain depth is considered repairs and maintenance and expensed when incurred.

Accounting, Auditing and Financial Reporting
Establishing Appropriate Capitalization Threshold for Capital Assets
Policy 9.1.0

POLICY. The District will consider the following guidelines in establishing capitalization thresholds:

- 1.0** Potentially capitalizable items should only be capitalized if they have an estimated useful life of greater than two years following the date of acquisition or placed into service.
- 2.0** Capitalization thresholds are best applied to individual items rather than to groups of similar items (e.g., desks and tables), unless the effect of doing so would be to eliminate a significant portion of total capital assets.
- 3.0** In no case will the District establish a capitalization threshold of less than \$5,000 for any individual item.
- 4.0** In establishing capitalization thresholds, when the District is a recipient of federal awards, then federal requirements that prevent the use of capitalization thresholds in excess of certain specified maximum amounts for purposes of federal reimbursement will prevail.
- 5.0** Capitalization of buildings and infrastructure should consider the use of componentization as a way to reflect the varying life cycle considerations of mechanical, structural elements, and wear items that may require different cycles of maintenance and replacement from the main asset being capitalized. The significance of such componentization takes precedent over the \$5,000 threshold, and thus smaller amounts may be listed to facilitate proper asset management.

401 Merritt 7, PO Box 5116, Norwalk, Connecticut 06856-5116

Basic Financial Statements and Management's Discussion and Analysis

Question 7.9.8 in Implementation Guide 2015-1

- 5.1. Q—Should a government's capitalization policy be applied only to individual assets or can it be applied to a group of assets acquired together? Consider a government that has established a capitalization threshold of \$5,000 for equipment. If the government purchases 100 computers costing \$1,500 each, should the computers be capitalized?

A—Capitalization policies adopted by governments include many considerations such as finding an appropriate balance between ensuring that all significant capital assets, collectively, are capitalized and minimizing the cost of recordkeeping for capital assets. A government should capitalize assets whose individual acquisition costs are less than the threshold for an individual asset if those assets in the aggregate are significant. Computers, classroom furniture, and library books are examples of asset types that may not meet a capitalization policy on an individual basis, yet could be significant collectively. In this example, if the \$150,000 aggregate amount (100 computers costing \$1,500 each) is significant, the government should capitalize the computers.

Question 7.33.5 in Implementation Guide 2015-1

- 5.2. Q—In some communities, fines may be one of the largest sources of revenue reported in governmental activities. Because these communities rely on fines to provide resources to support many activities, would it be appropriate to report fines as *general* revenues, similar to other revenues that fund multiple programs?

A—No. As indicated in the answer to Question 7.33.4 in Implementation Guide 2015-1, the *use* of revenues from fees, fines, and charges does not affect the classification as a program revenue. The only consideration for nontax revenues is: "From which function does the revenue derive?"

Question 7.55.3 in Implementation Guide 2015-1

- 5.3. Q—Is it allowable to report a particular fund (a capital projects fund, for example) as a major fund for only one or two years?

A—Yes. Although many funds will continue to pass the major fund test year after year, other funds may not. For example, capital projects funds often experience uneven expenditure levels and may exceed the major fund percentages for only a brief period (or sporadically over a longer period). Governments can, however, in the interest of consistency, choose to report a fund as a major fund even if it does not meet the percentage criteria.

Statement No. 48, Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues

Question 4.9 in Implementation Guide 2019-1

- 5.4. Q—A government owns a building that it reports as a capital asset. The building has a carrying value of \$3 million and an appraised value of \$10 million. If the government

Punch Card Accounting

Based on input gathered from interviews, documents reviewed, and our evaluation of existing practices compared to applicable accounting standards and best practices, we have the following observations and recommendations.

1	Observation	The District's current punch card accounting methodology attempts to recognize the value associated with the benefits of the Facility Fees within the activities by fund where the picture passes and punch cards are presented for use. Further, we found that the District estimates the usage of picture passes and punch cards and the budgeted revenues by fund are consistent with that estimate.
	Recommendation	While we find there is a reasonable purpose behind the contra revenue methodology that is not inconsistent with GAAP and the budget requirements of the State, we recommend ceasing the use of the current accounting methodology. This methodology complicates revenue estimates to use for budget purposes, is confusing to stakeholders, and requires a significant amount of staff time during the year to administer. The time, cost, and complexity involved appears to outweigh the benefits perceived to be achieved.

2	Observation	The Board has the authority to, or not to, assess Facility Fees in support of Beach and Community Service venues, as well as to determine the allocation of the Facility Fees to fund operations, capital asset acquisitions, and/or debt service of both Community Services and Beach. The allocation in any particular year can address the immediate needs of the District as determined by the Board.
	Recommendation	The District should record revenues from charges for services and Facility Fees within the different activities and funds according to the net cash collected from rates charged and the allocation of Facility Fees determined by the Board at the time of the budget adoption.

3	Observation	Management has been classifying Facility Fees as a non-program related general revenue and therefore resulting from a non-exchange transactions since 2015 but has not specifically disclosed its policy on its revenue classification in the notes to the financial statements.
	Recommendation	Whether the District continues to report its recreational activities within governmental funds or switches to enterprise funds, its policy on the

classification of the Facility Fee revenue should be disclosed in the notes to the financial statements. We recommend the District stick to the non-exchange classification of the Facility fees, and if the decision is to switch to enterprise fund reporting, to report the fees within the non-operating section in the statement of revenues and expenses and the non-capital related financing activities section in the statement of cash flows.

Observation of current punch card accounting.

Board Policy 2.1.0.2.4 provides for the reporting of the annual recreation and beach Facility Fees and the allocation of these fees to the District's various recreational activities, capital projects, and debt service. The policy provides that the Board will authorize the assessment and allocation through the budget process.

Policy 16.1.1 provides the authority for charging the Facility Fees and the basis for which it will be assessed, the method and manner of the assessment and collection of the fees, and the benefits the fees provide residents through certain uses and rates at the District's various recreational facilities. The Board approved Ordinance 7 provides for the establishment of the uses and rates, rules and regulations for recreation passes and punch cards which are presented by residents at the recreational facilities to obtain the benefits and privileges provided to them in exchange for payment of the fees.

By Resolution and through the budget adoption process, the Board determines the assessment of the Facility Fees among the different recreational activities reported in Community Services and Beach funds, as well as amounts allocated for capital asset acquisitions and debt service benefitting the activities within these two funds.

To take advantage of the privileges provided by Ordinance 7, members have the option of receiving a picture pass or punch cards to present when utilizing the various recreational activities and facilities that, among other benefits, allow for reduced pricing compared to rates charged the general public.

We found that the District has been utilizing a contra-revenue accounting methodology that tracks the location where picture passes and punch cards are presented for use at the various recreational venues, as well as to recognize the value of the punch cards between the Community Services and Beach venues. From inquiries of management, we learned that the budgeted revenues by fund as adopted contains an estimate of the relative values of the benefits members obtain from usage of the punch cards at venues within Community Services and Beach.

In our interviews with various stakeholders, we heard that the initial purpose of the contra-revenue accounting methodology was developed in an effort to better align the values associated with the punch cards with the venues where presented for use. However, we heard from many stakeholders the current revenue recognition practice is complicated, confusing, requires significant staff time, and seems inconsistent with the authority of the Board to assess the Facility Fees to fund the various recreational activities and related capital acquisitions and debt service pursuant to their discretion.

We understand that some District stakeholders have raised the question as to whether the contra-revenue accounting methodology ends up with a reallocation of the Recreation Facility Fee revenues

paid by certain residents that don't have beach privileges away from the Community Services Fund and records them as revenues within the Beach Fund. From inquiries of management and the observations of documents provided to us, we did not find that resources from the Fees paid by members without beach privileges were reallocated and transferred out of the Community Services Fund. Nor did we find actual revenues reported for a year to be inconsistent with the intent of the adopted budget.

From review of past comprehensive annual financial reports, we find that management has been inconsistent in the classification of the Facility Fees revenue within the financial statements, and not currently following GAAP. Prior to 2016 when the District was reporting its recreational activities within enterprise funds, the Facility Fees were classified as 'operating revenue' consistent with exchange or exchange-like accounting guidance. After 2016 the District classified the fees as 'general revenues' which is consistent with the non-exchange transaction accounting guidance, and only appropriate when the fees are unrelated to funding specific programs or activities of the District.

Applicable revenue recognition guidance applicable to the Facility Fees.

A governmental accounting system must make it possible to present fairly and with full disclosure the funds and activities of the governmental unit in conformity with GAAP, and to determine and demonstrate compliance with finance related legal and contractual provisions. Governing bodies, by definition, exercise the "power of the purse" by their responsibility to authorize the entity to raise and spend public money. This authorization in Nevada comes through the adoption of the annual budget. (GASB Cod Sec 1100.101, GAAFR 4-2, NRS 354.596-598)

The use of funds is the established mechanism to meet the objective noted above. A fund reports financial resources which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with regulations, restrictions, or limitations. The particular use of a fund can be dictated by laws, regulations, or often as determined at the discretion of the governing board. (GAAFR 4-1&2)

GAAP provides for revenue recognition based on the classification of the underlying transactions which generally falls into two classifications of exchange or exchange-like, and non-exchange. Exchange transactions generally result from fees charged to users for goods or services where the fee is commensurate with the value received by the user. Greens fees at a golf course or the day-use fee at a gym are examples. Non-exchange transactions result when the provider of the resources does not necessarily receive something of equal value in return. Examples include the payment of taxes to fund general government services like community planning and public safety. The classification of the underlying revenue has significant implications on the timing of recognition of a resource (an asset or reduction of a liability) and revenue. It also has implications on the fund-type to be used for the underlying activity. (GAAFR 8-1&2)

There are instances the parties to the services may be willing to receive or pay amounts that are similar, but may not be same, as the value of the underlying goods and services. These transactions are classified as exchange-like transactions. The difference between exchange and exchange-like transactions is a matter of degree. In contrast to a "pure" exchange transaction, an exchange-like transaction is one in which the values exchanged, though related, may not be quite equal or in which the direct benefits may not be exclusively for the parties to the transaction. Nevertheless, the exchange characteristics are strong enough to justify treating the transaction as exchange for accounting purposes. (GASB Cod Sec N50.503)

Exchange and exchange-like transactions are to be recognized as, or over the period when, the underlying service is provided. Non-exchange transaction accounting guidance is provided by GASB Statement No. 33 which generally provides for asset recognition when a resources are received or at the time a legal right to resources exist, and revenues recognized when all eligibility criteria are met securing the entity's right to the resources.

There is diversity in practice in the application of existing guidance with transactions that are not pure exchange or non-exchange. As a result, GAAP requires management to set a policy to be consistently applied as to the nature of transactions considered program revenues for its governmental activities, and operating revenues for its business-type activities and to disclose the policy in the footnotes to the financial statements. From review of past CAFR's, we did not find a disclosure specific to the revenue classification of the District's Facility Fees. (GASB Cod Sec 2300.106)

In the government-wide statement of activities, revenues are to be classified as either program or general. Program revenues are defined as those directly associated with the function or program and would disappear if the function or program were eliminated. Examples include fees and charges paid by those who purchase, use, or otherwise directly benefit from the service, program-specific grants and contributions restricted to financing the underlying function or activity, and interest earnings on investments restricted to use by a specific function or activity. General revenues are defined as those not directly related to financing a specific function or activity. Examples are taxes, grants and contributions that are not restricted to a specific function or activity, and interest on invested resources not restricted to specific functions or activities. (GASB Cod Sec 2200.136-140)

Evaluation of the District's current Punch Card accounting methodology

We find that the District's Board has the authority to assess the Facility Fees in support of activities and venues reported within the Beach and Community Services as provided in the Board Policies and Ordinances as well as NRS 318.197. Further, the Board has the authority to determine the allocation of the fees in support of operations, capital expenditures and debt service which is memorialized in Board Resolutions and the District's adopted budget. As noted above, the budgeted revenues by fund have included revisions for the District's estimated usage of punch cards among the various recreational activities prior to adoption by the District's Board.

In addition, we find that the District's current contra-revenue accounting methodology results in revenues recognized by the various activities and funds in accordance with the intent of the approved budget, as well as the accounting literature for reporting revenue within the various funds of an entity at the discretion of the governing board.

Further, based on existing guidance available today and on the diversity in practice in the application of revenue classification criteria for certain transactions, we can understand why management has not been able to come to a definitive conclusion on the classification of the District's Facility Fees presumably resulting in the switch in classification after 2015. While the fee is not 'pure' in the same sense as the payment of greens fees for a round of golf, the fee does provide specific rights and privileges to residents to the District's recreational activities along with the District's policy of using the fee, in addition to user charges, to directly finance recreational activity operations, capital needs, and debt service.

One factor that would seem to support management's current classification as 'non-exchange' is the fact that the assessment and payment of the fee lacks the mutual assent of the parties. Residents do not have a choice on the payment of the fee unlike the decision to play golf and incur greens fees. GASB's new revenue and expense recognition project currently under deliberation provides for four criteria to be met for a transaction to be considered exchange or exchange-like including the concept of 'mutual assent' of the parties. This concept is not included in current accounting standards and is being discussed, in part, to provide clearer guidance on what constitutes an exchange transaction. (GASB Revenue and Expense Recognition Preliminary Views Ch 3, par 3)

We find that the classification of the Facility Fees in the government-wide statement of activities since 2015 as a general revenue is inconsistent with GAAP in that the fees are assessed specifically to finance the District's recreational activities. As such, it meets the criteria to be reported as a program revenue in the statement of activities. Further, the fees meet the criteria to be included in the charges for services column in the statement. (GASB Cod Sec 2200.137)

Recommendations.

We recommend ceasing the use of contra-revenue accounting currently applied to the value received for the payment of Facility Fees attributed to the use of picture passes and punch cards. We question the benefits derived compared to cost incurred by the District to administer this approach especially given the Board's authority to allocate the resources they deem appropriate to best meet the needs for the ensuing year through the adopted budget. In addition, eliminating the use of contra revenue accounting will eliminate the variability that results when picture passes and punch cards are utilized differently from preliminary estimates included in the budget thereby providing management more certainty as to actual resources available to finance each activity during the year, and should significantly reduce staff time and effort required to perform the daily and monthly accounting.

We recommend the charges for services revenues be reported within the activities and funds at the net rates collected at each venue, and Facility Fees reported within each fund be consistent with the assessment and allocation initially set by the Board during the budget adoption process.

We recommend the District include its policy on the classification of Facility Fees as either program or general revenue, or, either operating or non-operating, in the footnotes to the financial statements. If the District continues to report its recreational activities within governmental funds, we recommend the fees be classified as program revenues and reported in the charges for services column and on the appropriate lines for the portions related to Community Services and Beach activities. If the District reports the recreational activities in enterprise funds, we recommend the fee be reported as non-operating revenue.

Governmental Accounting, Auditing, and Financial Reporting

USING THE
GASB 34 MODEL

Stephen J. Gauthier

Government Finance Officers Association

- *Budget document approach.* Many practitioners directly concerned with the budgetary comparison are more familiar with the budget document than they are with the GAAP financial statements. Accordingly, the budgetary comparison may be presented using the same format, terminology, and classifications used in the budget document.
- *Financial statement approach.* Often the presentation method used for the budget document differs substantially from that used for the basic financial statements. Since the budgetary comparison is presented in connection with the basic financial statements, financial statement preparers are permitted to emphasize the link between the two by using the same format, terminology, and classifications used for the governmental fund statement of revenues, expenditures, and changes in fund balances.

With either approach, when the budgetary basis of accounting differs from GAAP, a reconciliation must be provided between the two bases of accounting.⁷⁶

PROPRIETARY FUND FINANCIAL STATEMENTS

GAAP prescribe three basic financial statements for proprietary funds: statement of net assets (balance sheet); statement of revenues, expenses, and changes in fund net assets/equity; and statement of cash flows.

Proprietary fund statement of net assets

Format

The statement of net assets (balance sheet) is the basic statement of position for the proprietary funds.

A government may present its government-wide statement of position using either a net assets format or a balance sheet format. The same two options also apply to presenting the statement of position for proprietary funds. In the case of the government-wide financial statements, the statement title (statement of net assets) and the terminology used to describe the difference between assets and liabilities (net assets) should be the same, regardless of the formatting option selected. In the case of proprietary funds, however, the basic statement of position may be described as a *balance sheet* if the balance-sheet format is used. Likewise, the difference between proprietary fund assets and liabilities may be described as *equity* rather than as *net assets*.⁷⁷ In either case, the terminology and categories used for *net assets/equity* are the same as those described for the government-wide statement of net assets.

Presentation of assets and liabilities

GAAP require that the proprietary fund statement of position classify assets and liabilities as *current* and *long-term*, while use of the relative order of liquidity approach is encouraged for the government-wide statement of net assets.⁷⁸

⁷⁶ When the budgetary comparison is presented as a basic financial statement, this reconciliation is included as part of the notes to the financial statements. When the budgetary comparison is presented as RSI, the reconciliation is presented either as a separate schedule or as part of the separate notes to RSI. Alternatively, the reconciliation may be presented on the face of the budgetary comparison itself. Chapter 11 includes a detailed discussion of this reconciliation.

⁷⁷ GASB Statement No. 34, paragraph 98.

⁷⁸ GASB Statement No. 34, paragraph 97.

Major fund reporting

GAAP mandate the same major fund reporting for proprietary funds described earlier for governmental funds. However, GAAP also indicate that internal service funds are *never* to be reported as major funds. Accordingly, the 10 percent criterion and the 5 percent criterion should be applied to the total for all enterprise funds and to the total for all governmental plus enterprise funds, respectively.⁷⁹ Each individual major enterprise fund must be reported in a separate column on the face of the proprietary fund statement of position. Nonmajor enterprise funds, if any, should be reported in a separate, aggregated *other enterprise funds* column.

Separate reporting for internal service funds

Data from enterprise funds normally are incorporated as business-type activities in the government-wide statement of net assets, just as data from governmental funds normally are incorporated as governmental activities in that same statement. Internal service funds, however, are in a unique situation. Although internal service funds are proprietary funds (like enterprise funds), they normally are consolidated as part of governmental activities because their primary customers typically are the governmental funds. Therefore, internal service funds should be reported in a separate aggregated column on the proprietary fund statement of position, immediately following the total column for all enterprise funds, so that the amounts reported in this latter column may be traced more easily to the business-type activities column of the government-wide statement of net assets.⁸⁰

Consolidation

There is no GAAP requirement for eliminating interfund balances from the total column for enterprise funds reported on the proprietary fund statement of position, although governments are free to eliminate such internal balances if they wish. Governments choosing to eliminate interfund balances may wish to consider presenting a separate *eliminations* column immediately preceding the enterprise fund total column.

Reconciliation to the government-wide statement of net assets

Because proprietary funds use the same measurement focus and basis of accounting as the government-wide financial statements, there typically will be few (if any) differences between the amounts reported in the total column for enterprise funds and the amounts reported for business-type activities in the government-wide statement of net assets. However, differences may arise, especially in connection with consolidating the activities of internal service funds.⁸¹ In such cases, a reconciliation would be required between the total column for the enterprise funds and the business-type activities column of the government-wide statement of net assets, either on the face of the statement or as an accompanying schedule. Detailed information on the elements of this reconciliation should be provided, if needed, in the notes to the financial statements.⁸²

⁷⁹ GASB Statement No. 34, paragraph 96.

⁸⁰ GASB Statement No. 34, paragraph 96.

⁸¹ Internal service fund consolidation is discussed in chapter 8. A reconciliation also will be necessary if indirect costs of governmental functions are allocated to business-type functions in the government-wide statement of activities. Likewise a reconciliation will be needed if an enterprise fund is classified as a governmental activity for government-wide reporting.

⁸² Detailed information is necessary if aggregated information in the summary reconciliation obscures the nature of the individual elements of a particular reconciling item.

Proprietary fund statement of revenues, expenses, and changes in fund net assets

The proprietary fund statement of revenues, expenses, and changes in fund net assets (equity) is the basic statement of activities for the proprietary funds. Unlike the governmental fund statement of activities, the focus here is on *expenses* rather than *expenditures*.

Operating versus nonoperating revenues and expenses

GAAP require that the statement of activities for proprietary funds distinguish operating from nonoperating revenues and expenses. GAAP do not provide an authoritative definition of *operating* and *nonoperating* revenues and expenses for this purpose, although GAAP indicate that financial statement preparers may wish to *consider* the authoritative guidance on identifying *cash flows from operating activities* in arriving at their own definition.⁸³

Presentation of revenues

Revenues should be reported by major source. GAAP also require that revenues used as security for revenue bonds be identified separately.⁸⁴ The presentation of revenues should reflect the effect of discounts and allowances, to be accomplished in one of two ways. One approach is to report revenues on a net basis, with discounts and allowances disclosed separately, either parenthetically or in the notes to the financial statements. The other approach is to report gross revenues followed immediately by deductions for discounts and allowances to arrive at net revenues.⁸⁵

Order of presentation

The following order should be followed in presenting the statement of revenues, expenses, and changes in fund net assets (equity):

- operating revenues
- operating expenses
- operating income (loss)
- nonoperating revenues and expenses
- income before . . . (as appropriate)⁸⁶
- capital contributions (for instance, from grantors and developers)⁸⁷
- additions to endowments
- special items
- extraordinary items
- transfers
- increase (decrease) in net assets (equity)
- net assets (equity) – beginning of period
- net assets (equity) – end of period

Major fund reporting

Governments should apply major fund reporting to the proprietary fund statement of revenues, expenses, and changes in fund net assets (equity) in the same way described for the proprietary fund statement of net assets (balance sheet).

⁸³ GASB Statement No. 34, paragraph 102. When a proprietary fund's major activity is investing, certain revenues and expenses that normally would be considered *investing* often are treated instead as *operating* items.

⁸⁴ No special indication of pledged revenues is required if essentially all revenues of a given proprietary fund are pledged. Also, if different revenues are pledged to support different debt issues, there is no requirement that the different revenues be reported separately (which is the function of segment disclosure).

⁸⁵ GASB Statement No. 34, footnote 41.

⁸⁶ This line should be labeled based on a government's specific situation. For example, a government with only capital contributions following this line would report *income before capital contributions*, while a government with both capital contributions and extraordinary items would report *income before capital contributions and extraordinary items*.

⁸⁷ GAAP do not define a *capital contribution*. Technically speaking, a capital contribution is a subcategory of nonoperating revenues.

which the article or service was purchased or obtained (e.g., *personal services, contractual services, materials and supplies*).

Obligated in some manner. Term used in connection with special assessment debt and the determination of the financial reporting entity. A government is obligated in some manner for debt if (a) it is legally obligated to assume all or part of the debt in the event of default or (b) the government may take certain actions to assume secondary liability for all or part of the debt—and the government takes, or has given indications that it will take, those actions. Stated differently, the phrase *obligated in some manner* is intended to include all situations *other than* those in which (a) the government is *prohibited* (by constitution, charter, statute, ordinance, or contract) from assuming the debt in the event of default or (b) the government is not legally liable for assuming the debt and makes no statement, or gives no indication, that it will, or may, honor the debt in the event of default. [SGAS 6]

Office of Management and Budget (OMB). An agency of the federal government with regulatory oversight of Single Audits. In fulfillment of this responsibility the OMB has issued Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

On-behalf payments of fringe benefits and salaries. Direct payments made by one entity (the paying entity or paying government) to a third-party recipient for the employees of another, legally separate entity (the employer entity or employer government). They include payments made by governmental entities on behalf of nongovernmental entities and payments made by nongovernmental entities on behalf of governmental entities, and may be made for volunteers as well as for paid employees of the employer entity. [SGAS 24]

Open amortization period. Term used in connection with defined benefit pension plans. An open amortization period (open basis) is one that begins again or is recalculated at each actuarial valuation date. Within a maximum number of years specified by law or policy (for example, 30 years), the period may increase, decrease, or remain stable. [SGAS 25]

Open-end mutual funds. An open-end mutual fund is one that continuously offers its shares for sale to the public, compared with a closed-end company, which may issue only a limited number of shares. Mutual funds generally do not issue share certificates; instead, they send out periodic statements showing deposits, withdrawals, and dividends credited to the investor's account. [SGAS 3]

Operating activities. Term used in connection with cash flows reporting. Operating activities generally result from providing services and producing and delivering goods, and include all transactions and other events that are not defined as capital and related financing, noncapital financing, or investing activities. [SGAS 9]

Operating revenues and expenses. Term used in connection with the proprietary fund statement of revenues, expenses, and changes in net assets. The term is not defined as such in the authoritative accounting and financial reporting standards, although financial statement preparers are

advised to consider the definition of *operating activities* for cash flows reporting in establishing their own definition. [SGAS 34]

Operational accountability. Governments' responsibility to report the extent to which they have met their operating objectives efficiently and effectively, using all resources available for that purpose, and whether they can continue to meet their objectives for the foreseeable future. [SGAS 34]

Option-adjusted spread models. A method of estimating the fair value of an option when it is thinly traded or when quoted market prices are not available. Such models measure the spread provided from a security that is an option or includes an option. Using a benchmarked yield curve, separate cash flows are discounted according to their maturity. The result is a spread when compared to yields for risk-free investments. [SGAS 31, Q&A]

Option contract. A contract giving the buyer (owner) the right, but not the obligation, to purchase from (call option) or sell to (put option) the seller (writer) of the contract a fixed number of items (such as shares of equity securities) at a fixed or determinable "strike" price on a given date or at any time on or before a given date. [SGAS 31]

Option-pricing models. A method of estimating the fair value of an option when it is thinly traded or when quoted market prices are not available. Under one such model (i.e., the Black-Scholes model) consideration is given to a security's return, the risk-free interest rate, the time remaining until the option expires, and the relationship of the underlying security's price to the strike price of the option. [SGAS 31, Q&A]

Original budget. The first complete appropriated budget. The original budget may be adjusted by reserves, transfers, allocations, supplemental appropriations, and other legally authorized legislative and executive changes before the beginning of the fiscal year. The original budget should also include actual appropriation amounts automatically carried over from prior years by law. For example, a legal provision may require the automatic rolling forward of appropriations to cover prior-year encumbrances. [SGAS 34]

Other financing source. An increase in current financial resources that is reported separately from revenues to avoid distorting revenue trends. The use of the *other financing sources* category is limited to items so classified by GAAP.

Other financing use. A decrease in current financial resources that is reported separately from expenditures to avoid distorting expenditure trends. The use of the *other financing uses* category is limited to items so classified by GAAP.

Other postemployment benefits (OPEB). Postemployment benefits provided by an employer to plan participants, beneficiaries, and covered dependents through a plan or other arrangement that is separate from a plan to provide retirement income. OPEB also include postemployment health care benefits provided through a public employee retirement system or pension plan. In addition to postemployment health care benefits (such as illness, dental, vision, and hearing), OPEB may include, for example, life

GOVERNMENTAL GAAP GUIDE

for State and Local Governments

Eric S. Berman

 Wolters Kluwer

the historical cost of a capital asset. For construction-in-progress, interest cost incurred after the beginning of the first reporting period for which GASB-89 will now apply should not be capitalized. For regulated operations that require capitalization of interest, no change would occur upon implementation of GASB-89.

PRACTICE ALERT: The Tax Cuts and Jobs Act of 2017 includes provisions to eliminate tax credit bonds (as well as advance refunding bonds). Tax credit bonds were prohibited from being issued after December 31, 2017. Owners of the bonds are no longer receiving tax credits with respect to those bonds. It is unclear if GASB will rescind the related provisions in GAAP at the time of publication.

OBSERVATION: Many governments sell debt in a consolidated fashion - meaning that more than one authorization is funded from a bond issuance. If consolidated sales are made, care must be taken in allocating proceeds between governmental and business-type activities for the purposes of allocating interest costs for capitalization. Amounts that are allocated to business-type activities may not be in a range of maturities and may be scattered based on bond authorization language. If possible, it is practical to have a second series of bonds for business-type activities as they may be secured by fees and charges, rather than general tax revenues. By having a second series, interest capitalization is much easier to calculate.

Infrastructure assets. GASB Cod. Sec. 1400.703-5 discusses how the modified approach may be applied to eligible infrastructure assets accounted for as either governmental activities or business-type activities. For example, an enterprise fund that owns a toll road (which is an infrastructure asset) could use the modified approach. If the enterprise fund uses the modified approach, it should be used in the preparation of both the government-wide and proprietary fund financial statements. See Chapter 10, "Capital Assets," for further discussion of infrastructure assets and the modified approach.

Customer deposits for utility services. Governmental entities that provide utility services, such as electric, water, sewer, and gas, may require deposits from customers, or a governmental entity may charge developers and/or customers system development fees (tap fees). A customer deposit is generally required to be paid before a service is turned on, and when the service is terminated, the deposit is returned to the customer. Utility services are generally accounted for as enterprise funds, and the AICPA's Audit and Accounting Guide *State and Local Governments* points out that receipts of customer deposits should be recorded as liability and continue to be reported as such until they are "applied against unpaid billings or refunded to customers." Generally, these customer deposits are reported as restricted assets and offset with a corresponding liability payable from restricted assets [GASB Cod. Sec. P80.806].

should be recorded as a liability and recognized as revenue using the general guidance related to either an exchange transaction or a nonexchange transaction. In an exchange transaction the governmental entity and the other party to the transaction exchange cash, goods, or services that are essentially of the same value.

A nonexchange transaction arises when the transfer of goods or services between two parties is not of equal value. See Chapter 17, "Revenues: Nonexchange and Exchange Transactions," for a discussion of nonexchange revenues.

Liabilities

Unlike governmental funds, a proprietary fund reports both current and noncurrent liabilities expected to be paid from the fund. A proprietary fund may receive the proceeds from the issuance of either general obligation bonds or revenue bonds, but in either circumstance the receipt of the proceeds coupled with the requirement to repay such debt results in a proprietary fund liability.

Accounting and Reporting Issues

Debt. A governmental entity may issue debt whereby the proceeds are used to construct capital assets reported in a proprietary fund. If the debt is directly related to and expected to be paid from the proprietary fund, both the capital asset and the debt are reported in the proprietary fund financial statements and the business-type activities column of the government-wide statement of net position.

Debt may be in the form of *revenue bonds*. With revenue bonds, principal and interest is paid exclusively from the earnings of a proprietary fund. If the debt is also secured by specific fixed assets of the proprietary fund, they are referred to as mortgage revenue bonds. Revenue bonds, both current and long-term portion, are recorded as a liability of the Enterprise Fund.

A proprietary fund's long-term liabilities may include obligations other than those that arise from the issuance of a security debt instrument. These other obligations may be created from leases, claims and judgments, landfill closure and postclosure care, pollution remediation, employee termination benefits, pensions, and postemployment benefits other than pensions (OPEB).

Statement of Revenues, Expenses, and Changes in Fund Net Position

The operating statement of a proprietary fund is the statement of revenues, expenses, and changes in fund net position. In preparing this statement:

- Revenues should be reported by major source; and
- Revenues that are restricted for the payment of revenue bonds should be identified.

The following categories (as applicable to the fund's operations) are presented in the statement:

- Operating revenues (Detailed)

- Total operating expenses;
- Operating income (loss);
- Nonoperating revenues and expenses (detailed);
- Subtotal (optional);
- Income before other revenues, expenses, gains, losses, and transfers;
- Capital contributions (grant, developer, and other), additions to permanent and term endowments, special and extraordinary items (detailed) and transfers;
- Increase (decrease) in net position;
- Net position—beginning of period; and
- Net position—end of period.

Revenues are required to be reported net of discounts and allowances, with the discount disclosed in a parenthesis on the face of the statement of revenues, expenses, and changes in net position or in a note to the basic financial statements. Many governments report gross revenues with the related discount and/or allowances reported directly beneath the gross revenue amount [GASB Cod Secs. P80.113–114, fn. 6].

Operating Revenues and Expenses

Operating revenues and expenses differ from government to government. Many governments attempt to align the definition of operating revenues and expenses in a similar fashion to peer non-governmental organizations. GASB Cod. Sec. P80.115 requires a policy defining operating revenues and expenses that is “appropriate to the nature of the activity being reported.” This policy needs to be consistently applied.

PRACTICE ALERT: The GASB’s Financial Reporting Model Improvements

Preliminary Views presents a proposed revision to a government’s flexibility in determining operating revenues and expenses. The Board’s preliminary view is that operating revenues and expenses should be defined as revenues and expenses *other than nonoperating* revenues and expenses. Nonoperating revenues and expenses are proposed to include:

- Subsidies received and provided;
- Revenues and expenses related to financing;
- Resources from the disposal of capital assets and inventory; and
- Investment income and expenses.

In an updated statement of revenues, expenses and changes in fund net position, a subtotal for operating income (loss) and noncapital subsidies should be presented before reporting other nonoperating revenues and expenses. The Board has proposed a definition of “subsidies” as resources provided by another party or fund to keep rates lower than otherwise would be necessary to support the level of goods or services provided. At the time of publication, it is unclear if

Chapter 20, “Financial Reporting,” illustrates a statement of revenues, expenses, and changes in net position for proprietary funds.

A proprietary fund should recognize revenue on an accrual basis, meaning that revenue is considered realized when (1) the earning process is complete or virtually complete and (2) an exchange has taken place.

Proprietary funds, such as water and sewer enterprise funds, have unbilled revenue at the end of an accounting period. Whether revenue is billed or unbilled is not the critical issue in the recognition of revenue in a proprietary fund. When a service has been provided (e.g., the consumption of a service by a customer), the related revenue should be recognized.

Accounting and Reporting Issues

Uncollectible accounts related to revenue. GASB Cod. Sec. P80.f06 require that revenues be reported net of related discounts or allowances. The amount of the discounts or allowances must be presented on the operating statement (either parenthetically or as a subtraction from gross revenues) or in a note to the financial statements. GAAP does not require that estimates of bad debt expense be reported as an offset to revenues, but GASB Cod. Sec. 2200.751-2 states that estimates of uncollectible accounts should be presented in a manner like discounts and allowances. That is, revenues should be reported net of the increase or decrease of the estimate of uncollectible accounts.

Capital contributions from governmental funds. A proprietary fund must take into consideration the nature of a capital contribution received from another fund. For example, GASB Cod. Sec. 2200.739-1 discusses the reassignment of a capital asset between an enterprise fund and governmental activities. If the asset is reassigned from governmental activities to an enterprise fund are capital asset; the transaction is not “interfund” because it involves only one fund; consequently, the enterprise fund would report the receipt of the capital assets as capital contribution from governmental activities (in the last section of the statement of revenues, expenses, and changes in fund net position).

In the reverse situation, in which a capital asset is reassigned from an enterprise fund to governmental activities, the disposal of the capital asset would be reported by the enterprise fund as a nonoperating expense. In either case, governmental funds would not report the event because there has been no flow of current financial resources. In the statement of activities, the reassignment of the capital asset between governmental activities and business-type activities would be reported as a transfer, requiring a reconciling item in the government funds’ reconciliation because a difference is created between the change in fund balances and the change in total net position.

In both cases, since the transfer consists of nonfinancial resources (a capital asset), the governmental fund will not record the transfer (because only financial resources are accounted for in a governmental fund); however, the proprietary fund will record the transaction not as a transfer but as capital contribution revenue in the lower portion of its operating statement. Even though the transfer is not presented in

MEMORANDUM

TO: Board of Trustees

FROM: Ray Tulloch
Audit Committee Chair

SUBJECT: Review, discuss, and possibly take action on the written annual Audit Committee Report to the District's Board of Trustees (Exhibit One) in conjunction with the presentation of the annual audit in accordance with Policy 15.1.0 (subparagraph 2.4.6).

DATE: March 9, 2022

I. Background

Under Board Policy 15.1.0, section 2.4, the Audit Committee is required to:

- 2.4 Facilitate the external audit process.
 - 2.4.1 Review and approve formal reports or letters to be submitted to the external auditor.
 - 2.4.2 Provide an independent forum for (external and/or internal resources) auditors to report findings or difficulties encountered during the audit.
 - 2.4.3 Review the auditors' report of findings and recommendations with management and the auditor.
 - 2.4.4 Review the CAFR in its entirety, including unaudited sections and letters.
 - 2.4.5 Follow -up on any corrective action identified.
 - 2.4.6 Submit a written annual Audit Committee Report to the District's Board of Trustees in conjunction with the presentation of the annual audit.
 - 2.4.7 Assess the performance of the independent auditors.

At the Audit Committee meetings of November 17 and December 8 respectively the Audit Committee completed actions 2.4.3 and 2.4.4

At the Audit Committee meeting of December 16 the Committee reviewed and agreed changes to the draft report prepared by Audit Committee chair Tulloch.

The Audit Committee has previously provided the General Manager and Finance Director with a draft copy of this report to provide them with an opportunity to respond to the issues identified and described herein by the Audit Committee. The response was discussed at the February 22 Audit Committee meeting and any agreed changes made.

II Action

This report and summary of recommendations is presented by the Audit Committee for the Board to review, discuss, and possibly take action on the written annual Audit Committee Report to the District's Board of Trustees (Exhibit One) in conjunction with the presentation of the annual audit in accordance with Policy 15.1.0 (subparagraph 2.4.6).

The Audit Committee has previously provided the General Manager and Finance Director with a draft copy of this report to provide them with an opportunity to respond to the issues identified and described herein by the Audit Committee. The response was discussed at the February 22 Audit Committee meeting and any agreed changes made.

The Committee also notes that, since the preparation of this Report, the Board has implemented changes in the Capitalization policy. The Committee expresses deep concern that, as a result of these changes, there are likely to be material issues and lack of consistency in future reporting of Capital assets which will make it difficult to have confidence in, or ability to compare, Capital Assets in subsequent ACFRs.

III Recommendations

Summary of Audit Committee Decision Points and Recommendations for the Board of Trustees

1. The Audit Committee notes actions are being taken by management to address the identified issues in the Auditors Compliance Report related to Internal Controls and Construction Projects.

The Audit Committee recommends that the 21-22 audit be expanded in scope to include enhanced review of internal controls.

2. Management corrected prior years of capitalization for items considered to be maintenance and repairs. However, the FY 2019-2020 and 2020-21 ACFRs are inconsistent.
 - a. For the Utility Fund, this is estimated to be \$181,882 (see Comments and Concerns #2 and Section 3.1)
 - b. For Community Services the amount is estimated to be \$1,171,606 (see Concern 11, Section 3.3, and Appendix D). These were for preliminary stage activities which include conceptual formulation and evaluation of alternatives, determination of future needs, feasibility studies and development of financing alternatives, temporary repairs for the Burnt Cedar pool and temporary repairs at the Mountain Clubhouse.

- c. Similar costs were expensed for 2019-2020 (as a prior period adjustment - Note 22 of CAFR) for the Parks Master Plan (\$212,044) and the Incline Village Ballfield (\$77,216). In 2021 similar costs of \$3,100,110 for the Effluent Pipeline were charged off as a prior period adjustment. This highlights the inconsistency of the financial statements.

The Audit Committee recommends a prior period adjustment to expense items 2a & 2b for consistency and accuracy of our financial statements.

3. Contained in the initial draft of the ACFR, the Auditor had identified an additional \$866,503.70 of charge off to expenses items for items capitalized in past CAFRs. After review by Management, some items were removed including levee and roadway repairs at the wetlands, spot paving at various recreational venues, sewer line repairs and roof repairs which, as noted in #2 above, had been determined to be expense items rather than capital. These items in aggregate amounted to a depreciated book value of \$500,016.63 and an original cost of \$2,067,116.34
4. Additionally, equipment items were grouped together to meet the capitalization threshold while Board Practice 2.9 states "**In no case will the District establish a capitalization threshold of less than \$5,000 for any individual item.**". The Audit Committee Chair reviewed this with the Auditor, after the financial report was complete, and she concurred that the Board Practice is clear and not open to interpretation. In addition, an Audit Committee member reviewed with Melissa Crosthwaite, District Legal Counsel, who also concurred the statement is clear. (see Concern 8 and Section 3.2). In total the original cost and depreciated book value of these less than \$5000 assets is \$329,558.08 and \$177,413.89.

The Audit Committee recommends a prior year adjustment to expense these items for compliance with Board Practice and consistency and accuracy of our financial statements.

5. Beginning in 2019 investment income was credited to the General Fund instead of the funds which had cash deposits at LGIP. This caused the General Fund's opening balance in the 2020-21 ACFR to be overstated by approximately \$492K (over a 10% overstatement). This has not been corrected.

The new process management has chosen to implement is allocating investment income not by the fund with cash invested at LGIP, but based on total cash equivalents by fund.

The Audit Committee recommends a prior period adjustment removing investment income credited to the General Fund and included in the fund

balances for the fund(s) which had cash invested at LGIP, as it had historically been done, prior to 2019.

Additionally, the committee recommends the approach for distribution of investment income be based solely on cash invested by fund or to have separate LGIP accounts by fund, like the Utility Fund, to avoid any confusion.

6. For ease of transparency, and to align with best practices, **the Audit Committee recommends the Capital Improvement budget contain only project costs that are to be capitalized. The Audit Committee recommends that projects or project elements related to repair and maintenance items are separated and included in operating expenses. A separate line item in the Statement of Income, Revenue and Expenses and Change in Net Position for repair and maintenance is recommended for all funds.** This will allow for cross referencing the expense items budgeted within Services and Supplies.

The Audit Committee recommends the additional prior period adjustments should be made to the 2020-2021 ACFR.

Thank you for considering actioning these recommendations from the Audit Committee.

Exhibit One

January 26, 2022, Annual Audit Committee Report to the IVGID Board of Trustees

1 Background

The IVGID Audit Committee ("AC") is required under Board Policy 15.1.0, subparagraph 2.4.6 to "Submit a written annual Audit Committee Report to the District's Board of Trustees in conjunction with the presentation of the annual audit. This report is provided to comply with the Policy and provide the Board with our questions, concerns, comments and recommendations.

At the public meeting held on December 8th 2021, the Audit Committee received and reviewed the final IVGID Annual Comprehensive Financial Report (ACFR) for the fiscal year ending June 30, 2020 and other related materials. The Management Representation Letter was not included in the package presented to the Audit Committee but was subsequently emailed to AC members when it was requested. As a result the AC was not able to review the management representation letter during the public meeting. The Audit Committee had previously reviewed an initial draft of the ACFR at the November 17 Audit Committee meeting.

The ACFR and accompanying documents were presented by Director of Finance Paul Navazio and Controller Martin Williams. Davis Farr Audit Engagement Partner Jennifer Farr was in attendance to answer questions and provide an overview with specific comments on the contents of the documents and the opinion issued by Davis Farr as required under their audit engagement letter with IVGID.

In light of the AC receiving the final 2020 ACFR and related documents for the first time on December 8, 2021, it was not possible for the Audit Committee to both remain compliant with Open Meeting Laws and to prepare, review and finalize the required report to the Board of Trustees (BoT) prior to the scheduled meeting of the BoT on December 14, 2021 where the ACFR was scheduled to be reviewed and possibly accepted by the BoT. The Audit Committee subsequently held a meeting on December 16 to review and agree changes to the draft report prepared by Audit Committee chair Tulloch. This is presented here in final form.

2 Comments by and Concerns identified by the Audit Committee

- 1) The AC notes that IVGID management issued and signed the Management Representation letter to Davis Farr prior to review by the AC, contrary to Board Policy 15.1, 2.4.1. The Management Representation Letter was also not included in the documents provided to the Audit Committee for the December 8 meeting. As such the Audit Committee has still to perform a final review of the Management Representation Letter.

- 2) The Audit Committee notes that the previously ongoing disagreements and concerns over the \$3.179m for assessments, studies and preliminary designs for the Effluent Pipeline that the AC considered to be incorrectly capitalized in FY 19-20 have now been addressed through a Prior Year Adjustment and the \$3.179m, less accumulated depreciation, has now been expensed in the utility fund. (Further discussed below). It should be noted that expenditures of \$181,822 have been charged to the Effluent Pipeline capital project accounts for fiscal year 2020 and 2021 which are substantially the same type of costs charged off in 2021 and which the Audit Committee considers should also have been expensed.
- 3) The AC notes that the final version of the Transmittal letter to the Nevada Department of Taxation now includes disclosure of, and reference to the two Material Weaknesses and one significant Deficiency identified by the Audit. This is in concurrence with our request made at the November 17 meeting.
- 4) The Committee received clarification and confirmation from Davis Farr that the audit engagement was not structured as a comprehensive forensic audit. The Audit opinion provided ¹
“In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Incline Village General Improvement District, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows and the statement of revenues for the year then ended in accordance with accounting principles generally accepted in the United States of America.”
was based upon the information and statements provided by management and audit tests and review. This complies with statutory requirements.
- 5) The Audit identified two material weaknesses (MW) and one Significant Deficiency along with other deficiencies which required to be addressed. The Audit Committee notes that this is the second consecutive year where Material Weaknesses have been identified and has concerns at this trend. Management have proposed actions to address these Material Weaknesses which the Audit Committee will review and monitor progress for correction.
- 6) Several of the concerns and deficiencies identified by the Auditor appear to be a direct result of lack of, and failure to comply with, internal controls. The Committee is deeply concerned about the lack of an opinion from the Auditor regarding internal controls. The Audit Committee also notes that it has previously been urging staff to complete the updates of Internal Controls.
- 7) The Audit Committee notes that there have now been Prior Year Adjustments in 4 out of the 5 previous years which could indicate an ongoing issue with timely and

¹ Independent Auditors Report @P2

accurate financial reporting. This makes it difficult to be able to have confidence in reported financial performance in the funds and business activities. With that in mind the Statistical Section of the ACFR which is not audited and has not been discussed or reviewed by the Audit Committee may have distortions as a result of these prior period adjustments .

- 8) The Audit Committee has serious concerns that several of the revisions to the proposed Capital Asset write-offs reviewed and identified by the Auditor were subsequently rejected and reversed by management in apparent violation of Board Policy 9.1.0 and Board Practice 2.9.0 (Discussed further below in 3.2 and details also in Appendix D) Management provided no documented explanation for how the policy was unclear and open to interpretation. The AC views the actions taken related to depreciation as a violation of Board Policy and Practice.
- 9) The Auditor highlighted concerns (concerns previously expressed by the Audit Committee) that expense items included in Capital Projects were only subject to review and possible transfer to be expensed when a project was closed rather than being expensed at the time of expenditure. There appears to be no clear procedure for ensuring that this review actually takes place and as a result there may be overstatement of capital assets and understatement of expenses. Members of the Committee have also raised concerns that the inclusion of expense items in capital projects funds is not in compliance with NRS, (NRS 354.4995) and GAAP/GASB (GASB #54 paragraph #33. The Audit Committee has requested capital items for expense not be included in the Capital Improvement Budget, but instead in operational expenses.
- 10) The recording and allocation of investment income to the separate funds does not appear to accurately reflect the relative balances within the funds and appears to be excessively skewed towards the General Fund which has the lowest fund balance. This was previously brought up and discussed with the Finance Director but no action appears to have been taken or supporting justification provided to validate the current allocation. Therefore, the AC views the financial report to incorrectly reflect interest income and therefore fund balance within each of the major funds.
- 11) It appears that in FY 20-21 several design studies and assessments have again been incorrectly capitalized rather than expensed as previously advised by Moss Adams. This is inconsistent with the actions taken in FY 19-20 where capitalized assessment studies were reversed to expense. (see further detail in Appendix D) Therefore, the AC views the financial reports to be inaccurate related to operational expenses and depreciation.
- 12) Facility fees (RFF/BFF) are again reported as general revenue rather than program revenues in the Statement of Activities . It is the view of the Audit Committee that this is NOT in compliance with GAAP and should be corrected. The final Moss

Adams report provides clarification on why the Facility Fees should be reported as program revenues.

3 Additional Discussion on Principal Concerns of the Audit Committee.

3.1 Expensing Previously Capitalized costs of the Effluent Pipeline (Comment 2)

Concerns about expensing Effluent Pipeline Phase II costs which were previously reported as Capital Assets and /or Construction in Progress in the 18-19 and 19-20 ACFRs have continued to be a subject of discussion by the Audit Committee during FY 20-21. The recent Moss Adams reports provided applicable capital expenditure and best practice guidance based on Governmental Accounting Standards Board (GASB) Concepts Statement No 4. The accepted practice includes recognition of the different stages of a project which include preliminary studies, construction and post-construction. The preliminary stage activities that include conceptual formulation and evaluation of alternatives, determination of future needs, feasibility studies and development of financing alternatives should be expensed as they are not directly connected with creating service capacity.

This highlighted that approximately \$3,179,000 in expenses of \$5,146,100 in costs incurred through June 30, 2019 for the Effluent Pipeline Phase II Project had been recorded in the Utility Fund as a capital asset and/or construction in progress. AC Member Clifford F. Dobler has previously provided a comprehensive and extensive overview of the entire costs incurred through fiscal year 2019 on the Effluent Pipeline Phase II Project. It is apparent that a major portion of these costs were necessary to satisfy conditions of an Administrative Order on Consent with the Nevada Department of Environmental Protection issued in April, 2014 and not resolved until May, 2019. This was discussed at length during the FY 19-20 ACFR review. The then Auditor and Management disagreed with the Committee view and left the at issue amount of \$3,179,000 as a Capital asset in the FY 19-20 financial statements.

For the FY20-21 ACFR, the initial proposal from Davis Farr and Management was that they still considered this to be a correct capitalization. Following extensive discussion of the initial draft ACFR during the November 17 2021 Audit Committee meeting, plus recognition that initial planning for replacement of (and financing options for) the effluent pipeline are now underway, it was agreed by Management that it would now be appropriate to close this outstanding issue by charging off the identified \$3.179m in Capital Assets to expense. Due to the magnitude of this write-off it was necessary to account for this as a Prior Period Adjustment and revise the financial statements to reflect this.

The Audit Committee recognizes the extensive effort expended by Mr. Dobler over previous years in accurately identifying the amounts to be expensed. The Audit Committee also recognizes the final agreement and initiative by General Manager Winquest and Finance Director Navazio to implement this change. Accordingly the Audit Committee thanks AC

member Dobler, GM Winquest and DoF Navazio for their efforts to bring this long running issue to closure.

3.2 Review of Capitalized Assets

During initial discussions on audit procedures between Davis Farr and the Audit Committee, the Audit Committee had highlighted their concerns around prior capitalization of items that appeared, under relevant GAAP, GASB and GFOA standards, as well as Board Capital Asset Policy 9.1.0 and Board Capitalization Practice 2.9.0, to be expense items rather than Capital Assets.

Accordingly, as part of their audit, Davis Farr performed a high level review of capital assets over the prior 15 year period to identify any apparent incorrect capitalization. Based on this the initial draft report provided to the Audit Committee by management on November 17, 2021, identified \$3,592,863.85 (original cost) of items that appeared to have been incorrectly capitalized. Net of accumulated depreciation of \$2,726,360.15 this was reflected as a write down of Capital Assets of \$866,503.70 in the draft report. A summary of these proposed Fixed Asset Audit Adjustments is attached as Appendix A. The Audit Committee, at that time, agreed in principle with this as a reasonable starting point in correcting previous suspect categorization of assets and accepted the proposed adjustments.

However, as part of the agreement to revise the financial statements to include the Prior Period Adjustment discussed under item 3.1 above, IVGID Management also performed an additional review of the Fixed Asset Adjustments identified by Davis Farr. The intent of this review was to more accurately assess on an individual item basis whether the adjustment was supported by the underlying data. This was done by reviewing additional detail about the asset rather than just looking at the header level detail as had been done by Davis Farr in their assessment. In principle the Audit Committee concurs with the validity of this approach.

When the final version of the ACFR was provided to the Audit Committee on December 8, 2021, it reflected a revised net write-off of capital assets (excluding the Effluent Export Pipeline) of only \$167,751, resulting from a total of \$1.2 million at original cost, net of \$1.03 million in accumulated depreciation. This was a significant delta from the November 17 proposals which were for a \$866,503.70 net write-off. On review of the detail of the changes made in this adjustment the Audit Committee identified a number of apparent variances from Policy. This included for example items such as:

- (a) paving repairs and maintenance, which appeared on the surface to be expense items and
- (b) A number of discrete assets with an original cost below the \$5,000 individual item minimum threshold specified in Board Policy 9.1.0, paras 2.0 and 3.0 (attached as Appendix B), and Board Practice 2.9.0, paras 1.1 and 1.2, (attached as Appendix

C). In aggregate these items amounted to an original cost of \$329,558 and a current book value of \$177,414.

With regard to items in (a) above, the Audit Committee does not have the level of detail necessary to validate or refute Management's categorization and accepts, subject to reservations, Management's categorization of these assets. A further review by an Audit Committee Member provides more detail on the expensed components which were reversed by Management (Appendix F).

However with regard to items in category (b) above, the considered and unanimous view of the Audit committee is that this categorization appears to be a clear deviation from, and violation of, Board Policy 9.1.0 and Board Practice 2.9.0. Specifically as follows:

Board Policy 9.1.0

- 2.0 Capitalization thresholds are best applied to individual items rather than to groups of similar items (e.g., desks and tables), unless the effect of doing so would be to eliminate a significant portion of total capital assets.
- 3.0 *In no case* will the District establish a capitalization threshold of less than \$5,000 for any individual item. (emphasis added)

and

Board Practice 2.9.0

1.1 The capitalization threshold *per item shall be:*

ASSET CLASS	MINIMUM COST
Equipment	\$ 5,000.00
Structures and Land Improvements	\$10,000.00

1.2 In addition to cost, all of the following criteria *shall* also be used:

- 1.2.1 The normal useful life of the item is three or more years.
- 1.2.2 The item has an acquisition cost (including freight and installation) of at least the amounts listed above in each asset class.

In discussions, Management advised the Audit Committee that, in terms of complying with the relevant Board Policies and Practices, it is their view that they have the ability to apply their judgement and to be flexible in how they these Policies are to be applied, and also that they are free to aggregate similar individual assets to meet the minimum threshold. They also considered that in terms of materiality this concern is irrelevant as the net delta in write-offs if these items were to be expensed is limited to \$152,144. However no supporting documentation, justification or references have been provided to the Committee to support this claim.

Upon perusal of the relevant board Policies and Practices, as well as consultation with legal counsel and Davis Farr, the Audit Committee has been unable to identify any provisions in the Policy that provide for flexibility, judgement or materiality to justify this approach. To the contrary the Policy and Practice appears to be unequivocal, for example:

*The capitalization threshold per item shall be:
In no case will the District establish a capitalization threshold of less than \$5,000 for any individual item.*

It is the considered and unanimous view of the Committee that compliance with these relevant Board Policies and Practices must be viewed as a binary choice i.e. either compliant or non-compliant. We can find no applicable middle ground or materiality threshold apparent in the text. Therefore the Audit Committee must advise the Board of Trustees that there appears to be a clear violation of Board Policies and Practices in this instance. While in terms of overall materiality of the financial statements the Committee agrees that the total impact is limited, the inference in this instance is that Management regard compliance with Board Policy and Practice as optional.

The Committee cannot in good faith concur with or support this approach.

For example, the language in the contract for the General Manager, (the only employee directly engaged by the Board) the language is very specific on this²:

1.1 IVGID hereby employs General Manager full-time to uphold and abide the laws of the State of Nevada, District Ordinances, written Policies, Practices, and Resolutions enacted by IVGID Board of Trustees ("Board of Trustees"),.....

So it can reasonably be expected that this requirement to comply with Board Policies, Practices and Resolutions also extends to all other employees of the District.

The Committee raises this apparent violation of Board Policy and Practice for consideration of action and reinforcement by the Board of Trustees as it is the Committee's view that there is a clear and overriding fiduciary requirement for Management to lead by example in compliance with agreed Board Policy. Absent such compliance it brings into question whether Board Policies in general should simply be considered as optional rather than mandatory.

3.3 Inconsistency

Management does not appear to have been consistent in the application of charging off capital expenditures which were expenses according to best practices. In fiscal year ending June 30, 2020, a total of \$803,514 of prior year capital expenditures for paving, painting, pre development expenses and abandoned projects were charged off as prior period adjustments. On May 31, 2021, Mr. Dobler provided a memorandum to the Audit

² Extract from of IVGID General Manager Employment Agreement

Committee which outlined additional capital costs which should have been expensed applying the same standards of charge offs made on June 30, 2020. Excluding the Effluent Pipeline, a total of \$1,171,606 does not appear to have been addressed and either remains in the capital assets or construction in progress accounts of the District. (Appendix E).

Further supporting detail is provided in Appendix D

4 Additional Recommendations

1. The Committee recognizes that in their first year audit Davis Farr has identified several issues that would support more in depth review in future audits to ensure IVGID financial statements provide an accurate representation of the District's finances and assets. It is the Committee's strong and unanimous recommendation that in the 21-22 audit, the Board should expand the scope of the audit, in particular to include more detailed examination of fixed assets and review of compliance with internal controls.
2. The audit has identified a number of apparent issues of failure of internal controls and processes. At the October 26 Audit Committee meeting, the Committee discussed with management their concerns with the apparent lack of progress on developing internal controls and strongly encouraged management to consider bringing on additional resources to ensure that this work was prioritized to ensure effective internal controls could be implemented expeditiously. The Audit Committee strongly recommends that the Board should direct this to be a critical priority for Management action and to be completed by 30 April 2022 at the latest.
3. In the current ongoing review of Board Policies and Practices the Committee recommend that the Board should provide explicit guidance to Management and staff of the absolute requirement to comply with Board Policies and Practices. If compliance is to be regarded as optional it must be questioned whether there is any value in the District applying resources and expenditures to revise these Policies. If staff identify legitimate issues with complying with Policies it is the responsibility of staff to bring these issues to the Board for resolution.
4. With regard to the actions proposed by Management in response to Material Weaknesses and Deficiencies identified by the Audit, it is the intention of the Audit Committee to add review of progress on these actions as a standing item on the AC agenda. The Committee recommends the Board should also highlight this as a priority action for Management with the objective of achieving a FY 21/22 audit that identifies no Material Weaknesses or Significant Deficiencies.
5. It is recommended that the current practice of placing maintenance expenses in Capital Improvement projects be discontinued forthwith and for all such expenditures to be properly budgeted within operating expenses. The process for review of such expenditures for allocation in accordance with Board Policies and Practices should be reviewed, updated as necessary and documented in order to provide an effective audit trail.

Conclusions

The AC believes this report satisfies our required responsibilities under Audit Committee

Board Policy 15.1.0 and trust that the Board of Trustees will consider our questions, concerns, comments and recommendations.

The AC wishes to thank Davis Farr and IVGID Management for the effort applied to the Audit and preparation of the ACFR. The outcomes clearly demonstrate the value of regular rotation of Auditors to bring fresh perspective on IVGID financial reporting.

Respectfully,

IVGID Audit Committee

Ray Tulloch, At large Audit Committee Member and Audit Committee Chair

Mathew Dent, IVGID Board Trustee and Vice Chair

Sara Schmitz, IVGID Board Trustee and Secretary

Clifford F. Dobler, At large Audit Committee Member

Appendix B

Accounting, Auditing and Financial Reporting Capitalization of Fixed Assets Practice 2.9.0

RELEVANT POLICIES: 8.1.0 Establishing the Estimated Useful Lives of Capital Assets and 9.1.0 Establishing Appropriate Capitalization Threshold for Capital Assets

1.0 ACCOUNTING CONTROL

The capitalization threshold for all asset classes shall be identified during the budget process each fiscal year by the Finance and Accounting staff and approved by the Board of Trustees as part of the adoption of the annual Debt Management Policy, including the Five Year Capital Improvement Plan and its statement on Minimum level of expenditure.

1.1 The capitalization threshold per item shall be:

<u>ASSET CLASS</u>	<u>MINIMUM COST</u>
Equipment	\$ 5,000.00
Structures and Land Improvements ...	\$10,000.00

1.2 In addition to cost, all of the following criteria shall also be used:

1.2.1 The normal useful life of the item is three or more years.

1.2.2 The item has an acquisition cost (including freight and installation) of at least the amounts listed above in each asset class.

1.2.3 The item will not be substantially reduced in value by immediate use.

1.2.4 In case of repair or refurbishment that will be capitalized, the outlay will substantially prolong the life on an existing fixed asset or increase its productivity significantly, rather than merely returning the asset to a functioning unit or making repairs of a routine nature.

Effective July 1, 2016

1

**Accounting, Auditing and Financial Reporting
Capitalization of Fixed Assets
Practice 2.9.0**

- 1.2.5 The capitalization threshold is applied to individual items rather than to groups of similar items (e.g. desks and tables).
- 1.2.6 The utilization of componentization of assets under the project, to provide a more appropriate management of an assets care, condition and associate maintenance or replacement, takes precedent over the stated thresholds under section 1.1.

2.0 PHYSICAL CONTROL

All fixed assets acquired either as operating or capital expenditures will be identified as IVGID property and recorded. Such items represent a value to the operations that have an ongoing usefulness to justify safeguarding them from loss or abuse. The items should be expected to be in service at least two years and can be readily assigned to a function or activity as responsible for its care and condition.

Effective July 1, 2016

2

Appendix C

Accounting, Auditing and Financial Reporting Establishing Appropriate Capitalization Threshold for Capital Assets Policy 9.1.0

POLICY. The District will consider the following guidelines in establishing capitalization thresholds:

- 1.0 Potentially capitalizable items should only be capitalized if they have an estimated useful life of greater than two years following the date of acquisition or placed into service.
- 2.0 Capitalization thresholds are best applied to individual items rather than to groups of similar items (e.g., desks and tables), unless the effect of doing so would be to eliminate a significant portion of total capital assets.
- 3.0 In no case will the District establish a capitalization threshold of less than \$5,000 for any individual item.
- 4.0 In establishing capitalization thresholds, when the District is a recipient of federal awards, then federal requirements that prevent the use of capitalization thresholds in excess of certain specified maximum amounts for purposes of federal reimbursement will prevail.
- 5.0 Capitalization of buildings and infrastructure should consider the use of componentization as a way to reflect the varying life cycle considerations of mechanical, structural elements, and wear items that may require different cycles of maintenance and replacement from the main asset being capitalized. The significance of such componentization takes precedent over the \$5,000 threshold, and thus smaller amounts may be listed to facilitate proper asset management.

Effective July 1, 2016

Appendix D

Background

2020 CAFR - Prior Period Adjustments for Capital Assets and Construction in Progress ONLY

- Community Services and Beaches - \$803,514 consisting of:
 - Carpeting and Painting - 8 "projects" - \$78,582
 - Paving - 38 "projects" - \$435,672
 - Pre development - High School Ball field - \$77,216
 - Pre development - Community Services Master Plan - \$212,044

2021 Concepts and Assessments (Pre development) and abandonments which were **NOT** considered for charge off to expense. Amounts should have been expensed based on Moss Adams report 1/14/2021 and accepted by Board of Trustees on 2/10/2021 - Cliff Dobler memo dated 5-31-2021. More detail on Appendix E

- Burnt Cedar Pool - \$219,802 (includes \$119,498 of repairs completed in 2019 and abandoned in June 2021)
- Incline Beach Bldg - \$216,131
- Mountain Golf Course Club House - \$328,954 (includes \$150,751 for repair costs to open prior to major rehab)
- Tennis Center - \$68,621
- Incline Baseball Field - \$120,268
- Diamond Peak Master Plan - \$217,830
- **Total - \$1,171,606**

2021 CAFR - Initial Charge off (per Davis Farr) of \$866,504 in second draft and amounts removed in third draft (throw back)

	<u>Initial</u>	<u>Throw Back</u>	
• General Fund -	\$28,691	\$ 8,800	
• Utility Fund -	389,080	316,885	Wetland repairs \$1743K
• Community Services -	369,194	314,106	Parking and Cart Path repairs \$211K
• Beaches -	66,266	37,640	100% Parking and Boat Ramp repairs
• Internal Services -	13,273	ZERO	
total	\$866,504	\$677,431	
	DIFFERENCE	\$189,073	
	MEMO	\$167,751	WHY?

2021 CAFR - Additional Charge Off for Pipeline - \$3,179,000 DID NOT INCLUDE 2020 AND 2021 EXPENSES OF \$182,023. Costs included the Granite assessment report ,the Jacobs report on the Pond,, and an unknown amount of Staff time.

Other Charge offs not considered - ACQUIRED UNDER NEW BOARD POLICY AND PRACTICE

- Staff Uniforms at DP 2016-2017 \$115,739
- Rental Skis at DP 2016-2017 \$466,104
- Undepreciated amount - To be determined

Appendix E

Audit Committee Report to the Board of Trustees.

Analysis of capital items originally considered a charge off and reversed by IVGID management Supplement to item 3.2

At the request of IVID management, Davis Farr provided a high level review of cost items classified as capital assets which should have been expensed based on Board Policies and Practices, the Moss Adams recommendations and GFOA sections on capitalization. The report was provided to the Audit Committee on November 17, 2021. The review indicated that \$866,503.70, consisting of \$3,592,863.85 in costs and \$2,726,350.15 in accumulated depreciation, would be charged off and reported as a prior period adjustment. Subsequently, undocumented discussions ensued between Davis Farr and IVGID management wherein it was determined that 169 items with a book value of \$677,540.52 consisting of \$2,396,674 in costs and accumulated depreciation of \$1,179,244 would not be expensed and remain as capital assets. As a result only \$189,072 (\$866,504 less \$677,540) was charged off as expenses and reported as a prior period adjustment. The Audit Committee is unsure why the December 8th memo from Paul Navazio listed \$167,751 as the charged off costs. (page 5 of AC Packet)

Based on a Committee Member extended review of the CAPITAL ASSETS reversed the following are conclusions based on historical facts and recommendations.

There were 169 items listed

- 33 items had no book value and were not necessary to be included
- 26 items were not depreciated and had total costs of \$50,015. It is unknown what these costs were, however they averaged only \$1,924. We have reservations about the whether these costs should remain as capital assets even though Board Policies and Practices did not establish capitalization thresholds for costs which would not be depreciated.
- 64 items with a combined book value of \$127,553 should not have been reversed since the original purchase costs for each item did not meet the cost threshold for capitalization as defined in Board Policies and Practices.
- There were two items in the Utility Fund labeled "Maintenance Facility Garage" each costing \$42,350 and purchased on the same date of 12/31/2017. The remaining book value of these two items was \$34,130. This may be a duplicate.
- There were 10 items in the Utility Fund for repairs of roadways and levees at the 600 acre Wetland site which captures all waste water from the Waste Water Treatment Plant in Incline Village. Total book value was \$174,333. Applying the criteria of the Moss Adams Report and the GFOA section - "Governmental Accounting, Auditing and Financial Reporting" (GAAFR 23-10) these items should not have been capitalized as continuous repairs are being conducted annually at the Wetlands site. As stated in the Moss Adams Report:

"Governments often expend resources on existing capital assets. Most often, these expenditures simply preserve the asset's utility are expensed as routine repairs and maintenance. Any outlay that does no more than return a capital asset to its original condition, regardless of the amount expended, should be classified as maintenance and repairs. Since maintenance and repairs provide no additional value, their costs should be recognized as expense when incurred."

- There were seven items listed as parking lot and golf course cart path paving repairs. The net book value was \$248,000. Applying Moss Adams and GFOA recommendations (above) these costs should have been expensed. Ironically, in fiscal year 2019/2020, IVGID staff reported a prior period adjustment to expense 38 paving projects with a net book value of \$435,672 which had previously been capitalized.

Also during 2020/2021, 13 parking lot and golf cart paths paving repairs costing \$253,736 were expensed. As such, IVGID management is not being consistent in capitalization of expenses regarding paving maintenance and repairs.

Accounting principles - The consistency principle states that, once you adopt an accounting principle or method, continue to follow it consistently in future accounting periods. Only change in accounting principle or method if the new version in some way improves reporting financial results - May 15, 2017

- There were 4 remaining items with a combined net book value of \$42,348 which consisted of a sewer line repair (\$18,582), a roof repair at the Diamond Peak Snowflake lodge (\$14,266), a snowmaking master plan (\$8,845) and a small amount of software (\$655) all of which appear to be expenses.

Conclusion

The audit committee generally concurred with the original analysis by Davis Farr wherein most of the \$866,504 of net book value of assets should have been expensed and recorded as a prior period adjustment.

- We find that IVGID management did not follow board Policies and Practices, nor the recommendations of Moss Adams, nor the guidance by the GOFA but rather used their own "judgment" as to costs which should be capitalized as opposed to expensed.
- It is unclear to the AC the extent of the Davis Farr review. Davis Farr provided no opinion on their review.

Recommendation:

- A deeper review of the Capital Assets should be conducted after an agreement is reached by the Board of Trustees on a definitive description of what costs should be capitalized or expensed.

M E M O R A N D U M

TO: Board of Trustees

THROUGH: Paul Navazio
Director of Finance

FROM: Indra Winquest
District General Manager

SUBJECT: Management Comments Related to Audit Committee Annual Report (dated March 9, 2022)

DATE: April 13, 2022

I. RECOMMENDATION

Staff recommends that the Board of Trustees consider management's response(s) to the recommendations included in the Annual Report of the Audit Committee, presented to the Board of Trustees on March 9, 2022, prior to consideration of formal Board action related to the Audit Committee's recommendations.

II. BACKGROUND

The purpose of this memorandum serves to provide management's response to the recommendations presented to the Board of Trustees via the Audit Committee's annual report on the FY2020/21 audit, which was transmitted to the Board on March 9, 2022.

Upon receipt of the Audit Committee's Annual Report, the Board of Trustees deferred action on the specific recommendations being advanced by the Audit Committee, pending review and comment from management (and, where appropriate, the District's external auditor).

This agenda item has been prepared in response to the request from the Board of Trustees.

The Audit Committee's Annual Report, presented to the Board of Trustees at their meeting of March 9, 2022 contained a series of specific recommendations within five general topics, for consideration by the Board.

Staff concurs with recommendations of the Audit Committee related to:

Recommendation #1 - Expanding the scope of audit work for FY21/22 to include enhanced review of internal controls.

Staff has largely implement the recommendation of the Audit Committee related to items to be included in the District's Capital Budget:

Recommendation #5 - the Audit Committee recommends the Capital Improvement budget contain only project costs that are to be capitalized. The Audit Committee recommends that projects or project elements related to preliminary stage activities, repair and maintenance items are separated and included in operating expenses.

In addition, related to Recommendation #4, staff concurs with updating the historical methodology for allocating interest earnings; however, staff wishes to clarify that a change in methodology for allocating investment earnings was implemented for FY2021/22. This revised approach is consistent with best management practices. Staff feels that the Audit Committee's recommendation, as presented in their Annual Report, is based on a misunderstanding of the how investment earnings were allocated in the past, as well as the change in methodology that has been implemented in the current fiscal year.

Staff does not concur with the Audit Committee's recommendations related to the need for additional prior period adjustments. Each of these items were reviewed by the District's external auditors (past and/or present), and the most recent audit of the District's financial statements were determined by the independent auditor to be "fairly represented in all material respects." Therefore, a review and revision of items already audited and deemed appropriate by both management and the District's independent auditor is unwarranted and unnecessary. These Audit Committee recommendations include:

Recommendation #2 - The Audit Committee recommends a prior period adjustment to expense items 2a & 2b for consistency and accuracy of our financial statements. (Related to maintenance and repair activities).

Recommendation #3 - The Audit Committee recommends a prior year adjustment to expense these items for compliance with Board Practice and consistency and accuracy of our financial statements. (Application of capitalization threshold criteria).

Recommendation #4 - The Audit Committee recommends a prior period adjustment removing investment income credited to the General Fund and included in the fund balances for the fund(s) which had cash invested at LGIP, as it had historically been done, prior to FY 2018-2019.

III. DISCUSSION

This discussion sections provides more specific responses to each of the recommendations included in the Audit Committee's Annual Report to the Board of Trustees, dated March 9, 2022. The Audit Committee's recommendations are presented herein, verbatim, and *management's responses are presented in italics.*

1. The Audit Committee notes actions are being taken by management to address the identified issues in the Auditors Compliance Report related to Internal Controls and Construction Projects.

The Audit Committee recommends that the FY 21-22 audit be expanded in scope to include enhanced review of internal controls.

Management Response:

Management concurs that the scope of the independent audit engagement did not constitute a "comprehensive forensic audit," nor is this typically the scope of an annual audit of financial statements.

Should the Board choose to undertake an audit that goes beyond the standard audit procedures for review of financial statements for compliance with GAAP/GAASB and Generally-Accepted Audit Standards, this should be discussed with the external auditor. Additional audit scope would likely require a separate engagement (and cost) from the specific scope of the annual financial statement audit, for which the District has entered into a multi-year, fixed-price contract.

2. Management corrected prior years of capitalization for items considered to be maintenance and repairs. However, the FY 2019-2020 and 2020-21 ACFRs are inconsistent.
 - a. For the Utility Fund, this is estimated to be \$181,882 (see Comments and Concerns #2 and Section 3.1)
 - b. For Community Services the amount is estimated to be \$1,171,606 (see Concern 11, Section 3.3, and Appendix D). These were for preliminary stage activities which include conceptual formulation and evaluation of alternatives, determination of future needs, feasibility studies and development of financing alternatives, temporary repairs for the Burnt Cedar pool and temporary repairs at the Mountain Golf Course Clubhouse.
 - c. Similar costs were expensed for 2019-2020 (as a prior period adjustment - Note 22 of CAFR) for the Parks Master Plan (\$212,044) and the Incline Village Ballfield (\$77,216). In FY 2020-2021 similar costs of \$3,100,110 for the Effluent Pipeline were charged off as a prior period adjustment. This highlights the inconsistency of the financial statements.

The Audit Committee recommends a prior period adjustment to expense items 2a & 2b for consistency and accuracy of our financial statements.

Management Response:

All FY2020/21 capital and construction-in-process items were reviewed by management and the auditor and concluded that capitalization was appropriate.

3. Contained in the initial draft of the ACFR, the Auditor had identified an additional \$866,503.70 of charge off to expenses items for items capitalized in past CAFRs. After review by Management, some items were removed including levee and roadway repairs at the wetlands, spot paving at various recreational venues, sewer line repairs and roof repairs which, as noted in #2 above, had been determined to be expense items rather than capital.

Additionally, equipment items were grouped together to meet the capitalization threshold while Board Practice 2.9 states **"In no case will the District establish a capitalization threshold of less than \$5,000 for any individual item."** The Audit Committee Chair reviewed this with the Auditor, after the financial report was complete, and she concurred that the Board Practice is clear and not open to interpretation. In addition, an Audit Committee member reviewed with Melissa Crosthwaite, District Legal Counsel, who also concurred the statement is clear. (see Concern 8 and Section 3.2)

The Audit Committee recommends a prior year adjustment to expense these items for compliance with Board Practice and consistency and accuracy of our financial statements.

Management Response:

As discussed with the Audit Committee, and supported by the Auditor, at issue are items that the Auditor had identified as potential write-offs, based on their review of Board Policy and GAAP/GASB guidelines. The reversals of items initially written-off were all reviewed with the Auditor and were only reversed upon concurrence of the Auditor.

Moreover, management believes that the review of capital assets and subsequent write-offs to be consistent with Board Policy 9.1 and Board Practice 9.2. At the same time, given the identified need to clarify aspects of the capitalization policy, these have been largely addressed in the updated capitalization policy approved by the Board in January.

Staff notes that in following up with both the external auditor and the District's legal counsel, the comments attributed to both in this Audit Committee recommendation

are taken out of context and should not be viewed as concurrence with the Audit Committee's position.

4. Beginning in FY 2018-2019 investment income was credited to the General Fund instead of other funds which had cash deposits at LGIP. This caused the General Fund's opening balance in the FY 2020-21 ACFR to be overstated by approximately \$492K (over a 10% overstatement). This has not been corrected.

The new process management has chosen to implement is allocating investment income not by the fund with cash invested at LGIP, but based on total cash equivalents by fund.

The Audit Committee recommends a prior period adjustment removing investment income credited to the General Fund and included in the fund balances for the fund(s) which had cash invested at LGIP, as it had historically been done, prior to FY 2018-2019.

Additionally, the committee recommends the approach for distribution of investment income be based solely on cash invested by fund or to have separate LGIP accounts by fund, like the Utility Fund, to avoid any confusion.

Management Response:

The accounting for investment income has been modified beginning with the 2021/22 (current) fiscal year. This change in methodology is consistent with best management practices and, staff believes, is more closely aligned with the implied goal of the Audit Committee's recommendation.

Staff does not concur with the Audit Committee's recommendation to record prior period adjustments related to past practice of allocating investment earnings.

Simply stated, the District's past practice was to record and track investments in LGIP and the District's investment portfolio "by fund." Accordingly, individual funds were credited with investment earnings based on the interest received by investments held by each individual fund. Under this approach, the General Fund was historically credited with interest earnings from pooled cash within the District's governmental funds.

Beginning July 1, 2021, management modified the methodology for allocating investment earnings. Consistent with best management practices, all available cash on hand is pooled for investment purposes. Individual investments are not recorded, or tracked, by fund, but rather investments are managed under a pooled portfolio, with interest earnings allocated to each of the District's individual funds based on each fund's proportional share of cash balances available for investment.

5. For ease of transparency, and to align with best practices, **the Audit Committee recommends the Capital Improvement budget contain only project costs that are to be capitalized. The Audit Committee recommends that projects or project elements related to preliminary stage activities, repair and maintenance items are separated and included in operating expenses. A separate line item in the Statement of Income, Revenue and Expenses and Change in Net Position for preliminary stage activities, repairs and maintenance is recommended for all funds.** This will allow for cross referencing the expense items budgeted within Services and Supplies.

Management Response:

Management does not concur with the full extent of this recommendation, and this issue warrants Board discussion.

Management concurs, and has implemented, budgeting and accounting practice of reflecting all capital maintenance expenses as operating costs within the District's budget and financial statements. Specifically, items to be capitalized are budgeted as capital outlay within the District's budget, and items that are deemed capital maintenance and repairs (or otherwise do not meet the District's capitalization criteria) are budgeted and accounted for within each fund's operating budget.

However, the presentation of these items within the District's overall multi-year capital plan is not only consistent with current Board Policy 13.1/ Practice 13.2, but also assists in identifying individual projects, with varying levels of funding requirements, all related to the maintenance and replacement of the districts, facilities, infrastructure, and assets.

Notwithstanding, management is developing improved presentation and reporting of the different elements contained in the capital plan for improved transparency and ease of understanding.

Lastly, management does not concur with the recommendation to reflect all of the maintenance and repair items in a separate line item within the District's financial statements (specifically, Statement of Income, Expense and Change in Net Position). While these items are presently reflected in a single account object code (7505) within the budget and general ledgers, these items are more appropriately reflected in the account codes appropriate for the "type" of expenditure (example: computer equipment, professional services, etc.). Moreover, establishing a separate line item within the District's formal financial statements, as recommended by the Audit Committee, is contrary to GAAP/GASP requirements for these type of expenditures.

(Note: In the context of this discussion, it is important to clarify that, with the transition to Enterprise Fund accounting for the District's Community Services and Beach funds, there is no longer any formal distinction between utility and venue "operating budgets" and "capital budgets." All of the revenues and expenditures for each fund are reflected in a single fund (or sub-fund) budget that includes operating, capital and debt line items).

III. ALTERNATIVES

This report recommends that the Board of Trustees consider management's response to each of the Audit Committee's Annual Report recommendations prior to considering formal Board action.

As an alternative to considering each recommendation individually prior to any Board action, the Board could consider:

- 1) Accepting all of the recommendations in the Audit Committee's Annual Report, as recommended by the Audit Committee, or
- 2) Take no action on the recommendations contained within the report, and consider receiving the report and directing the Audit Committee to return to the Board of Trustees with a specific recommendation related to scope and cost of additional audit work to expand the external auditor's review of the District's internal controls.

MEMORANDUM

TO: Audit Committee

THROUGH: Ray Tulloch

FROM: Clifford F. Dobler

SUBJECT: Potential charge offs of capitalized costs incurred in the capital project #2599SS1102 - Wastewater Treatment Plant Improvements

STRATEGIC PLAN REFERENCE(S): None

DATE: 6-16-2022

*650K
-
1/2 in 17 -
too old. to pursue*

I. RECOMMENDATION

Review, discuss and determine if action is necessary to expense costs that may have been incorrectly capitalized. This may also require identification of what level of asset componentization is being applied and too ensure consistency in this application.

II. BACKGROUND and ANALYSIS

For the seven year period from 7-1-2014 to June 30, 2021, \$1,197,757 in costs were charged to the Wastewater Treatment Plant Improvements capital project #2599SS1102. Several outside design, IVGID engineering charges, IVGID work orders, and outside purchases and contracts were included.

It is unclear, if the charges were capitalized as one capital assets or capitalized as individual components of the Wastewater Treatment Plant.

Probable Expense Items

A portion of charges (\$179,461) by Jacobs Engineering Group may have been for concept or preliminary design. These type of charges would be expensed based on Moss Adams recommendations.

*64K yr 1 -
ES Judgment.*

IVGID Engineering charges of \$74,950 should have been expensed based on Moss Adams recommendations. *can cap.*

There were 15 internal work orders for \$41,937 consisting of labor only and several may not have reached the capitalization thresholds or could have been for normal repairs. Several small purchases may have been materials for the work orders and should be combined with the labor cost to determine if capitalization thresholds were met.

Components subject to capitalization as separate components

The vast majority of the remaining costs appear to be for a variety of items and should be capitalized as components.

Project Summary

Project Number:	2599SS1102
Title:	Water Resource Recovery Facility Improvements
Project Type:	E - Capital Maintenance
Division:	99 - General Administration - Sewer
Budget Year:	2020
Finance Option:	
Asset Type:	SS - Sewer System
Active:	Yes

Project Description	<p>The District's water resource recovery facility (WRRF) treats all of the raw sewage from the communities of Incline Village and Crystal Bay. The original treatment plant was built in 1962 and went through many upgrades as the community grew in size. The current plant configuration is largely the same from the major renovation in 1992 that replaced most equipment and processes. The plant is rated to treat 2.14 MGD by the State of Nevada. The plant has preliminary treatment, aeration, sedimentation, disinfection and solids dewatering processes to treat the raw sewage. Each of these processes consist of electrical, mechanical, instrumentation, and communication equipment. The plant also has odor control, chemical storage, fuel storage, overflow ponds, effluent storage reservoir, emergency generator, and other miscellaneous structures. Future years include the develop, design and construction of odor control upgrades.</p>
Project Internal Staff	<p>Staff selects, purchases and installs small equipment projects. Larger replacement projects are bid to outside contractors.</p>
Project Justification	<p>The majority of equipment and processes at the WRRF are 20 years old. The WRRF has sufficient capacity and redundancy that has kept the operating hours low for a number of pieces of equipment. Some equipment is run 24/7 necessitating frequent replacement. The forecast is staff's projection of the needed equipment replacement. It is planned to replace the potable water system, pump and motor installs, meters and sensors and to upgrade servers, firewalls, and other network equipment.</p>

MEMORANDUM

TO: Audit Committee

THROUGH: Ray Tulloch

FROM: Clifford F. Dobler

SUBJECT: Potential charge offs of capitalized costs incurred at the Burnt Cedar Water Disinfection Plant #2299DI1401

STRATEGIC PLAN REFERENCE(S): None

DATE: 6-16-2022

I. RECOMMENDATION

Review, discuss and determine if action is necessary to expense costs that may have been incorrectly capitalized. This may also require identification of what level of asset componentization is being applied and too ensure consistency in this application.

II. BACKGROUND and ANALYSIS

For the past six years from 7-1-2015 to June 30, 2021, \$548,004 in costs were charged to the Burnt Cedar Water Disinfection Plant capital project #2299DI1401. During that period, several charges for design, IVGID engineering, IVGID work orders, and outside purchases and contracts were included.

It is unclear, if all of the charges were capitalized under one capital assets or were capitalized as individual components of the Disinfection Plant.

Probable Expense Items

Concept designs were completed by Jacobs Engineering Group, Inc. for a contingency plan to extend water intake line for low levels in Lake Tahoe (\$28,037) and CH2M-Hill provided an evaluation of the SSADA system

Handwritten: s/b written off

(21,271). These charges should have been expensed based on Moss Adams recommendations.

IVGID Engineering charges of \$60,000 should have been expensed based on Moss Adams recommendations.

There were 7 internal work orders for \$5,647 which were for labor only and may not have reached the capitalization thresholds. There could be associated purchased items when combined with the labor could have reached the capitalization. A public records request have been made for the work ourders..

LA Perks Plumbing & Heating, Inc. repaired three inlet pumps for \$26,889 which should have been expensed as repairs.

Ferrell Civil Engineering charged \$4,350 for Beach flatscape and Carson Pump LLC, charged \$500. Both charges should have been expensed as the amounts did not meet capitalization thresholds.

Brown & Reed charged \$7,700 to repair the HVAC which should have been expensed.

There was \$35,182 charged by Coldale Electric Supply for Water Pump Station 2.1. Obviously a coding error. why?

Aggregate?

Components subject to capitalization as separate items

The vast majority of the remaining costs appear to be for new software and hardware.

Exhibits

- A. List of Costs from 7-1-2015 to 6-30-2021

Project Summary

Project Number:	2299DI1401
Title:	Burnt Cedar Water Disinfection Plant Improvements
Project Type:	E - Capital Maintenance
Division:	99 - General Administration - Water
Budget Year:	2020
Finance Option:	
Asset Type:	DI - Distribution Infrastructure
Active:	Yes

Project Description
<p>The Burnt Cedar Water Disinfection Plant produces one billion gallons of potable drinking water for the 8000+ customers in Incline Village and Crystal Bay. The delivery of potable water to our customers is the most important mission of the Public Works Department. The two main federal water regulations that regulate the District's water system is the Surface Water Treatment Rule (SWTR 1989) and the Long Term 2 Enhanced Surface Water Treatment Rule (LT2 2006). The Plant contains raw water pumping, ozone system for disinfection for virus inactivation, ultraviolet system for girardia and cryptosporidium inactivation, chlorine dosing for residual disinfectin in the distribution, and treated water pumping. Associated with these processes are communication equipment, electrical equipment, instrumentation equipment, valving, standby electrical generation, chemical dosing etc. The plant has been in existence since 1961 with the most recent major upgrade completed in 2012 to achieve compliance with LT2.</p> <p>This project is to cover the on-going capital maintenance and replacement of the equipment and facilities at the water disinfection plant.</p>
Project Internal Staff
<p>Staff will oversee the design, bid and administer the construction.</p>
Project Justification
<p>This project is for on-going capital replacement of equipment and facilities at the water disinfection plant. This project also includes a possible extension of the water intake pipeline. EPA and State Regulations may require extension of the raw water intake to the water plant where it is deeper and farther from the shore and creek mouths where it will be less influenced by disturbances from storms. This project also includes the potential abandonment of the old water intake line in Crystal Bay owned by IVGID since 1978. This project funds mechanical, electrical civil and control system improvements.</p>

July 10, 2022

To: Ray Tulloch - Chairman of Audit Committee

From: Clifford F. Dobler

Re: Wastewater Treatment Plant Improvements #259922102 - Potential charge offs of prior costs which may have been capitalized as an asset rather than expensed as repair and maintenance.

could be mostly fully depreciated. Exp in wrong period.

THIS CORRESPONDENCE IS TO BE MADE PART OF THE NEXT AUDIT COMMITTEE PACKET.

At the Audit Committee meeting held on June 16, 2022, the committee reviewed all of the charges accounted for under one n project #259922102 which amounted to \$1,197,757 for the 7 year period from July 1, 2014 to June 30, 2021 (EXHIBIT A).

The AC asked to receive more information on the 15 internal "work orders" amounting to \$41,937. A public records request was made and the 15 work orders are attached as EXHIBIT B. The work orders provided minimal information and consisted of charges for labor and equipment usage, presumably for trucks. NO MATERIALS WERE INCLUDED IN THE WORK ORDERS.

It was quite disappointing to find that of the 15 work orders, 7 were not related to the Sewer Treatment Plant. There was one for Sewer Pump Station #4, one for Sewer Pump Station #5, and two for Sewer Pump Station #1. There were two for the DWSP#3, one for Reservoir Access Safety Improvements (part of the water system) and the remaining is not identified. One work order on 4/30/2021 had \$61,924.52 in material costs with no disclosure on who it was paid to nor what it was for.

According to the Project Summary for Fiscal year 2022-2023, this account will involve over 5 treatment processes requiring four different types of equipment. In addition, six different facilities to control other aspects.

According to the Project Summary (EXHIBIT C) that over the next six years, \$1.125 million will be spent on four large projects and the remaining \$375K is listed as Equipment Improvements. This is assumed to be a catch all for repairs and maintenance.

Since the AC was unaware if the costs specified in EXHIBIT A have been allocated into separate components and then capitalized according to Board Policies and Practices, it becomes impossible to determine what amount of costs should have charged off as expenses. There obviously is no internal controls over what costs should be charged to what project. It would seem that the project account may have been established as a "catch all" for many items.

EXHIBIT A - Listing of historical charges to project # 259922102

EXHIBIT B - Listing of Work Orders.

EXHIBIT C - Project Summary Report fiscal 2022-2023

over stated.

Re: Charge off of capital assets or cost held in construction in process which should have been expensed as PRIOR PERIOD ADJUSTMENTS FOR FISCAL YEAR ENDING JUNE 30, 2021

With the creation of the Moss Adams report regarding expensing pre development designs and assessments on potential capital projects, the Audit Committee engaged members to determine what historical costs which were capitalized as an asset or held in the construction in progress accounts should be expensed. Any costs subject to expensing and which occurred in a prior year would be reported as a "Prior Period Adjustment".

In the June 30, 2020 CAFR, IVGID Staff determined that \$212,044 and \$77,216 relating to the community services master plan and the high school ball field held in the CIP account were applicable to predevelopment concept designs and were expensed. These charge offs were reported as "Prior Period Adjustments" in the CAFR. The Audit Committee then realized that IVGID staff had not done the necessary research on predevelopment design and assessments on other potential projects most of which were in the CIP account. - basis for assertion.

On May 31, 2021, I provided a memorandum of pre design and assessment costs on 10 projects which should NOT have been retained in the CIP account or capitalized as an asset. The total estimated costs were \$4,469,712. (Exhibit A)

In the June 30, 2021 ACFR, Staff only addressed \$3,100,110 for pre design and assessments on Phase II of the Effluent Pipeline which was expensed from the capital asset account and reported as a "Prior Period Adjustment". Four other projects indicated in my May 31, 2021 memo, namely, a water line leak study (\$78,506), the Incline Beach Building concept designs (\$216,131), the Tennis Facility Study (\$40,143), and the Diamond Peak Master Plan (\$156,030) were charged off from the CIP account but were NOT reported as prior period adjustments but instead reduced the current year capital additions to the CIP account. An additional \$95,628 for the Diamond Peak Master Plan was charged off in the same fashion but was not included in my memo. poor disclosure.

Charging off expenses incurred in prior years against current year capital costs is unheard of and a complete contradiction when compared to the pipeline charge off. The costs were incurred in the prior years and should have been reported as a prior period adjustment NOT a reduction against current year capital costs. X

Another 10 items for 110,061 (not covered in the May 31, 2021 memo) was charged off from the CIP account but not reported as a prior period adjustment and again reduced current year costs. These items were true expenses or the amounts failed to meet capitalization thresholds.

Not only did Staff fail to charge off, as a prior period adjustment, \$120,268 for pre design and assessments on the Incline Park ball fields but remarkably ADDED \$120,268 to the ball field costs prior to transferring the total to the capital project account thus leaving a NEGATIVE balance in the CIP account. This transaction is unacceptable and a manipulation of costs. source

In fiscal year 2020, \$1,591,983 in costs for the Mountain Golf Course Clubhouse rehab was transferred from the CIP account to a capital asset account. Included in the transfer was \$282,954 for conceptual designs and temporary repairs which should have been expensed but was not. Also \$46,000 in pre design costs for cart paths was not expensed and

poor disclosure - any reclass ?

remain in the CIP account. There is no logical reason why these amounts were not charged off as a prior period adjustments.

Lastly, \$219,802 for temporary repairs and conceptual design on the Burt Cedar Pool and \$40,000 for concept design on the WRRF Aeration System were not charged off as prior period adjustments and remain in the CIP accounts as of June 30, 2021.

The inconsistency in reporting for essentially the same type of costs in the June 30, 2021 ACFR is unacceptable and created a material misrepresentation in reporting the 2021 ACFR.

To recap this mess

date?

?

- A total of \$4,675,401 should have been recorded as prior period adjustments in fiscal 2021
- Only \$3,110,110 of the recommended \$3,179,600 pipeline costs were charged off as a PRIOR PERIOD ADJUSTMENT *in '22*
- \$698,476 was charged off from the CIP accounts to current year capital project costs rather than properly being recorded as a prior period adjustment
- \$746,547 in costs primarily for the Burnt Cedar Pool repairs and concept designs and the Mountain Golf Course Clubhouse concept designs remained in the CIP account or were transferred to capital assets and not expensed as a prior period adjustment.
- \$120,268 for the Baseball fields was actually transferred TWICE to the capital asset accounts leaving a negative \$120,268 in the CIP account

Subsequent to the end of June 30, 2021 additional studies by me were completed on potential charge off of costs as prior period adjustments for the following projects: Water and Sewer Pump Stations, Wastewater Treatment Plant, Wetlands, Adjust facilities in NDOT right away, Burt Cedar water plant, Pond # 2 lining abandoned design and irrigation, tees, greens and bunkers at the two golf course. The extent of these required charge offs have not been quantified by IVGID Staff.

THIS NOCENSE MUST STOP AND BE CORRECTED. THESE CHARGE OFFS ALONG WITH OTHER CHARGE OFFS DISCOVERED OVER THE PAST SIX MONTHS WILL RESULT IN OVER \$7 MILLION DOLLARS OF PRIOR PERIOD ADJUSTMENTS WHICH IS MATERIAL AND THE 2021 ACFR MUST BE RESTATED TO PROPERLY REFLECT CAPITAL ASSETS AND EXPENSES.

From: Clifford F. Dobler

Re: Reclassification of certain preliminary project costs which have been accounted for as construction in progress but must be expensed. The costs either have no future value because of abandonment or are considered expenses in accordance with the guidelines outlined in the Moss Adams final report dated 1/14/2021.

Background

In 2020, Moss Adams was engaged by the Audit Committee to review the capitalization policies and provide best practice accounting guidance. As outlined in the final report: "**Accepted practice includes recognition of the different stages of a project including preliminary, construction and post-construction. Preliminary stage activities include conceptual formulation and evaluation of alternatives, determination of future needs, feasibility studies, and development of financing alternatives. Cost incurred in the preliminary stages are expensed as costs in this stage are not directly connected with creating service capacity of a particular asset.**" //

Over several years, IVGID staff did not distinguish or establish separate accounts for the three phases of a project and only one project account was established. As such, ALL costs of a project were considered a future capital assets and were accounted initially in Construction in Progress and once the project was placed into service, ALL of the costs were transferred to a capital asset account and depreciated.

In the 2020 CAFR, IVGID management only expensed two projects which had preliminary stage activities. The expense was treated as a prior year adjustment (Note 22 of 2020 CAFR). The two projects were \$212,044 related to the development of a Parks Master Plan (Plan was actually called the Community Services Master Plan) and \$77,216 related to preliminary designs for the High School Ball Fields but stated in Note 22 of the 2020 CAFR as the Incline Village Ball field. It should be understood what the reason was for preliminary design of the High School Ball Fields.

IVGID management either overlooked or did not address expensing other preliminary stage activities on several projects and the costs remain in the Construction in Progress account as of June 30, 2020. A short description of the projects and estimated costs to be expensed are listed below:

Burnt Cedar Pool

In 2019, IVGID incurred \$119,498 to repair waterlines at the Burnt Cedar Pool. Since a new pool has been started, these repairs have no future value, have been abandoned and must be expensed. See my memo to Audit Committee dated August 24, 2020.

In 2020 two contracts were awarded to TSK architects for conceptual design (\$32,200) and for schematic design (\$68,104) to develop a new swimming pool at Burnt Cedar Beach and the amounts should be expensed. In addition, all IVGID staff charges and third party cost estimates should also be expensed. A final design contract and a CMAR contract were approved by the Board of Trustees on December 9, 2020.

Agree - but (M)

Utilities - WRRF Aeration System

In March 2018, a contract was issued to CH2M- Hill for conceptual design (\$40,000) for improvements to the WRRF Aeration System which should be expensed together with all related IVGID staff charges from March to December, 2018 when the final design for the project was authorized.

Utilities - Waterline Leak Study

In March 2019, a contract was issued to Pure Technologies for \$52,500 to provide a conditions assessment of a 4,200 foot long alternate water transmission line from Water Pump Station #2 to a water reservoir located on Lariat Circle. The line was taken offline in 2001 because of recurring leaks. The total costs of the assessment as of June 30, 2020 was \$78,506 which may have included IVGID staff time and other costs. These costs should be expensed.

Utilities - Effluent Pipeline Phase II

This project involves several items. In violation Board requirements to keep individual projects separate, the General Manager decided in 2018 that any costs associated on or for the effluent pipeline from the Wastewater Treatment Plant to the wetlands in the Carson city area would be reported within this project.

On January 29, 2020, IVGID Staff provided a presentation to the Board of Trustees which indicated the accumulated costs were \$5,146,100 through June 30, 2019, however the CIP report for the same date indicated only \$4,864,275 had been accumulated on the project. It is unknown what is the difference between the two reports. The requested reconciliation of the air pressure relief valves reported as \$643,400 but public records documented only \$567,409 and the difference has not been explained by Staff. A reconciliation of the meters and valves installed in three different areas and reported as \$86,500 in costs. However, public records documented only \$77,687 in costs and the difference has not been explained.

On 2/10/2021, the Audit Committee by a unanimous vote approved the Audit Committee Report to the Board of Trustees which included the recommendation to expense \$3,179,600 which was capitalized in fiscal year 2019 as "**Placed in Service**". Exhibit C of the Audit Committee report describes the items which should be expensed. According to minutes of the Board of Trustee meeting held on February 10, 2021, the Board of Trustees approved the Audit Committee recommendation.

It is recommended that all charges made to the Effluent Pipeline Phase II project be reviewed and separated into the various subprojects to provide an accurate accounting for capitalization and expenses. In the past, the Board of Trustees has recommended that individual projects be reported rather than "lumped" into one project.

Mountain Golf Course

In 2012/2014 contracts were issued to Global Golf Advisors and BRG Architecture for a facility assessment and future needs recommendations and to develop conceptual designs on 5 options for a new clubhouse. Costs incurred as of June 30, 2020 were \$132,203. These costs should be expensed as no recommendations were enacted.

In the summer of 2018, a fire occurred in the Clubhouse kitchen area. In November 2018, Smith Design was issued a design contract for the rehabilitation of the Clubhouse which included a large expansion of the deck area. The intent was to fast track the rehabilitation for completion prior to the opening of the golf course in May 2019. Subsequently it was determined that the

rehabilitation could not occur in time for the season and would be postponed until the season ended. In order to provide services, fire damage repairs were completed for temporary use during the 2019 season. The costs incurred was \$150,751 (may include the design fees of Smith which should not be expensed). An unknown portion of the temporary repairs were abandoned when the extensive rehabilitation started at the end of the 2019 season. Certain of the temporary repair costs should be expensed. — why?

In 2020 a contract was issued to Lumos and Associates for schematic design (\$27,500) of the Mountain Golf Course cart path replacements which should be expensed together with all IVGID staff charges of \$18,500 from July, 2020 to February 2021 when final design was approved by the Board of Trustees.

Tennis Center

In 2015 and 2016, a contract and change order was issued to LLOYD Design for \$42,120 to evaluate the Tennis Center. This assessment should be expensed together with IVGID staff charges.

In 2018 a contract was issued to BJB Architecture and Engineering to develop conceptual design (\$26,501) for the rehabilitation of the Tennis Center. These costs should be expensed together with all IVGID staff charges from 2018 to the Board approval of the final design on 6/19/2019.

Incline Park - Ball fields

In July, 2017, a contract was issued to LPA Inc. for \$41,000 to develop conceptual design for improvements to the three ball fields at Incline Park. In December, 2017 a contract was issued to Lloyd Consulting Group, LLC for \$58,500 to provide engineering design services including a survey, site planning, schematic design, construction documents and permitting. In November, 2018 an additional contract for \$15,430 was issued to LLOYD to modify the design to lower the estimated costs. A project called Incline Park Improvements (#4378BD1801) was set up but a budget was never established. The total costs as of June 30, 2020 was \$120,268 which includes other unknown costs beyond the three contracts. Another project called Incline Park Facility Renovation (#4378LI1803) was established for construction of improvements to only one ball field. A review of both project accounts should be conducted as the total costs as of March 31, 2021 for the Park Facility Renovation is \$1,550,570 which is in excess of the Incline-Tahoe Foundation grant made to IVGID of \$1,328,001. The two Lloyd contracts mentioned above were for final design and subsequent modification. The actual payments made were \$75,458 (\$59,563 & \$15,430) and should be transferred from the Incline Park Improvements project to the Incline Park Facility Renovation project.

Incline Beach Building

In May 2016, a contract for design of the Incline Beach Building was issued to Bull, Stockwell and Allen for \$221,891. The contract consisted of two main phases 1) community outreach, program concepts, and schematic design for \$81,745 and 2) final design and construction documents. A large portion of the work was authorized based on the Beach Recreation Enhancement Opportunity Plan approved by the Board of Trustees in February 2016. After phase 1 of the contract was substantially completed, two cost estimates were conducted resulting in estimates between \$3.9 million and \$5.2 million which included site improvements never addressed in the design contract. More importantly the design was a replica of the building at Sand Harbor which is six times larger than the existing building at Incline Beach. Sand Harbor has between 800,000 to 1,000,000 visitors while Incline Beach has annual visits of about 130,000.

The total costs in the construction in progress account is \$216,131 which includes IVGID staff time, estimates and unknown other costs. The entire amount should be expensed as expenditures were for only the first phase of the contract.

In 2014, IVGID Board decided to develop a master plan for summer activities and expansion of the winter activities by issuing an assessment contract on 9/12/2014 (\$152,000) to the SE Group which was approved by the Board of Trustees in 2015. Accumulated costs through 6/30/2020 is \$156,030. This work was concept only, community steering and financial models which should all be expensed.

In October, 2015, the Board of Trustees approved expenditures to submit a plan for Phase 1a of the approved master plan to TRPA, USFS and Washoe county for environmental clearances. Contracts were issued in 2015 to SE Group for \$29,000 for permit submittals and in 2019 to Hauge Brueck Associates for \$32,800 to perform biological resources surveys of rare plants, California Spotted Owl and the Northern Goshawk required in advanced of environmental documentation. The submittals, if made, by the SE Group are almost six years old and are probably would need to be re submitted. Currently the Board of Trustees have removed Phase 1a and 1b of the master plan from the 5 year capital plan. With the Forest Service special use permit on 361 acres expiring on December 31, 2023 and the lack of interest in continuing the Phase 1a summer activities, these costs are conceptual submittals and should be expensed.

Conclusions and Recommendations

IVGID management has historically assigned only one project number for a future construction project. In order to avoid the consolidating costs, components two separates accounts should be established for each project. First an expense account which will include all concepts, community outreach, schematics designs, assessments, and financing options. After the Board of Trustees accept the inputs and accepts other conditions and decides to move forward with final plans then a CIP account should be established for the final design, construction and in house staff time to complete the project.

The Audit Committee recommends that IVGID Staff establishes separate accounts as prescribed in the Moss Adams report for the three main phases of a project. This should eliminate recording of expenses in the CIP accounts.

status of procedure.

Memorandum

April 8, 2021

To: Indra Winquest, Paul Navazio and IVGID Board of Trustees

cc: IVGID Audit Committee

From: Clifford F. Dobler

cc: IVGID Board of Trustees

Re: Funding Public Parks through General Fund resources

Over the past year, Trustee Schmitz has discussed the possibility that operations of IVGID's Public Parks should be funded by resources of the General Fund. This proposal would be impossible to implement based on the historical operating expenses and capital costs of the Parks through the Community Service Funds and the lack of available revenues in the General Fund. The parks include Village Green, Preston Field, and the baseball fields adjacent to the Middle School.

The following is information required to make a worthy analysis

Annual Average Costs to operate and maintain the Park system (Exhibit A)

For the 5 year period from July 1, 2016 and June 30, 2020 the average annual costs of operating the Parks was \$802,786 with offsetting revenues averaging only \$46,469 producing an average annual net losses of \$756,317.

Park Capital Project costs for the five year period were \$3,686,458. After removing the rehab of a baseball field and a new bridge over Incline Creek, which were funded by grants, \$2,000,000 had been spent on other capital items or \$400,000 per year. The five year capital plan for 2021 to 2025 has \$1,586,640 for new purchases and projects or an average of \$317,200 per year. Based on these factors, capital costs should be considered to average around \$350,000 annually.

Combining the annual estimated costs for operations of \$750,000 and capital costs of \$350,000 the parks require about \$1,100,000 per year in subsidies.

General Fund Revenue and Expenses 5 years 2016 to 2020 (Exhibit B)

For the past five years from July 1, 2016 to June 30, 2020, tax revenues less operating expenses, capital outlays and reimbursements for "Central Service Costs" produced an average of only \$540,000 annually far short of the requirements to fund the parks systems. While tax revenues may increase over time because of increasing home values, IVGID's thirst to spend money will cause expenditures to increase in tandem with revenue increases. The approved fiscal 2021 budget (Exhibit B) indicated large increases in operating expenses (31% over previous 5 year average) and the excess revenues over expenditures dwindled to a minimal amount.

Other General Fund Items

- An extraordinary amount of investment earnings occurred in 2019 and 2020 producing annual cash yields over 9% per annum based on the average fund balances existing. These cash returns could not have occurred unless the earnings included gains from the liquidation of certain cash investments. This should be explained by management. In the long term, investment earnings should not be relied upon to fund Park ongoing operations. Assuming proper management of fund balances, the current amount of fund balance should be reduced substantially over the next few years.
- During the past five years only two transfers of \$650,000 were made to other funds. Also a series of transfers were received and disbursed to unwind a NRS violation and to properly redistribute the remaining cash from the self funded

Not really an audit issue!

Workman's compensation Fund which was part of Internal Services. The General Fund retained a net amount of \$145,000 from the closeout of the Workman's compensation fund.

- Deletion of a new Administration Building scheduled in 2024 - According to the five year capital plan (2021 to 2024), a new administration building was planned to be constructed in 2024 with a budget of \$3,350,000. An estimate conducted by Precision Budgets Inc. on 6/20/2017 based on conceptual drawings dated 9/20/2012 estimated the costs of a new building to be \$5,642,047 or \$501.52 per square foot. This has been removed from the 5 year capital plan at the BofT meeting on 3/24/2021.
- The proposed 5 year (2022 to 2026) Capital Projects plan (EXCLUDING THE ADMINISTRATION BUILDING) indicates spending an average of \$392,000 per year. which is substantially higher than historical expenditures.

Current General Fund excessive Fund Balance

At June 30, 2020, the General Fund had a fund balance of \$4,630,149 far in excess of the appropriate level of fund balance required by Board Policy 7.1. which states 5% of operating expenses or approximately \$135,000. (operating expenses are net of the Central Service Cost reimbursements).

After considering outstanding commitments of \$1,300,000 for the mandated tax payments to Washoe County and an undetermined capital portion of the \$891,438 planned for the Tyler software installation (apparently there will be some offsets by cancelling other contracts), the fund balance continues to be far in excess of Board Policy.

After adjusting for these two commitments, fund balance would remain at approximately \$2,500,000 or 1,900% higher than the appropriate level of fund balance.

Immediate attention should be given by this Board to establish a proper use of the Fund Balance.

True?

- reduced the Ad valorem tax rate to lower revenues
- Transfer funds to the Community Service Funds and/or the Utility Fund (transfers cannot be done to Beaches because not all property owners who are assessed taxes have use of the Beaches)
- Annual transfers are limited to 10% of General Fund expenditures, (NRS ~~343.117~~ 354.6117) resulting in limitations on transfers for, at least, the next 9 years.
- Begin funding Community Programming (Recreational Programming) currently accomplished in the Community Services Funds from resources in General Fund. There is no provision in NRS 318 to fund community programming, however, under NRS 377A, taxes can be used for miscellaneous special purposes which include "Recreational programs".

Public Parks are allowed under NRS 318 - General Improvement Districts

The Nevada Revised Statute 318.116 provides a basic power to the Board of a General Improvement District to furnish recreational facilities described in NRS 318.143 which includes public parks. Park improvements and operations can and are currently being funded by the Facilities Fees (standby services charges) which are allowed and currently being assessed upon property owners under NRS 318.197 which allows flexibility in amounts which can be assessed.

Alternative Use of General Fund annual revenue surpluses and excess fund balances.

Under NRS 318, IVGID does not have the power to use of the Facility Fees assessed under NRS 318.197 for Community Programming. Resources for Recreational Programming, which includes Community Programming is specifically identified in NRS Title 32 Chapter 377A through the use of TAXES. Since IVGID may have inadvertently funded such programs through Facility Fees which violates Dillon's rule, an immediate change should be made to fund the Community programs from tax resources in the General Fund.

Conclusion

Operations and Capital Costs for Parks should remain in the Community Services Fund as authorized by NRS 318.116. Based on the projections for the General Fund there would not be an identifiable source of revenues which could support the current and planned expenditures for the parks.

From: Clifford F. Dobler

Re: Cash Position of Utility Fund 2020 to 2022

Over several Board of Trustee meetings, nowhere in the array of budget documents was any analysis provided of what is and what will be the AVAILABLE cash position after the Board of Trustee mandated restriction/reserve of cash for the Effluent Pipeline project and the cash held on behalf of the Tahoe Water Suppliers Association which has been set aside from all of the cash accounts (cash and cash equivalents, short term investments and investments - long term).

Attached is a Computation of Available Cash Positions as of 2020, the estimated amount for fiscal year 2020/2021 and the budgeted amount for fiscal year 2021/2022.

June 30, 2020

As stated in the June 30, 2020 CAFR, the cash held in the utility fund was \$14.724 million.

After setting aside cash of and for:

- \$11.570 million for the Effluent Pipeline Project unanimously approved by the Board of Trustees in March and August of 2020
- \$772,000 for the interest earned from investing the Effluent Pipeline money, which under Board Policy is required to be set aside. Nothing was ever done after the IVGID Audit Committee recommended the set aside and the Board of Trustees agreed with the recommendation. No agenda items has been brought to the Board of Trustees to restrict, "reserve" or "designate" these funds for the Effluent Pipeline project.
- \$157,000 for cash held on behalf of the Tahoe Water Suppliers Association

done?

Then.

The remaining cash available after these removals was only \$2.225 million slightly above the appropriate levels described in Board Policy/Practice 7.1.0 and 7.2.0

June 30, 2021 estimate

As stated in the State Budget form 4404LGF, IVGID staff has estimated that the cash used for expenditures will exceed cash flow from operating activities by \$2.458 million for the fiscal year ending June 30, 2021.

As a result, there will be NO remaining cash available after the restricted set asides and association funds are separated and according to the Staff estimate, \$233,000 will be required to be drawn from the Effluent Pipeline project restricted/reserved set aside cash. While this misappropriate of funds may not be a direct violation of NRS 354.626, the intent of the Board and Staff is to spend some of the Pipeline set aside. One could be confused by the \$3.033 million indicated as "capital contributions" which would seem money came from some other outside source. These funds are nothing more than transferring cash from the short and long term investments which existed at June 30, 2020. In other words, taking money

from one pocket and putting the same money into another pocket. No new money. Calling these transfers as a "Capital Contribution" is a stretch to anyone's imagination.

may be fine.

June 30, 2022 budget

As stated in the State Budget form 4404LGF for fiscal year ending June 30, 2022 which the Board of Trustees approved on March 26, 2021, expenditures will exceed cash flow from operating activities by \$2.515 million. As there is NO other known resources indicated other than from hope, the Board **approved and intends to use \$2.515 million of the Pipeline set aside restricted money to spend on other capital projects.** To authorize spending money which the Utility Fund does not have is very unorthodox and defies logic. The budget is to appropriate money to spend. The budget alone is an intent to spend. How could this Board approve spending money which is NOT AVAILABLE. *??*

This abuse of using funds set aside for a specific project without any disclosure is a direct violation of any standards required by any Fiduciary holding restricted funds for the public and other entities.

While the budget expenditures for fiscal 2021/2022 have not yet been spent but are intended to be spent thus requiring the use of RESTRICTED FUNDS for other purposes, a violation of NRS may exist. This is for legal counsel to determine and twist. Not kosher to me.

Based on the budget, NRS 354.626 will be violated once the expenditures are made unless immediate action is taken to provide funds for the budgeted expenditures.

Conclusion

not an ~~EP~~ ACFR issue

It is time to end the parade of misunderstanding, the hocus pocus, the changing of words, the deception, lack of disclosure and irresponsibility. Bring forth an agenda item at a future Board meeting which will clearly state the Board of Trustees decision to release \$2.780 million of the restricted/reserved funds for the Effluent Pipeline which has been authorized to spend on other acquisitions of capital assets.

This Board of Trustees simply, in good conscience, should not approve a budget without having proper resources to fund expenditures.

Intending to obtain unknown future resources is not an acceptable answer to stray from reality.

Make things right and be a fiduciary .

There should be a special meeting of the Board of Trustees as soon as possible

Postscript

Be aware that after removing all cash accounts from working capital on June 30, 2020 , there was **negative** working capital of \$123,015 which is unheard of in the annals of what would be considered prudent management.

Also be aware that the \$2.184 million of "reserves", required by Board policy 7.1.0 does **not exist** and IVGID management has not provided any plan of replenishment .

15. DESIGNATED FUNDS

11

restrict

reserve

At its meeting of March 3, 2020 the Board of Trustees took action to designate \$9,626,890 for the purpose of earmarking the funds for the Effluent Pipeline Project. On August 12, 2020 the Board designated an additional \$1,912,767 the Effluent Pipeline Project from unexpended appropriations provided for in the FY2019/20 budget. These two Board actions result in a total of \$11,569,657 for this project. The funds designated for the Effluent Pipeline Project represent a portion of funds received by the District from utility rate revenues established and collected specifically for Utility capital improvement projects.

Notwithstanding the Board's action to designate funding for the Effluent Pipeline Project, this funding remains in the unrestricted net position of the District's business-type activities on the government-wide Statement of Net Position. This is due to the determination that the Board's designation does not rise to the level of meeting the criteria set forth in GASB Statement No. 54 for "restricted" net position within proprietary funds.

restricted and reserved

Who determined that

16. LEASE OBLIGATIONS

Revenue:

Miscellaneous revenue includes rent received for cell towers on District property. Under an agreement with American Tower, \$20,685 was paid for a tower at the Mountain Golf Course. The current five-year term is from April 2017 and ends in 2022, with the option for extensions every five years through 2037, cancelable by either party. Rent increases 3% per year. Under an agreement with AT&T \$19,572 was paid for a tower at the Mountain Golf Course. The current five-year term is from October 2015 and ends in 2020, with automatic extensions every five years, through 2035, cancelable by the tenant. Rent increases 3% per year. Under an agreement with AT&T \$64,155 was paid for a tower at Diamond Peak Ski Resort. The current five-year term is from July 2018 ends in 2023, with extensions every five years, cancelable by the tenant, through 2038. Rent increases 3.5% per year. Revenue in the amount of \$11,197 was also received from T-Mobile (assigned to Crown Castle) for a cell tower lease at Diamond Peak Ski Resort. Its term is June 2017 to 2022 with 1 option to renew for 5 years.

	American Tower Lease	AT&T	AT&T	T-Mobile	Parasol Foundation	Reno-Sparks Convention and
FY 2021	\$ 21,305	\$ 20,159	\$ 66,400	\$ 11,197	\$ 1	\$ 1
FY 2022	21,945	20,764	68,724	11,384	1	1
FY 2023		21,386	71,130		1	1
FY 2024		22,028			1	1
FY 2025		22,689			1	1
FY 2026					1	1
FY 2027					1	1
FY 2028					1	1

District leases 1.5 acres of property adjacent to the Incline Village Middle School to the Parasol Foundation for \$1.00 per year.

District leases property located at 969 Tahoe Boulevard to the Reno-Sparks Convention and Vist1or Authority for \$1.00 per year.

Expenses:

Golf Cart Lease – In fiscal year 2019/20 the District entered into an Installment Purchase Agreement with PNC Equipment Finance, LLC for a fleet of replacement golf carts for the Mountain Golf Course. The District's total obligation under this agreement total \$121,605 paid in 48 equal monthly installments. The lease started in July 2020, with the first payment against this obligation made in June 2020 in the amount of \$2,533.

The District holds a Use Permit for Diamond Peak operations and activities on property owned by the U.S. Forest Service adjacent to District-owned property. The District pays an annual permit fee based on revenues generated by selected Ski operations. The fee amount for the fiscal year ending June 30, 2020 was calculated at \$52,000.

CIP Budget	\$4,279,000
Carryover Pond	1,550,000
Expenses Items	(612,500)
Total	\$5,216,500

To my knowledge, there was never an approval to budget \$1,550,000 for the Pond lining so there could not be a carryover. Not listed on popular report.

Minutes
Meeting of March 11, 2020
Page 12

2020/2021 season passes including an Early Bird (Tier 1) through April 30, 2020, a Preseason (Tier 2) May 1 – October 31, 2020, and a Regular Season (Tier 3) rate, beginning November 1, 2020 through the end of the ski season in 2021. Trustee Morris seconded the motion. Chairman Callicrate called the question and the motion carried unanimously.

Trustee Wong moved to approve a Non Resident ski season pass rate increase of twenty dollars (\$20.00) to all pass products included in the Early Bird (Tier 1), Preseason (Tier 2), and Regular Season (Tier 3) categories excluding the 6 & Under and the 80+ products from the increase within all three tiers. Trustee Morris seconded the motion. Chairman Callicrate called the question and the motion carried unanimously.

Trustee Wong moved to approve a zero dollar increase to Resident ski season pass products included in the Early Bird (Tier 1), Preseason (Tier 2), Regular Season (Tier 3) categories as well a zero dollar increase to all Resident daily lift ticket products. Trustee Morris second the motion. Chairman Callicrate called the question and the motion carried unanimously.

F.3. Review, discuss and possibly restrict \$9,656,890 to the Effluent Pipeline Project, Project #2524SS1010 from the Unrestricted Net Position in the Utility Fund effective March 12, 2020 (Requesting Staff Member: Interim District General Manager Indra Winquest)

Interim District General Manager Winquest introduced the item and said there has been a lot of discussion after the workshop. He wanted to make sure we had this discussion in order to restrict funds at this point. He said we didn't include pond-lining project and that there was formal direction on how much to set aside for pond lining.

Chairman Callicrate said the Board had a lengthy discussion regarding restricting funds for the effluent pipeline and that as of today, we can only restrict \$9.6 million dollars. Interim District General Manager Winquest said we will bring this back to restrict the funds for the project.

Trustee Dent asked about including future funds to this motion. District General Counsel Velto said he would be hesitant. Chairman Callicrate said both the Interim District General Manager and the Director of Public Works

understands we can bring it back. He said let's take action on specifically what we want to do today and bring back on a future agenda item for future funding. Interim District General Manager Winquest said he wanted to get this on the agenda because there are members of the public who feel these funds are being spent down and we want to restrict them to this project.

Trustee Schmitz asked if we can back out the \$70,000 charged to that project. She said \$70,000 has been used and doesn't know how or when that was approved. The community has been under the impression the two million dollars was for the effluent pipeline. In this particular Fiscal Year, we got another \$70,000. Interim District General Manager Winquest said we can discuss this with Staff and bring it back.

Chairman Callicrate said that \$70,000 of the two million dollars has been spent and that we can rectify that and modify what we have listed so there is no confusion.

Trustee Wong said if \$70,000 was spent on pipeline, it's reasonable that it would be charged against the two million and move forward with \$1.9 million.

Chairman Callicrate said he wants to be more clear.

Hearing no further Board comments, Chairman Callicrate opened the matter to public comments.

Margaret Martini said she strongly supports restricting \$9.6 million to be used solely for the effluent pipeline of the six miles of failing pipeline. She said two million dollars was collected for more than seven years which was supposed to fund this project. It's unfortunate the District repurposed those funds to fund other projects. She said restrict two million dollars for 2020 and subsequent years.

Alexandra Profant agreed with Margaret Martini.

Aaron Katz read and provided a prepared statement.

Mark Alexander said please consider your and their words closely. They were talking about replacement. He spoke about slip lining instead of digging a ditch and dropping in new pipe. He said consider the type of work. He spoke about consequences. He said without consequences, there won't be changed behavior.

Hearing no further public comments, Chairman Callicrate closed public comments and brought the matter back to the Board.

Trustee Morris said he wanted clarification on restriction to a phase or the entire project. Chairman Callicrate said it is restricted for the effluent pipeline project in its entirety from overflow to the wetlands. We are making a commitment of \$9.6 million for the pipeline project. We have additional things we will have to address. He said it's not a bait and switch. If we restricted it to one specific point on the pipeline, and have a break somewhere else, that won't be helpful.

Trustee Schmitz said there were concerns in the community. Funds have been spent from this project for emergency repairs. She said this is for replacement and mitigation and not repairs. Trustee Schmitz spoke about the project summary as replace, upgrade, and remediate in project description. Interim District General Manager Winquest said he can bring this back with updated wording.

Trustee Dent said the capital improvement budget is on the March 25 agenda with project summaries and budget summaries.

Chairman Callicrate said the restriction of funds is on this agenda item.

Trustee Morris made a motion that the Board of Trustees restricts \$9,656,890 to the Effluent Pipeline Project, Project #2524SS1010 from the Unrestricted Net Position in the Utility Fund effective March 12, 2020. Trustee Dent seconded the motion. Chairman Callicrate asked if there were any additional Board comments.

*Where
in
Cliff's
memo?*

Trustee Wong said that Staff has provided a history of the pipeline and gave a full accounting of what was spent on pipeline.

Chairman Callicrate, hearing no further comments, called the question – the motion was carried unanimously.

Chairman Callicrate called for a brief recess.

F.4. Review, discuss, and possibly authorize the Audit Committee Chair to engage an independent expert for a sum not to exceed \$35,000 to give an opinion and/or guidance on the issues raised

Minutes
 Meeting of August 12, 2020
 Page 28

Cedar and reference the project number and focus on the option and then Staff can bring back and clarify the funding and accounting. District General Counsel Nelson said that he agrees as the Board is not obligating any funds which is important to get clarification on which alternative. Chairman Callicrate asked if the Board needed a motion amendment or can we move forward? District General Counsel Nelson said it is a reference to a fund and not an obligation and that can be dealt with when this is brought back to obligate funds. Trustee Morris said that he would like to have the record include the project number rather than the other descriptor. District General Counsel Nelson said that doesn't change the motion.

Hearing no further comments, Chairman Callicrate called the question and the motion was passed unanimously.

Chairman Callicrate thanked everyone for their efforts and input. Engineering Manager Chorey asked for clarity on the CMAR process and should Staff continue or abandon. Chairman Callicrate said that there is an opportunity offline to discuss that question as he doesn't want to cloud the issue so let's touch base on this in the next day or so. District General Manager Winquest agreed to take it offline.

At 10:25 p.m., Chairman Callicrate called for a 5-minute break; the Board reconvened at 10:30 p.m.

H.3. Review, discuss and possibly take all or part of the following six (6) actions related to the District's Fund Balances. (Requesting Staff Member: Director of Finance Paul Navazio)

- a. **Acknowledge receipt of an update on Unaudited Fund Balances as of June 30, 2020.**
- b. **Authorize additional reservation of \$1,912,767 in unexpended utility rate revenue collected during Fiscal Year 2019/2020 in support of the District's Effluent Export Pipeline Project.**
- c. **Authorize commitment of \$1,360,000 in available fund balance in the General Fund for anticipated settlement of the property tax dispute filed against Washoe County et al, Nevada State Board of Equalization and the Department of Taxation by the Village League to Save Incline Assets, Inc. (Case No. CV03-06922)**

- d. **Authorize the District's General Manager to direct the District's Director of Finance to reflect allocation of estimated FY2019-20 year-end Community Services Special Revenue Fund fund balances as follows:**
 - i. **Reflect commitment of \$5,594,546 in support current year FY2020-21 Capital Improvement Projects, and**
 - ii. **Affect transfer of additional \$1,100,000 in Community Services Special Revenue fund balance to the Community Services Capital Fund(s) in support of future priority capital improvement projects.**
- e. **Outline and possibly set future agenda items in order to designate additional available fund balances in support of specific future Capital Improvement Projects in conjunction with the Board's ongoing refinement of the District's Capital Improvement Plan priorities for Fiscal Year 2020/2021 through 2024/2025.**

Director of Finance Navazio gave an overview of the submitted materials. Trustee Morris said that he feels comfortable with all of this as we have talked about this and understand the nomenclature and trying to keep us all on board. He understands the valid comment on getting our terminology consistent moving forward and that he would like to put off item e as Staff can bring back that item. Chairman Callicrate said he agrees. Director of Finance Navazio said that the only purpose is that a. through d. is not the end all and be all.

Trustee Morris made a motion as follows:

- a. Acknowledge receipt of an update on Unaudited Fund Balances as of June 30, 2020.
- b. Authorize additional reservation of \$1,912,767 in unexpended utility rate revenue collected during Fiscal Year 2019/2020 in support of the District's Effluent Export Pipeline Project.
- c. Authorize commitment of \$1,360,000 in available fund balance in the General Fund for anticipated settlement of the property tax dispute filed against Washoe County et al, Nevada State Board of Equalization and the Department of Taxation by the Village League to Save Incline Assets, Inc. (Case No. CV03-06922)

- d. Authorize the District's General Manager to direct the District's Director of Finance to reflect allocation of estimated FY2019-20 year-end Community Services Special Revenue Fund fund balances as follows:
 - i. Reflect commitment of \$5,594,546 in support current year FY2020-21 Capital Improvement Projects, and
 - ii. Affect transfer of additional \$1,100,000 in Community Services Special Revenue fund balance to the Community Services Capital Fund(s) in support of future priority capital improvement projects and that there may be additional actions in the future.

Trustee Wong seconded the motion. Chairman Callicrate asked for any further comments, hearing none, he called the question and the motion was unanimously passed.

J. APPROVAL OF MINUTES (for possible action)

J.1. Meeting Minutes of July 22, 2020

Chairman Callicrate asked for any changes, hearing none, the minutes were approved as submitted.

K. BOARD OF TRUSTEES UPDATE (NO DISCUSSION OR ACTION) ON ANY MATTER REGARDING THE DISTRICT AND/OR COMMUNITIES OF CRYSTAL BAY AND INCLINE VILLAGE, NEVADA*

Trustee Morris said that this coming Friday he shall be attending the Washoe County Debt Commission meeting.

L. PUBLIC COMMENTS* - Limited to a maximum of three (3) minutes in duration.

Margaret Martini passed on her opportunity to speak.

Yolanda Knaak said you did a great job and one thing on the refund, do it through Washoe County and have it come across on our tax bill as a credit.

Re: Incline Park Facility Renovation # 437811801 - Final disclosure of the close out of the Memorandum of Understanding with Incline-Tahoe Foundation ("MOU") regarding construction of the project - Recommendations to Board of Trustees.

Background of MOU and budget

Incline Tahoe Foundation ("ITF") provided two specific grants for the improvements to the Ball Fields at Incline Park. Funds for the grants were provided to IFT from a private donor. The first grant was for \$58,400 to design upgrades to three ball fields. A contract was awarded on December 18, 2017 to LLOYD Engineering. A second grant for \$1,350,801 only for improvements to Ball Field #3 was made on March 18, 2019 after several amendments were made to reduce the scope of work to offset the high price of the sole bid from a contractor for construction. From the second grant ITF was to receive \$22,800 for administration and IVGID was to receive \$1,386,401. In addition, \$135,080 of contingency fees could be provided for additional improvements if the donor, which provided the fund to ITF, approved the additional improvements.

The CIP budget for this project was established in fiscal year 2019 for \$1,208,071 and was never increased.

Costs and reimbursements from IFT under Grant

As of March 31, 2021, the total costs of the project is \$1,550,570, however, does not include the design fees from Lloyd Consulting Group under two contracts for \$58,500 and \$15,430 (Costs \$75,458), plan check fees (\$6,123), and TRPA Soils application (\$601) all of which were charged to another project called Incline Park Improvements (#4378BD1801) which was unbudgeted and which a project summary was never completed. The total costs are \$82,182 and should properly be accounted for as costs for the IFT grant funded project. If properly transferred the total costs for the grant funded project would be \$1,632,752 exceeding the CIP budget by \$424,681. Nothing was ever brought to the Board of Trustees to approve the budget overruns. Certain Board members suggest that because the costs were being funded by a grant, increasing the budget was not necessary. Untrue. All expenditures must have a budget. The funds from a grant is a revenue item and do not reduce the expenditures. I suggest that the words "net of grant" be removed from the project description in the CIP "popular report" as of March 31, 2021 since it is an inaccurate statement.

The costs also exceed the two IFT grant amounts of \$1,444,801 (\$58,500 and \$1,386,401) by \$187,951. Assuming the \$135,080 contingency fees available in the second grant was authorized to reimburse IVGID for the increased costs, there would remain \$52,871 which would not be recovered (see below for the unreimbursed costs).

In 2019, IVGID requested three reimbursements from ITF for only \$1,355,400, with the last request done on December 19, 2019 almost 17 months ago, leaving a considerable amount of IVGID's out of pocket costs unreimbursed. According to the reimbursement statements, two change orders from RaPID Construction (#2 and #8) were excluded from the reimbursements. Change order #2 (\$51,150) was for increased costs to change the drainage plan, which according to Indra Winquest, was considered, presumably by staff, an infrastructure project and not part of the Grant. According to the revised drainage plan, the improvements in the original plan were eliminated and the change order should have reflected a credit for

ICFR implications

the eliminated items. That was not done. Change order #4 (\$8,778) was for light pole repairs which may be a proper exclusion but should have been expensed and not left in the CIP.

Assuming the two change orders issued to RaPID Construction are not reimbursed, then the total IVGID costs subject to reimbursement would be \$1,572,824 (\$1,632,752 less \$51,150 and \$8,778). Since IVGID has only billed \$1,355,400, then \$237,424 is required to be billed and funded by ITF. According to a recent e mail from Susan Herron, a billing is in process. According to the MOU the District responsibilities are under section 3.4 "Invoicing shall be on a reimbursement basis and shall be submitted no more frequently than monthly". Not 17 months.

A major condition of the MOU, was that ITF would be responsible for all costs of the project. Excluding the change order for the increased cost of drainage improvements from reimbursement should have been a Board decision, not management and could have been discussed at the time the RaPID requested the change order for \$51,150 which required Board approval.

It is unknown if all reimbursement requests made by IVGID have been paid by ITF.

History of Grant Agreements:

- 1) A letter agreement regarding the first grant of \$58,500 for design of the 3 ball fields at Incline Park
- 2) On December 14, 2017 a "Grant Agreement" for \$760,000 was executed
- 3) In April, 2018 an increase to the Grant Agreement to \$1,208,071 was approved by the Board of Trustees, however, an amendment to the 2017 Grant Agreement was never prepared but the increase was understood by correspondence.
- 4) On 3-19-2019, a new Memorandum of Understanding(MOU), replacing the two previous agreements was approved by the Board which increased the IVGID portion of the grant to \$1,386,301.

RaPID Construction Contract - Circumventing Board approval of Change orders

In December 20, 2018, RaPID Construction was the only bid received from the invitation to bid advertisement dated 11-16-2018 for the IVGID Ball field Improvement Project. The bid was \$1,456,654 with an additional \$357,764 in alternatives.

In early 2019, IVGID Staff negotiated with RaPID to reduce the scope of work by eliminating improvements to Fields #1 and #2 and eliminating all alternatives. The negotiated price was established at \$1,298,241 and a contract was executed on 3-19-2019.

However for some unknown reason, on March 18, 2019, (one day before the contract date) IVGID issued Change Order #1 reducing the contract by \$158,413 based on the **BID amount not the CONTRACT amount**. This change order should never have been issued.

As a result of this improper change order, seven additional changes orders of \$116,663 were issued without Board approval, under the assumption that until cumulative change orders exceeded \$50,000 no approvals were required. Under Board Practice 13.2.0 - 3.8.7.2, it states: **General Manager Responsibility - Duties: Approve change orders cumulatively not exceeding 10% of construction contract or \$50,000.**

By creating a phony \$158,413 negative change order, the seven additional change orders were issued for \$116,663 which on a CUMULATIVE basis when combined with the phony change order #1 did not meet the required Board approval for cumulative change orders over \$50,000. Thus all change orders were never brought to the Board for approval and Staff intentionally or unintentionally violated Board Practice 13.2.0.

Change order #2 was for \$51,150 issued on July 24, 2019 for a reconfiguration of the drainage system. During negotiations to establish a lower contract price modifications to the infield drainage system was a major item. Apparently on May 5, 2019, the drainage plan was changed again with county comments delivered in May and July, 2019. Had the phony Change order #1 not been created, this change order would have require Board approval.

Purchase order #19-0216 was dated May 1, 2020 almost 14 months after the contract was issued and only included change orders 2 through 6.

Another major concern is the MOU with Incline Tahoe Foundation (ITF) only provided for \$1,298,241(the original contract amount). It is unclear if the additional \$116,663 in change orders were approved by ITF.

Conclusion

The administration of this contract and the related MOU was quite weak. Request by certain Board members and the Audit Committee to hire a contract administrator has not yet been fulfilled but should be acted upon as soon as possible.

Based on the irregularities in this contract, the PICA contract, the Terracon contract and the Moss Adams report which reviewed only a few contracts, an investigation into the proper handling of other large contracts should be considered

Recommendation

Since a major amount of time has elapsed since completion of the project in 2020, a report to the Board of Trustees should be completed which establishes:

- Classification of costs into proper project accounts
- The final amount which will be reimbursed to IVGID by ITF
- The final amount of IVGID's costs which will not be reimbursed
- Status of any disputes which may exist with ITF
- A memorandum from IVGID and ITF that MOU conditions for the project construction have been satisfied.
- A close out memorandum between RaPID and IVGID
- That all as built drawing are completed (especially the drainage plan)
- Explanation if any IVGID engineering costs were billed to the project

Exhibits are extensive and will be delivered upon request.

MEMORANDUM

*Title to
to assets on
the B/S?*

TO: Audit Committee

THROUGH: Matthew Dent

FROM: Clifford F. Dobler

SUBJECT: Review, discuss and recommend to the Board of Trustees that the title for each of the 89 parcels of land acquired from Washoe County include the public purpose restriction required by Washoe County and that the nine parcels which were recorded as an asset in the General Fund be transferred to the Community Services Fund.

**STRATEGIC
PLAN REFERENCE(S):**

'21 CAFR

DATE: June 1, 2021

I. RECOMMENDATION

That the Audit Committee request the Board of Trustees to direct outside legal counsel to review the legal title of the 89 land parcels which were acquired from Washoe County in 2013 and 2014 to insure that an exception to the title for each parcel has been or will be recorded in the County real estate records which clearly states that the parcels are for public purpose as defined in NRS 361.603.

*No
BV*

II. BACKGROUND

too del

In 2013, 2014 and 2015 IVGID acquired 92 parcels of land from Washoe County which had acquired the parcels through a tax forfeiture. The IVGID board and management made a determination that the parcels would be held for a public purpose allowing Washoe County to transfer the parcels to IVGID and waive all delinquent taxes which had accumulated. In addition, IVGID had considerable delinquent and unpaid Facility Fees which could not be collected and had to be removed from the Washoe County records.

Note 4 of the fiscal 2013 CAFR states: ***"The parcels were acquired at no cost, for public purposes and were zoned as unbuildable. The General Fund holds 9 parcels which may be able to be restored to a form that makes them buildable at some point in the future. The remaining 78 parcel are held by the Community Services Fund. They could be sold at some future point because they carry the ability to have recreational privileges while remaining unbuildable"***.

who? Unfortunately, in 2014 and 2015, the IVGID Director of Finance, without Board of Trustee approval, sold three of the parcels to third parties which violated the terms of the purchase agreement with Washoe County. After public outrage addressing the inappropriate sales, Washoe County acknowledged IVGID's failure to honor the purchase agreement required IVGID to pay the accumulated delinquent taxes on the three parcels which were sold.

Since the parcels were sold, the legal title for each property probably did not have a title exception which delineated the Washoe County requirement to keep the parcels for a public purpose. It can be assumed that the other 89 parcels which were acquired from the County do not have the proper title exception.

No other parcels have been sold.

In order to avoid future IVGID employees from inadvertently suggesting to sell the parcels, an exception to the title on each property would prevent any sale from occurring as the exception would effectively notify a potential buyer that the parcel cannot be purchased.

Attached are excerpts of the 2013 to 2020 CAFR notes to financial statements regarding the parcels.

Two issues should be reviewed and corrected

- 1) Have Legal Counsel record in the County property records the exception to title for public purpose on each of the parcels held by IVGID
- 2) Record in the IVGID property records that the 9 parcels which were transferred to the General Fund be transferred back to the Community Services Fund. The general fund had no viable interest in the 9 parcels. The transfer to the General Fund was done apparently with the intent of selling the parcels wherein the proceeds would be deposited into the General Fund.

Depreciation expenses for the year ended June 30, 2013 were charged to functions as follows:

Governmental Activities:

General Government \$ 78,239

Business-Type Activities:

Utility Fund Water and Sewer \$ 2,613,840
 Community Services 2,246,216
 Beach 117,317
 Subtotal – Enterprise Funds 4,977,373
 Fleet, Engineering and Buildings 7,926
 Total \$4,985,299

* In April 2013, the District acquired 87 parcels from Washoe County, which they held in trust following acquisition at a tax forfeiture sale. All parcels are located within the boundaries of the District. The parcels were acquired at no cost, for public purposes and were zoned as unbuildable. The General Fund holds 9 parcels which may be able to be restored to a form that makes them buildable at some point in the future. The remaining 78 parcels are held by the Community Services Fund. They could be sold at some future point because they carry the ability to have recreation privileges while remaining unbuildable.

5. ACCRUED PERSONNEL COSTS

The General Fund processes and pays all payroll and most related personnel and benefit costs for all funds of the District. At the time the expenses are incurred, each fund records its appropriate costs. As payments are made the individual funds record a due to the General Fund. Generally no payroll or personnel accruals are recorded on the individual funds. Accruals for Sick Leave Retirement, Workers Compensation and Vacation can appear in individual funds, because they are recognized well in advance of the payment process. The General Fund also maintains any banks accounts specific for payment of benefits except for those accumulated for Workers Compensation, which has a separate Internal Service Fund.

As a regular course of operations the payroll from June 30 was paid July 12th. The employee benefits earned through June 30 are also funded in the following month. At any given point the District has an obligation to its employees for the value of vacation time earned and not taken. The obligation is measured by the value due as if the employee terminated. The District allows retiring employees with in excess of 20 years of service, and that have accrued sick leave, to have it converted to Medical Retiree Benefit for reimbursing post employment health related costs. The District has no post employment benefit obligations for health insurance.

The District offers health reimbursement accounts (HRA) in exchange for the insured accepting a higher deductible or co-insurance. The Plan is administered by the health insurance carrier. The District also has a third party administered flexible spending account (FSA). The District maintains bank accounts exclusively for reimbursements for HRA and FSA transactions.

The District's Workers Compensation claims are processed by a Third Party Administrator. Claims are paid through a District zero balance account. Checks issued are payables until presented to the bank for payment.

As of June 30, 2013 the Accrued Personnel Costs were comprised of:

	Governmental	Business-type	Total
Current Payroll Liabilities:			
Accrued Payroll	\$427,383	\$ 2,591	\$ 429,974
Taxes Withheld	149,017	-	149,017
Accrued Benefits	31,298	3,779	35,077
Deferred Comp	3,315	-	3,315
Pension	19,857	-	19,857
Work Comp Claims	-	69	69
Ongoing Benefit Liabilities:			
Health Reimbursement Accounts	101,337	-	101,337
Sick Leave Retirement Benefit	12,000	160,423	172,423
Workers Comp unpaid losses and expenses	-	323,000	323,000
Accrued Vacation	<u>107,658</u>	<u>302,708</u>	<u>410,366</u>
 Total Government-wide	 <u>\$851,865</u>	 <u>\$792,570</u>	 <u>\$1,644,435</u>

Depreciation expenses for the year ended June 30, 2014 were charged to functions as follows:

Governmental Activities:	
General Government	<u>\$ 78,078</u>
Business-Type Activities:	
Utility Fund Water and Sewer	\$ 2,771,756
Community Services	2,293,786
Beach	<u>137,493</u>
Subtotal – Enterprise Funds	5,203,035
Fleet, Engineering and Buildings	<u>9,950</u>
Total	<u>\$5,212,985</u>

In April 2014, the District acquired 4 parcels from Washoe County, which they held in trust following acquisition at a tax forfeiture sale. All parcels are located within the boundaries of the District. The parcels were acquired at no cost for public purposes and were zoned as unbuildable. These 4 parcels are held by the Community Services Fund. They could be sold at some future point because they carry the ability to have recreation privileges while remaining unbuildable.

5. ACCRUED PERSONNEL COSTS

The General Fund processes and pays all payroll and most related personnel and benefit costs for all funds of the District. At the time the expenses are incurred, each fund records its appropriate costs. As payments are made the individual funds record a due to the General Fund. This process provides the General Fund with the necessary available financial resources to meet these obligations. Generally no payroll or personnel accruals are recorded to the individual funds. Accruals for HRA, Sick Leave Retirement, Workers Compensation and Vacation can appear in individual funds, because they are recognized well in advance of the payment process. The General Fund also maintains any banks accounts specific for payment of benefits except for those accumulated for Workers Compensation, which has a separate Internal Service Fund.

As a regular course of operations the payroll from June 30 was paid July 12th. The employee benefits earned through June 30 are also funded in the following month. At any given point the District has an obligation to its employees for the value of vacation time earned and not taken. The obligation is measured by the value due as if the employee terminated. The District allows retiring employees with in excess of 20 years of service, and that have accrued sick leave, to have it converted to Medical Retiree Benefit for reimbursing post employment health related costs. The District has no post employment benefit obligations for health insurance or retirement benefits.

The District offers health reimbursement accounts (HRA) in exchange for the insured accepting a higher deductible or co-insurance. The Plan is administered by the health insurance carrier. The District also has a third party administered flexible spending account (FSA). The District maintains bank accounts exclusively for reimbursements for HRA and FSA transactions.

The District's Workers Compensation claims are processed by a Third Party Administrator. Claims are paid through a District zero balance account. Checks issued are payables until presented to the bank for payment.

As of June 30, 2014 the Accrued Personnel Costs were comprised of:

	Governmental	Business-type	Total
Current Payroll Liabilities:			
Accrued Payroll	\$288,018	\$ -	\$ 288,018
Taxes Withheld	23,917		23,917
Accrued Benefits	27,630	941	28,571
Deferred Comp	4,192	-	4,192
Pension	22,441	-	22,441
Ongoing Benefit Liabilities:			
Health Reimbursement Accounts	32,742	73,489	106,231
Sick Leave Retirement Benefit	12,642	202,154	214,796
Workers Comp unpaid losses and expenses	-	255,656	255,656
Accrued Vacation	<u>89,542</u>	<u>335,141</u>	<u>424,683</u>
Total Government-wide	<u>\$501,124</u>	<u>\$ 867,381</u>	<u>\$1,368,505</u>

The District has a number of Construction in Progress projects open as of June 30, 2015. The General Fund includes an Information Technology Network for \$585,466 that was placed into service July 1, 2015. The Utility Fund includes \$358,762 that is for a water main project that will be completed later in 2015, and \$1,267,970 for the design phase of the Effluent Export Line that will be ongoing through at least 2017. Community Services Fund includes \$235,649 for creek restoration that is grant funded and likely to be completed by mid-2016. The District's primary building season is limited to May to October because of regulations from the Tahoe Regional Planning Agency. Most equipment purchases follow the budget and fiscal year cycle.

Depreciation expenses for the year ended June 30, 2015 were charged to functions as follows:

Governmental Activities	
General Government	<u>\$ 81,005</u>
Business-Type Activities	
Utility Fund Water and Sewer	\$ 2,865,958
Community Services	2,342,332
Beach	<u>149,427</u>
Subtotal -- Enterprise Funds	5,357,717
Fleet, Engineering and Buildings	<u>10,638</u>
Total	<u>\$5,368,355</u>

In April 2015, the District acquired one parcel from Washoe County, which they held in trust following acquisition at a tax forfeiture sale. The parcel is located within the boundaries of the District. The parcel was acquired at no cost, for public purposes. The parcel already has a District utility easement recorded on it. The parcel is held by the Utility Fund.

5. ACCRUED PERSONNEL COSTS

The General Fund processes and pays all payroll and most related personnel and benefit costs for all funds of the District. At the time the expenses are incurred, each fund records its appropriate costs. As payments are made the individual funds record a due to the General Fund. This process provides the General Fund with the necessary available financial resources to meet these obligations. Generally no payroll or personnel accruals are recorded to the individual funds. Accruals for HRA, Sick Leave Retirement, Workers Compensation and Vacation can appear in individual funds, because they are recognized well in advance of the payment process. The General Fund also maintains any bank accounts specific for payment of benefits except for those accumulated for Workers Compensation, which has a separate Internal Service Fund.

As a regular course of operations the payroll from June 30 was paid July 3rd. The employee benefits earned through June 30 are also funded in the following month. At any given point the District has an obligation to its employees for the value of vacation time earned and not taken. The obligation is measured by the value due as if the employee terminated. The District allows retiring employees with in excess of 20 years of service, and that have accrued sick leave, to have it converted to Medical Retiree Benefit for reimbursing post employment health related costs. The District has no post employment benefit obligations for health insurance or retirement benefits.

The District offers health reimbursement accounts (HRA) in exchange for the insured accepting a higher deductible or co-insurance. The Plan is administered by the health insurance carrier. The District also has a third party administered flexible spending account (FSA). The District maintains bank accounts exclusively for reimbursements for HRA and FSA transactions.

The District's Workers Compensation claims are processed by a Third Party Administrator. Claims are paid through a District zero balance account. Checks issued are payables until presented to the bank for payment.

The District has a number of Construction in Progress projects open as of June 30, 2016. Community Services includes \$156,030 for the Diamond Peak Master Plan, and \$168,572 for the Incline Creek Culvert Rehabilitation. Beach includes \$107,790 for the Incline Beach Facility Study. The Utility Fund includes \$238,657 for the Equipment Storage Building, and \$1,868,073 for the design phase of the Effluent Export Line that will be ongoing through at least 2018. The District's primary building season is limited to May to October because of regulations from the Tahoe Regional Planning Agency. Most equipment purchases follow the budget and fiscal year cycle.

Depreciation expenses for the year ended June 30, 2016 were charged to functions as follows:

Governmental Activities:	
General Government	\$ 162,414
Recreation	2,424,322
Beach	195,930
Internal Services	<u>11,888</u>
Total Depreciation Expense	<u>\$ 2,794,554</u>

Business-Type Activities:	
Utility Fund Water and Sewer	<u>\$ 2,929,425</u>

The District holds a substantial number of land parcels for recreation and public purposes. Approximately 80 parcels were acquired at no cost through a Washoe County tax forfeiture transfer. These lands are not held for the purpose of income or profit, and therefore are not considered an investment.

5. ACCRUED PERSONNEL COSTS

The General Fund processes and issues payments for all payroll and most related personnel and benefit costs for all funds of the District. At the time the expenses are incurred, each fund records its appropriate costs. As payments are made, the individual funds provide their share through the pooled cash. This process provides the General Fund with the necessary available financial resources to meet the District wide obligations. Generally, no regular payroll or personnel accruals are recorded to the individual funds. Accruals for special payments, Health Reimbursement Accounts, Sick Leave at Retirement, Workers Compensation and Vacation can appear in individual funds, because they are recognized well in advance of the payment process. The General Fund also maintains any banks accounts specific for payment of benefits except for those accumulated for Workers Compensation claims under the Internal Service Fund.

As a regular course of operations the payroll from June 30 was paid July 8th. The employee benefits earned through June 30 are also funded in the following month. At any given point the District has an obligation to its employees for the value of vacation time earned and not taken. The obligation is measured by the value due as if the employee terminated. The District allows retiring employees with in excess of 20 years of service, and that have accrued sick leave, to have it converted to Medical Retiree Benefit for reimbursing post employment health related costs. The District has no other post-employment benefit obligations for health insurance or retirement benefits.

The District offers health reimbursement accounts (HRA) in exchange for the insured accepting a higher deductible or co-insurance. The Plan is administered by the health insurance carrier. The District also has a third party administered flexible spending account (FSA). The District maintains bank accounts exclusively for reimbursements for HRA and FSA transactions.

The District's Workers Compensation claims are processed by a Third Party Administrator. Claims are paid through a District zero balance account. Checks issued are payables until presented to the bank for payment.

The District has a number of Construction in Progress projects open as of June 30, 2017. Community Services includes \$215,911 for the Diamond Peak Master Plan, and \$373,971 for the Incline Creek Culvert Rehabilitation. Beach includes \$180,574 for the Incline Beach Facility Study. The Utility Fund includes \$474,228 for the Equipment Storage Building, \$2,122,682 for the design phase of the Effluent Export Line that will be ongoing through at least 2018, and \$839,532 for the 2017 Watermain Replacement that opened early. The District's primary building season is limited to May to October because of regulations from the Tahoe Regional Planning Agency. Most equipment purchases follow the budget and fiscal year cycle.

Depreciation expenses for the year ended June 30, 2017 were charged to functions as follows:

Governmental Activities:	
General Government	\$ 210,791
Recreation	2,547,499
Beach	214,003
Internal Services	<u>11,888</u>
Total Depreciation Expense	<u>\$ 2,984,181</u>
Business-Type Activities:	
Utility Fund Water and Sewer	<u>\$ 2,945,922</u>

The District holds a substantial number of land parcels for recreation and public purposes. Approximately 80 parcels were acquired at no cost through a Washoe County tax forfeiture transfer. These lands are not held for the purpose of income or profit, and therefore are not considered an investment.

5. ACCRUED PERSONNEL COSTS

The General Fund processes and issues payments for all payroll and most related personnel and benefit costs for all funds of the District. At the time the expenses are incurred, each fund records its appropriate costs. As payments are made, the individual funds provide their share through the pooled cash. This process provides the General Fund with the necessary available financial resources to meet the District wide obligations. Generally, no regular payroll or personnel accruals are recorded to the individual funds. Accruals for special payments, Health Reimbursement Accounts, Sick Leave at Retirement, Workers Compensation and Vacation can appear in individual funds, because they are recognized well in advance of the payment process. The General Fund also maintains any banks accounts specific for payment of benefits except for those accumulated for Workers Compensation claims under the Internal Service Fund.

As a regular course of operations, the payroll including June 30 was paid July 7. The employee benefits earned through June 30 are also funded in the following month. At any given point the District has an obligation to its employees for the value of vacation time earned and not taken. The obligation is measured by the value due as if the employee terminated. The District allows retiring employees with in excess of 20 years of service, and that have accrued sick leave, to have it converted to Medical Retiree Benefit for reimbursing post employment health related costs. There are 17 eligible employees covered. The District has no other post-employment benefit obligations for health insurance or retirement benefits.

The District offers health reimbursement accounts (HRA) in exchange for the insured accepting a higher deductible or co-insurance. The Plan is administered by the health insurance carrier. The District also has a third party administered flexible spending account (FSA). The District maintains bank accounts exclusively for reimbursements for HRA and FSA transactions.

The District's Workers Compensation claims are processed by a Third Party Administrator. Claims are paid through a District zero balance account. Checks issued are payables until presented to the bank for payment.

Re: Installation of Air Relief Valves on Effluent Pipeline

At the public meeting held on January 29, 2020, a presentation on the Effluent Pipeline was presented indicating that between 2012 and 2019 fiscal years \$5,146,100 had been charged to the Effluent Pipeline Phase II project.

Of special note was the \$643,400 indicated as spent on Installing Air Relief Valves on the Export Pipeline which was never budgeted nor ever part of the Effluent Pipeline Phase II project.

In August, I requested public records which would support the \$643,100 of charges. I received 8 pages of information today. I summarized the 8 pages onto Page 2 with amounts for broad categories in GREEN.

My preliminary review provides a few highlights.

- Charges covered a FIVE year period from fiscal year 2015/2016 to 2019/2020
- Information was provided on only \$567,408.61. The remainder of \$75,670.25 was listed as **unidentified**. In other words the charges were there but unknown what they were.
- Work orders for IVGID staff (assume to be Utility employees) was \$191,632.14 with an additional \$36,764.48 in charges from the Engineering department.
- There are several payments to a host of vendors from Home Depot, Ace Hardware, Western Nevada Supply, Spitsen Lumber, Porter's Auto Parts, among others. A very extensive list.
- There is \$24,300 for a vault, \$29,769 for repair of a USFS access road, \$8,745 paid to Far Western Anthropological Group, and \$7,934 paid to Susan Lindstrom (an Archeologist)

When charges from Ace Hardware and Home Depot get down to \$3.68 and \$5.76 then where is the efficiency?

It appears this assemblage of charges was a " catch all" for many expenses and probably other projects. There may be several charges for the Wetlands rehab. The costs of the Wetlands project, by the magic of accounting, came right in on the \$100,000 budget in fiscal 2018/2019.

Of grave concern is the capitalization of Utility Departments labor. Without any budget, labor costs have been moved from operations into capital projects. There is no Board policy which allows such action nor any indication in budgets that operating dollars would be transferred into an unbudgeted capital project and into another unrelated project budget. Bad stuff.

The gravest concern, of course, is the unaccounted \$75,670.25 (\$31,786.17 in 2018/2019 and \$43,904.08 in 2016/2017) which was reported as spent but no one seems to know what the money was actually spent on. Were journal entries created to dump more costs into the Pipeline project or what?

Over the past five years it has become quite apparent that the Utility Fund operations and capital projects have been severely mismanaged. I would recommend a full detailed audit for the past five years to determine what capital project costs should have been expensed to determine the extent of disguising losses in operating the Utility Water and Sewer Departments.

Effluent Pipeline

Re: Final AC Report to Board of Trustees dated March 9, 2022 - To be included as correspondence in the next AC meeting

Within the above referenced report, on page 19 on Appendix 1, the AC stated that \$182,023 charged to the Effluent Pipeline Project for the two year period from July 1, 2019 to June 30, 2021 should be reclassified as expenses from the Construction in Progress accounts.

On June 29, 2022, I received a listing of all charges to the Effluent Pipeline Project # 2524SS1010 for the two year period which is attached as EXHIBIT A

HISTORY

A brief history of actual events indicates that from July 1, 2019 to January 29, 2020 nothing much had been accomplished. A large presentation to the Board of Trustees was done on January 29, 2020 about major cost increases. Subsequently in March, 2020, Staff requested the Board to approve design contracts to replace 5,000 feet of the pipeline and to begin design on Pond #1. The Board rejected both requests and directed management to proceed with the projects under a CMAR contract. On May 6, 2020, a draft of RFQ requirements for CMAR services was completed and on February 1, 2021 a contract for \$369K was finally issued to Granite Construction to perform Pre Construction analysis. On May 3, 2021, Granite released their findings on the analysis.

In June, 2020, HDR was issued a contract to design critical repairs which was later cancelled on July 13, 2020. Also a contract was issued to Jacobs Engineering to develop alternatives for lining Pond #1 which was delivered in September, 2021.

A SUMMARY OF COSTS

369
16
530

- \$93,300 in IVGID staff engineering - The largest component was preparing the January 29, 2020 presentation to the Board.
- \$28,730 - paid to complete IVGID's share of the EIS for the Forest Service sponsored by the Tahoe Transportation District Prior cost of \$270K were charged off as a "prior period adjustment" in 2021
- \$23,643 - paid to NDOT for the final paving in SR 28 over repairs completed in 2017 and 2018
- \$3,797 - paid to HDR for final analysis of the conditions assessment conducted by PICA in 2018
- \$5,870 - paid to HDR to design critical repairs. This project was cancelled.
- \$9,618 - paid to Granite Construction for assessment
- \$14,905 - paid to Jacobs Engineering for the Pond which should be reclassified to the proper account
- \$2,163 - paid for a work order (assumed to be the installation of a big bully)

CONCLUSION

From the information above with the exception of the \$14,005 paid to Jacobs Engineering for the Pond project, all costs incurred in 2022 and 2021 should be EXPENSED as pre development costs. \$167,118,20. Also the costs associated with the pond should be expensed.

To: IVGID Audit Committee

Re: Effluent Pipeline - Phase II - Meters and Equipment

At the January 29, 2020 IVGID Board meeting, the Staff provided a presentation indicating the total costs of the Effluent Export Pipeline from fiscal year 2012 to 2019 was \$5,146,100 and included several components (Exhibit A). Meters and Equipment for \$86,500 were one of the components. A public records request response detailed a list of charges for \$77,686.80 (Exhibit B) That list of charges was \$8,813.20 short of what was claimed in the January presentation (Exhibit B).

As expected, the charges had little if anything to do with replacing the six miles of pipeline from Sand Harbor to the culvert at the Douglas County line along State Highway 28. The list of charges range from compressors, meters at the wetlands (12 miles away), surge tanks and replacements of pumps at pump stations. Of particular interest was a charge for Magnesium Hydroxide (a laxative).

basis

It appears any type of charge which was necessary to operate the entire 21 miles of the Export pipeline was charged to the specific project limited to only replacing the 6 miles of Pipeline as stated

The Board of Trustees approved annual budgets and rate studies which provided \$2,000,000 per year was to be set aside for the specific purpose of replacing 6 miles of pipeline and nothing else. The project summary for fiscal 2017 (Exhibit C) clearly indicates that specific purpose.

The Audit Committee should direct Staff or an outside auditor to submit a list of all charges (with appropriate backup) made to the Effluent Pipeline - Phase II project (CIP #2524SS1010) and what charges were actually operating expenses or charges for other capital projects of the Utility Fund.

Starts?

With this lack of internal controls also demonstrated from a review of the accumulated costs of Air Relief Valves and detailed in the November 6, 2020 memorandum to the Audit Committee an in depth audit is required.

It is my opinion that customers paying for water and sewer charges have been deceived on how their money was used not in accordance with the budgets or assessment of rates and could rise to a legal challenge for a "misappropriation of funds". Citizens must be told of this misappropriation.

Exhibit A - January 29, 2020 Export Pipeline Presentation of accumulated costs

Exhibit B - List of Charges for meters and equipment obtained by public records

Exhibit C - Project Summary for fiscal year 2017

Effluent Export Priority Projects CIP Project Expenditures

Vendor/Item/Description	Expenditure

Project Summary

Project Description	<p>As part of the original Effluent Export Pipeline Project, IVGID replaced approximately 17,300 LF in Segment 3. During planning and design of the first phase approximately 17,300 LF of pipe was identified for replacement. In August 2009, a pipe break within the unreplaced pipe was identified. A consulting engineer revealed areas of advanced corrosion on the damaged pipe. The replacement of the remaining pipeline should be planned and budgeted. The proposed project, Effluent Export Pipeline Project - Phase II, will replace approximately 17,300 LF of welded, cement mortar lined, high pressure steel pipe. The project will be completed over multiple years in a manner similar to the original project, with the pipeline to the center of the Southbound travel lane.</p>
Project Internal Staff	<p>The Engineering Department will manage all phases of this project.</p>
Project Justification	<p>The effluent export line transports treated wastewater from Incline Village to the Tahoe Basin. This line was constructed in the early 1970's as part of a regional effluent export project. Approximately 6 miles of line was replaced as part of the Tahoe Basin project. The current Project Cooperation Agreement with the US Army Corps of Engineers for 55% funding of all costs will be secured for this project. All grant funding has been removed for this project to be the utility rates.</p>

Memorandum

To: Audit Committee

From: Clifford F. Dobler

2022
2-14-2021

Re: Rebuttal to February 9, ²⁰²²~~2021~~ statements made by Paul Navazio, IVGID Director of Finance regarding accounting and reporting operating expenses in Capital Project Funds.

Within the January 26, 2022 Audit Committee Report to the Board of Trustees, members expressed concerns that reporting operating expenses in the capital project funds potentially violated GASB #54 definition of a Capital Project Fund and NRS 354.4995 definition of a Capital Project Fund. Definitions of both are on Exhibits A and B. ✓

In response to the Audit Committee Report, Mr. Paul Navazio claims in his February 9, 2022 memorandum to the Board of Trustees and the Audit Committee, (Exhibit C) that there was no violation of either GASB or NRS based on support by the independent auditor Davis Farr. Mr. Navazio claims that the Department of Taxation (DT) has rendered an "opinion" that the 2020/2021 Annual Comprehensive Finance Report contains no violations of applicable NRS statutes or regulations. This is incorrect. According to the January 13, 2022 letter from Kellie Grahmann, Budget Analyst of the DT (Exhibit D) there were NO violations of statute and/or regulations noted in the audit report from Davis Farr. The report from Davis Farr regarding compliance states that Davis Farr performed tests of compliance with certain provisions of laws, regulations, contracts and grant agreements which could have a direct and material effect on the financial statement amounts. The results of the tests disclosed no instances of noncompliance. However providing an opinion on compliance was not an objective of the audit and no opinion was expressed. (Exhibit E). The Audit Committee has not been provided any information on what was tested by Davis Farr. ✓

copy
Agree
Agree

According to the engagement letter between Davis Farr and IVGID, the responsibility for compliance with GASB and NRS lies not with the auditor but with management of IVGID. As such, Davis Farr has little or no liability for non compliance with GASB and NRS in reporting IVGID financial statements. As such "support" becomes

Under NRS 354.624 (Exhibit F) Each local government shall provide to its auditor:

(a) A statement indicating whether each of the following funds established by the local government is being used expressly for the purposes for which it was created, in the form required by NRS 354.6241:

- (1) An enterprise fund.
- (2) An internal service fund.
- (3) A fiduciary fund.
- (4) A self-insurance fund.

Cliff - too narrow of an interpretation.

- (5) A fund whose balance is required by law to be:
(l) Used only for a specific purpose

The specific purpose of the Capital Project Funds is clearly established by Resolution 1838 (Exhibit G).

Under NRS 354.6241 (Exhibit G), IVGID must provide the auditor a statement that the Capital Project Funds are being administered in accordance with generally accepted accounting procedures.

On October 26, 2021, audit committee members brought forward concerns about possible incorrect accounting for and reporting of operating expenses in the Capital Projects Funds for Community Services and Beaches and corrections could have been made prior to submitting the final financial statements.

Since the Board of Trustees approved the January 14, 2021 Moss Adams report there was adequate time to bring forth, for Board approval, an augmentation of the 2020/2021 budget to reflect a reallocation of Facility Fees from the Capital Project Funds to the Special Revenue Fund to provide funds for the expenses incurred.

According to the final 2020/2021 Annual Comprehensive Finance Report a total of \$705,397 in operating expenses were reported in the Community Services Capital Projects Fund and \$234,767 in operating expenses in the Beach Capital Project Fund. If these operating expenses had been properly classified in the respective Special Revenue Funds, the revenues in excess of expenditures in the Community Services Special Revenue Fund (operating) would have been reduced by 25%,. The excess of expenditures over revenues in the Beach Special Revenue Fund would have been increased from \$211,408 to \$446,175 and increase of 111%.

Any reader of the financial statements could be misled regarding the actual expenses of operating the recreational venues.

GASB #54

resources (investment earnings and transfers from other funds, for example) also may be reported in the fund if those resources are restricted, committed, or assigned to the specified purpose of the fund. Governments should discontinue reporting a special revenue fund, and instead report the fund's remaining resources in the general fund, if the government no longer expects that a substantial portion of the inflows will derive from restricted or committed revenue sources.

32. Governments should disclose in the notes to the financial statements the purpose for each major special revenue fund—identifying which revenues and other resources are reported in each of those funds.

Capital Projects Funds

33. Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Debt Service Funds

34. Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Exhibit B

NRS 354.4995 “Capital projects fund” defined. “Capital projects fund” means a fund created to account for resources used for the acquisition or construction of designated capital assets by a governmental unit except those financed by proprietary or trust funds.

(Added to NRS by 1983, 1636; A 1989, 402; 2001, 1798)

Moreover, management believes that the review of capital assets and subsequent write-offs to be consistent with Board Policy 9.1 and Board Practice 9.2. At the same time, given the identified need to clarify aspects of the capitalization policy, these have been largely addressed in the updated capitalization policy approved by the Board in January.

- 9) *Timing and accounting of expensing of CIP Budget items.* Management concurs with the audit comments related to the timing of expensing costs that do not meet capitalization criteria and internal processes have been updated to identify and expense these items when incurred rather than at the close-out of a project.

With respect to the Audit Committee's concern that expense items were recorded in the capital project funds, management's position – supported by the independent auditor – is that the recording of these costs within the capital project funds does not violate GAAP/GASB, nor does it violate provisions of the NRS. (The Department of Taxation has since rendered its opinion that the 2020/21 Annual Comprehensive Finance Report contains no violation of applicable NRS statutes or regulations).

Note – on a going forward basis, this issue is rendered moot by the transition from Governmental Funds to Enterprise Funds for the District's Community Services and Beach funds.

- 10) *Investment income.* The accounting for investment income has been modified beginning with the 2021/22 (current) fiscal year.
- 11) *Review of items capitalized in the FY2020/21 financial statements.* All FY2020/21 capital and construction-in-process items were reviewed by management and the auditor and concluded that capitalization was appropriate.
- 12) *Recording of Facility Fees in the Statement of Activities.* The Audit Committee report states that, in the Committee's opinion, the reporting of Facility Fees as general revenues is not in compliance with GAAP, and should be corrected. Management, along with current and past auditors, have determined that the Facility Fees represent non-exchange transactions and, as such, are appropriately recorded as general revenues in the District's financial statements. The Audit Committee engaged a specific discussion on this topic with Jennifer Farr, DavisFarr Managing Partner for this audit engagement.

Re: Annual Audit Report – Fiscal Year 2021

Dear Mr. Navazio:

Pursuant to NRS 354.6245, the Department of Taxation is charged with the review of all annual audits to determine their compliance with statutes and/or regulations. The Department must also identify all violations of statute and/or regulations reported therein.

The Department has completed its review of your audit report and NO violations of statute and/or regulations were noted. The auditor met the statutory provisions required by NRS 354.624 and NRS 354.6241.

If you should have any questions, please do not hesitate to contact me at 775-684-2065 or my e-mail at kgrahmann@tax.state.nv.us.

Sincerely,

Kellie Grahmann
Budget Analyst

Davis Farr - Section of Report

Compliance and Other Matters

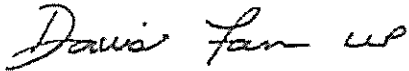

As part of obtaining reasonable assurance about whether Incline Village General Improvement District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

District's Response to Recommendations

The District's written response to the significant deficiencies and material weaknesses identified in our audit has not been subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Exhibit F

NRS 354.624 Annual audit: Requirements; designation of auditor; scope and disposition; dissemination; prohibited provision in contract with auditor.

1. Each local government shall provide for an annual audit of all of its financial statements. A local government may provide for more frequent audits as it deems necessary. Except as otherwise provided in subsection 2, each annual audit must be concluded and the report of the audit submitted to the governing body as provided in subsection 6 not later than 5 months after the close of the fiscal year for which the audit is conducted. An extension of this time may be granted by the Department of Taxation to any local government that submits an application for an extension to the Department. If the local government fails to provide for an audit in accordance with the provisions of this section, the Department of Taxation shall cause the audit to be made at the expense of the local government. All audits must be conducted by a certified public accountant or by a partnership or professional corporation that is registered pursuant to chapter 628 of NRS.

2. The annual audit of a school district must:

(a) Be concluded and the report submitted to the board of trustees as provided in subsection 6 not later than 4 months after the close of the fiscal year for which the audit is conducted.

(b) If the school district has more than 150,000 pupils enrolled, include an audit of the expenditure by the school district of public money used:

(1) To design, construct or purchase new buildings for schools or related facilities;

(2) To enlarge, remodel or renovate existing buildings for schools or related facilities; and

(3) To acquire sites for building schools or related facilities, or other real property for purposes related to schools.

3. The governing body may, without requiring competitive bids, designate the auditor or firm annually. The auditor or firm must be designated, and notification of the auditor or firm designated must be sent to the Department of Taxation not later than 3 months before the close of the fiscal year for which the audit is to be made.

4. Each annual audit must cover the business of the local government during the full fiscal year. It must be a financial audit conducted in accordance with generally accepted auditing standards in the United States, including findings on compliance with statutes and regulations and an expression of opinion on the financial statements. The Department of Taxation shall prescribe the form of the financial statements, and the chart of accounts must be as nearly as possible the same as the chart that is used in the preparation and publication of the annual budget. The report of the audit must include:

(a) A schedule of all fees imposed by the local government which were subject to the provisions of NRS 354.5989;

(b) A comparison of the operations of the local government with the approved budget, including a statement from the auditor that indicates whether the governing body has taken action on the audit report for the prior year;

(c) If the local government is subject to the provisions of NRS 244.186, a report showing that the local government is in compliance with the provisions of paragraphs (a) and (b) of subsection 1 of NRS 244.186; and

(d) If the local government is subject to the provisions of NRS 710.140 or 710.145, a report showing that the local government is in compliance with the provisions of those sections with regard to the facilities and property it maintains and the services it provides outside its territorial boundaries.

5. Each local government shall provide to its auditor:

(a) A statement indicating whether each of the following funds established by the local government is being used expressly for the purposes for which it was created, in the form required by NRS 354.6241:

(1) An enterprise fund.

(2) An internal service fund.

(3) A fiduciary fund.

(4) A self-insurance fund.

(5) A fund whose balance is required by law to be:

(I) Used only for a specific purpose other than the payment of compensation to a bargaining unit, as defined in NRS 288.134; or

(II) Carried forward to the succeeding fiscal year in any designated amount.

(b) A list and description of any property conveyed to a nonprofit organization pursuant to NRS 244.287 or 268.058.

(c) If the local government is subject to the provisions of NRS 244.186, a declaration indicating that the local government is in compliance with the provisions of paragraph (c) of subsection 1 of NRS 244.186.

(d) If the local government is subject to the provisions of NRS 710.140 or 710.145, a declaration indicating that the local government is in compliance with the provisions of those sections with regard to the facilities and property it maintains and the services it provides outside its territorial boundaries.

6. The opinion and findings of the auditor contained in the report of the audit must be presented at a meeting of the governing body held not more than 30 days after the report is submitted to it. Immediately thereafter, the entire report, together with the management letter required by generally accepted auditing standards in the United States or by regulations adopted pursuant to NRS 354.594, must be filed as a public record with:

- (a) The clerk or secretary of the governing body;
- (b) The county clerk;
- (c) The Department of Taxation; and
- (d) In the case of a school district, the Department of Education.

7. After the report of the audit is filed by the local government, the report of the audit, including, without limitation, the opinion and findings of the auditor contained in the report of the audit, may be disseminated by or on behalf of the local government for which the report was prepared by inclusion, without limitation, in or on:

- (a) An official statement or other document prepared in connection with the offering of bonds or other securities;
- (b) A filing made pursuant to the laws or regulations of this State;
- (c) A filing made pursuant to a rule or regulation of the Securities and Exchange Commission of the United States; or
- (d) A website maintained by a local government on the Internet or its successor,

↪ without the consent of the auditor who prepared the report of the audit. A provision of a contract entered into between an auditor and a local government that is contrary to the provisions of this subsection is against the public policy of this State and is void and unenforceable.

8. If an auditor finds evidence of fraud or dishonesty in the financial statements of a local government, the auditor shall report such evidence to the appropriate level of management in the local government.

9. The governing body shall act upon the recommendations of the report of the audit within 3 months after receipt of the report, unless prompter action is required concerning violations of law or regulation, by setting forth in its minutes its intention to adopt the recommendations, to adopt them with modifications or to reject them for reasons shown in the minutes.

(Added to NRS by 1965, 735; A 1967, 939; 1969, 800; 1971, 1344; 1973, 184; 1975, 451, 1688, 1801; 1977, 547; 1981, 313, 1768; 1987, 1043; 1989, 620; 1995, 1896, 1935; 1997, 574, 1611, 1739; 1999, 472, 2945; 2001, 1810; 2003, 1231; 2005, 292, 1344)

Exhibit G

NRS 354.6241 Contents of statement provided by local government to auditor; expenditure of excess reserves in certain funds; restrictions on use of budgeted ending fund balance in certain circumstances. [Effective through June 30, 2021.]

1. The statement required by paragraph (a) of subsection 5 of NRS 354.624 must indicate for each fund set forth in that paragraph:

- (a) Whether the fund is being used in accordance with the provisions of this chapter.
- (b) Whether the fund is being administered in accordance with generally accepted accounting procedures.
- (c) Whether the reserve in the fund is limited to an amount that is reasonable and necessary to carry out the purposes of the fund.
- (d) The sources of revenues available for the fund during the fiscal year, including transfers from any other funds.
- (e) The statutory and regulatory requirements applicable to the fund.
- (f) The balance and retained earnings of the fund.

2. Except as otherwise provided in subsection 3 and NRS 354.59891 and 354.613, to the extent that the reserve in any fund set forth in paragraph (a) of subsection 5 of NRS 354.624 exceeds the amount that is reasonable and necessary to carry out the purposes for which the fund was created, the reserve may be expended by the local government pursuant to the provisions of chapter 288 of NRS.

3. For any local government other than a school district, for the purposes of chapter 288 of NRS, a budgeted ending fund balance of not more than 16.67 percent of the total budgeted expenditures, less capital outlay, for a general fund:

- (a) Is not subject to negotiations with an employee organization; and
- (b) Must not be considered by a fact finder or arbitrator in determining the financial ability of the local government to pay compensation or monetary benefits.

(Added to NRS by 1995, 1934; A 2001, 387, 1812; 2011, 1690; 2015, 2967; 2019, 3608)

RESOLUTION NO. 1838

A RESOLUTION TO CREATE GOVERNMENTAL FUND TYPE; SPECIAL REVENUE, CAPITAL PROJECTS AND DEBTS SERVICE FUNDS FOR THE INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT FOR COMMUNITY SERVICES AND BEACH FUNDS AS REQUIRED BY NEVADA ADMINISTRATIVE CODE 354.241, EFFECTIVE AS OF JULY 1, 2015

RESOLVED, by the Board of Trustees of the Incline Village General Improvement District, Washoe County, Nevada, that

WHEREAS, pursuant to Nevada Administrative Code (NAC) Section 354.241, a local government is required to adopt a Resolution to create a fund types covered by Nevada Revised Statute 354.624 5 (a); and

WHEREAS, the District Community Services and Beach Funds provides services as defined under Nevada Revised Statute (NRS) 318, which in effect requires the use of those Fund's fund balance for a specific purpose; and

WHEREAS, on December 10, 2014, the Board of Trustees directed staff to apply for approval of the District's 2015-16 budget by the Nevada Department of Taxation utilizing Special Revenue, Capital Projects and Debt Service Fund accounting for Community Services and the Beach Funds; and

WHEREAS, the District expects to receive notice that its budget is found to be in compliance with NRS 354.598 by the Nevada Department of Taxation.

NOW, THEREFORE, IT IS ORDERED, as follows:

1. Effective July 1, 2015 the Incline Village General Improvement District, Nevada shall establish the governmental fund type Special Revenue, Capital Projects and Debt Service Funds for use by its Community Services and Beach Funds.
2. The table on the last page of this Resolution contains the required elements 1-4 and 6-7 under NAC 354.241, element 5 is met by the existing fund balance of the affected funds.

RESOLUTION NO. 1838

A RESOLUTION TO CREATE GOVERNMENTAL FUND TYPE; SPECIAL REVENUE, CAPITAL PROJECTS AND DEBTS SERVICE FUNDS FOR THE INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT FOR COMMUNITY SERVICES AND BEACH FUNDS AS REQUIRED BY NEVADA ADMINISTRATIVE CODE 354.241, EFFECTIVE AS OF JULY 1, 2015

* * * * *

I hereby certify that the foregoing is a full, true and correct copy of a resolution duly passed and adopted at a regularly held meeting of the Board of Trustees of the Incline Village General Improvement District on the 21st day of May, 2015, by the following vote:

AYES, and in favor thereof, Trustees:
NOES, Trustees:
ABSENT; Trustees:

Jim Hammerel
Secretary, IVGID Board of Trustees

RESOLUTION NO. 1838

A RESOLUTION TO CREATE GOVERNMENTAL FUND TYPE; SPECIAL REVENUE, CAPITAL PROJECTS AND DEBTS SERVICE FUNDS FOR THE INCLINE VILLAGE GENERAL IMPROVEMENT DISTRICT FOR COMMUNITY SERVICES AND BEACH FUNDS AS REQUIRED BY NEVADA ADMINISTRATIVE CODE 354.241, EFFECTIVE AS OF JULY 1, 2015

Fund Name	Purpose	Source of Revenues	Short-term Expenditures	Long-term Expenditures	Plan for Fund Balance	Adequacy of Fund Balance
Community Services – Special Revenue	Recreational activities conducted by the District under NRS 318, other than Beach locations	User fees, stand by charges, rents, grant, investment earnings and other income	Operating expenditures to provide recreational activities	Transfers out to capital purchases and debt service to support recreational activities	Meet the minimum necessary to maintain District recreational activities	Consider the District's Board Policy on Appropriate Level of Fund Balance
Community Services – Capital Expenditure	Capital expenditures related to recreational activities conducted by the District under NRS 318, other than Beach locations	Sales of coverage and capital assets and transfers from the Community Services Special Revenue Fund	Operating expenditures related to Community Services capital expenditures Classic Gannaso	Capital purchases to support Community Services recreational activities	Meet the minimum necessary to execute Community Services capital purchases	Consider the District's Board Policy on Appropriate Level of Fund Balance
Community Services – Debt Service	Debt service expenditures related to recreational activities conducted by the District under NRS 318, other than Beach locations	Transfer from the Community Services Special Revenue Fund	Operating expenditures related to Community Services debt service expenditures	Debt service expenditures to support Community Services recreational activities	Meet the minimum necessary to execute Community Services debt service expenditures	Consider the District's Board Policy on Appropriate Level of Fund Balance
Beach – Special Revenue	Recreational activities conducted by the District under NRS 318 for Beach locations	User fees, stand by charges, rents, grant, investment earnings and other income	Operating expenditures to provide Beach recreational activities	Transfers out to capital purchases and debt service to support Beach recreational activities	Meet the minimum necessary to maintain District Beach recreational activities	Consider the District's Board Policy on Appropriate Level of Fund Balance
Beach – Capital Expenditure	Capital expenditures related to recreational activities conducted by the District under NRS 318 for Beach locations	Sales of coverage and capital assets and transfers from the Beach Special Revenue Fund	Operating expenditures related to Beach capital expenditures Classic Gannaso	Capital purchases to support Beach recreational activities	Meet the minimum necessary to execute Beach capital purchases	Consider the District's Board Policy on Appropriate Level of Fund Balance
Beach – Debt Service	Debt service expenditures related to recreational activities conducted by the District under NRS 318 for Beach locations	Transfer from the Beach Special Revenue Fund	Operating expenditures related to Beach debt service expenditures	Debt service expenditures to support Beach recreational activities	Meet the minimum necessary to execute Beach debt service expenditures	Consider the District's Board Policy on Appropriate Level of Fund Balance

Project Summary

Project Number:	2524SS1010	
Title:	Effluent Export Line - Phase II	
Asset Class:		
Division:	24 - Transmission	
Budget Year:	2017	
Scenario Name:		Active: Yes
Budget Status:	Data Entry	
Locations:		
Project Something:	SS - Sewer System	

Project Description
<p>As part of the original Effluent Export Pipeline Project, IVGID replaced approximately 6-miles of 16-inch Export Pipeline. These included approximately 18,000 linear feet (LF) in Segment 1 and 11,000 LF in Segment 3. During planning and design of the first phase approximately 13,700 LF of Segment 3 and all 17,300 LF of Segment 2 were identified to be in good condition and were not identified for replacement. In August 2009, a pipe break within the unreplaced portion of Segment 3 washed out State Route 28. Investigation of the leak by IVGID staff and an IVGID-hired corrosion consulting engineer revealed areas of advanced corrosion on the damaged pipeline section, indicating that unreplaced portions of the export line may be nearing the end of their service and replacement of the remaining pipeline should be planned and budgeted.</p> <p>The proposed project, Effluent Export Pipeline Project - Phase II, will replace these two remaining sections within the Tahoe Basin (a total length of approximately 6 miles). Segment 2 is comprised of approximately 17,300 LF of welded, cement mortar lined, high pressure steel pipe. The remaining 13,700 LF of Segment 3 is comprised of bell and spigot, cement mortar lined, low pressure steel pipe. The project will be completed over multiple years in a manner similar to the original Effluent Export Pipeline Project. Like Phase I, the Export line will be replaced using open-cut construction, moving the pipeline to the center of the Southbound travel lane.</p>
Project Internal Staff
The Engineering Department will manage all phases of this project.
Project Justification
<p>The effluent export line transports treated wastewater from Incline Village General Improvement District's (IVGID) wastewater treatment plant to the disposal point at the wetlands southeast of Carson City. This line was constructed in the early 1970's as part of a regional effort to eliminate all wastewater effluent discharges in the Lake Tahoe basin. The effluent export line has been in continuous service since that time. Approximately 6 miles of line was replaced as part of the Effluent Export Pipeline Project - Phase I. Phase II will pursue the replacement of the remaining 6 miles of pipe within the Tahoe Basin.</p> <p>The current Project Cooperation Agreement with the US Army Corps of Engineers will expire with the completion of the Phase I work. IVGID will look to enter into an expanded Project Cooperation Agreement with the US Army Corps of Engineers for 55% funding of all construction costs. The current political climate and financial issues in Washington D.C. make it unlikely that any future funding will be secured for this project. All grant funding has been removed for this project. IVGID will also place the project on the list for the Nevada State Revolving Loan Fund. Funding for this project will be the utility rates.</p>
